EXAMPLES IN ALGEBRA. By **C. O. TUCKEY, B.A.,** Assistant Master at Charterhouse, late Scholar of Trinity College, Cambridge.

These Examples are intended to provide a complete Course of Elementary Algebra for classes in which the bookwork is supplied by the teacher. In the choice of the subjects included, and in their arrangement, the recommendations of the Committee on the Teaching of Mathematics appointed by the Mathematical Association have been followed throughout.

"This is a very good collection, and may be recommended without reservation."—*Nature.*

"The selection of examples and the order of the chapters undoubtedly place the book far in advance of any at present existing."—*Guardian.*

SCIENCE AND MATHEMATICS.

ELECTRICAL ENGINEERING MEASURING INSTRUMENTS. For Commercial and Laboratory Purposes. By G. D. ASPINALL PARR, M.Inst. E. E., A.M.I.Mech. E., Yorkshire College, Victoria University. With 370 Illustrations. 323 pages. Demy 8vo, cloth, 9s. net.

This volume for the first time gives an adequate treatment of the important subject of Electrical Measuring Instruments. Every instrument in actual use in this country is clearly described, and a full description is also given of many of the types on the Continent.

ELEMENTARY OPHTHALMIC OPTICS. By FREELAND FERGUS, M.D., F.R.S.E., Surgeon to the Glasgow Eye Infirmary, Examiner in Physics to the Faculty of Physicians and Surgeons of Glasgow. Illustrated. Crown 8vo, cloth, 3s. 6d. net.

This book sets forth, in a clear and simple manner, those portions of Physical and Geometrical Optics essential to the medical student beginning his ophthalmic studies, and as the endeavour of the author has been to give in one volume all the information necessary for the beginner, there is also included those parts of plane trigonometry which he requires.

DESCHANDEL'S NATURAL PHILOSOPHY. Translated and Edited by Prof. J. D. EVERETT, D.C.L., F.R.S. *Sixteenth Edition.* Cloth, 18s.; in parts, 4s. 6d. each.

Part I.—Mechanics, Hydrostatics, &c.
Part II.—Heat. Part III.—Electricity and Magnetism. Part IV.—Sound and Light.

HEAT. (Being the *Sixteenth Edition* of Part II. of Everett's Deschanel. Edited by Professor EVERETT. Medium 8vo, cloth, 4s. 6d.

ELECTRICITY: An Expansion of Everett's Deschanel, Part III. on the Lines of Modern Electrical Theory. By Professor Everett, Medium 8vo, cloth. 4s. 6d.

ARITHMETIC OF PHYSICS. By H. M. TIMPANY. 1s. 6d.

ARITHMETIC OF MAGNETISM AND ELECTRICITY. By ROBERT GUNN. 2s. 6d.

HYDROSTATICS AND PNEUMATICS. By R. H. PINKERTON, B.A. 4s. 6d.

ELEMENTARY TEXT-BOOK OF DYNAMICS AND HYDROSTATICS. By R. H. PINKERTON, B.A. 3s. 6d.

FUEL & REFRACTORY MATERIALS. By Professor A. HEMHOLDT SEXTON. 5s.

A TEXT-BOOK OF HEAT. By CHARLES H. DRAPER, B.A., D.Sc. Lond. 4s. 6d.

A TEXT-BOOK OF GEOLOGY. Introduction to the study of Rocks and their Contents. By W. J. HARRISON, F.G.S. 3s. 6d.

A TEXT-BOOK OF ORGANIC CHEMISTRY. By A. BERNTHSEN, Ph.D., Translated by G. M'GOWAN, Ph.D. New Edition. 7s. 6d.

AN INTRODUCTION TO ANALYTICAL CHEMISTRY. By Prof. G. G. HENDERSON, D.Sc., and M. A. PARKER, B.Sc. 5s.

AN ELEMENTARY TEXT-BOOK OF ANATOMY. By HENRY EDWARD CLARK. Illustrated. 5s.

AN ELEMENTARY TEXT-BOOK OF PHYSIOLOGY. By J. M'GREGOR-ROBERTSON, M.A., M.B. 4s.

THE STUDENTS INTRODUCTORY TEXT-BOOK OF SYSTEMATIC BOTANY. By J. W. OLIVER 4s. 6d.

A NEW GEOMETRY FOR BEGINNERS. *Theoretical and Practical.* By RAWDON ROBERTS. Crown 8vo, cloth. 1s. 6d.

A highly practical text-book of Geometry on modern lines, providing the same mental training as that afforded by a study of Euclid's Elements. With Exercises, Test Papers, Hints, &c., and a Section on Curve Tracing.

EUCLID'S ELEMENTS OF GEOMETRY. Edited by A. E. LAYNG, M.A. With Notes. Examples, Exercises, Appendix, and Examination Papers. Books I. to VI., and XI. Crown 8vo, cloth, 3s. 6d. Also in Parts. Key to Book I., 2s. 6d.; to complete Euclid, 5s.

A NEW SEQUEL TO EUCLID. By Prof. W. J. DILWORTH, M.A. 2s. 6d.

ELEMENTARY GRAPHS. By R. B. MORGAN. Crown 8vo, cloth, 2s.

ELEMENTARY TEXT-BOOK OF TRIGONOMETRY. By R. H. PINKERTON, B.A. New Edition, enlarged. 2s.

ALGEBRA. Up to and including Progressions and Scales of Notation. By J. G. KERR, M.A., LL.D. Fcap 8vo, cloth, 2s. With ANSWERS, 2s. 6d.

ALGEBRAIC FACTORS: How to Find Them and How to Use Them. By Dr W. T. KNIGHT. 2s. Key, 3s. 6d.

AN INTRODUCTION TO THE DIFFERENTIAL AND INTEGRAL CALCULUS. With examples of applications to Mechanical Problems. By W. J. MILLAR, C.E. Fcap. 8vo, cloth, 1s. 6d.

EASY MATHEMATICAL PROBLEM PAPERS. By CHARLES DAVISON, Sc.D. Containing numerous problems in Algebra Euclid and Trigonometry. With or without Answers and Hints for Solution. Cloth, 2s. 6d.

MATHEMATICAL FACTS AND FORMULÆ. By A. E. LYSTER, M.A. Crown 8vo, cloth boards, 1s.

T. P.'s Weekly,

January 16,
1903:

"The work above all others which I would recommend the book-collector to get is the new re-written edition of 'Chambers's Cyclopædia of English Literature.' . . . I do not hesitate to say that to the English book-lover this is just about the most interesting book ever produced."

W. & R. CHAMBERS, Limited, Edinburgh and London.

NEW MAP OF SCOTLAND. IN SIXTEEN SHEETS.

THE NEW VOLUME BY THE AUTHOR OF "STORIES FROM THE
FAERIE QUEENE."

**THE BOOK OF KING ARTHUR AND HIS NOBLE
KNIGHTS:**

Stories from Sir Thomas Malory's "Morte d'Arthur."

By MARY MACLEOD. Introduction by Professor J. W. HALES. With
Illustrations from Drawings by A. G. WALKER, Sculptor. Large crown
8vo, fancy cloth boards, gilt top, 6s., printed on superfine paper.

"Miss Macleod possesses a certain gift of telling old stories in a new way, and her
selection of stories from Sir Thomas Malory's famous old book, is really an admirable piece
of work."—*Athenæum*.

SECOND EDITION NOW READY.

STORIES FROM THE FAERIE QUEENE.

By MARY MACLEOD. Introduction by Professor HALES. Numerous Illus-
trations by A. G. WALKER, Sculptor. Large crown 8vo, cloth boards,
gilt top, 6s.

"Miss Mary Macleod has performed a dangerous and difficult task with taste and dis-
cretion. It can have been no light labour to set forth in simple, equable prose, the linked
sweetness, long drawn out, of Spenser's 'Faerie Queene,' and the latter-day child may well
feel much the same gratitude to her as those of another generation must have felt towards
Charles and Mary Lamb, Nathaniel Hawthorne, and Kingsley."—*Pall Mall Gazette*.

STORIES FROM FROISSART.

By HENRY NEWBOLT. With Illustrations by GORDON BROWNE. Large
crown 8vo, cloth boards, gilt top, 6s.

"A book that the average boy will want to read again and again."—*Literary World*.

SINTRAM AND HIS COMPANIONS AND UNDINE.

By DE LA MOTTE FOUQUE. With an Introduction by the late CHARLOTTE
M. YONGE. Drawings by GORDON BROWNE, R.I. Printed on superfine
paper, and appropriately bound in cloth boards, 6s.

"Nothing could be more attractive than the form in which this excellent edition is sent
forth."—*Record*.

TWENTIETH EDITION.

This revised edition contains an Appendix on the Articles, and considerably enlarged Notes
on the Occasional Offices and the Ordinal.

THE PRAYER-BOOK: Its History, Language & Contents.

By the Rev. Canon EVAN DANIEL, M.A. Extra large crown 8vo, 700
pages, cloth boards, 6s.

"So large, wide, and speedy a circulation is proof of the high merit of this treatise."—*Guardian*.

Constitution of the University.

—o—

THE University of Edinburgh was originally the "College of Edinburgh" or "The Town's College," founded in 1583 by the Town Council of Edinburgh, under general powers granted by the Charter of King James VI., dated 14th April 1582. No Charter of foundation is extant; but from the first the College possessed the privilege of conferring degrees. This privilege was ratified by the "Act of Confirmation," passed in 1621, which secured to the "College of James VI." (as it had come to be called) all the rights, immunities, and privileges enjoyed by the Universities of Scotland. This ratification was renewed in the Treaty of Union between England and Scotland, and in the Act of Security. Gradually, in Acts of General Assembly, of Town Council, and of Parliament, the "College of James VI." came to be styled "The University of Edinburgh"; but it remained under the control and patronage of the Town Council down to 1858, when, by the Universities Act, all the Universities of Scotland received new and autonomous constitutions.

The University is a Corporation consisting of the Chancellor, Rector, Principal, Professors, Registered Graduates and Alumni, and Matriculated Students; and from 1858 to 1890 its government was vested in the *Senatus Academicus* (consisting of the Principal and the Professors), subject to the review and control of the University Court.

By the Universities (Scotland) Act 1889, the University Court was constituted a body corporate, to which the whole property belonging to the University at the passing of the Act was transferred, with full power of administration.

The *Senatus*, as heretofore, regulates the teaching and discipline of the University, subject to the provisions of the Universities Acts of 1858 and 1889.

CHANCELLOR.

The Chancellor is elected by the General Council for life. Changes in the ordinances and in University arrangements, proposed or approved by the University Court, must receive his sanction. Degrees are conferred by him, or by the Vice-Chancellor.

The Chancellor is President of the General Council, and nominates an Assessor in the University Court. Appointments:—

Right Hon. Lord Brougham, 1859.

Right Hon. John Inglis, D.C.L., LL.D., 1868.

Right Hon. ARTHUR J. BALFOUR, M.P., D.C.L., LL.D., &c., 1891.

VICE-CHANCELLOR.

The Vice-Chancellor, nominated by the Chancellor, may, in absence of the Chancellor, confer Degrees, but cannot discharge any other of the Chancellor's duties. In the Vice-Chancellor's absence Degrees are conferred by the Principal, or by the senior member of Senatus.

The Vice-Chancellor acts as Returning Officer at Parliamentary Elections. If there be no Vice-Chancellor at the time, the University Court appoints one to act as Returning Officer. Appointments:—

Sir D. Brewster, appointed 1860.

Sir Alexander Grant, Bart.,
1868.

Sir William Muir, 1885.

Sir WILLIAM TURNER, K.C.B.,
1903.

RECTOR.

The Rector is elected by the Matriculated Students in the University on such day in October or November as may be fixed by the University Court after consultation with the Senatus, but not later than the second Saturday in November. The term of office is three years. The next election will take place in November 1905. The Rector is President of, and nominates an Assessor in, the University Court. He may, before he appoints his Assessor, confer with the Students' Representative Council. No Principal or Professor of any Scottish University is eligible. Appointments:—

Rt. Hon. W. E. Gladstone, 1859.
Thomas Carlyle, 1865.

Rt. Hon. Lord Moncreiff, 1868.

Sir W. Stirling Maxwell, Bt.,
1871.

Rt. Hon. Earl of Derby, 1874.

Most Hon. the Marquess of Hartington, 1877.

Rt. Hon. Earl of Rosebery, 1880.

Rt. Hon. Earl of Idlesleigh, 1883.

Most Hon. the Marquess of Lothian,
1887.

Rt. Hon. George J. Goschen, 1890.

Rt. Hon. J. P. B. Robertson, 1893.

Rt. Hon. Lord Balfour of Burleigh,
1896.

Most Hon. the Marquess of Dufferin and Ava, 1899.

Rt. Hon. Sir ROBERT BANNA-
TYNE FINLAY, 1902.

REPRESENTATIVE IN PARLIAMENT.

Under Clauses 27 to 41 of the "Representation of the People (Scotland) Act," 31 & 32 Vict., cap. 48, the General Councils of the Universities of Edinburgh and St Andrews elect a Member of Parliament for these Universities.

When a poll is demanded, the votes are given by voting papers issued by the Registrar.

The appointments have been—

Sir Lyon, afterwards Lord, Playfair, K.C.B., LL.D., 1868.

Rt. Hon. J. H. A. Macdonald, C.B., Q.C., LL.D., 1885, 1886.

M. T. Stormonth Darling, Q.C., LL.D., 1888.

Rt. Hon. Sir Charles J. Pearson, Q.C., LL.D., 1890, 1892.

Sir William Overend Priestley, K.B., M.D., LL.D., 1896.

Sir JOHN BATTY TUKE, M.D., LL.D., 1900.

The Parliamentary constituency for 1902 is as follows :—

Edinburgh.....	9,244
St Andrews.....	1,461

UNIVERSITY COURT.

Under the Universities Act 1858, the Court has power :—

1. To review all decisions of the Senatus, and to be a Court of Appeal from the Senatus, except as otherwise provided in the Universities Act.
2. To effect improvements in the internal arrangements of the University, after due communication with the Senatus, and with the sanction of the Chancellor; provided all such proposed improvements be submitted to the General Council for consideration.
3. To require due attention on the part of the Professors to the Regulations as to the mode of teaching and other duties imposed on the Professors.
4. To fix and regulate, from time to time, the Fees in the several Classes.
5. Upon sufficient cause shewn, and after due investigation, to censure any member of the Senatus, or to suspend him from office, and from the emoluments thereof, whole or in part, for any period not exceeding one year, or to require him to retire on a retiring allowance, or to deprive him of office; and during the suspension of any Professor, to make provision for the teaching of his class: provided no such sentence of censure, suspension, deprivation, etc., shall have effect until approved by His Majesty in Council.

By Sec. xix. any of the Rules and Ordinances enacted by the Universities Commissioners under the Act, may be altered or revoked by the University Court of the University to which they are applicable, but only with the written consent of the Chancellor, and with the approval of His Majesty in Council.

By the Universities (Scotland) Act 1889, the University Court is a body corporate with perpetual succession and a common seal ; and all the property belonging to the University at the passing of the Act is now vested in that body.

By the same Act, the University Court, besides the powers conferred upon it by the Act of 1858, has power—

- (1.) To administer and manage the whole revenue and property of the University, including funds mortgaged for bursaries and other purposes, and have all the powers necessary for the purpose.
- (2.) To review any decision of the Senatus appealed against by a member of Senatus, or other member of the University having an interest, and to take into consideration all representations and reports made to it by the Senatus and by the General Council.
- (3.) To review, on representation made by any of its members, or by any member of Senatus, any decision which the Senatus may come to under section seven, sub-section one, but the University Court shall not review any decision of the Senatus in a matter of discipline, except upon appeal taken either by a member of Senatus or by a member of the University directly affected.
- (4.) To appoint professors whose chairs are in the patronage of the University ; to appoint examiners and lecturers ; and to grant recognition to the teaching of any college or individual teacher for the purposes of graduation.
- (5.) To define, on application by any member of Senatus, the nature and limits of a professor's duties under his commission.
- (6.) To take proceedings against a principal or professor, University lecturer, assistant, recognised teacher or examiner, or other person employed in teaching or examining, without the necessity of any one not a member of the Court appearing as prosecutor, and in such proceedings to call any member of the University to give evidence, and to require the production of documents, and to institute any inquiries it may deem necessary.
- (7.) To appoint from among members of the University or others, not being members of the Senatus, one third of the members of any committee charged, by ordinance of the Commissioners, with the superintendence of any libraries or museums belonging to the University ; and on representation made by any of its members, or by any member of Senatus, to review any decision which the Senatus, in the exercise of its powers, may come to in respect of the recommendations of such committee.
- (8.) To appoint committees of its own number, of not less than five members, with powers to report on any business entrusted to them by the University Court, or to carry out special instructions ordered by the Court.
- (9.) To elect the representative of the University on the General Medical Council, under the Medical Act 1886.
- (10.) After the expiration of the powers of the Commission to found new professorships, with the approval of the Universities Committee.

The University Court, by Section 21, has power to make new ordinances, with the approval of His Majesty in Council :

- (1.) With respect to the appropriation of the sum allotted to the University by the Commissioners out of the annual grant.
- (2.) Altering or revoking ordinances framed under the Universities Act 1858, or this Act ; and making new ordinances : provided that such ordinances, before being submitted to His Majesty for approval, have been communicated by the University Court to the Senatus, to the General Council, and to the University Courts of the other Universities.

The Court shall meet for the despatch of ordinary business on the Monday occurring in the seven days beginning on the 12th and ending with the 18th of each month, excepting the months of August and September, in which months the Court shall not meet, and also excepting the month of October, in which month the Court shall meet on the Monday occurring in the seven days beginning on the 18th and ending with the 24th of that month. Other meetings may be called as the Court may direct. Any meeting may be postponed. Special Meetings may be called by order of the Rector or the Principal, or by the Secretary on a requisition specifying the object, signed by at least three members of the Court.

It shall also meet, if necessary, to hear Registration Appeals on the first Monday following the 19th January.

The University Court holds the patronage of the Chair of Music ; of the new Chair of History ; of the Chair of Public Health ; of the Chair of Ancient History and Palæography ; of the Chair of Fine Art, in conjunction with the President of the Royal Scottish Academy ; and a share in the patronage of the Chair of Agriculture. It also elects three of the seven Curators of Patronage, and appoints the Lecturers and the Additional Examiners for Degrees.

The Court consists of—1. The Rector ; 2. The Principal ; 3. The Lord Provost of Edinburgh for the time being ; 4. An Assessor nominated by the Chancellor ; 5. An Assessor nominated by the Rector ; 6. An Assessor nominated by the Lord Provost, Magistrates, and Town Council of Edinburgh ; 7. Four Assessors elected by the General Council ; 8. Four Assessors elected by the Senatus Academicus ; 9. Representatives of affiliated Colleges, under section 15 (4) of the Act of 1889 (if any).

Seven members constitute a quorum. The Rector and his

Assessor continue in office for three years ; but when the Chancellor or the Rector ceases to hold office, his Assessor continues to be a member of the Court until an Assessor is nominated by the new Chancellor or Rector. The other Assessors hold office for four years ; and all Assessors are eligible for re-election. No Principal or Professor of any Scottish University is eligible as Assessor to any other person or body than the Senatus. The Rector, and in his absence the Principal, presides at meetings of the Court, and in the absence of both a chairman is elected by the meeting. The person presiding at any meeting of the Court has a deliberative vote, and also a casting vote in case of equality.

An abstract of the proceedings of the Court in 1902-1903 is given in a subsequent part of the Calendar.

The names of the present Assessors are given on page 1. The names of the Assessors before 1888 will be found in the Historical Appendix to List of University Graduates, published in 1889 (page 105). The Assessors since 1888 will be found in the various Calendars.

UNIVERSITIES COMMITTEE OF PRIVY COUNCIL.

The Scottish Universities Committee of the Privy Council consists of the Lord President of the Privy Council, the Secretary for Scotland ; the Lord Justice-General, Lord Justice-Clerk, Lord Advocate, and the Chancellor and the Lord Rector of each of the Universities, if members of the Privy Council ; one member at least of the Judicial Committee of the Privy Council ; and such other member or members of the Privy Council as His Majesty may appoint.

The powers and duties of this Committee may, subject to rules or regulations passed by His Majesty in Council, be exercised and discharged by any three or more of the members, one of whom shall be a member of the Judicial Committee of the Privy Council or a Senator of the College of Justice in Scotland.

CURATORS OF PATRONAGE.

By the Universities Act of 1858, the patronage of seventeen Chairs, previously in the gift of the Town Council, was transferred

to seven Curators—three nominated by the University Court, and four by the Town Council. The Curators also have the patronage of the Chairs of Celtic and Education and a share in the patronage of the Chairs of Humanity, Agriculture, Civil Law, History (and Constitutional Law), Scots Law, and Conveyancing, formerly in the gift of the Town Council, and of the Chair of Political Economy. The Curators hold office for three years. The names of the present Curators are given on page 2.

REPRESENTATIVE IN GENERAL MEDICAL COUNCIL.

Under the Medical Act of 1886, the University is entitled to elect a Member of the General Medical Council, who holds office for five years. Sir William Turner was elected by the Senatus in December 1886. Under the Universities Act of 1889, the University Representative is elected by the University Court, by whom Sir William Turner, K.C.B., M.B., D.C.L., LL.D., was elected in 1891, and re-elected in 1896 and 1901.

PRINCIPAL.

The Principal, formerly elected by the Town Council, now by the Curators, holds office for life. He is the President of the Senatus Academicus; in absence of the Rector, he presides at the meetings of the University Court; and in absence of the Chancellor and Rector he presides at the Statutory Meetings of the General Council, and also at the Special Meetings, except for the election of Assessors.

SENATUS ACADEMICUS.

The Principal and the Professors constitute the Senatus. This body superintends and regulates the teaching and discipline of the University. The Senatus elects four Assessors in the University Court who hold office for four years. Two retire biennially, but may be re-elected ; and in case of a casual vacancy, the person elected to fill it goes out of office when the person whom he succeeded would in the ordinary rotation have retired. The Senatus appoints two-thirds of the members of the Library and the Museums Committees, receives their reports, and, subject to the review of the University Court, confirms, modifies, or rejects such reports. It also elects a representative in the General Assembly of the Church of Scotland ; two Managers of the Royal Infirmary ; two Governors of George Heriot's Trust ; two Governors of Morrison's Academy, Crieff ; two Governors of the Spence Bursary Trust ; one Governor of Dollar Institution ; and one Governor of Stiel's Hospital, Tranent. Degrees in Arts, Science, Divinity, Law, Medicine, and Music are conferred, on the recommendation of the Senatus, by either the Chancellor, the Vice-Chancellor, the Principal, or the senior Professor present. The Principal is President of the Senatus, with a deliberative and also a casting vote ; and, in his absence, the Senior Professor present acts as Chairman, also with a double vote. The Ordinary Meetings of Senatus shall be held on the 10th and 17th October, 7th November, 5th December, 9th January, 6th February, 5th and 26th March, 9th April, 13th May, 3rd June, 1st and 22nd July. The Graduation Ceremonials shall be held on 17th October (*special*), 9th April, and 23rd July. Extraordinary Meetings may be called by the Principal or by three Professors. One-third of the Senatus constitutes a quorum.

The Secretary of Senatus, among other duties, summons the Meetings, prepares the Minutes, and intimates business assigned to the Principal, the Faculties, the Boards of Studies, &c. He also administers the *Sponsio Academica* to Graduates.

FACULTIES.

The University now contains six Faculties, as constituted by Ordinance in 1893—viz., Arts, Science, Divinity, Law, Medicine, and Music. Each Faculty is presided over by a Dean, who is elected by the Professors of his Faculty, and who, among other duties, presents to the Chancellor or Vice-Chancellor the Graduands of his Faculty. The names of the present Deans are given on pp. 2, 3, and 4. The Chairs in the various Faculties are here given in chronological order. The Faculties as previously constituted are given in the CALENDAR for 1893-94, and in previous CALENDARS.

FACULTY OF ARTS.

The Faculty of Arts embraces the Chairs of Humanity (Latin), Greek, Mathematics, Logic and Metaphysics, Moral Philosophy, Natural Philosophy, Hebrew and Semitic Languages, History (three Chairs), Rhetoric and English Literature, Sanskrit and Comparative Philology, Commercial and Political Economy, Education, Fine Art, and Celtic.

REGENTS AND PROFESSORS IN THE FACULTY OF ARTS SINCE 1583.

Regents of Philosophy, 1583-1708.

[*The Regents of Philosophy taught in rotation the four classes in the Curriculum of Arts, the "Bajans," the "Semi-Bajans," the "Bachelors," and the "Magistrands," as the Students of the first, second, third, and fourth year were respectively styled. Each Regent therefore taught every subject in the Curriculum—the Regent of Humanity being subordinate to the Regent of Philosophy, and being employed as a tutor in Classics for Unmatriculated Students. In 1708 the system was changed, and separate Professors for Latin, Greek, Logic and Metaphysics, Moral Philosophy and Natural Philosophy, were substituted for the Regents. A Professorship of Mathematics had previously existed.*]

GENERAL COUNCIL OF THE UNIVERSITY.

The Chancellor, the Members of the University Court, the Professors, and the Graduates, are entitled to be registered as Members of the General Council. The fee for registration is £1.

The Register, now containing 9244 Members, is conclusive of the rights of persons to be Members up to 1st January 1904. By the Universities Elections Amendment (Scotland) Act all candidates for graduation must pay the Registration Fee before they can appear for graduation.

Under the Universities Act of 1858, and the Commissioners' Ordinance No. 1, section 3, the Council meets twice a year—viz., on the *first Wednesday of May*, and on the *last Friday in October*, at three o'clock P.M., "to take into their consideration all questions affecting the well-being and prosperity of the University, and to make representations from time to time on such questions to the University Court, who shall consider the same, and

return to the Council their deliverance thereon." All proposed improvements in the arrangements of the University "shall be submitted to the University Council for their consideration."

By the Universities Act 1889, besides the two statutory meetings above mentioned, the Council "may hold special meetings at the instance of the Chancellor, who shall convene such meetings on a requisition from a quorum of members, and the Council may adjourn any meeting, and may appoint Committees to investigate into and report upon any matter remitted to them or to carry out instructions given to them by the Council." The Commissioners under this Act have fixed the quorum of the General Council at ten for every thousand or fraction of a thousand of members on the register, but this provision does not apply to the statutory half-yearly meetings, or to adjourned meetings.

At the meetings of the General Council, in the absence of the Chancellor, Rector, and Principal, the Chancellor's Assessor, and in his absence the Rector's Assessor shall preside; and in the absence of all of these, a Chairman shall be elected by the meeting, but no member of *Senatus* can preside at any meeting held for the election of an Assessor or Assessors. The Chairman shall decide all points of order, and has a deliberative and a casting vote; and in case of an equality of votes at the conclusion of a poll, the Chairman, or any one appointed by the University Court to act for him, shall have a casting vote.

The General Council of this University, and that of the University of St Andrews, together return a Member of Parliament.

The *Chancellor* of the University and *four of the Assessors* in the University Court are elected by the Council. The Chancellor holds office for life, and the Assessors for four years. Two of the Assessors retire biennially, but may be re-elected. In case of a casual vacancy the person elected to fill it retires when the person whom he succeeded would in ordinary rotation have retired. No member of the *Senatus* can vote or take part in the election of any Assessor of the General Council. The next election of two Assessors will take place at the statutory half-yearly meeting in *October* 1903.

Members of the General Council may borrow books from the Library and have out at one time five volumes on payment of an annual fee of 10s. 6d., or a single payment of £5; or may have ten volumes on payment of an annual fee of £1, 1s., or a single payment of £10.

Two Standing Committees are appointed by the General Council—viz., a Business Committee and a Finance Committee. The Conveners are :

Business Committee—John A. Trail, LL.D.

Finance Committee—David D. Buchan, LL.B.

STUDENTS' REPRESENTATIVE COUNCIL.

Presidents—S. Simpson, B.Sc.; James Barclay; W. B. Brander, M.A. *Joint Hon. Secretaries and Treasurers*—J. J. H. Ferguson, 48 Marchmont Road; M. M. Wood, 121 Bruntsfield Place. *Hon. Auditor*—James Walker, C.A.

The Students' Representative Council was founded in 1884. Its functions are—(1) To represent the Students in matters affecting their interests; (2) To afford a recognised means of communication between the Students and the University authorities; and (3) To promote social life and academic unity among the Students. The Council is elected annually in November, partly by the Students of the different Faculties, and partly by the recognised Students' societies. The Ordinary Meetings are held in November, December, January, February, March, May, June, July, and October. At the November meeting an executive committee is elected, consisting of the three presidents, two secretaries and treasurers, and eleven other members, representing the five Faculties. The Council also carries out its work by means of the following Standing Committees:—The Inter-Universities, Library, Amusements, *Student*, International Academic and Women's Committees. During the Winter Session it publishes weekly a University Magazine.

The Commissioners, acting under the Universities Act 1889, have issued an Ordinance to the following effect :—

- (1.) The Students' Representative Council shall submit to the University Court the regulations under which it exists, and these regulations as approved shall form the constitution of the Students' Representative Council.
- (2.) After the University Court has approved of the constitution, alterations must receive the approval of the University Court.
- (3.)
 1. The Council may petition the Senatus as to any matter affecting the teaching and discipline of the University, and the Senatus shall dispose of the matter, or shall, if so prayed, forward such petition to the University Court, with such observations as it may make thereon.
 2. The Council may petition the University Court as to any matter affecting the Students other than those falling under sub-section 1.
 3. This Section shall not prejudice any right of appeal under Section 6, sub-section 2, of the said Act, nor the powers and jurisdiction of the Senatus, as to teaching and discipline.

MATRICULATION.

University Matriculation consists in signing the *Sponsio Academica*, the Student thus entering his or her name in the Album of Students of the University, and in paying a fee of £1, 1s. for the academic year (1st Oct. to 1st Oct.), or a fee of 10s. 6d. for a Summer Session (1st May to 1st October). No person shall be deemed to be a Matriculated Student or shall enjoy any of the privileges of a Matriculated Student unless, in addition to paying the matriculation fee, he is enrolled as a Student in attendance in one or more classes in the University, and has paid the fees entitling him to such attendance : Provided that nothing herein contained shall affect the right of the University Court to exact a fee in lieu of and not exceeding the matriculation fee from any candidate for any examination or for graduation, not being at the time a Matriculated Student, in addition to the fee payable for such examination or graduation. No one can attend a University Class without matriculating, except in those special cases in which an Entrance Fee of 5s. only is exacted (see page 31).

The Matriculated Students elect the Rector of the University. In case of an equality of votes, the Chancellor, or failing him, the Principal, has the casting vote. Students are also admitted to the University Library, and on certain days to the Museum of Natural History.

Candidates for Graduation who are attending Extra-Academical Lectures in Edinburgh, and not attending Classes within the University, must, at the beginning of each year, enrol their names in a book kept for that purpose, and pay a Fee of the same amount as the Matriculation Fee. In respect of such payment they have a right to use the University Library.

Sponsio Academica signed by students on matriculating :—

DISCIPLINE.

Students are subject to the disciplinary jurisdiction of the Senatus. Among offences visited with severe academic penalties may be mentioned riotous or disorderly conduct, copying at examinations, and mutilating or disfiguring books belonging to the Library.

UNIVERSITY EXAMINERS.

The Examiners for Degrees are the Professors of, or Lecturers on, the different subjects, along with additional Examiners appointed by the University Court. As a general rule, no Professor, Lecturer, or University Assistant or Demonstrator can be appointed an additional Examiner.

GRADUATION CEREMONIALS.

The relative precedence of each Faculty is as follows:—1. Divinity; 2. Law; 3. Medicine; 4. Arts; 5. Science; 6. Music. The Deans take precedence in their respective Faculties, followed by the Members of their Faculties in the order of the dates of their Commissions.

Public Graduation Ceremonials are held annually about the middle of April (chiefly for Divinity, Law, Arts, Science, and Music), and about the end of July (for Medicine and Science). A special Ceremony is usually held about the end of October (chiefly for Degrees in Medicine).

Graduates must appear on these occasions in Academic Costume.

ACADEMIC COSTUME.¹

Chancellor.—Robe of Black Brocaded Satin, trimmed with Gold Lace, and with Gold Frogs down fronts and on sleeves. Black Silk Velvet Trencher, with Gold Button and Tassel.

Vice-Chancellor.—Robe and Trencher same as Chancellor's, but trimmed with Silver in place of Gold.

Rector.—Black Silk Gown, with Crimson Silk Velvet Sleeves. The gown is trimmed round the collar and down the front edges with Broad Gold Lace, and the sleeves round bottom with a narrower Gold Lace. Black Silk Velvet Trencher, with Gold Button and Tassel.

¹ Graduates are requested to appear for Graduation wearing one hood only—viz. the one which indicates the Degree they are about to receive.

Principal.—Mauve Corded Silk Robe trimmed with Velvet to match. Black Silk Velvet Trencher, with Gold Button and Tassel.

Members of University Court.—Black Silk Robe, open sleeve, with Gold Frog on each sleeve.

With all of the above, Hoods appropriate to the Degree are worn.

The ordinary form of Gowns worn by Graduates of the University is the same in all the Faculties—viz., black silk or stuff, with long sleeves. The distinctive part of the costume is in the *Hood* appropriated to each Faculty. These Hoods are as follow :

LL.D.—Black *cloth*, lined with *blue* silk.

LL.B.—Black *silk*, lined with *blue* silk, bordered with white fur.

B.L.—Black *silk*, edged with *blue* silk three inches broad, trimmed with white fur.

D.D.—Black *cloth*, lined with *purple* silk.

B.D.—Black *silk*, lined with *purple* silk, bordered with white fur.

M.D.—Black *cloth*, with appended cape, lined and faced with *crimson* silk.

M. B. and Ch. B.—Black *silk*, lined with *crimson* silk, bordered with white fur.

D.Sc.—Black *cloth*, lined with *green* silk.

B.Sc.—Black *silk*, lined with *green* silk, bordered with white fur.

M. A.—Black *silk*, lined with *white* silk.

D.Litt.—Black *cloth*, lined with *royal blue* and *maize shot* silk.

D.Phil.—Black *cloth*, lined with *Vesuvius* and *white shot* silk.

Mus. D.—Rich scarlet *cloth*, with rich *white* corded silk lining.

Mus. B.—Scarlet *silk*, with *white* silk lining, edged with *white* fur.

The full Academic Dress for Doctors is a Gown of superfine Scarlet Cloth, loose sleeves, the cape and facings down the front covered, and the sleeves lined, with rich silk of the colour proper to the Degree. Birretum of black silk velvet.

REGULATIONS OF UNIVERSITY COURT.

I.—ABSENCE OF PROFESSORS.

1. When a Professor is prevented from teaching his Class for more than three successive days, an arrangement shall be made for his Class being taught during his absence; and such arrangement shall be intimated, and be subject, to the approval of his Faculty or, in the case of an emergency, the Dean of his Faculty.

2. No arrangement for teaching a Class in the absence of the Professor shall continue longer than one week without the sanction of the Senatus Academicus; or, if there be no sufficiently early meeting of the Senatus, without the *interim* sanction of the Faculty, or of the Principal and Deans Committee.

3. If the absence is likely to extend to four weeks or upwards, the sanction of the Senatus shall require the confirmation of the University Court. The statement of the arrangement for teaching a Class in the absence of a Professor, submitted by the Senatus to the University Court shall specify the remuneration proposed to be given to the Professor's Substitute, which shall be subject to revision by the University Court.

4. The remuneration as fixed by the Court shall be paid by the Professor to his Substitute, unless the Court shall, in any particular case, decide that special circumstances make it equitable to relax the rule, and to pay part of the remuneration out of the remaining revenue (if any) of the University for the year, as defined in Section XI., 8, of Ordinance No. 27 [Edinburgh, No. 6].

5. No Professor shall employ any one other than a Colleague or University Lecturer or University Assistant to teach his Class for him, without obtaining the sanction of his Faculty or, in the case of an emergency, the Dean of his Faculty; and such sanction shall be communicated to the Senatus at its first meeting thereafter.

II.—ABSENCE OF EXAMINERS.

1. Any University Examiner who finds himself prevented from being present at any Examination at which it is his duty to act, shall intimate this to the Dean or other Chairman of his Examining Board, who, on receiving such intimation, or otherwise becoming aware of the absence of the Examiner, shall, if possible, appoint a properly qualified Substitute to act for such Examiner.

2. In every case in which a person is appointed to act as Substitute for a University Examiner, and in which his Faculty, or Examining Committee, shall consider it necessary that the Substitute shall receive remuneration, the rate of remuneration to be paid by the Examiner (whether a Professor or Additional Examiner) to his Substitute shall be fixed by the Faculty, or Examining Committee, and shall be based upon the amount of the Fees payable to the Additional Examiners attached to the Faculty or Examining Committee.

3. All absences of University Examiners, their duration and cause, and the relative arrangements made, shall be immediately reported for approval to the Senatus Academicus by the Chairman of the Board to which the absent Examiner is attached; and a similar Report shall in every case of the absence of a University Examiner be made by the Senatus Academicus to the University Court; provided always that such arrangements shall receive immediate effect when circumstances do not permit the previous approval of the Senatus Academicus to be obtained.

4. In every case in which a Professor shall apply for leave of absence from his duties generally, provision shall be made, under the

existing Regulations regarding leave of absence to Professors, for the performance of his duties as Examiner, as well as for the performance of his duties as Teacher ; and provision shall be made for the remuneration of his Substitute in both capacities.

III.—APPLICATIONS FOR ADDITIONAL (OR NON-PROFESSORIAL)
EXAMINERSHIPS IN THE UNIVERSITY.

1. Applicants should lodge twenty copies of their applications (one of which should be signed), and twenty copies of any testimonials they may desire to present, with the Secretary of the Court, not later than one week before the day fixed for making appointments in each case.

2. Applicants who send in testimonials must not send more than four for any one appointment.

3. Persons may be appointed to examine in two of the thirteen Subjects of the Examinations for Graduation in Medicine, but not more, and not in more than one Subject in any one Division of the Examinations.

4. Every applicant for an appointment in Divinity must hold the degree of B.D. from a Scottish University.

Every applicant for an Examinership in Law must be a Bachelor of Laws of a Scottish University.

IV.—OPENING OF NEW CLASSES.

No class in addition to those existing in the University shall at any time be opened,—whether for the purpose of dividing the course on a subject necessary for graduation, or for teaching a class not requisite for graduation,—without the approval of the Senatus and the sanction of the University Court.

V.—RECOGNITION OF EXTRA-ACADEMICAL TEACHERS.

I. Every applicant for recognition shall furnish for the information of the Authorities of the University :—

- (1.) A Statement of his Registered Qualification or Qualifications, and of the name of the Office, or Appointment (if any) which he holds, as a Teacher of the Subject in which he requests recognition.
- (2.) A Syllabus of his Course of Lectures ; or, in the case of a Practical Class, information of a similar kind.
- (3.) A Statement of the number of Lectures, and of the number of Written or Oral Examinations in the Course ; or, in the case of a Practical Class, information of a similar kind.
- (4.) A Short Description of his Accommodation for a Class ; and of the Apparatus, Illustrative Specimens, Diagrams, and other appliances, at his disposal for teaching the Subject in which he desires recognition.
- (5.) A Statement of his opportunities of studying the Subject, and of the length of time devoted thereto.

- (6.) A Statement of the experience he has had in teaching the Subject.
- (7.) A Note of the Titles of his published Contributions to the Science of the Subject.
- (8.) A Statement as to whether his Course or Courses of Instruction have been already recognised by any University or other examining body, and, if so, what means were adopted for ascertaining his qualifications for teaching.

2. In the case of every Applicant for recognition residing in Edinburgh or its neighbourhood, an inspection shall be made of his teaching Appliances and Accommodation for teaching.

3. Every recognised Extra-Academical Teacher shall annually furnish the University with the information regarding his Course or Courses which is required from the University Professors as to (1.) The number of Students attending the recognised Course or Courses of Instruction ; (2.) The number of meetings for ordinary Class Work in the Session, and in each week thereof ; (3.) The number of Special Written Examinations ; (4.) The system of conducting the ordinary Class Work, and the number of meetings devoted to each kind of work.

4. The Certificate of Attendance granted to Students by recognised Extra-Academical Teachers, should, in all cases, state the duration of the Course and the number of Meetings for Systematic, Tutorial, and Practical Instruction, respectively ; the number of occasions on which attendance was ascertained, and the number of those occasions on which the Student was present ; and the number of Class Examinations held during the Course, and whether or not the Student has taken a satisfactory part in the work of the Course, including the Class Examinations, if any. The Certificate should also state the general scope of the Course ; and, in particular, in the case of Chemistry, that the Course included Organic as well as Inorganic Chemistry ; in the case of Midwifery, that it included the diseases of Women and Children ; and, in the case of Practical Materia Medica, that it included Pharmacognosy, Pharmacy, Dispensing, and the writing of Prescriptions.

5. When application is made for the recognition of a Course taught by two or more Teachers in conjunction, information shall be given of the share to be taken by each Teacher in such conjoined Course ; and the recognition of such conjoined Courses, and of each of the persons recognised as Teachers of a conjoined Course shall, *ipso facto*, terminate should one or more of the Teachers cease to conduct the Course, or should any material change be made in the share of each Teacher in the teaching of the conjoined Course.

6. The recognition of any Teacher who fails to furnish the information called for in Section 3, or an explanation relative to such failure ; or who has ceased for the period of two consecutive Sessions to teach the subject on which he is recognised, shall, *ipso facto*, terminate.

University Buildings.

THE University Buildings at present consist of: (1) The College, or University (Old) Building, with Dome, in South Bridge Street; (2) The New Buildings (School of Medicine), Teviot Place; (3) The Music Class Room, Park Place; and (4) The John Usher Institute of Public Health, Warrender Park Road.

I.—THE UNIVERSITY (OLD) BUILDING.

The Old Building, on the site of "Kirk o' Field," the scene of the murder of Darnley, contains the Library and Reading Rooms; the Class Rooms of the Faculties of Arts, Divinity, and Law, the Natural History, and some other Science Class Rooms; the Theological Library and Reading Room; the Examination Hall; the Physical, and the Geological and Petrological Laboratories; the Fulton Engineering Laboratory; the Physical, Geological, Fine Art, and Natural History Museums; the Senate Hall, University Court Room, and the Offices of the Senatus, the Court, and the Students' Representative Council.

The work of teaching began in 1583, but before the end of the eighteenth century, the professors and students had been very imperfectly housed. In a Memorial, dated 1768, Principal Robertson complains that the buildings, "poor in themselves, seem not to have been carried on according to any regular plan, such as takes place in other academical structures which have been erected on more opulent foundations; and hence the whole fabric has a mean, irregular, and contemptible appearance." At that time the number of students was between six and seven hundred, and that of professors twenty-one.

Twenty years later a writer in the "Scots Magazine" complains that "in 1788 the buildings of the University are in the same ruinous condition that they were in in 1768, and the most celebrated University at present in Europe is the worst accom-

modated." A scheme for rebuilding, often discussed, was now taken up seriously by the Town Council, encouraged by promise of liberal aid from Government. A plan was obtained from Robert Adam, then at the height of his reputation, and the foundation stone of "the New College of Edinburgh" was solemnly laid on 16th November 1789.

Adam's original plans, preserved in the Soane Museum in London, divide the space now occupied by the College buildings into two quadrangles, a smaller to the east, entered as now from South Bridge Street, and a larger beyond it to the west, with a block of academic buildings lying between. This arrangement was doubtless suggested by the rapid rise of the ground from north-east to south-west. Round these two courts there were to be Class Rooms, Museums, a Library, and also houses for the Principal and Professors. The western side of the larger court was to be occupied by a Graduation Hall and Chapel; and the great quadrangle was to be flanked with corridors, affording communication between the class-rooms. The building, begun chiefly on the eastern and northern sides, was, however, soon stopped by the death of the architect in 1792, and by failure of funds. In 1815 a Government Commission was appointed to collect funds and to carry out the undertaking, though in a modified form. They invited plans "for finishing the College of Edinburgh, on a reduced scale, leaving out the south front, and the cross building, which formed the small court in the original plan,—regard being always had to the part already executed, and to the preservation of the architecture of Mr Adam, as far as practicable." Out of nine sets of plans sent in, those of William Henry Playfair were selected, and under his superintendence the work was practically completed in 1828, at a total cost of about £161,000.

The general character of the whole design is due to Robert Adam. Some portions were erected by him, or completed after his death from his drawings. In other parts some modification of his plans and elevations was necessary, while a third portion had to be designed anew by Playfair, who was careful to conform to Mr Adam's design. The handsome eastern façade,

with its monolithic columns 22 feet in height, was erected by Adam, who intended to have embellished it with a certain amount of sculpture. He also erected the north-west corner of the great court, of which the circular Loggie form an admired feature, carried out part of the north side, and began the western block. Playfair threw the two courts into one, and designed the north and south interior elevations anew. In the western block he adhered to Adam's designs ; but the interior treatment of the block, fitted up for the Natural History Museums, is his own ; and the "Upper Museum," now the Natural History Laboratory, is a good specimen of his style. The "circular corners" designed by Adam for his great court were retained by Playfair for his single quadrangle. On the exterior, the north front is Adam's, and its plainness is due to the fact that only a narrow lane instead of the broad Chambers Street then bounded the College on that side. Adam's handsome design for the south front was simplified by Playfair, but is still superior to the north elevation.

The difficulty of the levels in the quadrangle was satisfactorily overcome by Playfair by surrounding the court with a terrace, which affords a suitable architectural base for the noble buildings rising above it. But Playfair's great achievement is the Library Hall, a fine gallery 185 feet by 54 feet, with an arched ceiling enriched with cassettes.

The general effect of the buildings is simple and dignified. The material is mainly Craigleith stone, and the detail carving is well worked out. The single quadrangle, measuring 242 feet 6 inches from east to west, by 134 feet from north to south, is a great improvement on the original plan of 1789, though the essentials of the design are due to Adam. The interior elevations of the quadrangle, especially on the west, and the eastern front to South Bridge Street, may safely be pronounced excellent specimens of the neo-classic style.

THE DOME.

Adam's original design provided for a Dome over the eastern portal, but as his sketch was not very pleasing, no steps were

taken to carry out this feature until 1883, when funds came into the possession of the University, bequeathed for this purpose by Robert Cox, Esq., W.S. It was then determined to carry out the Dome on a new design by R. Rowand Anderson, LL.D., Architect of the University New Buildings (School of Medicine). The present Dome, though less purely classical than the Adam-Playfair building, is pleasing and effective. An admirable finial is formed by a vigorous and athletic figure of Youth, bearing the torch of Knowledge, executed in bronze by John Hutchison, Esq., R.S.A. The Dome now contains the Fine Art Museum.

II.—THE UNIVERSITY NEW BUILDINGS.

(SCHOOL OF MEDICINE.)

In 1869 the number of students had risen to fifteen hundred, and that of the Professors to thirty-three, while there were seventeen Class Rooms only for their use. A Committee was therefore formed in 1873, and an appeal was made to the public for subscriptions for the purchase of a site for and the erection of complete Class Rooms, Theatres, Laboratories, and Museums for the Faculty of Medicine ; for reorganising the Class Rooms in the Old Building for the Faculties of Arts, Divinity, and Law ; for providing better accommodation for the Library ; for erecting a Hall for examinations and academic ceremonials ; and for improving the north front of the College building.

This appeal to the public yielded a sum of £148,548, 2s. 5d., which, with a grant of £80,000 from Government, and interest, rents, &c., amounted to £244,587, 4s. 8d.

These buildings (the University New Buildings), begun in 1878, were partly opened for teaching purposes in October 1880, and after their completion, were transferred by the Committee to the University in October 1888. They are situated on a site formerly covered by Teviot Row, Park Street, and Park Place, and were designed by R. Rowand Anderson, LL.D., Architect, and completed under his supervision.

They contain the Lecture Rooms, &c., of the Faculty of Medicine (excepting those of Botany and Natural History), the Museums of Practice of Physic, Anatomy, Chemistry,

Obstetrics, Materia Medica, and Surgery; a Students' Reading Room, Students' Common Room, Faculty of Medicine Reception and Reading Rooms, and Office of the Faculty.

The style of architecture is Italian of the Cinque-Cento period, intermediate between the Gothic and the stiff Palladian work, which aims at a mere manipulation of the five orders. The main frontage presents a slightly projecting elevation, pierced by the archway which forms the principal entrance. Over the arch is an ornate window, flanked by pilasters, between which are niches for statuary; and the whole is surmounted by a bold semi-circular pediment, intended to be occupied with sculpture. The façade is three storeys in height except in the projecting west wing, which has an additional floor. On the ground floor the windows are square. Above these runs a well-marked string-course ornamented with dentils. The first-floor windows are round-headed and furnished with architraves. Next comes a broad frieze relieved at intervals with circular panels. Over this the string-course is repeated; and the upper-floor windows are separated by pilasters, and divided by shafts supporting circular tracery. The wall is finished at the top with architrave, frieze, and cornice, and crowned with a low-pitched roof. The external features have of course been influenced by the internal arrangements.

THE M'EWAN HALL.

In the month of November 1885, the Acting Committee for the University of Edinburgh Buildings Extension Scheme, resolved to apply to Parliament for power to acquire property adjoining the University as a site for a University Hall. Certain members of the Committee were incorporated as Trustees for this purpose, and one of their number, Mr William M'Ewan, M.P., munificently offered to contribute the sum required for the erection of the Hall, on condition that the cost of the site was provided from other sources. A Parliamentary grant of £8000 was obtained, and Mr M'Ewan having generously provided the balance required, the site was purchased. The erection of the "M'Ewan Hall," so named by the Senatus Academicus in grateful recognition of the Donor,

was begun in 1888 and finished in 1897, from the designs and under the superintendence of R. Rowand Anderson, LL.D. The total cost of the Hall including the extensive scheme of mural painting executed by Mr William M. Palin, and the Grand Electric Organ, was about £115,000, and as an architectural monument it is not excelled by any Academic building in the country.

The Hall is of theatre form, and the external elevation conforms to the architectural style of the early Italian Renaissance adopted in the other University New Buildings. It is capable of holding upwards of 2600 people, and is used for Academic Ceremonials, Concerts of a high-class, and other functions approved by the University Court.

III.—REID SCHOOL OF MUSIC.

The School of Music, situated immediately to the south-east of the University New Buildings, was built in 1858, from the designs of the late David Cousin. It contains the Music Class Room, with an organ of four manuals and sixty-six stops, in a handsome carved oak case ; and a Museum of interesting acoustic and antique musical instruments.

The architecture of the building is in the Italian Renaissance style of the early part of the sixteenth century.

THE HUGHES BENNETT LABORATORY OF PHYSIOLOGY.

The Hughes Bennett Laboratory was erected in 1901 by Mrs Cox of Gorgie, at a cost of £2800, in memory of her father, the late John Hughes Bennett, M.D., Professor of Physiology in the University, 1848-1874. It is in direct connection with the other Physiology Laboratories, and consists of a large laboratory equipped with the most modern appliances for practical work, a small theatre for demonstrations of experiments which the students cannot perform individually, and a room used for the demonstration of microscopic specimens.

THE JOHN USHER INSTITUTE OF PUBLIC HEALTH.

Following upon the foundation of the Chair of Public Health, it was found that the accommodation available in the University Buildings for the thorough teaching of the subject and for investigation was totally insufficient. Sir John Usher, Bart., who had contributed largely to the endowment of the Chair, offered to provide such a sum as might be necessary to build and equip laboratories and class rooms in connection therewith, on condition that the University should provide the site. A site was secured in Warrender Park Road, and the building was erected from plans prepared by Messrs Leadbetter & Fairley, architects, and completed under their supervision at a cost of over £21,000. The exterior, in its architectural features, shows a treatment of the Classic Renaissance detail. The interior is equipped with the most modern appliances for teaching and research work in Bacteriology and Chemistry. The Institute, which was formally handed over to the University by Sir John Usher in June 1902, has been named, in grateful acknowledgment of his munificent gift, "The John Usher Institute of Public Health."

University Library.

LIBRARY COMMITTEE.

THE Library Committee consists of not more than seven members, not being members of the Senatus, appointed by the University Court, and of such number appointed by the Senatus as shall be double the number appointed by the Court. The Committee is charged with the superintendence of the Library, and of any libraries acquired, or to be acquired, for the use of the University. The members of the Committee are

appointed by the University Court and the Senatus respectively at their first meeting in the Winter Session.

Principal Sir WILLIAM TURNER, K.C.B., &c., &c.,	} <i>Joint Chairmen.</i>
THOMAS M'KIE, Advocate,	
Professor EGGEING,	} <i>Joint Conveners.</i>
J. BURGESS, C.I.E., LL.D.,	

Professor Hudson Beare ; Professor Baldwin Brown ; Professor Crum Brown ; Professor Hume Brown ; Professor Flint ; Rev. Edward F. Hoernle, M.B. ; A. Taylor Innes, M.A. ; Professor Kirkpatrick ; Professor Mackinnon ; Hew Morrison, Esq. ; Professor Niecks ; Professor Patrick ; Professor Saintsbury ; Professor Schäfer ; Professor Simpson ; John Turnbull Smith, LL.D. ; John Arbuthnot Trail, LL.D.

In 1580 Mr Clement Littil or Little left his books to "Edinbvrgh and Kirk of God thair to reman." This collection of about 300 volumes, chiefly theological (see list in Miscellany of the Maitland Club, vol. i., 1834), was transferred by the Town Council to the University, and became the nucleus of the University Library.

The celebrated Poet, Drummond of Hawthornden, bequeathed his library to the University in 1627—a valuable gift, both from the eminence of the donor, and the rare specimens of early literature it embraces (see *Auctarium Bibliothecæ Edinburgenæ*, 1627).

Among noteworthy donors are Principal Adamson ; Dr Robert Johnston, a physician in London ; the Rev. James Nairne of Wemyss, in Fife ; Dr John Stevenson, Professor of Logic and Metaphysics in the University ; and Dr William Thomson, Professor of Anatomy in the University of Oxford. In 1872, Mr J. O. Halliwell, the eminent Shakespearean critic, presented his very valuable collection of works relating to Shakespeare. In 1875 a large collection of Persian and Arabic MSS. was presented by Mr J. B. Baillie of Leys ; in 1879 an extensive collection of MSS. was received from the executors of David Laing, LL.D. ; in 1880 the works on Economic Science collected by Professor Hodgson were presented by Mrs Hodgson ; in 1882 valuable works on Sanskrit Literature were presented by the family of Dr John Muir ; and in 1886 Mr Thomas Stratton be-

queathed 110 works bearing on the study of Celtic. In 1889 Sir William Mackinnon, Balinakill, purchased the books of Dr Cameron of Brodick, an eminent Celtic scholar, for £600, for presentation to the University; and the same year the Library received a valuable collection of MS. Shakespeariana from Dr Halliwell-Phillipps, and a number of books belonging to the late Professor Wilson, from Mrs Wilson. A "Lorimer Collection," in memory of the late Professor Lorimer, was presented by his son-in-law, Sir David P. Chalmers. In 1895 Professor Blackie left to the Library his collection of modern Greek books; and important additions were received from the Goodsir bequest, and from Major Sprot, as representative of the late Dr Cleg-horn of Stravithie. In 1898 Sir William Fraser left a very handsome legacy to the Library, putting it for the first time since the General Reid Bequest ceased to be separately administered, in possession of funds of its own.

The Library contains about 200,000 printed volumes, and about 7500 MSS., many of which are of great value.

The University also possesses a number of valuable pictures and busts, which adorn the Library and the Senate Hall.

The Library Hall, and the suite of rooms connected with it, occupy the south side of the quadrangle (Old Buildings).

In 1895 the following Library Regulations were laid down by Ordinance (No. 64):—

I. The Librarian shall have the ordinary management of the Library of the University, subject to the superintendence of the Library Committee appointed under the provisions of Ordinance No. 8 [St Andrews, Aberdeen, and Edinburgh, No. 1,—Libraries and Museums].

II. The Librarian, and such Assistant-Librarians as the University Court, on the report of the Library Committee, may think necessary, shall be appointed by the University Court. The University Court shall also have the power of suspending or dismissing such Librarian and Assistant-Librarians.

III. All books ordered for the Library by the Library Committee shall be sent direct to the Librarian, and all books received by him shall be forthwith catalogued by him in such manner as the Library Committee may direct, and stamped with the Library stamp; and no person shall be allowed to use or borrow any book until it has been entered in the catalogue and stamped.

IV. The Librarian shall, with the approval of the Library Committee, from time to time prepare a list of such books, manuscripts, and other works as cannot, in consequence of any deed of gift or otherwise, be lent out of the Library; and the Library

Committee shall from time to time make such regulations as they shall think expedient for allowing access to such works for consultation.

V. Manuscripts, rare books, works of reference, and such other works as the Library Committee shall determine, shall not be lent out of the Library, except under regulations to be made by the Library Committee and approved by the Senatus Academicus and the University Court; and, in addition to such general regulations, the Library Committee may, in each individual case of borrowing such works, impose such special conditions as they may think necessary or expedient: Provided always that every such special permission and all such additional conditions imposed by the Library Committee shall be entered in the Minute-Book of the Committee.

VI. It shall be in the power of the Librarian at any time to withdraw any work from circulation, subject to appeal to the Library Committee.

VII. It shall be in the power of the University Court, after consultation with the Senatus Academicus, and on the report of the Library Committee, to sell or exchange such works as they consider it in the best interests of the Library to dispose of.

VIII. A general inspection of the Library shall take place at such times and during such periods as the University Court, on the report of the Library Committee, shall determine, and all works whatsoever, and by whomsoever borrowed, shall be returned to the Library before the commencement of such periods, under a penalty previously fixed and publicly notified by the University Court.

IX. The Library Committee shall frame regulations to be approved by the University Court, under which the persons hereinafter mentioned may respectively borrow or consult books. Such regulations shall prescribe, *inter alia*, (a) the number of books which the said persons shall be entitled to borrow; (b) the period for which they shall be allowed to retain them; (c) the penalties to be imposed in the event of their failure to return books in due time, or in the event of books being lost or injured.

The persons entitled to borrow books shall be:—

1. Members of the Senatus Academicus and University Lecturers.
2. University Assistants and Examiners.
3. The Librarian and Assistant-Librarians.
4. Matriculated Students.
5. Extra-academical Teachers, recognised by the University Court, in the town in which the University is situated.
6. Students enrolled in any Scottish University as attending the lectures of extra-academical teachers in the town in which the University is situated, and who are already entitled by Ordinance to the use of the Library.
7. Persons who have retired or who shall hereafter retire from the office of Principal or Professor.
8. Members of the University Court.
9. Members of the General Council.

Provided that no member of the University Court or of the General Council shall be entitled to obtain from the University Library books required by the Teachers or Students of the University in the prosecution of academic work and research, and that it shall be in the discretion of the Librarian, subject to appeal to the Library Committee, to decide from time to time what books are so required.

In fixing the number of books to be borrowed by the aforementioned persons respectively, due regard shall be had to the preferable claims of those engaged in teaching and studying in the University.

X. Members of the General Council shall be required, as a condition of exercising the privilege of borrowing books, to pay such subscription as the University Court shall fix from time to time.

XI. The University Court shall determine what sum, if any, shall be deposited by those entitled to borrow books.

XII. The Library Committee, with the approval of the University Court, may admit to the use of the Library, upon such conditions as to subscription and otherwise as they may require, members of the General Council of other Scottish Universities and Graduates of the University who, by reason of being under the age of twenty-one years, are not qualified to be members of the General Council.

XIII. It shall be in the power of the Library Committee from time to time to grant the use of the Library to such extent and on such conditions as they shall think expedient to persons who may not be members of the University, for purposes of literary research, and the names of those privileged readers shall be reported annually to the University Court.

XIV. So long as any Library subscription or any fine incurred remains unpaid, and so long as any person continues in possession of a book which he is not entitled to retain, the right of the defaulter to the use of the Library shall be suspended and remain in abeyance.

XV. The Library Committee shall, in an annual report to the Senatus Academicus, furnish information as to :

1. The state in which the borrowing registers are kept, and whether there is in use any finding list or other means for facilitating the recall of books.
2. The condition of the various catalogues, whether they are brought up to date or not; the amount of arrears, if any, of the cataloguing of the titles of current acquisitions; and what portions of the Library, if any, remain uncatalogued.
3. The amount of money spent in the purchase of books and periodicals respectively, and how the expenditure has been distributed among the several departments of literature and science.

XVI. At such time as shall be fixed by the Senatus Academicus the Librarian shall report to the Senatus in reference to the year then ended :

1. The particulars of every case of admission to special reading privileges.
2. The particulars of every case in which the right to the use of the Library has been suspended or is in abeyance.
3. Every case in which a book belonging to the Library has been replaced at the expense of a borrower.
4. The titles of all books belonging to the Library, known to have been lost or seriously injured, or found at the time of inspection to be amissing.
5. The titles of all books entered as missing in previous reports which have been recovered.
6. The number of accessions to the Library acquired by purchase and received in donation respectively.

7. Any other matter which the Librarian may think it of importance to bring under the notice of the Senatus Academicus, or which he may be directed by the Library Committee to report.

The Senatus Academicus shall forward the report to the University Court.

XVII. Ordinances numbered 68 and 89 of the Commissioners under the Universities (Scotland) Act, 1858, are hereby repealed, provided that the regulations therein contained shall continue to be in force in each University until new regulations have been framed by the Library Committee, and approved by the University Court under the provisions of this Ordinance.

SUPPLEMENTARY REGULATIONS UNDER ORDINANCE 64, XVII.

I. The Library is open on Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays, from 10 A.M. to 4 P.M. during the Winter Session ; from 10 A.M. to 3 P.M. during the summer and autumn ; and on Saturdays from 10 A.M. to 1 P.M. throughout the year ; with the following exceptions :—

During the Christmas Vacation and the month of August the Library is open on the above-mentioned days (exclusive of Saturdays) from 10 A.M. to 1 P.M. only.

The Library is closed on Saturdays during the Christmas Vacation and the month of August ; Victoria Day, Christmas Day, New Year's Day, Good Friday, the Saturday before Easter, and the Edinburgh Spring and Autumn Holidays ; and (except for the return of books) during the Annual Inspection (see Regulation IX.).

II. Members of the undermentioned classes of readers may borrow from the Library and have out at one time, respectively, the number of books specified below, but no larger number (except as provided in Regulation VII.):

Members of Senatus and University Lecturers—25 vols.

Former Principals and Professors, Members of the University Court and the Library Committee, University Assistants, University Examiners, and the Librarian—10 vols.

Members of the General Council of any Scottish University, Graduates of Edinburgh University under the age of 21, and extra-academical teachers recognized by the University, on an

annual payment of 10s. 6d., or a single payment of £5—5 vols. : on an annual payment of £1, 1s., or a single payment of £10—10 vols.

Assistant-Librarians and Clerks in University Offices (being of age)—5 vols.

III. No person shall be allowed to borrow books in more than one capacity.

IV. Subject to the provision as to the return of books before the Annual Inspection (Regulation X.), every member of the classes mentioned in Regulation II. is entitled to retain a book for one month: but this period may be prolonged until the time of the Annual Inspection, if the book is not otherwise required under Regulation VI. Provided that the Librarian may recall a book at any time, if required for class purposes.

V. Every Matriculated Student and every student enrolled as attending an extra-academical teacher in Edinburgh (under Ord. No. 16, Edinburgh, No. 1, Sect. viii., Sub-sect. 5) may borrow and have out at one time three volumes, but not more, and may retain any book for two weeks; but this period may be prolonged, with the permission of the Librarian, if the book is not otherwise required under Regulation VI. Provided that every such student, before borrowing a book for the first time in each academical year, must exhibit his Matriculation Ticket, and one Class Ticket, and deposit £1 at the Matriculation Office; after which his name will be enrolled in the Library Books. Provided also that the Librarian may recall a book at any time, if required for class purposes.

VI. When a borrower has had a book out for a period (as determined by Regulations IV. and V.) of one month or two weeks, as the case may be, the Librarian may recall such book, if required by another person. If the book so recalled be not returned on or before the day specified on the notice of recall, the borrower shall be liable to a fine of one shilling per volume; and to a further fine of sixpence per volume for every subsequent day so long as the book is not returned,

until the total amount of the fine is equal to the sum for which the book can be replaced. Provided that, in the case of students, only half the above-mentioned fines shall be required, until the total amount is equal to the value of the book.

VII. In exceptional cases, the Library Committee may increase the number of books allowed by Regulations II., and V., or extend the periods fixed by Regulations IV. and V.; provided that in every such case the additional number or period be specified, and entered in the Committee's minutes, and that the Committee may attach to the permission such conditions as it may deem advisable.

VIII. No book shall be given out except to the borrower in person, or to some one having written authority from him; nor without the presentation of a Library Ticket, or a written request, signed by the borrower: and all books borrowed shall be entered immediately, with the date of borrowing, in the ledger or ledgers kept for the purpose.

IX. A General Inspection of the Library shall take place annually during the month of April, and shall last for one week. During this period the Library shall be closed, except for the return of books.

X. All books, except as provided for by Regulation XI., must be returned to the Library before the commencement of the General Inspection, under a penalty of one shilling for every volume not returned. Notice of each book not so returned shall be sent forthwith by the Librarian to the borrower, requiring its return before the close of the Inspection; and if the book or books so required be not returned on or before that date, the borrower shall be liable to a fine of sixpence a day for each volume so long as it is not returned, until the total amount of the fine is equal to the sum for which the book can be replaced. Provided that, in the case of students, only half the above fines shall be required, until the total amount is equal to the value of the book.

XI. In exceptional cases, the Library Committee may, before

the commencement of the General Inspection, and on the written application of the borrower, give permission to keep out a book or books over one period of Inspection only, provided that the borrower sign a fresh ticket for them.

XII. All books returned to the Library, if not sent by rail or post, must be delivered, at the Library-counter, to the Librarian or one of the Assistant-Librarians; and a receipt for books so returned shall be given if required.

XIII. Unbound numbers of periodicals shall remain for consultation in the Library during the first month after publication; they may then be borrowed, but shall not be retained longer than fourteen days without the special permission of the Librarian.

XIV. Manuscripts, books, and other works contemplated under Ordinance 64, Section iv., are divided into two classes. Those in class (*a*) may be consulted with the permission of the Librarian, who shall report such permission to the Library Committee at their next meeting; those in class (*b*) may not be consulted without the leave of the Library Committee previously obtained. Works included in either class shall be consulted only in such parts of the Library as the Librarian shall determine.

XV. Manuscripts, books, and other works contemplated under Ordinance 64, Section v., are divided into two classes, viz.: (*a*) works of reference, (*b*) manuscripts and other works. Works comprised in class (*a*) may be lent out by the Librarian from the hour of closing to the next hour of opening (except during the Annual Inspection), subject to a penalty of two shillings a day per volume if not returned. Manuscripts and other works comprised in class (*b*) may be lent out by permission of the Library Committee only, subject to such conditions as the Committee may in each case determine. Provided that, in urgent cases, such works (not being manuscripts) may be provisionally lent out by the Librarian and two members of the Library Committee, subject to the approval of the Com-

mittee at their next meeting, and to such conditions as the Committee may in each case determine.

XVI. All fines shall be collected by the Librarian, and paid over by him to the Factor of the University. A report of names and amounts shall be made annually by the Librarian to the Library Committee. No fine shall in any case be remitted, except by order of the Library Committee, on sufficient cause shown.

XVII. No books or papers not belonging to the University shall be stored within the Library Building, without the special permission of the Library Committee.

XVIII. The use of matches or open lights, in any part of the Library Building, is strictly prohibited.

XIX. No persons except the Library Staff, not being actual or former members of the Senatus, University Lecturers, members of the University Court or of the Library Committee, or persons having permission under Regulation XIV., are allowed to enter or remain in any part of the Library Building beyond the counter, except in the company of the Librarian or an Assistant-Librarian; unless by special permission of the Library Committee, or (in urgent cases) of the Librarian and two members of the Committee, subject to the approval of the Committee at their next meeting.

XX. The Librarian shall report to the Library Committee, as soon as possible, all cases in which a book has been mutilated, disfigured by writing, or otherwise injured while in the possession of readers; and offenders may be required to replace the injured book, or may be fined to an amount not exceeding the value of the book, or deprived of the privilege of using the Library, at the discretion of the Committee.

N.B.—The word “book,” in the foregoing regulations, is to be taken as including manuscripts, pamphlets, bound or unbound periodicals, and other written or printed matter being the property of the University Library.

READING ROOMS.

I. OLD BUILDINGS.

A separate collection of books is set apart for the use of Students.

Those wishing to consult books must insert in one of the slips provided for the purpose their Matriculation Number, Name and Residence, and the title of the Book, and present the slip to the Librarian in attendance.

Each slip will render the person who has signed it responsible for the book named. The counterfoil of the slip should, therefore, be reclaimed from the Librarian when the Book is returned, or whenever the Book applied for is not available.

Every volume must be returned by the borrower before leaving the Reading Room. Students are forbidden to leave the Books on the table; they are required to hand them to the Librarian, and to get back the counterfoils. To prevent confusion, this should be done a few minutes before the close of each hour by those about to attend classes.

Besides the books in the Reading Room, each Student may consult in the Reading Room Two Volumes daily from the General Library: Provided he has handed in slips applying for them on the previous day, before 2 P.M. To such books the same rules will apply as to those consulted from the Reading Room.

No conversation or noise is permitted in the Reading Room.

The Librarian is responsible for the management of the Reading Room. Any difficulty that may arise must be referred to him, or, if necessary, through him to the Library Committee.

Students, or first applying for books in the Reading Room, must exhibit their Matriculation Tickets.

All books taken into the Reading-Room from the General Library shall be examined and returned to their place in the General Library each day. No books shall be issued from the General Library, for use in the Reading-Room, after 3.20 in Winter or 2.30 in Summer; and all books from the General Library shall be given up in the Reading-Room at 3.45 in Winter and 2.45 in Summer.

The Reading-Room is available for either men or women Students. It is open daily, holidays excepted, during the Winter Session from 10 to 4 and from 8 to 10 P.M.; Saturdays 10 to 1; and during the Summer Session from 10 to 3; Saturdays 10 to 1.

A Special Reading-Room is set apart for women students.

II. NEW BUILDINGS.

In the New Buildings is a Students' Reading-Room containing Books of Reference for those attending the Classes in the Faculty of Medicine. The Regulations as to consulting Books are similar to those in the Reading-Room in the Old Buildings. It is open daily, during Sessions, from 9 A.M. to 5, and 8 to 10 P.M.; Saturdays, 9 A.M. to 12. It is open in September and during the week in which the Spring Holiday occurs (Saturday excepted) from 10 A.M. to 1. It is closed during August and the Christmas vacation, and on holidays.

THEOLOGICAL LIBRARY.

This Library, founded in 1698 for Students in Theology, contains above 10,000 volumes. The management is vested in six Curators, chosen by ballot by the "Cives" of the Library from their own number. Students of Divinity of this or other Scottish University are admitted as Cives on paying: the former, two shillings and sixpence; the latter, five shillings, per annum. No one who, when a Student of Divinity in this University, failed to enter as a Cives, may afterwards do so until he has paid up the arrears of two shillings and sixpence for each year of his Theological Course in which he failed to pay. No Cives can be elected a Curator unless at least in the second year of his attendance at the Divinity Hall. The election takes place in the second week of December, one-third of the Curators going out annually by rotation. The Curators elect one of their own number to be Treasurer. The Curators and Treasurer report the state of the funds, &c., to the Cives, the Theological Faculty, and the Senatus. The books purchased are selected by the Curators, subject to the approval of

the Faculty of Divinity. The Professor of Divinity, who if *ex officio* Honorary Librarian, annually appoints an acting Librarian. Books may not be kept out of the Library longer than two months.

SELLAR AND GOODHART CLASSICAL LIBRARY.

This Library was instituted by private subscription in October 1897, in memory of Professors Sellar and Goodhart. It is used as a reading-room and library of reference for Students reading for Honours in Classics. It contains nearly 1000 volumes, and is managed by a Committee consisting of the Professors of Greek and Latin, the Assistants to the Professors, and five representatives elected by the Members. Subscription for year, 6s.; for Winter Session, 5s.; for Summer Session, 3s.

HONOURS PHILOSOPHICAL LIBRARY.

This Library was instituted by private subscription in January 1897. It is used both as a Lending Library and as a Library of Reference for Honours Students; and is managed by a Committee consisting of the Professors of Logic and Moral Philosophy, the Assistants to the Professors, and two representatives elected by the Honours Classes. Subscription for year, 5s.; for Winter or Summer Session, 3s. There are also Class Libraries in connection with the ordinary classes of Logic and Moral Philosophy.

HISTORY LIBRARY.

This Library, founded by Professor Kirkpatrick in 1891, and greatly extended by a donation of £100 from the late Professor Tiele of Leyden, Gifford Lecturer in 1896-98, is open to Students in both the Ordinary and the Honours Classes in General and Constitutional History and Political Science. It is used mainly as a Library of Reference and a Reading-room, and is superintended by the Assistant in History.

PHYSIOLOGY LIBRARY.

The late William Rutherford, M.D., Professor of Physiology or the Institutes of Medicine in the University from 1874 to 1899, bequeathed to the Senatus Academicus all his books and periodicals relating to Physiology and allied subjects, on condition that they should be deposited in the Physiological department of the University in charge of the Professor of Physiology.

It is proposed to continue the periodicals and to add to the Library by donation or otherwise as opportunity may occur. The books have been placed in a suitable room in the department of Physiology, which is used as a Library of Reference and Reading-Room for those who are engaged in Research work in Physiology: and the books may be consulted at any time on application to the Professor or to one of the assistants in the department who have special charge of the Library.

ASTRONOMY LIBRARY.

A sum of about £300 was subscribed in order to perpetuate the memory of the late Mr Andrew J. Ramsay, for the formation and endowment of a Library in the Royal Observatory for the use of Students attending the class of Astronomy.

HONOURS MODERN LANGUAGES LIBRARY
AND READING-ROOM.

The French section of this Library was founded in 1900 by private subscriptions. For the German section a sum of £500 was given by Miss T. S. S. Gibson in 1901. The Reading-Room, furnished partly from private subscriptions, was opened in November 1901. The Library and Reading-Room are under the management of the Lecturers in Modern Languages and the Librarians appointed by them. Subscription for year, 6s.; for Winter Session, 5s.; for Summer Session, 3s.

MUSIC LIBRARY.

This Library of music and books on music owes its existence to bequests, donations, and especially the Reid Fund. Pro-

fessor John Thomson, Théophile Bucher, and the Scottish Musical Society may be mentioned as, next to General Reid, the chief benefactors. It is used as a Reference Library and Reading-Room, its management being in the hands of the Professor of Music.

NATURAL PHILOSOPHY LIBRARY.

The Natural Philosophy Library, including collections of books which formerly belonged to the late Professor Tait and Mr A. B. Shand, and presented by Mrs Tait and the parents of Mr Shand respectively, is used as a Reference Library by Laboratory students.

PORTRAITS AND BUSTS IN THE SENATE HALL, LIBRARY, COURT ROOM, ANATOMICAL MUSEUM, MUSIC CLASS ROOM, AND DOME.¹

I. PORTRAITS.

There are twenty-seven Portraits of Benefactors, Principals, Professors, and others, by Raeburn, Sir John Watson Gordon, and other Artists, in the Senate Hall, four in the Library, sixteen in the University Court Room, and one in the Music Class Room.

Portraits presented since 1890.

In Senate Hall.

James Lorimer, M.A., LL.D., Dr Jur., Professor of Public Law (1862-1890).

Joseph Black, M.D., Professor of Chemistry and Medicine (1766-1795).

Lord Playfair, Professor of Chemistry (1858-1869).

In Court Room.

General Sir Joseph Straton, Benefactor of the University.

John Wyllie, C.B., M.D., Physician General, Madras Army.

Miss Eleanor A. Ormerod, LL.D.

Professor Tiele, Gifford Lecturer (1896-1899).

William Prout, M.D., F.R.C.P., F.R.S.

R. H. Gunning, M.D., of Edinburgh and Rio de Janeiro.

¹ There is a separate printed Catalogue of the Portraits and Busts in the University, and of the Torrie Collection. A detailed Catalogue will also be found in the Calendar for 1890-91, p. 61, as well as in the previous Calendars.

In Midwifery Retiring-Room.

Sir James Young Simpson, Bart., M.D., D.C.L., Professor of Midwifery (1840-1870).

II. BUSTS.

There are forty Busts in the Upper Library Hall, two in the Anatomical Museum, and one in Room in Dome.

In order to honour and perpetuate the names of Benefactors who have founded Scholarships, Bursaries, or new Chairs in the University, the University authorities have made arrangements for placing their Busts or Portraits in the Library and University Court Room.

Regarding as Benefactors the eminent Professors who have elevated the character of the University by their writings or discoveries, the University desires to procure Portraits or Busts of James and David Gregory, Colin Maclaurin, Matthew Stewart, Dr Cullen, Dr James Gregory, Dr Alison, Sir Chas. Bell, Lord Woodhouselee, Dr Thos. Chas. Hope, Professors Ross, Macdougall, Muirhead, Sellar, Campbell Fraser, and Sir Thomas Grainger Stewart.

Busts presented since 1890.

In Library Hall.

Rt. Hon. John Inglis, D.C.L., LL.D., Lord Justice-General, Chancellor of the University (1868-1891).

Lord Brougham, by Christopher Moore.

In Physiology Department.

John Hughes Bennett, M.D., Professor of Physiology (1848-1874).

William Rutherford, M.D., F.R.S., F.R.S.E., Professor of Physiology in the University (1874-1899).

Thomas Chalmers, D.D., Professor of Divinity (1828-1843), by Sir John Steele, R.S.A. (subject to liferent of Miss Chalmers).

TORRIE FINE ART COLLECTION.

Sir James Erskine of Torrie, by a Will, dated April 1834, bequeathed to the University his Pictures, Bronzes, and Marbles, "for the purpose of laying a foundation for a GALLERY for the encouragement of the Fine Arts." The collection is at present temporarily deposited in the National Gallery until funds can be obtained for its suitable display in the College, and for carrying more fully into effect the intentions of the testator.

The Pictures, forty-five in number, include choice specimens of the works of different Masters, especially in the Flemish and Dutch Schools. The Marbles, seventeen in number, and twenty-three Bronzes, have been chosen with a correct appreciation of the merits of this department, and the whole collection reflects credit on the taste and public spirit of Sir James Erskine.

Museums.

A MUSEUM COMMITTEE, consisting of three members, not being members of the Senatus, appointed by the University Court, and of six appointed by the Senatus, is charged with the superintendence of all Museums belonging to the University, and of any collections, furniture, or apparatus, or objects acquired for the use of the University or of any class therein. The members are appointed by the University Court and Senatus respectively at their first meeting in the Winter Session of each year.

Members of Committee appointed by the University Court.

Sir James Alexander Russell, M.A., M.B., C.M., B.Sc. ; Patrick Heron Watson, M.D. ; Joseph Bell, M.D.

Appointed by the Senatus Academicus.

Professors Geikie (*Convener*), Sir Thomas R. Fraser, Greenfield, Schäfer, MacGregor, Cunningham.

Of the following Museums several belong partly or wholly to the Professors of the respective subjects:—

1. NATURAL PHILOSOPHY MUSEUM. A large collection of physical apparatus, including many pieces of great historical interest.

2. MUSIC AND MUSICAL INSTRUMENTS.—A very interesting and valuable collection of acoustic and musical instruments.

3. GEOLOGICAL MUSEUM.—For class purposes, showing the characters of minerals and rocks, and the typical fossils of the different geological systems.

4. FINE ART MUSEUM.—A small collection of casts, photographs, and drawings, in the Dome above the portal, illustrating the main points in the history of classical art.

5. MUSEUM OF THE ROYAL BOTANIC GARDEN. — This Museum is open to Students.

6. PHYSIOLOGICAL MUSEUM.—A large collection of Physiological Instruments, Microscopes and Microscopical Appliances, Diagrams, and Preparations.

7. PRACTICE OF PHYSIC MUSEUM.—Pathological specimens, drawings, models, diagrams, etc.

8. ANATOMICAL MUSEUM.—Founded in 1800 by Dr Monro, *secundus*, who presented his own Anatomical Collection, and that of his father, to the University, “to be used by his successors for the purpose of demonstrating and explaining to the Students the structure, physiology, and diseases of the human body.” In 1859, Sir David Monro, M.D., presented a collection of anatomical preparations, formed by his father, Dr Alexander Monro, *tertius*. Numerous additions were also made by Professor Goodsir, especially in the department of Comparative Anatomy, on whose death the Senatus purchased his Private Museum, and added it to the Collection. The Museum now contains several thousand specimens in illustration of Human Anatomy, both normal and pathological, and of Comparative Anatomy.

The Conservator will gratefully receive contributions of rare and interesting specimens from Graduates and former Students. He is especially desirous of making the collection thoroughly representative of the osteology of the different Races of Men.

The Collection was transferred in 1884-5 to the University New Buildings in Teviot Place, where it is arranged in a large and handsome Hall with two galleries. It is open at certain hours to all matriculated students. The pathological collection occupies the upper gallery. The spirit-preparations in illustration of normal Human and Comparative Anatomy are arranged in the lower gallery. The osteological collection is disposed in the cases on the floor, and suspended in the centre of the Hall.

In 1887 the Henderson Trustees committed to the custody of the Conservator their valuable collection of crania and casts.

Conservator of the Museum, the Professor of Anatomy ; Assistant-Conservator, Mr Alexander M. Osler.

9. CHEMISTRY MUSEUM.—Professor Playfair, afterwards Lord Playfair, on his resignation of the Chair of Chemistry, presented to the University the chemical substances he had used in illustrating his lectures. The collection has been increased by gifts from chemical manufacturers and others, and by substances prepared in the University Laboratory.

10. THE OBSTETRICAL MUSEUM, besides a few preparations left by Professor Hamilton, contains instruments, preparations, models, and diagrams, collected by Sir James Y. Simpson, and added to by the present Professor of Midwifery, to whom they belong.

11. THE MUSEUM OF NATURAL HISTORY.—The old Museum, established in 1812 in the University, contained Zoological, Geological, and Mineralogical Collections, formed chiefly by Professor Jameson, for fifty years Professor of Natural History and Regius Keeper of the Museum. In 1854 it was transferred by the Town Council, then the Patrons of the University, to Government, and removed to the Natural History Department of the New Museum of Science and Art, where it is still accessible to Students of Natural History and Geology.

A Zoological Museum is now being formed in the University. Graduates and others interested will greatly aid in this important undertaking by presenting specimens to the Keeper—the Professor of Natural History.

12. MATERIA MEDICA MUSEUM.—One of the most complete collections of medicinal and food substances in this country, founded by Professor Andrew Duncan. His successor, Sir Robert Christison, added many valuable specimens, mounted for the most part by himself with singular neatness. The present Professor has made extensive additions. The Museum has been greatly enriched by interesting donations from former members of the Class in all parts of the world. There is also a Students' Reading Museum, containing specimens of the medicinal substances used in this country, formed and arranged by the present Professor.

13. SURGICAL MUSEUM.—This collection, formed by Professor Spence, has been largely extended by the present Pro-

fessor, to whom it belongs. Many additions have been made, both of pathological preparations and of plaster and gelatine casts, illustrative of Surgical Anatomy and Pathology. A complete catalogue may, on application, be consulted by practitioners of medicine.

ROYAL BOTANIC GARDEN AND ARBORETUM.

The Royal Botanic Garden, Inverleith Row, is connected with the University, in so far as the Professor of Botany delivers his Lectures in the Hall in the Garden.

The Garden is open daily. Specimens of plants for study are supplied to Students so far as practicable.

The Botanical Museum in the Garden is open to Students daily, and the University Herbarium, which is placed in the Garden, may be consulted between 10 and 1, and 2 and 5, under the direction of the Professor or the Curator.

The Botanical Laboratory in the Garden is open daily for work and original research.

MILLPORT MARINE STATION.

This marine station, in which a table has been rented by the University, is open from April to October. Applications for the use of the table should be sent to the Dean of the Faculty of Science. Each applicant should indicate for what period he desires to occupy the table and the nature of the work he proposes to undertake.

Faculty of Arts.

Dean.—PROFESSOR CHRYSTAL, LL.D.

Students who do not intend to graduate in Arts may attend any of the Classes on payment of the Matriculation and the Class Fees, without having passed any Preliminary Examination. Those who wish their Classes to count for Graduation must pass the Preliminary Examination. The Classes in the Faculty are open to Women, except a few in which provision has not yet been made for teaching them. Provision has, however, been made to admit Women to Graduation in Arts who have received the requisite instruction at the Medical College for Women, Chambers Street, Edinburgh, or from Lecturers specially recognised for that purpose, in the subjects in which classes are not open to them in the University.

The classes will be opened as follows, and will meet daily (Saturdays excepted), unless otherwise stated. They will meet for the last time before the Christmas vacation on Friday, 18th December 1903; will re-assemble on Tuesday, 5th January 1904, and will be closed on Friday, 25th March 1904. Courses in the Faculties of Law, and of Medicine, which qualify for Graduation in Arts, close on 18th March.

The Class Fees are collected by the Factor. For the purpose of receiving Fees he will attend at the University for a short period at the beginning of the Winter and Summer Sessions, and Fees not then paid will be taken at his office, 61 Castle Street. All communications regarding Class Fees should be addressed to, and all cheques for same drawn in favour of The Collector of Class Fees, Edinburgh University.

See as to payment of Class Fees by the Carnegie Trust, page 164.

The Annual Graduation Ceremony in Arts, &c., will be held on Saturday, 9th April 1904.

Courses of Lectures.¹

1903-1904.

I.—DEPARTMENT OF LANGUAGE AND LITERATURE.

HUMANITY—(Latin).

PROFESSOR HARDIE.

The Junior Class has been discontinued. Intending students who would have taken it are invited to consult the Professor or Lecturer regarding preparation for the Preliminary Examination in Latin.

Senior Class—10 to 11 o'clock,

with some additional Lectures (optional) on Monday or Wednesday, at 12.

This Class qualifies for the ordinary Degree of M.A.

The Class has hitherto been divided into two sections for Prose Composition. In order to adapt the teaching better to the wants of students, the division will now be carried further, especially as regards written exercises and examinations. Lectures will be in a large measure common to both divisions. The following scheme of Lectures is contemplated, but may be modified in details as experience suggests:—

Lectures common to both Divisions.

Monday, 10-11.—A General Lecture (on Constitutional History, Antiquities, or the Outlines of Literary History).

Tuesday and Thursday, 10-11.—Virgil, *Georgics*, IV. ; Horace, *Odes*, I. ; and *Ép.* II.

Monday, at 12 (optional).—Martial, IV.-VI. (Sellar and Ramsay's Selections).

¹ The annual amount payable for Matriculation, Class Fees, &c., of the regular Course in Arts and Graduation Fee may be estimated at about £10. 10s.

Upper Division.

Wednesday, 10-11.—More advanced and detailed work in Literary History, with special reference to Hor., *Ep̄p̄.* II., and *Ars Poetica*; Lectures on some other book (to be prescribed).

Friday, 10-11.—Prose Composition (a weekly exercise, and a lecture on the passage when it is returned).

Wednesday, at 12 (optional).—Once a fortnight, or as may be arranged, on Verse Composition, Metre, or some other special subject.

Lower Division.

Wednesday, 10-11.—Tacitus, *Annals*, I.

Friday, 10-11.—Prose Composition (an easier exercise, and lecture on the passage when it is returned).

The more important examinations on Class work are held about December 20th and March 20th. In addition to these, there will be an examination in special or private reading about the end of January, and an examination in History and Literature about the end of February. From time to time shorter papers are set, in Composition or in translation at sight.

Books.—No particular edition of any book is *prescribed*. For ordinary Class purposes, the editions published in Messrs Macmillan's series will be found suitable in scope. Only a plain text is necessary in the case of books on which lectures are given. Students should possess a plain Text of the whole author, *e.g.* Horace or Virgil.

Books recommended.—Gildersleeve and Lodge's Latin Grammar; Lindsay's Historical Latin Grammar; Potts' Hints towards Latin Prose Composition; Pelham's Outlines of Roman History; How and Leigh's History of Rome; Capes' Early Empire; Strachan-Davidson's Life of Cicero; Cruttwell's History of Latin Literature; Mackail's Latin Literature; Companion to Latin Authors (Middleton and Mills); Rich's Dictionary of Antiquities.

Third (Honours) Class—12 to 1.

The Third (Honours) Latin Class meets four days a week. It is intended to assist the studies of Candidates for Scholarships and Graduation with Honours. The work consists of—

1. Readings and explanations of the more difficult Latin authors, such as Tacitus, Lucretius, Plautus, Martial, &c.
2. Lectures on Roman History and Literature, chiefly in connection with the Books read in the Class.
3. Composition, and Translation of Unseen Passages.
4. Occasional Critical Papers and Essays.
5. Written Examinations on the work done in the Class.

During the Winter Session 1903-1904 the following books will be read:—Statius, *Silvæ* (Selections); Juvenal; Plautus, *Rudens*; Tacitus, *Dialogus de oratoribus*.

Summer Session, 1904.

JAMES MILL, M.A., *Lecturer.*

Senior Class—9 to 10, five days a week.

This class qualifies as a half-course for Graduation.¹ The work consists of—

1. The reading of the Latin authors prescribed for the Degree Examination in October 1904 and April 1905.
2. Lectures on Roman History or Literature.
3. Exercises in Latin Prose Composition.
4. Written Examinations on the work done in the Class.
5. Translation of passages from Latin into English, and from English into Latin "at sight."

The full Course may be completed by attendance either for another Summer Session or for half a Winter Session.

Third (Honours) Class—10 to 11.

This Class, in the Summer Session, qualifies as a half-course for Graduation with Honours in Classics. It meets four days a

¹ See footnote 2, page 63.

week, and is intended to assist the studies of Candidates for Scholarships, for Graduation with Honours, and for the Indian Civil Service. The work consists of:—

1. Readings and explanations of some of the more difficult Latin authors, such as Tacitus, Lucretius, Plautus, Martial, Juvenal, Lucan, &c.

2. Lectures on Roman History and Literature, chiefly in connection with the Books read in the Class.

3. Exercises in Latin Prose Composition.

4. Written Examinations on work done in the Class, and on subjects prescribed for voluntary reading.

During the Summer Session of 1904, the books read will be selected from the programmes of work for Honours Graduation in April 1905 and April 1906.

GREEK.

PROFESSOR

Senior Class—11 to 12, 12 to 1.

11 to 12, five days a week (Professor).

12 to 1 (optional, no extra fee), five days a week (Lecturer); additional lectures on subjects for Degree.

The Lecturer in Greek will moreover give individual tuition in Composition.

This is the class which qualifies for the ordinary Degree of M.A.¹ The work consists of—

1. Readings of Greek authors, such as Homer, Aeschylus, Sophocles, Euripides, Aristophanes, Herodotus, Thucydides, Plato, Demosthenes.

2. Lectures on Greek Literature, History, or Philosophy.

3. Greek Prose Composition, or Translation of an Unseen Passage once a week, and a Lecture on the passage when the exercises are returned.

4. Written Examinations on the work done in the Class, and on subjects prescribed for voluntary reading.

5. Greek Verse Composition (voluntary).

¹ See footnote 2, page 63.

Books recommended.—W. G. Rutherford's Greek Grammar and First Greek Syntax; Monro's Homeric Grammar; Goodwin's Greek Grammar; Goodwin's Greek Moods and Tenses; Sidgwick's Greek Prose Composition; Jebb's Primer of Greek Literature; Müller and Donaldson's History of Greek Literature; Jevons' History of Greek Literature, or Mahaffy's History of Greek Literature, or Murray's Ancient Greek Literature; Holm's History of Greece (Translation, Macmillan); Bury's History of Greece, or Oman's History of Greece, or Cox's General History of Greece, or W. Smith's Smaller History of Greece (new ed. 1897); Greek Verse Composition (Sidgwick and Morris); A Manual of Comparative Philology, by Giles.

During the Winter Session 1903-1904, the chief work of the Class with the Professor will be:—Homer, *Iliad*, XXII., XXIII.; Plato, *Republic*, B. VI.

Third (Honours) Class—10 to 11.

This Class meets four days a week. It is intended to assist the studies of Candidates for Scholarships and Graduation with Honours. The work consists of—

1. Readings of some of the more difficult Greek authors.
2. Lectures on Greek Literature, History, or Philosophy.
3. Greek Composition, and Translation of Unseen Passages.
4. Occasional Critical Papers and Essays.
5. Written Examinations on the work done in Class.

During the Winter Session 1903-1904 the chief work of the Class will be Aristotle, *Poetics*; Aeschylus, *Agamemnon*.

Summer Session, 1904.

, M.A., *Lecturer.*

Senior Class—10 to 11, five days a week.

This Class qualifies as a half-course for Graduation.¹ The work consists of—

1. The reading of the Greek authors prescribed for the Degree Examination in October 1903 and April 1904.

¹ See footnote 2, page 63.

2. Lectures on Greek History or Literature.
3. Greek Prose Composition, and Translation of Unseen Passages.
4. Written Examinations.

The full Course may be completed by attendance either for another Summer Session or for half a Winter Session.

Third (Honours) Class—9 to 10.

This Class meets four days a week. It is intended to assist the studies of Candidates for Scholarships, for Graduation with Honours, and for the Indian Civil Service. The work consists of—

1. The reading of books selected from the programme of work for Graduation with Honours in 1904 and 1905, and other books as may be arranged.

2. Lectures on Greek History or Literature.
3. Greek Prose Composition, and Translation of Unseen Passages.
4. Written Examinations.

This Class qualifies as a half-course for Graduation with Honours. The full Course may be completed by attendance either for another Summer Session or for half a Winter Session.

CLASSICAL ARCHÆOLOGY.

PROFESSOR BALDWIN BROWN.

Classical Archæology may be taken as one of the optional subjects for Honours in Classics.

An Honours Course of fifty lectures will be delivered in the Winter Session, 1903-1904, in the Fine Art Class Room, on Mondays, Wednesdays, and Fridays, at 5 P.M.

Additional Class-meetings of a tutorial character will be held as often as is found desirable, at hours to be afterwards arranged. The treatment of the subject will embrace—

1. A general survey of the field of study.
2. An examination of the most important monuments of Greek Art and selected passages from ancient authors bearing on the History of the Arts in Classical times.

3. A study of the History of Greek Sculpture from the earliest times to the age of Augustus.

The text-books will be—Overbeck's "Schriftquellen" (a collection of passages from ancient authors bearing on Classical Art); Murray's "Handbook of Greek Archæology" (London, John Murray); E. Gardner's "Handbook of Greek Sculpture" (Macmillan & Co.).

ANCIENT PHILOSOPHY.

(See Department of Mental Philosophy.)

ANCIENT HISTORY.

H. J. CUNNINGHAM, M.A., *Lecturer.*

Ancient History may be taken as an optional subject for Honours in Classics, and as an alternative subject for Honours in History. Two Honours half courses of 25 lectures each will be given, one in the first half of the Winter Session, the other in Summer. Three lectures weekly.

Subjects—

Winter 1903. Roman History, 70-44 B.C. For prescribed books see p. 152.

Summer 1904. Greek History, 490-429 B.C. For prescribed books see p. 152.

RHETORIC AND ENGLISH LITERATURE.

PROFESSOR SAINTSBURY.

(*Ordinary Course, 4 to 5, five days a week throughout the Winter Session.*)

On Mondays, Wednesdays, and Fridays, the Lectures will be devoted, before Christmas, to a survey of Style both in Poetry and Prose from Chaucer to the Nineteenth Century; after Christmas to a similar survey of the General History and Contents of the Subject from the earliest texts to the present day. There will be Three Class Examinations during the Session, and at convenient intervals between them written Exercises will be done in Class. Two subjects for longer

written Essays will also be given, one before, one after Christmas : and there will be Prizes for these Essays, distinct from the general Class Prizes. A certain number of Lectures will be specially devoted to the subject of Rhetoric, the text being De Quincey's Essay, with Campbell's *Philosophy of Rhetoric*, Whately's *Rhetoric*, Bain's *Composition and Rhetoric*, and Hodgson's *Errors in English* for illustration.

On Tuesdays and Thursdays the Lectures will take for text the books prescribed for the year, some of which will be read page by page and line by line, while others will be dealt with more summarily. The prescribed books will always include parts of Chaucer, Spenser, Shakespeare, and Milton, together with portions of other writers from the sixteenth century to the present day. The Lectures on Style will be illustrated from Ward's *Poets* and Craik's *Prose Selections*.

(Honours Course, 2 to 3, three days a week in the Winter Session.)

The Professor will also give an Honours Course in two Halves of twenty-five Lectures each. The Half-Course before Christmas will be a Higher Rhetoric Course on the Theory of Prose and Verse in English, opening with a sketch of the History of Literary Criticism from Aristotle onwards. The course after Christmas will be devoted to some special subject connected with the Honours period of the year. The subject for 1904 will be "The Poetry of the 19th Century after 1830"; for 1905, "English and Scottish Poets from 1370-1520."

Honours Courses.

G. GREGORY SMITH, M.A., *Lecturer.*

OLD AND MIDDLE ENGLISH.

A full Honours Course of Fifty Lectures (in two parts of Twenty-five Lectures each) on Old and Middle English will be delivered in the Winter Session—Monday, Wednesday, and Friday from 3 to 4.

A. OCT.-DEC.—HISTORY OF OLD AND MIDDLE ENGLISH.

1. Historical Outline of the Development of the English Language (Phonology, Accidence, Syntax, and Vocabulary). Special attention will be given to the O.E. and M.E. Dialects and to Middle Scots.

2. English Palæography.

Books for reference (1 and 2).—Sweet's *Oldest English Texts* and *History of English Sounds*; Ellis's *Early English Pronunciation*; Sievers's *Old English Grammar* (ed. Cook); Kellner's *Historical Outlines of English Syntax*; Skeat's *Principles of English Etymology* (First and Second Series); Murray's *Dialect of the South of Scotland*; Gregory Smith's *Specimens of Middle Scots*; Skeat's *Facsimiles of Old English Manuscripts*; Maunde Thompson's *Greek and Latin Palæography* (chaps. xvii.-xix.).

B. JAN.-MAR.—OLD AND MIDDLE ENGLISH TEXTS.

(a) Readings in Old and Middle English, including some of the texts prescribed for the Examination for the Honours Degree, and (b) Translation of Unseen Passages.

Summer Session, 1904.

ENGLISH LITERATURE.

An Honours Half-Course of Twenty-five Lectures on The Drama in England and Scotland: the Origins and Development down to the Early Sixteenth Century.

The Class will meet on Monday, Wednesday, and Friday from 12 to 1.

FRENCH LANGUAGE AND LITERATURE AND
ROMANCE PHILOLOGY.

CHARLES SAROLEA, K.O.L., PH.D., LITT.D., *Lecturer.*

Ordinary Graduation Class—3 to 4, five times a week.

This class qualifies for the Ordinary Degree of M.A.¹ The work consists of—

1. Readings of some French author, such as Rousseau, Voltaire, Chateaubriand, Victor Hugo.

¹ See footnote 2, page 63.

2. Lectures on French Literature and History.

3. French Prose Composition, or Translation of an unseen passage once a week, and a lecture on the passage when the exercises are returned.

4. Written Examinations on the work done in the Class, and on subjects prescribed for voluntary reading.

5. Lectures on the Philology and Historical Development of the French language.

Books to be read during the Winter Session 1903-1904 :— Clédat, *Moyen-Age* ; Merlet, *Morceaux choisis* ; Victor Hugo, *Extraits* ; Taine, *Prose* ; La Bruyère, *Caractères* ; Saint-Simon, *Extraits* ; La Fontaine, *Fables* ; Mazel, *Synergie sociale*.

Honours Class—4 to 5.

The Honours French Class meets four days a week. It is intended to assist the studies of Candidates for Scholarships and Graduation with Honours. The work consists of—

1. Readings and explanations of Old French Texts, and of some of the more difficult Modern French authors.

2. Lectures on French Literature or History, and on Romance Philology.

3. French Composition and Translation of unseen passages.

4. Occasional critical papers and essays.

5. Written Examinations on the work done in the Class, and on subjects prescribed for voluntary reading.

Books to be read during the Session 1903-1904 :— Saint-Simon, *Mémoires* ; Montaigne, *Essais* ; *Chanson de Roland* ; Rousseau, *Contrat social* ; *Confessions* ; Victor Hugo, *Morceaux choisis*.

ITALIAN LANGUAGE AND LITERATURE AND ITALIAN PHILOLOGY.

Course of Fifty Lectures on the Honours Standard.

CHARLES SAROLEA, K.O.L., PH.D., LITT.D., *Lecturer.*

This Class meets three days a week. The work consists of—

1. Readings and explanations of Italian Classics of the 14th

and 16th century (with special regard to Dante), and of some of the more difficult modern Italian authors.

2. Lectures on Italian Literature and History, and on Italian Philology.

3. Occasional critical Papers and Essays.

4. Written Examinations on the work done in the Class, and on subjects prescribed for voluntary reading.

Books to be read during the Session 1903-1904 :—Dante, "Divina Commedia," "De Monarchia"; Manzoni, "I promessi Sposi"; Leopardi, Prose; D'Ancona, "Manuale della Letteratura italiana."

Students who desire to attend this Course are requested to send their names to Dr Sarolea, University, before 1st October.

GERMAN LANGUAGE AND LITERATURE AND TEUTONIC PHILOLOGY.

OTTO SCHLAPP, PH.D., *Lecturer.*

Ordinary Graduation Class—4 to 5, five times a week.

This class qualifies for the Ordinary Degree of M.A.¹ The work consists of—

1. Interpretation of some Middle High German and Sixteenth Century Texts, and of modern German authors.

2. Lectures on German Literature, History, and Philology.

3. German Prose Composition, or translation of an unseen passage, or a critical paper or German essay at least once a week, and a lecture on the papers when returned.

4. Written Examinations on the work done in the Class, and on subjects prescribed for voluntary reading.

Honours Class—3 to 4.

The Honours German Class meets four days a week. It is intended to assist Candidates for Scholarships and Graduation with Honours. The work of this Class is carried on in *German*, and consists of—

¹ See footnote 2, page 63.

1. Interpretation of Texts from Old and Modern German dialects, and of some of the more difficult modern authors.
2. Lectures on German Literature or History.
3. German Composition, Translation of unseen passages, occasional critical papers and German essays, and lectures on the papers when returned.
4. Written Examinations on the work done in Class, and on subjects prescribed for voluntary reading.

SANSKRIT AND COMPARATIVE PHILOLOGY.

PROFESSOR EGGELING.

A.—SANSKRIT LANGUAGE AND LITERATURE.

1. *Junior Class*.—Grammar and Exercises. Easy Texts (from Lanman's Reader). Easy translations from English into Sanskrit.

2. *Senior Class*.—Repetition of Grammar. Translations from English into Sanskrit. Texts such as the Hitopadeśa, Kālidāsa's Raghuvansha or Śakuntalā; Mricchakatikā; Manu's Institutes of Law; selected Hymns of the Rigveda (Lanman's Reader).

The Senior Class will be the Graduating Class in Sanskrit for the Ordinary M.A.; but those who attend with a view to Graduation must previously have passed an examination under Sect. IV., subs. 3 of the Ordinance, which will include plain passages for translation from and into Sanskrit, and grammatical questions.

Those who propose, in a subsequent session, to take up Sanskrit as a graduation subject, may attend the Junior Class during the Session 1903-1904.

B.—COMPARATIVE PHILOLOGY.

During the Session 1903-1904, the Professor will be prepared to deliver a course of Fifty Lectures on the Principles of Indo-European Philology and the history of Linguistic Studies, provided a sufficient number of Students give in their names.

HEBREW AND SEMITIC LANGUAGES.

PROFESSOR KENNEDY.

See Courses under Faculty of Divinity.

Arts Students are strongly advised to begin their study of Hebrew and Arabic by taking the Summer Tutorial Classes.

The Class of Senior Arabic, which meets three times a week, has been recognised by the University Court as a half-course qualifying for Graduation in Arts. It will meet in two successive (instead of in alternate) Sessions, when required, to suit the convenience of intending Graduates.

CELTIC.

PROFESSOR MACKINNON.

The Course for 1903-1904 will be arranged as follows :—

1. *Lectures.*—During the Session a course of fifteen to twenty lectures will be delivered on The History and Literature of the Gael, from the commencement till the year 1000 A.D., and also a course on Celtic Phonetics.

2. *Reading and Exposition.*—(1) Scottish Gaelic : Extracts for Reading, Part II. ; Stewart's Grammar. (2) Irish Gaelic : Keating's Three Shafts of Death ; O'Donovan's Grammar. (3) Old Gaelic : Extracts for Reading, Part II. ; Windisch's Grammar and *Irische Texte*.

3. *Translations from English into Modern and Old Gaelic.*

Any student who attends this Class with a view to Graduation in Arts must previously have passed an examination (under Sect. IV., subs. 3 of the Ordinance), which will be in Scottish Gaelic, or Irish Gaelic, or Welsh ; and will include translations from and into English, with grammatical, literary, and easy philological questions.

The fee for a Student who attends with a view to graduation is £3, 3s.

An Advanced Class will meet in the Winter Session, 1903-1904, on two (or three) days of the week at 3 P.M. The Class will read Old Gaelic Texts from print and manuscript. — Fee, £1, 1s.

A Gaelic Class for Junior students will meet in the Winter Session 1903-1904, on three (or two) days of the week at 3 P.M. Students will read Modern Scottish and Irish Gaelic, and commence the study of Old Gaelic. Grammar and Exercises.—Fee for this class, £1, 1s.

Text-Books.—Extracts for Reading, Parts I. and II. ; Reid's, Stewart's and Joyce's Grammars ; Windisch's Grammar.

II.—DEPARTMENT OF MENTAL PHILOSOPHY.

LOGIC AND METAPHYSICS.

PROFESSOR A. S. PRINGLE PATTISON.

Logic and Psychology—Ordinary Class—1 to 2.

The course in this class falls into three parts :—

(1) Elements of Logic, Deductive and Inductive ; (2) Outline of the main facts of Empirical Psychology, dealing more particularly with the facts and processes of cognition ; (3) Introduction to the questions of philosophy, with reference to the history of philosophy ancient and modern.

1. In the Logical part of the course the text-book used is Mellone's "Introductory Text Book of Logic."

It is extremely desirable that students, before entering the class, should have familiarised themselves with the elementary doctrines of Formal Logic to the end of Syllogism (chapters 1, 2, 3, 5, 6 in Mellone's *Text Book*. Examinations are held soon after the opening of the Winter Session to test the knowledge of the class. For those who fail to reach a reasonable standard in these examinations, separate tutorial meetings will be arranged during the early part of the session.

2. In the Psychological division of the course the lectures cover the chief topics of the Psychology of Cognition, with the Psychology of the Feelings and the Will in outline. Stout's "Manual of Psychology" will be found the best text-book to read in connection with the lectures, but the works of James, Sully, Höffding, Ward, Baldwin, and others may be usefully consulted on special parts of the subject.

3. The Philosophical lectures give a sketch of the development of speculative thought in Ancient Greece and then pass to the beginnings of Modern Philosophy. Bacon, Descartes, Locke, Berkeley, and Hume are studied in succession.

Professor Fraser's "Selections from Berkeley" and certain chapters of Locke's "Essay" and Hume's "Enquiry" are used in connection with the lectures as an introduction to the problems of modern philosophy.

Intermediate Honours Class—

3 to 4 (Mondays and Wednesdays).

This Class constitutes a half course qualifying for Honours, and meets twice a week during the earlier part of the Session, and once a week during the remainder. One section of the Lectures will deal with the Philosophy of Kant in its relation to his predecessors, and another with the principles of Modern Logic.

Students are recommended to take this class in the winter after they have attended the Ordinary Class of Logic and Psychology.

Advanced Honours Class—3 to 4 (Tuesdays and Thursdays).

This Class constitutes a half-course qualifying for Honours, and meets twice a week during the greater part of the Session.

The subjects chiefly dealt with will be Spinoza, the Development of Philosophy since Kant, and Greek Philosophy.

Summer Session, 1904.

R. P. HARDIE, M.A., *Lecturer.*

Honours Course in Ancient Philosophy.

This constitutes a Half-Course qualifying for Honours in Mental Philosophy and in Classics.

Subjects—

- I. Aristotle's Logic (as in *Selecta Capitula ex Organo Aristoteleo*).

2. Aristotle, *De Anima*.
3. In alternate years—Pre-Socratic Philosophy (Ritter and Preller, *Historia Philosophiae Graecae*, Sections 1-173 ; or, Plato's Earlier Dialogues (especially the *Protagoras*, *Meno*, *Phaedo*).

Course in Logic.

This Course consists of twenty-five Lectures, and extends over nine weeks. Its subject is the Elements of Logic, Deductive and Inductive. Attendance at this Course will exempt from attendance at the corresponding Lectures in the Winter Course of Logic and Psychology.

MORAL PHILOSOPHY.

PROFESSOR JAMES SETH.

*Ordinary Class—2 to 3.*¹

After an introductory statement of the problem and method of Ethics, and of the Psychology of Will, a sketch of the development of moral ideals in primitive, ancient, and modern times will be given, with the object of awakening reflection upon the central question of ethical science—the nature of the Moral Ideal. The investigation of this question will occupy the larger part of the course, and will be based upon a critical study of the chief systems of Ethics, in the light of their historical development. The application of the general principle thus reached to the regulation of the moral life, individual and social, will next be considered, special attention being given to the ethical basis and functions of the State, and to some of the more concrete aspects of current morality. The course will close with a discussion of the metaphysical implications of ethical theory, more particularly the question of Freedom.

¹ After Session 1903-4 this Class will meet at 12 o'clock.

The Course will consist of lectures, discussions, written examinations and essays. The text-book will be the Professor's *Ethical Principles*, and a special study will be made of Butler's *Sermons on Human Nature*, Mill's *Utilitarianism*, and Aristotle's *Ethics*, Bks. I. to III. Sidgwick's *History of Ethics* should also be studied in connection with the lectures.

Honours Class—4 to 5.

This Course of Fifty Lectures is intended for those who have attended the Ordinary Class, or have otherwise obtained a general knowledge of Moral Philosophy. The work of the class will consist of a study, by lectures and discussions, of certain parts of Ancient and Modern Ethics, more immediately related to the subjects of study for Honours.

Lectures on Kant's *Critique of Practical Reason* and Hegel's *Philosophy of Right* will be given as a part of the Honours Course by the Assistant to the Professor.

Summer Session, 1904.

HENRY BARKER, M.A., *Lecturer.*

Honours Courses in Political Philosophy and Psychology.

One or both of the following half-courses will be given, if desired by a sufficient number of students :—

1. A half-course in Political Philosophy, qualifying for Honours in Philosophy and Honours in Economic Science. This course is intended for students who propose to take Honours in Philosophy with Political Philosophy as a special subject, or Honours in Economic Science. The lectures will deal with topics selected from the following list :—

(1) Scope and method of political philosophy—relation to ethics, economics, and history. (2) General theory of political obligation ; nature and basis of the State. (3) Particular theory of rights and obligations, and the related functions of the State. (4) Structure and forms of government. (5) History of political philosophy.

Special attention will be given to the works in Political Philosophy prescribed or recommended for Honours in Philosophy and in Economic Science.

2. A half-course in Psychology qualifying for Honours in Philosophy. In this course some of the more difficult and disputed topics of psychology will be discussed, especially those which are of philosophical and ethical interest; and some account will be given of experimental problems and results. Special attention will be given to the works in Psychology prescribed or recommended for Honours.

COMMERCIAL AND POLITICAL ECONOMY AND MERCANTILE LAW.

PROFESSOR NICHOLSON.

The Course, embracing two Half-Courses of Fifty Lectures each, qualifies for Graduation in Arts and for Graduation in Law (optional with Conveyancing).

In connection with the Lectures students are expected to read the portions indicated in the Lectures of Mill's Political Economy, Bks. I. to III.; Marshall's Economics of Industry; Smith's Wealth of Nations, Bk. IV.; and the Professor's "Treatise on Money," 6th edit. For fuller treatment of the subjects of the Lectures students may consult the Professor's "Principles of Political Economy," Bks. I. to III.

1. SCOPE AND METHODS OF POLITICAL ECONOMY.—Analysis of Fundamental Conceptions, Wealth, Utility, Total and Marginal Utility, Capital, Labour, &c.

2. PRODUCTION OF WEALTH.—Meaning of Production—Agents of Production—Land Labour and Capital—Efficiency of Labour—Division of Labour—Organisation of Industry—Production on a Large and Small Scale—Accumulation of Capital—Growth of Population—Limits to the Production of National Wealth.

3. DISTRIBUTION OF WEALTH.—Private Property—Socialism—Land Tenures—Wages—Profits—Rents—Combinations of Labour and Capital.

4. EXCHANGE.—Theory of Value—Demand and Supply—Cost of Production—Money—Banking Credit—Rate of Interest—Commercial Crises—Foreign Trade—Free Trade—Foreign Exchanges.

5. PRINCIPLES OF GOVERNMENTAL CONTROL AND TAXATION.—An Elementary Treatment of the Leading Principles.

Four written Examinations and Two Essays. Essays Voluntary.

Honours Class—(Fifty Lectures, 11 to 12, Mondays, Tuesdays, Thursdays).

The Course will be devoted partly to more difficult Economic Theories not taken up in the ordinary class, and partly to the special treatment of Economic Progress, Economic Functions of Government, and Public Finance.

In connection with the lectures, Marshall's "Principles," Vol. I., the Professor's "Principles," Vol. III., and Cunningham's "Growth of English Industry and Commerce," will, as far as possible, be used as text-books.

Summer Session, 1904.

Lecturer—ARCH. B. CLARK, M.A., *University Assistant.*

ECONOMIC HISTORY AND ECONOMIC THEORY

(Mondays, Tuesdays, and Thursdays, at 12).

This Course of Twenty-five Lectures (Mondays, Tuesdays, and Thursdays, at 12) will be devoted to the discussion of leading aspects in Modern Economic History and in the History of Economic Theory. The Course is intended as preparatory for students reading with a view to Graduation with Honours in Economic Science, and for candidates for the India Civil Service.

THEORY, ART, AND HISTORY OF EDUCATION.

PROFESSOR

I. THEORY, OR PHILOSOPHY OF EDUCATION.

A.—THE END AND MATERIALS OF EDUCATION.

The Possibilities and Limits of Education. The End of Education. The relation of the School to this End. The Educative Process, generally, whereby the End is attained.

Materials or Subjects of Instruction conducive to the attainment of the End, and to the carrying out of the Process. Definition of the materials of instruction in their school sense. Distinction of Real and Formal, Humanistic and Naturalistic, subjects. Relative value of subjects for instruction and discipline respectively. Practicability of the School Curriculum.

Material conditions of the life and growth of Mind, i.e. Physiology and its Educational Lessons.

B.—PHILOSOPHY OF EDUCATION, *i.e.*

Applied Psychology and Ethics.—1. Rational Psychology : its educational relations fully treated. Periods of Mental Growth. Methodology or the Principles and Rules of the Art of Instruction which the Rational Psychology yields.

2. Psychology of the Ethical Nature of Man in its educational relations. The Real of Morality (Instruction and Training) ; the Formal in Morality (Discipline to Duty).

II. ART OF EDUCATION, OR APPLICATION OF PRINCIPLES AND RULES.

A.—*Intellectual.*—*Rules of the Art, i.e. Method in Intellectual Instruction, Training, and Discipline.*—Analytic exposition of the Rules, showing their derivation from Rational Psychology. Application of the Rules to teaching of—

(1) Real-Naturalistic subjects, *e.g.* Object-lessons, Nature-study, Elementary Science, Geography, &c., &c.

(2) Real-Humanistic subjects, *e.g.* Language as a concrete subject, Literature, Economics, History, &c.

(3) Formal subjects, *e.g.* Arithmetic, Geometry, Grammar, Foreign Languages as Grammar.

B.—*Ethical.—Rules of the Art, i.e. Method in Moral Training and Discipline.*—Motives. The Authority of the Teacher. The meaning of Authority. The nature and conditions of its exercise. Punishments, Rewards, and school discipline generally.

Organisation of a School. Organisation of a State-system. Ideas governing Primary, Secondary, and University Instruction respectively. The Manual and the Technical in Instruction. School appliances. Manipulation of a Class. The Teacher.

C.—HISTORY OF EDUCATION AND OF THEORIES.

Pre-Christian Education—A general survey of.—1. Education in Ancient Egypt. 2. Education among the Semitic Races. 3. Education of the Hindu Races. 4. The Education of the Ancient Persians. 5. Education among the Hellenic Races. The educational views of Plato and Aristotle. 6. Education among the Romans. 7. The Institutions of Quintilian. 8. Plutarch.¹

Christian Education—1. The decay of the Romano-Hellenic, and the rise of Christian, Education. 2. The Cathedral and Monastery Schools. 3. The Rise of Universities.

The Renaissance—1. Humanism as represented by Vittorino da Feltre, Elyot, Rabelais and Montaigne, Erasmus, Colet, Luther, Melancthon, John Sturm, Roger Ascham. Exposition of "The Scholemaster." The Jesuits. (*The first four fully treated.*)

The Modern Movement—1. Lord Bacon. 2. Raticlius. 3. Comenius. 4. Milton. 5. Analysis and exposition of John Locke's "Thoughts on Education," and the "Conduct of the Human Understanding." 6. Rousseau. 7. Pestalozzi, Jacotot, Fröbel, &c. 8. Dr Andrew Bell and Joseph Lancaster. 9. Dr

¹ For fuller treatment, see the Professor's book on the subject.

Arnold. 10. Herbert Spencer and contemporary Utilitarian Realism.

Note.—The books to be thoroughly studied during the Session, apart from the Lectures, are Comenius' *Didactic*, and the Professor's book on "Language and Linguistic Method," *third edition*. The "Institutes of Education" must also be in the hands of the student, *second edition*. *Four written Examinations will be held during the Session, and Three Essays on educational principles or method called for.*

Books recommended for reading in addition to those named above in the Regulations for the Diploma.—Matthew Arnold's "Report on German High Schools"; Sully's "Handbook of Psychology for Teachers"; Herbert Spencer's "Education"; De Garmo's "Herbart and the Herbartians"; Stuart Mill's "Rectorial Address"; Thring on "Teaching."

PRACTICE IN TEACHING.—*Candidates for Diploma.* Arrangements are made at the Training Colleges for securing training in the *Practice of Teaching* to the extent of the requirements of the University Schoolmaster's Diploma now recognised by the Education Department. Fee for this, £1, 1s. The School Board admit Diploma Candidates to the Royal High School, and the Heriot Governors and Merchant Company have also kindly thrown open their Secondary Schools for those who are going in for the Secondary School Diploma.

PHILOSOPHY OF LAW.

PROFESSOR SIR LUDOVIC J. GRANT, BART.

This Course of Forty-five class meetings, commencing on Tuesday, 15th October 1903, at 2, will qualify as a half-course for graduation. *Vide under Faculty of Law.*

GIFFORD LECTURES ON NATURAL THEOLOGY.

Lecturer—PROFESSOR HENRY MELVILL GWATKIN, D.D.

These Lectures were endowed by the late Adam Gifford, Senator of the College of Justice, "for promoting, advancing

teaching, and diffusing the study of Natural Theology in the widest sense of that term." . . . "The lecturers appointed shall be subjected to no test of any kind, and shall not be required to take any oath, or to emit or subscribe any declaration of belief, or to make any promise of any kind ; they may be of any denomination whatever, or of no denomination at all ; they may be of any religion or way of thinking, or, as is sometimes said, they may be of no religion ; or they may be so-called sceptics or agnostics or free-thinkers ;—provided only that the 'patrons' will use diligence to secure that they be able reverent men, true thinkers, sincere lovers of and earnest inquirers after truth. I wish the lecturers to treat their subjects as a strictly natural science, the greatest of all possible sciences, indeed, in one sense, the only science,—that of Infinite Being, without reference to or reliance upon any supposed special exceptional or so-called miraculous revelation. The lecturers shall be under no restraint whatever in their treatment of their theme. The lectures shall be public and popular, that is, open not only to students of the Universities, but to the whole community, without matriculation."

The arrangements for the next course will be duly announced.

III.—DEPARTMENT OF SCIENCE.

MATHEMATICS.

PROFESSOR CHRYSTAL.

Senior Class—9 to 10.

This is the qualifying class for the Ordinary Degree of M.A. and for the First Science Examination.¹

Algebra, including the elements of the Theory of Equations, and of Determinants, the Theory of Limits and the Elements of Curve Tracing ; Plane and Spherical Trigonometry ; Conic Sections, treated geometrically and analytically ; Modern Geometry.

¹ See footnote 3, page 66.

Intermediate Honours Class—Monday, Wednesday, Friday,
11 to 12.

The subjects of this Course will be elementary parts of the Differential and Integral Calculus, and of the Calculus of Finite Differences. Analytical Geometry, Plane, and Elementary Solid. It is assumed that the Student has a knowledge of the Theory of Equations, and of the elements of the Theory of Determinants before he joins this Class.

E. M. HORSBURGH, M.A., B.SC., *Lecturer.*

Intermediate Honours Class—Practical Division—9 to 10.

At least three meetings per week.

This course will suit Engineers and other Science Students who do not wish to make a specialty of Pure Mathematics. It qualifies as a Course for Graduation.

The work will include :—The use of Graphical Methods ; Equations ; Logarithms ; Calculations in certain branches of Algebra ; Trigonometry, with special reference to Survey Work ; Analytical Geometry ; Curve Tracing ; Elementary Parts of the Differential and Integral Calculus ; Simple Calculations in such subjects as Thermodynamics, Electricity, Mechanics.

Reference to text-books will be made throughout the Session as required. Chemical Students should consult Mellor's "Higher Mathematics."

Either of the above Courses qualifies as a full Honours Course for graduation in Arts or Science.

Advanced Honours Class—Monday, Wednesday, Friday,
10 to 11.

Qualifying as a full Honours Course for graduation in Arts or Science.

The subjects of this are the higher parts of the Differential and Integral Calculus ; Differential Equations ; Definite Integrals with special reference to Fourier's Theorem ; Functions of Laplace and Bessel ; Higher Plane Curves ; Analytical Geometry of Three Dimensions.

Additional lectures on Projective Geometry, and other special subjects are given occasionally.

Tutorial Classes.—Occasional lectures are also given by the Class Assistants. Tutorial instruction, mainly by the working of examples, will be given to the class in sections, meeting at 10 A.M. or 11 A.M., to suit the convenience of students taking other classes.

Home Exercises are prescribed weekly in all the classes.

Written Examinations are held during the Session. The class honours are determined solely by these examinations.

Text-Books.—As a rule *special* text-books are not prescribed; but the student is recommended to select from the following:—

Algebra.—Chrystal, Chambers's Mathematical Tables.

Solid Geometry and Conic Sections.—Taylor (smaller work) or Taylor¹ (larger work).

Trigonometry.—Pressland and Tweedie (M'Lelland and Preston¹ for Spherical Trigonometry).

Analytical Geometry.—Smith's Analytical Conic Sections; and Dyer's Exercises in Analytical Geometry. Students intending to take the Honours Classes are recommended to get Salmon's Conic Sections,¹ Basset's Elementary Treatise on Cubic and Quartic Curves, Salmon's Higher Plane Curves,¹ and Salmon's Geometry of Three Dimensions,¹ or, instead of the last, Smith's Solid Geometry.¹

Projective Geometry.—Macdonald's Higher Geometry, Casey's Sequel to Euclid,¹ Cremona's Elements of Projective Geometry translated by Leudesdorf,¹ or Henrici's Article¹ on *Geometry*, "Encyclopædia Britannica" (9th edition).

Higher Algebra and Theory of Equations, etc.—Burnside and Panton's, or Todhunter's Theory of Equations; Thomson's Introduction to Determinants, and Muir¹ or Scott¹; and Salmon's Higher Algebra for those who mean to read for Mathematical Honours.

Differential and Integral Calculus.—Lamb, Gibson, or Williamson's Treatises, Forsyth's Differential Equations,¹ Frost's Curve Tracing, Boole's Finite Differences.¹

¹ Recommended to those only who make Mathematics a speciality.

Summer Session, 1903.

CHARLES TWEEDIE, M.A., B.Sc., *Lecturer.*

1. *Senior Mathematics (First Graduation Half-Course)—*

11 to 12.

This Class qualifies for Graduation in Arts and Science as a First Half-Course^{1 2} in Mathematics. The work consists of Algebra and Plane Trigonometry, corresponding to the First Half of the Winter Graduation Course.²

2. *Senior Mathematics (Second Graduation Half-Course)—*

12 to 1.

This Class qualifies for Graduation as a Second Half-Course² if taken *after any* First Half-Course in Mathematics. Suitable also for Students reading for the more advanced part of the Winter Graduation Course. The work consists of Algebra and the elementary treatment of the Conic Sections, Geometrical and Analytical.

In each Class weekly exercises are prescribed, and two written examinations are held.

(A).—PROFESSOR CHRYSAL.

3. *Honours Mathematics (Graduation Half-Course)—9 to 10.*

The course will deal with the more elementary parts of Determinants and the Theory of Equations (not treated in the Winter Advanced Courses), Differential and Integral Calculus, Finite Differences, and Analytical Geometry.

(B).—E. M. HORSBURGH, M.A., B.Sc., *Lecturer.*

Intermediate Honours Class—Practical Division—9-10.

At least Three meetings per week.

This Class is a continuation of the Practical Division of the Winter Course. It qualifies as a Course for Graduation in Engineering.

¹ See footnote 3, p. 66.

² The first half of the Winter Graduation Course up to Christmas qualifies as a First Half-Course in Mathematics, and the second half of the Winter Course from Christmas to the end of the Session as a Second Half-Course. *Any* First Half-Course, along with *any* Second Half-Course, taken subsequently, qualifies as a full Course of Instruction for Graduation.

The work of the Class includes:—Analytical Geometry; Spherical Trigonometry; Elementary Parts of the Differential and Integral Calculus, and Elementary Differential Equations. These will be treated with a view to application in branches of Engineering, Chemistry, and other Applied Sciences. There will be simple calculations in such subjects as Thermodynamics, Electricity, Mechanics.

Reference to text-books will be made throughout the Session as required. Chemical Students should consult Mellor's "Higher Mathematics."

Either of the Divisions of these Courses (A or B) qualifies as a First Half-Course for Graduation in Arts or in Science.

NATURAL PHILOSOPHY including APPLIED MATHEMATICS.

PROFESSOR MACGREGOR, DR KNOTT, AND DR PEDDIE.

*Ordinary Class.*¹—Professor MACGREGOR.

Daily, 11-12—Winter Session—Qualifying for M.A. Degree.

The work of the Class is conducted partly by lectures and partly by laboratory exercises. The subjects treated in the lectures are the elements of the following:—Dynamics (including Kinematics, Kinetics and Statics), the properties of Solids, Fluids and Gases (including Gravitation, Elasticity, &c.), Sound, Heat (including Thermodynamics), Light and Radiation generally (including Geometrical and Physical Optics), and Electricity and Magnetism. Tutorial lectures are given by the Class Assistant on the solution of problems, especially in Dynamics.

Students who wish to supplement their reading by practical exercises will be allowed to do so to such extent as may be found possible, without the payment of any additional fee.

Candidates for Certificates of Merit are expected to devote special attention to Dynamics, to do such collateral reading as may be recommended, and to carry out and report upon a short series of laboratory exercises.

¹ See footnote 3, p. 66.

Four Examinations are held during the Session, at which students who wish to obtain either Qualifying Certificates or Certificates of Merit are required to appear. For the former, a knowledge of the "Intermediate" Mathematics of the Preliminary Examination is assumed; for the latter, the "Higher Standard" Mathematics.

Books for reference:—MacGregor's "Kinematics and Dynamics" or (for pass work) Selby's "Elementary Mechanics of Solids and Fluids," Knott's or Peddie's or Watson's "Physics," Tait's "Properties of Matter," "Heat," and "Light," Maxwell's "Theory of Heat," and other books to be found in the Reading Room of the University Library.

Honours Class in Dynamics—Dr KNOTT.

Monday, Wednesday and Friday, 9-10.—Winter Session (before Christmas).—Qualifying as a half-course for M.A. Honours.

The lectures treat of the less advanced portions of the Dynamics of Particles, Rigid Solids, and Flexible Strings.

A knowledge of Analytical Geometry and of the ordinary processes of the Differential and Integral Calculus is assumed.

Books of reference:—Tait's "Dynamics," Tait and Steele's "Dynamics of a Particle," and other works to be found in the Reading Room of the University Library.

Honours Class in Thermodynamics—Professor MACGREGOR.

Monday, Wednesday and Friday, 9-10.—Winter Session (after Christmas).—Qualifying as a half-course for M.A. Honours.

The work of the Class consists of a Course of Lectures on Thermodynamics.

Books of reference:—Tait's "Sketch of Thermodynamics," Baynes' "Thermodynamics," Buckingham's "Thermodynamics."

Honours Class in Electricity—Professor MACGREGOR.

Monday, Wednesday and Friday, 12-1.—Winter Session (before Christmas).—Qualifying as a Half Course for M.A. Honours.

The Class work consists of Courses of Lectures on (1) Electrostatics and Magnetism, and (2) Electrokinetics and Electromagnetism. These Courses are given in alternate years, (1 in 1903-4), and neither pre-supposes a knowledge of the other.

Acquaintance with the subjects of the Honours Classes in Dynamics and Thermodynamics is assumed.

Books recommended for reference :—Webster's "Electricity and Magnetism," Mascart and Joubert's "Electricity and Magnetism," and other works to be found in the Reading Room of the University Library.

Honours Class in Advanced Dynamics—Dr KNOTT.

Monday, Wednesday and Friday, 12-1.—Winter Session (after Christmas).—Qualifying as a Half Course for M.A. Honours.

The work of the Class consists of a Course of Lectures on the more advanced parts of Dynamics (including, in alternate years, Elasticity and Hydrodynamics) and Thermal Conduction.

A knowledge of the subjects of the Honours Class in Dynamics is assumed.

Books of reference :—Tait's "Dynamics," Thomson and Tait's "Natural Philosophy," Minchin's "Statics," Lamb's "Hydrodynamics."

*Honours Class in Physical Applications of Vector Analysis—
Dr KNOTT.*

Monday, Wednesday and Friday, 9-10.—Summer Session.—Qualifying as a Half-Course for M.A. Honours.

A Course of Lectures will be given on the Application of Vector Analysis (or Quaternion Analysis) to Dynamics and Mathematical Physics. It may be regarded as a dynamical introduction to the study of Vector Algebra, which is becoming more and more important in the higher branches of Dynamics, and especially in the Theory of Electricity and Magnetism.

Certain sections of Tait's "Quaternions" and of Kelland and Tait's "Introduction to Quaternions" (3rd edition), will be found useful for reference.

Honours Class in Wave Theory (Light and Sound).—

Dr PEDDIE.

Monday, Wednesday and Friday, 9-10.—Summer Session.—
Qualifying as a Half-Course for M.A., with Honours.

The work of this Class deals with the Mathematical Treatment of the Undulatory Theory both from the Kinematical and the Dynamical sides, and with the Mathematical Treatment of Sound.

As the whole of these subjects cannot be fully discussed in one Session, the work will be arranged on a two-year plan.

*Advanced Experimental Physics Class.—*Dr PEDDIE.

Daily, 10-11.—Summer Session.—For the work of this Class very little Mathematical knowledge is requisite, as the treatment of the subjects is purely experimental. The subjects discussed are Constitution of Matter and Kinetic Theory, Sound, Light, Heat, Electricity, Magnetism, and Electromagnetic Radiation. All of these subjects cannot be fully treated in one Session as the discussion is, in each case, carried out so as to include the results of the most recent work. Members of the Class are, therefore, desired to indicate those subjects which they wish to have treated.

The Class constitutes a full qualifying course for the final Science Examination. The experimental treatment of subjects discussed mathematically in the Honours Class will be found most useful by advanced students.

For the Syllabus of the Advanced Science course in Dynamics see Courses in Science.

For the Medical Physics Class see Faculty of Medicine.

*Junior and Senior Practical Classes.—*Professor MACGREGOR
and Dr PEDDIE.

Daily, 10 to 3.—Winter and Summer Sessions.

The work of these Classes includes the experimental investigation of simple physical laws, and the performance of laboratory

exercises intended to afford experience of the use of a variety of physical instruments and methods.

Short courses of lectures are given by the Professor on the treatment of errors and the discussion of observations.

All Students are recommended, and candidates for Certificates of Merit are required, to prepare reports on the investigations and other exercises carried out, discussing the observations made and the degree of precision of the results.

These Classes do not qualify for the M.A. degree, but are preparatory to the Advanced Practical Class.

Books of reference : Kohlrausch's "Physical Measurements," Glazebrook and Shaw's "Practical Physics," Ayrton's "Practical Electricity," Ostwald's "Physico-Chemical Measurements," Threlfall's "Laboratory Arts," and others to be found in the Reading-Room of the University Library or in the Laboratory Library.

Advanced Practical Class.—Professor MACGREGOR
and Dr PEDDIE.

Daily, 10 to 3.—Winter and Summer Sessions.

Qualifying as a Half-Course for M.A. Honours.

The work consists of the conducting of original investigations in those departments of Physics in which the Laboratory is provided with the requisite apparatus.

Students entering this Class are assumed to have acquired facility in using the experimental methods studied in the Senior Practical Class. They will find it of great advantage to have acquired a reading knowledge of French and German, and to have taken a sufficient course in the Chemical Laboratory to enable them to carry out not only qualitative but also volumetric and gravimetric quantitative analyses.

Students who engage in research, whether independently or in conjunction with the Professor or one of the Lecturers, will be required to acquaint themselves with the literature of the subject in which their investigations lie, to prepare critical reports on those portions of it with which their work is more immediately concerned, and to prepare full reports on the methods and results of their own investigations.

ASTRONOMY.

PROFESSOR COPELAND.

For Synopses of Courses see under Faculty of Science.

CHEMISTRY.

PROFESSOR CRUM BROWN.

This Course, the same as for Students of Medicine and Science, embraces One Hundred Lectures and Fifty Meetings for Practical Work in the Practical Chemistry Class-Room.

ZOOLOGY.

PROFESSOR EWART.

This Course, the same as for Students of Medicine and Science, embraces Fifty Lectures and Fifty hours for Practical Work. The whole course must extend over seventy-five separate days.

BOTANY.

PROFESSOR BAYLEY BALFOUR.

This Course is the same as for Students of Medicine and Science with additional laboratory work. Attendance must be given on seventy-five separate days.

GEOLOGY, INCLUDING MINERALOGY.

PROFESSOR GEIKIE.

Winter Course.

This Course, the same as for Students of Science, embraces Seventy Lectures, Twenty Hours for Practical Work, and Ten Field Demonstrations.

The second half of this Course (after Christmas) is a qualifying Half-Course.

Summer Course.

See under Pure Science. This Course is a qualifying Half-Course. Students are advised to take this Half-Course before the winter Half-Course.

IV.—DEPARTMENT OF HISTORY AND LAW.

HISTORY.

PROFESSOR LODGE.

The Course qualifies for Graduation in Arts. The subject, until further notice, is GENERAL BRITISH HISTORY, divided into the following Periods and Subjects:—

Part I.—1. The Original Peoples of Britain and the Roman Occupation.—2. The Growth of the English Nation.—3. The Growth of the Scottish Nation.—4. The Institutions of England before the Norman Conquest.—5. Norman and Angevin Rule.—6. Simon de Montfort and Edward I.—7. The Hundred Years' War.—8. Constitutional Development during the War.—9. The Social Importance of the Fourteenth Century.—10. The Scottish Monarchy, Nobles, and Parliament.—11. Personal Monarchy in England.—12. Social Changes in England under the Tudors.—13. The Reformation in England.—14. The Reformation in Scotland.

Part II.—15. Crown and Parliament (1603-1640).—16. The Long Parliament and the Protectorate (1640-1660).—17. Restoration and Revolution (1660-1689).—18. Colonies and Commerce (1600-1689).—19. Whigs and Tories: William III and Marlborough (1689-1714).—20. Scotland and Ireland: the Union (1689-1714).—21. The Whig Supremacy (1714-1760).—22. India and America (1714-1763).—23. George III and the Parliament (1760-1783).—24. The American War (1763-1783).—25. Pitt and the French Revolution (1783-1815).—26. Ireland: the Union (1715-1800).—27. India (1763-1815).—28. Reaction and Reform (1815-1832).

WORK OF THE CLASS.—1. Lecture daily, except Saturdays, at eleven.

2. Three Class Examinations will be held, and three or more Essays set, during the Session. Honours will be awarded to candidates distinguished both in the examinations and in the essays.

3. The History Library (adjoining Professor Kirkpatrick's Class-Room) may be consulted by members of the History Classes during specified hours.

Books recommended.—For elementary purposes, S. R. Gardiner's "Student's History of England," or Ransome's "Advanced History of England," J. R. Green's "Short History of the English People," Woodward, "The Expansion of the British Empire," with Hume Brown's "History of Scotland," and Morris' "History of Ireland" (Cambridge Series). For wider study, see the Syllabus given to the Class and the lists given in the "Introduction to English History" by Gardiner and Mullinger, part ii.

Honours Classes.

PROFESSOR LODGE.

The subject for the Session 1903-1904 is

THE HISTORY OF EUROPE FROM 1715-1815.

The following books are prescribed :—"Recueil des Instructions données aux Ambassadeurs de France, Autriche" (ed. by A. Sorel), from p. 151 ; "Diaries and Correspondence of the First Earl of Malmesbury," vols. I.-III.; Arthur Young, "Travels in France" (ed. Betham-Edwards).

Books recommended for the use of the Class.—Martin, "Histoire de France," tomes XV. and XVI. ; Carlyle, "Frederick the Great" ; Rambaud, "History of Russia" ; Mahan, "The Influence of Sea Power upon History" ; and "The Influence of Sea Power upon the French Revolution and Empire" ; De Tocqueville, "France before the Revolution" ; Mignet, "History of the French Revolution" ; Carlyle, "The French Revolution" (ed. by C. R. L. Fletcher) ; Sorel, "L'Europe et la Revolution Française" ; Seeley, "Life and Times of Stein" ; Fyffe, "History of Modern Europe," vol. I. ; J. Holland Rose, "Life of Napoleon."

This Course of Fifty Lectures qualifies for graduation in Arts with Honours in History. The Lectures will be given on Mondays, Wednesdays, and Fridays at 10.

Two class examinations will be held, and two essays set, during the session. Students in this class may attend Mr Heatley's "Mackay Lectures," without fee, and may use the History Reading-Room.

The Honours Subject for the session 1903-1904 will be—The History of Europe from 1715 to 1815.

CONSTITUTIONAL HISTORY (ENGLISH)

(with special reference to Wycliffe, the Papacy, and Bohemia).

Honours Course—Fifty Lectures.

PROFESSOR KIRKPATRICK.

I. Introductory—Constitutional principles evolved by conflicts between State and Church—Precursors of Wycliffe. II. Outline of Wycliffe's career—his doctrines—Lollardy—Survival of Wycliffe's influence. III. The Great Schism—the Empire and the Papacy—Huss, Jerome, of Prague, and Peter Payne—Luther. IV. Illustrations of Wycliffe's doctrines from his works and other original sources.

Books recommended.—Wycliffe's Works—"Select English Works," ed. by Thomas Arnold, 3 vols. 1869-71; "English Works of Wyclif hitherto unprinted," ed. by F. D. Matthew, 1880; Johann von Wiclif und die Vorgeschichte der Reformation" (by Dr G. V. Lechler, 2 vols., Leipzig, 1873) or translation by Lorimer); "Fasciculi Zizaniorum," ed. by W. W. Shirley (Rolls Series, 1858); "Political Songs," ed. by Wright (Rolls Series); "Chronicon Angliae," ed. by E. M. Thomson 1874; "Piers the Plowman," and Chaucer's "Prologue"; Walsingham's "Historia Anglicana," ed. by Riley (Rolls Series); Loserth's "Wiclif und Hus" (or translation); James Baker's "Peter Payne, a great forgotten Englishman"; Palacky's "Documenta Magistri Jo. Hus vitam illustrantia" (1403-18); Wycliffe's "Wicket"; "Triologus" (ed. by Lechler; Clar. Press); Wycliffe's "De officio regis"; Creighton's "Papacy during the Reformation," vols. I. and II.); Trevelyan's "Age of Wycliffe"; Seeböhm's "Oxford Reformers."

This course, qualifying for graduation in Arts with Honours

in History, or with Honours in English, or as a half-course for graduation in Law, will be given on Mondays, Tuesdays, and Thursdays, at 4 P.M., beginning on Thursday, 15th October 1903. (After Christmas, on Tuesdays and Thursdays only.) Students attending them may use the History Library, superintended by Mr Heatley, Mackay Lecturer and Assistant in History, who may be consulted as to reading during six hours weekly (Winter Session), at hours to be intimated in October. They may also attend Mr Heatley's Mackay Lectures without additional fee.

COLONIAL AND FOREIGN CONSTITUTIONAL LAW
AND HISTORY.

Honours Course—Fifty Lectures.

PROFESSOR KIRKPATRICK.

I. Introductory—Constitutional principles discussed—Colonial History of N. America—Colonial constitutions (Virginia, Massachusetts, Connecticut, etc.)—The U.S.A. constitution—Its influence on France—History and examination of the French constitutions (1791-1875)—Constitutional History of Switzerland, in outline—Constitutional History of Germany, in outline (1806-71)—The Germanic constitutions (Prussia, the Empire, etc.)—Constitutional History of Hungary, in outline—Constitution of Austria—Constitution of the Dual Monarchy of Austria-Hungary—Reference to other European constitutions.

Text-Books :—Thwaites' *The Colonies*, and Hart's *Formation of the Union (Epochs of American History)* ; Johnston's *History of the United States* ; Macy's *Our Government* ; Bryce's *American Commonwealth* ; Bancroft's *History of the Constitution of the U.S.A.* ; Winsor's *History of the U.S.A.* ; Adams and Cunningham's *Swiss Confederation* ; Dareste's or Demombynes' *Constitutions* ; Boutmy's *Studies in Constitutional Law* ; Borgeaud's *Adoption and Amendment of Constitutions* ; A. Lawrence Lowell on *Governments and Parties in Europe*, etc.

This course, qualifying for graduation in Arts with Honours in History, or as a Half-Course for Graduation in Law, will be

given alternately with the above Honours Course on English Constitutional History, and will begin in the Winter Session, 1904-5 ; but, if desired by intending students, it may be given in 1903-4, in lieu of the English Course.

The Mackay Lectures by Mr D. P. Heatley, University Lecturer and Assistant in History, are free to members of this Class.

The History Reading-Room (adjoining the Lecture Room) is open to members of the Class during six hours weekly, the hours being fixed at the beginning of each Winter Session.

ANCIENT (SCOTTISH) HISTORY AND PALÆOGRAPHY.

PROFESSOR HUME BROWN.

I. Ancient (Scottish) History (*Mondays, Wednesdays and Fridays*, from 4 to 5 P.M.).—The main subject of this Course is Scottish History from its origins to the close of the 15th century, but the histories of other countries will be treated, so far as they directly bear on the development of Scotland. The Course will be divided into the following periods :—(1) The Roman Occupation. (2) The Moulding of Scotland through the gradual union of Picts, Scots, Britons and Angles. (3) The Consolidation of Scotland. Under this head will be discussed the growth of Civil, Political and Ecclesiastical Institutions, and the appearance and influence of Historic Families. (4) The War of Independence. (5) The Struggle between the Crown and the Barons.

This Course qualifies for Graduation in Arts with Honours in History.

Books prescribed :—Skene, "Celtic Scotland," vol. i. ; Rhys, "Celtic Britain" (2nd Edit.) ; Hill Burton, "History of Scotland (volumes dealing with the period prescribed) ; the Professor's "History of Scotland," vol. i.

Books recommended :—E. W. Robertson, "Early Kings of Scotland" ; Bishop Dowden, "The Celtic Church in Scotland" ; Lord Hailes, "Annals of Scotland" ; Fraser Tytler, "The History of Scotland from the Accession of Alexander III. to the Union" ; Cosmo Innes, "Scotland in the Middle Ages" ;

“Sketches of Early Scotch History”; “Scotch Legal Antiquities”; Pinkerton, “History of Scotland from the Accession of the House of Stuart to that of Mary”; A. Lang, “History of Scotland,” vol. i.; Bain, “The Edwards in Scotland.”

II. Palæography (Tuesdays and Thursdays, from 4 to 5 P.M.).

This Course will deal only with Latin Palæography, and specially with the period from the 11th to the 15th century (inclusive). The opening meetings of the Class will be devoted to the study of hand-writing from the 5th to the 11th century, but the chief work of the class will consist in the reading of Scottish Documents from the 11th century. Illustrative specimens of the documents of other countries will also be read. Questions of Diplomatic will be discussed in connection with the reading of Documents.

N.B.—Some knowledge of Latin is required for this Class.

Text-Book:—Maunde Thompson, “Handbook of Greek and Latin Palæography.”

Books recommended:—Chassant, “Paléographie des Chartes et des Manuscrits”; Prou, “Manuel de Paléographie, Latine et Française”; “National MSS. of Scotland,” Part I.

Lecturer—D. P. HEATLEY.

POLITICAL SCIENCE.

A full Honours Course on Political Science for graduation with Honours in History and in Economic Science will be given in two separate parts of twenty-five lectures each:—

(1) *Winter Session*, 1903-4, on Mondays, Wednesdays and Fridays at twelve, beginning on 11th January 1904:—

The History of Political Thought since the Reformation, with a retrospect. The Course will include a comparative study of political theories.

(2) *Summer Session*, 1904, on Mondays, Wednesdays and Fridays at 10, beginning on 2nd May 1904:—

The Modern State: The Scope of Politics; Foundations, Structure and Working of the State; the Federal State; Function of Government; Legislative and Administrative

Methods ; Central and Local Authority ; Representative Government ; Problems of Modern Democracy.

Books: Woodrow Wilson, "The State"; Aristotle, "Politics"; Hobbes, "Leviathan," Part II. ("Of Commonwealth"); Locke, "Civil Government"; Mill, "Representative Government"; "The Federalist," ed. by H. C. Lodge; Gierke, "Political Theories of the Middle Age," transl. and ed. by F. W. Maitland; Dicey, "Law of the Constitution"; Janet, "Histoire de la Science Politique"; Graham, "English Political Philosophy from Hobbes to Maine."

Mackay Lecturer—D. P. HEATLEY.

BRITISH STATESMEN OF THE EIGHTEENTH AND
NINETEENTH CENTURIES.

This Course of Twenty Lectures will be given in the Moral Philosophy class-room, before Christmas, on Mondays and Wednesdays at 12, beginning on Friday, 16th October 1903.

The Lectures will treat of the following statesmen and of their political problems: Bolingbroke, Walpole, Carteret, Henry Pelham, Chatham, Burke, Pitt, Canning, Peel.

Lecky's *History* may be used in connection with the lectures.

Summer Session, 1904.

Lecturer—D. P. HEATLEY.

BRITISH HISTORY (General and Constitutional): 1066-1832.

A Course of Fifty Lectures on the Political Development of Britain. First Lecture, Monday, 2nd May 1904, at 9 A.M. For preliminary reading apply to Mr Heatley.

ANCIENT HISTORY (Classical).

H. J. CUNNINGHAM, M.A., *Lecturer.*

FINE ART.

PROFESSOR BALDWIN BROWN.

This Course of one hundred Lectures, qualifying for the M.A. degree, is designed—

1. To bring before students, by critical descriptions and illustrations, the chief ancient and modern works of Architecture, Sculpture, Painting, and the Decorative or Industrial Arts.

2. To show how these works are connected in origin and use with the national and social life of successive epochs ; and, conversely, how Artistic Monuments illustrate Classical and Biblical literature, and bear on historical investigation in general.

3. To explain as far as practicable the technicalities of the various Arts, and to open up those aspects of Art which present themselves naturally to the artist, but are sometimes overlooked by the literary student.

On the historical side—

The characteristics of different styles and schools of Art will be broadly indicated, but this part of the subject, which can be studied from books, will not be dwelt upon at length.

On the artistic side—

Particular stress is laid on the explanation of different materials and technical processes, as upon these largely depend the particular forms in which beauty is realised in the various works of human hands.

Arrangements for the work of the Class :—There are Lectures daily at 3 P.M. Three Class examinations are held, and a series of eight Essays are set for the Cousin Prize (£15). The Essays, to the number of at least five, are included in the work required from those taking the Course for Graduation.

The Class Library, Reading Room, and collections of examples are open to members of the Class.

Museums, &c., are visited from time to time on Saturdays.

The Professor's manual, "The Fine Arts," is used, so far as it goes, as a text-book. Other books to be read by those taking the Course for Graduation are indicated on page 149.

Honours Courses.

CLASSICAL ARCHÆOLOGY AND HISTORY OF
ANCIENT ART.

This Course qualifies as an alternative subject for Honours in History. For details see page 79.

HISTORY AS ILLUSTRATED IN MONUMENTS.

An Honours Course of Fifty Lectures will be given in the Winter Session, 1903-4, on History as illustrated in Monuments and Topography.

The course will be divided into two half-courses of twenty-five Lectures each, delivered one before and one after the Christmas vacation.

The first half-course will deal with the bearing of ancient monuments on the study of Greek and Roman history and literature. Among the subjects treated of will be : The archæological evidence for the pre-history of Greece ; The relation of art to the public life of Hellas ; Greek cities old and new ; Greek coins as illustrating Greek history ; The Topography of Rome ; The economics of Roman public works ; Roman roads and monuments as part of the history of the Roman imperial system.

The subject of the second half-course will be the aid afforded by monuments to the study of British History, and it will embrace a notice of civil and ecclesiastical works of various kinds connected with the life of Great Britain in different epochs of the middle ages.

Roman towns, villas, military works and roads, with their fate in Saxon times, will be used to illustrate the condition of the Britannic Provinces and the changes wrought by the Teutonic conquest, and village and borough morphology will be examined in their bearing on the constitution of society in mediæval times. Ecclesiastical institutions and monuments, including the monastery in its various forms ; and the chieftain's dwelling, with the different phases through which it has passed, will receive notice and illustration.

CONSTITUTIONAL LAW AND HISTORY.

PROFESSOR KIRKPATRICK.

This Course is divided into two half-courses : (1) Constitutional History of England ; (2) England, the Colonies, United States of America, France, Germany, Switzerland, etc. (see under Faculty of Law).

ECCLESIASTICAL HISTORY.

PROFESSOR TAYLOR.

(See under Faculty of Divinity.)

ROMAN LAW.

PROFESSOR MACKINTOSH.

A full Course qualifying for Graduation in Arts is given during the Winter Session. It is divided into two distinct parts—(i) History ; (ii) Institutes.

For details see under Faculty of Law.

PUBLIC INTERNATIONAL LAW.

PROFESSOR SIR LUDOVIC J. GRANT, BART.

This Course of Forty-five class meetings commences on 5th January 1904, at 2. *Vide under Faculty of Law.*

ADVICE TO STUDENTS REGARDING CURRICULA
IN ARTS.

1. Every intending Arts Student is advised to make himself familiar with the Regulations for Graduation in Arts before commencing his course. In particular he should make sure, in the first place, that he has complied with all the Conditions of the Preliminary Examination. He should then choose a Curriculum to suit his requirements; see that it satisfies the regulations; that he has all the qualifications necessary for entering certain Classes; and that his studies are spread over the required number of Sessions. In any case of doubt he should consult the Dean of the Faculty.

2. While Students are fully at liberty to arrange their Curricula as they deem best for their particular requirements, the Faculty of Arts strongly recommend Candidates for the *Ordinary Degree* to devote their First Session to Languages and Mathematics.

The Third Session should be devoted to those subjects which presuppose a previous training in others, such as English Literature, Political Economy, Education, the advanced subjects in History, and the Law subjects.

3. Candidates for Honours Degrees are advised so to arrange their classes that they may be able to devote the whole of the year immediately preceding the Honours Examination to the special work of their Honours Group.

4. Honours Students and Students studying for special examinations, should, as early in their Course as possible, consult the Professors of the Special Subjects which they are to study. Professor Hardie is Convener of a Committee specially charged with the Supervision of those studying for the Indian and Home Civil Service Examinations.

The attention of the students referred to under this head is directed to the Summer Classes, which afford them obvious facilities for arranging their studies so as to economise time, *e.g.*, they may take Summer half-Courses in some of the subjects in which they have to pass on the standard of the Ordinary Degree.

5. For special and detailed advice as to each subject, students should consult the several Professors or Lecturers *before entering upon their Curricula*. In particular, those who intend proceeding afterwards to Degrees in Divinity, Law, Medicine, Science, or Music, should in cases of doubt, consult the Deans of these Faculties as to the most appropriate Arts Curriculum.

Graduation in Arts.¹

Candidates who commenced attendance on qualifying Classes before 1st October 1892 are referred to the CALENDAR for 1895-96, or previous CALENDARS.

The Degree admits to professional Study, to the Army, &c. It also qualifies for Masterships of Public Schools, subject to an examination in the methods of instruction, and six months' attendance in a Public School for the practice of teaching. Those who take the Schoolmaster's Diploma are, however, exempted from this Examination, if Graduates of this University, or if, being Graduates of other Universities, they are recognised by the Education Department during the currency of the session.

ACADEMIC YEAR.

I. The Academic year commences on the first day of October. The winter session opens about the middle of October, and includes not less than twenty teaching weeks. The summer session opens about the beginning of May, and includes not less than ten teaching weeks.

II. The Curriculum for the degree of Master of Arts (M.A.) extends over not less than three winter sessions, or two winter sessions and three summer sessions.

PRELIMINARY EXAMINATION.²

III. (1) Before entering on the Curriculum (subject to the *proviso* contained in Section IV., Sub-section 1) each student must pass a Preliminary Examination in the following subjects:—

1. English.
2. Latin or Greek.
3. Mathematics.
4. One of the following:—Latin or Greek (if not already taken), French, German, Italian, or such other language as the Senatus Academicus may approve,³ Dynamics.

(2) The examination must be passed in the matters and on the standards hereinafter defined; but there is a higher and a lower standard in Latin, Greek, and Mathematics.

¹ The annual amount of Matriculation, Class Fees, &c., of the regular course in Arts may be estimated at about £10, 10s. See Regulations as to payment of Class Fees by Carnegie Trust, page 164. See Advice to Students regarding Curricula, page 116.

² See also additional Regulations of the Joint Board of Examiners, pages 478-482 inclusively.

³ Any Candidate who proposes to be examined in a language other than those above named, is required to apply to the Senatus for approval before 1st February or 1st July for the Spring and Autumn Examinations respectively.

Candidates must pass on the higher standard in at least one of these three subjects, and may pass on the lower standard in either or both of the remaining two; subject always to the conditions relative to attendance contained in Section IV. hereof.

(3) English includes Grammar and Composition, and the outlines of Geography and British History, and the standard must not be lower than that presently adopted for the Higher Grade Leaving Certificate of the Scotch Education Department.

(4) Latin and Greek comprise grammatical questions, translation into English from Latin or Greek authors not previously prescribed, and translation of plain passages or easy sentences from English into Latin or Greek. The higher standard must not be lower than that formerly adopted in the examination for a Curriculum of three sessions, or for the Higher Grade Leaving Certificate of the Scotch Education Department, and the lower standard must not be lower than that presently adopted for the Lower Grade Leaving Certificate of the said Department.

(5) French, German, and Italian comprise grammatical, literary, and easy philological questions, translation into English from French, German, or Italian authors not previously prescribed, and translation from English into French, German, or Italian; and the standard must not be lower than that presently adopted for the Higher Grade Leaving Certificate of the Scotch Education Department.

(6) Mathematics on the lower standard comprises—(1) Arithmetic, including Vulgar and Decimal Fractions, Proportion, Percentage, Square Root, Simple Interest; (2) Algebra, including Fractions, Factors, Square Root, Equations of the First Degree, Simultaneous Equations of the First Degree, Easy Quadratic Equations, Problems leading to the above Equations; (3) Geometry—Euclid, Books I., II., and III. (or their equivalents), with easy deductions. Demonstrations other than Euclid's will be accepted if they assume no propositions which in Euclid's order are subsequent to the proposition under consideration.

(7) Mathematics on the higher standard, in addition, comprises Euclid, Books IV., VI., and the first twenty-one propositions of Book XI. (or their equivalents), with deductions, Quadratic Equations, Trigonometry to the solution of Triangles inclusive, and the use of Logarithmic Tables.

(8) Dynamics means the Elementary Statics and Kinetics of Solids, Liquids, and Gases.

(9) A candidate must pass in all the required subjects at one or not more than two examinations, but may offer himself for re-examination as often as may be necessary to satisfy this condition.

IV. (1) Attendance on any class does not qualify for graduation, unless the whole Preliminary Examination has been passed. But any Student who has passed in Latin, Greek, or Mathematics on the higher standard may attend a qualifying class in such subject or subjects without having passed in the other subjects of the examination, provided always that (a) no candidate will be allowed to present himself for examination in any subject qualifying for graduation until he has passed the whole Preliminary Examination, and (b) no Student will be admitted to a degree in Arts unless he has attended qualifying classes in the University granting the degree, or in another Scottish University, as provided by Section XXV. hereof, for three Academic years after he has completed his Preliminary Examination.

(2) Attendance on a class in any language included in the Preliminary Examination does not qualify for graduation, unless the candidate, before entering the class, has passed the Preliminary Examination in that subject, and on the higher standard where a double standard is provided. He may, for that purpose, attend any Preliminary Examination held during the course of his study, taking only the paper set in that subject; provided always that the provisions of the subsection immediately preceding have been satisfied.¹

(3) Attendance on a class in any language not included in the Preliminary Examination will not qualify for graduation, unless the candidate has previously passed an examination in that language on a standard as nearly as possible equivalent to the higher standard of the languages included in the Preliminary Examination.²

(4) Attendance on a class of Mathematics or Natural Philosophy will not qualify for graduation unless the candidate, before entering the class—in addition to the examination in Mathematics on the Lower Standard required of all students—has passed an examination in the following subjects [Intermediate Mathematics]¹:—

- (a) Euclid: Book VI., Propositions 1-19, or Geometry equivalent thereto.
- (b) Algebra: Quadratic Equations, Ratio and Proportion.
- (c) The Trigonometry of Right-angled Triangles.

(5) A student, who, having passed the Arts Preliminary Examination in accordance with these Regulations, has thereafter obtained a certificate of attendance on a qualifying class of Mathematics, will not be required to pass any further examination in Mathematics as a condition of entering on the course of study for graduation in Science.

¹ Candidates are required to enter for examination at the usual periods and to pay the fee of 10s. 6d.

² Candidates who require to pass an examination for entering on the courses of Sanskrit, Hebrew, Arabic, Syriac, or Celtic, are required to enter their names and pay the fee of 10s. 6d. at the usual periods for entering for the Preliminary Examination.

V. (1) The Preliminary Examination is held at each University twice in each year, and is conducted in writing.

(2) The Joint Board of Examiners has power to accept the Higher Grade Leaving Certificate of the Scotch Education Department in any subject as an equivalent for the Preliminary Examination in that subject; and to accept the Lower Grade Leaving Certificate of the said Department as an equivalent for the Preliminary Examination on the lower standard in Latin, Greek, and Mathematics; provided they are satisfied that the standard of the examination, at which the said certificates were granted, is not lower than that required by these Regulations.

(3) The Joint Board has power to determine what examinations, if any, other than those for the Leaving Certificates of the Scotch Education Department may be accepted as equivalent to the Preliminary Examination in whole or in part, provided they are satisfied that such other Examinations are in fact equivalent thereto.

ORDINARY DEGREE,^{1 2}

VI. Candidates for the ordinary degree of Master of Arts may follow the Curriculum and take their degree in the subjects recognised for graduation under the Universities (Scotland) Act, 1858, subject always to the preceding provisions of these Regulations; or they may vary the Curriculum for graduation under the regulations contained in the immediately succeeding sections.

VII. (1) Candidates must attend full courses in at least seven subjects, and are examined on these subjects.

(2) Of these subjects four must be (*a*) Latin or Greek (not modern Greek); (*b*) English or a Modern Language (French, German, Italian, or Spanish), or History; (*c*) Logic and Metaphysics, or Moral Philosophy; (*d*) Mathematics or Natural Philosophy.

(3) The remaining subjects may be selected by the candidate from the Departments specified in Section IX. of these Regulations, under the following condition:—That the whole subjects taken must include either (*a*) both Latin and Greek (not modern Greek), or (*b*) both Logic and Moral Philosophy, or (*c*) any two of the following three subjects,—Mathematics, Natural Philosophy, and Chemistry.

VIII. (1) Each of the subjects must be studied in a full course of not less than one hundred meetings of the class on separate days, except in cases where the Senatus, with the approval of the University Court, have sanctioned, as qualifying for graduation, half courses of not less than fifty meetings on separate days; or where the Senatus, with the approval of the said Court, may, having regard to the nature of the

¹ See advice to Students regarding Curricula, p. 116.

² For Appointments Committee, see p. 164.

subject, sanction full courses of less than one hundred or half courses of less than fifty meetings respectively.

(2) Two half-courses are held to be equivalent to a full course in such cases as the Senatus, with the approval of the University Court, may determine, and under such regulations as may from time to time be made for that purpose.

(3) Where a subject is taught in a practical class, as well as in a systematic class, the Senatus, with the approval of the University Court, regulates the course of study and determines the relative proportion of lectures and laboratory or practical work.

IX. The Departments of Study for graduation in Arts in each University, if adequate instruction is provided, include the following subjects, with such additions or modifications in any University as may hereafter be made by Ordinance of the University Court :¹—

1. *Language and Literature.*

Latin.	Italian.
Greek.	Spanish.
Modern Greek.	Sanskrit.
English.	Hebrew.
French.	Arabic or Syriac.
German.	Celtic.

2. *Mental Philosophy.*

Logic and Metaphysics.	Education (Theory, History, and Art of).
Moral Philosophy.	Philosophy of Law.
Political Economy.	

3. *Science.*

Mathematics.	Zoology.
Natural Philosophy.	Botany.
Astronomy.	Geology.
Chemistry.	

4. *History and Law.*

History.	Constitutional Law and History.
Archæology and Art (History of).	Roman Law.
	Public Law.

X. Candidates who produce certificates that they have satisfied all the conditions prescribed by these Regulations, and who have passed the necessary examinations, are entitled to receive the ordinary degree of M.A. on payment of the fees required.

¹ See advice to Students regarding Curricula, p. 116.

DEGREE WITH HONOURS.^{1 2 3}

XI. (1) The degree of M.A. may be taken with Honours in any of the following Groups, in which Honours Classes have been established in at least two subjects :—

- (a) Classics (*i.e.* Latin and Greek, with optional subjects such as Comparative Philology, Ancient Philosophy, Classical Archæology, and Ancient History—Greek and Roman).
- (b) Mental Philosophy.
- (c) Mathematics and Natural Philosophy.
- (d) Semitic Languages.
- (e) Indian Languages.
- (f) English (Language, Literature, and British History). English Literature is the chief subject of this group, the linguistic and historical subjects being regarded as subsidiary.
- (g) Modern Languages and Literature.
- (h) History.
- (i) Economic Science (*i.e.* Political Economy, with either (a) Moral Philosophy or (b) History as Supplementary Honours subjects).

(2) Every candidate must take up at least five subjects. Two of these subjects, under separate Professors or Lecturers, must be selected from the candidate's Honours Group; and the five subjects must include one from each of the Departments of Language and Literature, Mental Philosophy, and Science, set forth in Section IX. of these Regulations.

(3) Every candidate must attend seven Classes, taking two Classes (one of which must be an Honours Class) in each of his Honours subjects.

(4) A candidate who has obtained Honours in any one Group may, before graduating, present himself again for examination in a second Honours Group. In such a case, he will not be required to attend more than two additional Classes, which must be Honours Classes, in the second Group.

Notwithstanding the foregoing provisions of this sub-section and of Section XIV. sub-section (1) hereof, a candidate who has already graduated may present himself for examination in any Honours Group within five years from the date of his first matriculation after having passed the Preliminary Examination. If he be successful in obtaining

¹ *Civil Service Commission Examinations.*—Candidates for Graduation in Arts with Honours are reminded that most of their subjects are admissible also in the Public Examinations held by the Civil Service Commission and other Public Examinations, on the results of which many important posts in India and at home are awarded each year. A Committee of the Senatus has been formed for the purpose of directing the studies of Students who have these examinations in view. Those who desire advice or information on this subject should apply to Professor Hardie, Convener of the above-mentioned Committee.

² For Appointments Committee, see p. 164.

³ See advice to Students, p. 116.

Honours, he shall receive a special certificate stating the Honours Group in which he has presented himself, and the class he has obtained in the Group.

(5) The examination in the subjects comprised in the candidate's Honours Group must be of a higher standard than that required for the ordinary degree of M.A. In his other subjects the standard will be that required for the ordinary degree.

(6) The Senatus, subject to the provisions of Sections XVI. to XX. of these Regulations, from time to time determines what subjects are comprised in each Group, what subjects may be taken in half-courses, and in which Group they may be taken : Provided that no new Group shall be instituted except by Ordinance of the University Court.

(7) The provisions of Section VIII. of these Regulations applies to Candidates for Honours ; but, in their case, not fewer than fifty meetings, on separate days, extending over an entire winter session, will constitute a full course for an Honours Class ; and not fewer than twenty-five meetings on separate days, extending over half a winter session, or an entire summer session, will constitute a half course.

XII. (1) Every candidate must include Latin, or Greek, either in his Honours Group or as one of the subjects in which the standard of examination is that required for the ordinary degree of M.A.

(2) Greek is compulsory for candidates for Honours in Mental Philosophy. But candidates for Honours in Mental Philosophy who have included Latin, but not Greek, as one of the subjects in which the standard of examination is the same as that required for the ordinary degree of Master of Arts, will be deemed to have satisfied the provisions of this subsection, if, before they offer themselves for the Honours Examination in Mental Philosophy, they have passed a special examination in translating into English passages from the works of Greek philosophical authors, including passages from the works of such authors not previously prescribed.

(3) Candidates for Honours in English, or Modern Languages and Literature, or History, or Economic Science (Groups *f*, *g*, *h*, *i* of Section XI. hereof) must include within the whole subjects taken for their degree (*a*) Logic and Metaphysics or Moral Philosophy, and (*b*) Mathematics or Natural Philosophy.

(4) Every candidate must obtain a certificate of attendance on the class of Latin or Greek, under sub-sections (1) or (2) of this section, before he offers himself for examination in his Honours group of subjects.

(5) Candidates for Honours in Economic Science (Group *i* of Section XI. hereof), who take Moral Philosophy as their supplementary Honours subject, may take a half course in the History of Civil Law and a half course in the Philosophy of Law, which, together, shall be deemed to constitute one of the subjects in which the standard of examination is that required for the ordinary degree of Master of Arts.

XIII. (1) The whole examination in the candidate's Honours Group must be taken at one time, and the whole examination necessary for graduation with Honours must be taken within five years from the date of the candidate's first matriculation after having passed the Preliminary Examination, unless that period shall be extended by the Senatus on special cause shown; and in every such case the Senatus must make a report to the University Court setting forth the reasons for the extension.

(2) Candidates for Honours may be examined, at any time during their Curriculum, in the three subjects in which the standard of examination is that required for the ordinary degree of M.A.

XIV. (1) A candidate who has passed the examinations necessary for the ordinary degree of M.A., but who has not yet graduated, may present himself for Honours within five years from the date of his first matriculation after having passed the Preliminary Examination, and will not be required to attend further classes:—subject always to the provisions of Section XII. hereof.

(2) No one is allowed to present himself a second time as a candidate for the degree of M.A. with Honours, who, upon examination, has failed to obtain Honours.

(3) A candidate is held to have presented himself who has notified his name for examination in accordance with the University regulations. But it will be in the power of the Senatus to relax this rule on special cause shown; and in every such case the Senatus must make a report to the University Court setting forth the reasons for the relaxation.

XV. (1) In each Group there are three Grades of Honours, to be denominated respectively the First, Second, and Third Class. The names of the candidates entitled to Honours in each class are arranged in alphabetical order.

(2) For the degree of M.A. with Honours a Diploma is given setting forth the subjects in which he has taken Honours.

BOARDS OF STUDIES.

XVI. The Senatus of each University from time to time institutes Boards of Studies corresponding as nearly as may be to the Departments of Study enumerated in Section IX. of these Regulations.

XVII. Each Board of Studies consists of such Members of the Senatus and Lecturers in the University as the Senatus may from time to time select, and the Senatus appoints one of the Members of the Board to be Convener thereof.

XVIII. Before the end of each winter session each Professor and Lecturer in the said Departments of study must submit to the proper Board of Studies for its approval a syllabus of the subjects and books proposed for the work of his class for the next Academical year; and also a syllabus of the subjects and books to be prescribed for the

Examinations for the Ordinary Degree of M.A. in the next Academical year, and for the Honours Examinations in the Academical year next but one. As soon as such approval has been given, these syllabuses must be transmitted to the Faculty of Arts for its consideration. The syllabuses, with such observations as the Faculty of Arts may see fit to make thereon, must then be transmitted to the Senatus for its sanction.

XIX. (1) Before the end of each winter session each Board of Studies must prepare a scheme, defining, for the Academical year next but one following, the classes which are deemed to be Honours Classes, and the subjects and courses of reading for Honours in its Department, and must report the same to the Faculty of Arts for its consideration. The scheme, with such observations as the Faculty of Arts may see fit to make thereon, is then transmitted to the Senatus for its sanction.

(2) Each Board must in like manner make recommendations through the Faculty of Arts to the Senatus in regard to the half-courses which may be sanctioned under these Regulations, and the lectures which may be given on special subjects.

XX. The Principal and the Dean of the Faculty of Arts are *ex officio* Members of each Board of Studies. The Convener presides, and, in his absence, each meeting appoints its own Chairman, and every Chairman has a deliberative, and, in cases of equality, a casting vote.

GENERAL.

XXI. In the case of a foreign student, whose native language is other than English, the standard required in English in the Preliminary Examination is such as the Joint Board of Examiners deems sufficient. In the case of a student, whose native language is other than European, the Senatus may accept as an alternative to Latin or Greek any other classical language, such as Sanskrit or Arabic, subject always to the provisions of Section IV., Sub-section 3 hereof.

XXII. If a student, before passing the Preliminary Examination, has attended a class qualifying for graduation, the Senatus may, on special cause shown, permit him to count such class as qualifying for graduation, on condition of his passing the full Preliminary Examination within such time thereafter as the Senatus may appoint; and in every such case the Senatus must make a report to the University Court setting forth the reasons for the relaxation.

XXIII. The examination in all the languages in the Curriculum must, as far as possible, be on the same standard in examinations for the same degree, and will in all cases test the candidate's knowledge of the history and literature of the several countries.

XXIV. A candidate for the degree of M.A. is not deemed to have attended a class as part of the Curriculum for that degree who does

not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

XXV. A student, who has given attendance at classes recognised as qualifying for graduation during one or more sessions in any one or more of the Scottish Universities, may complete his Curriculum by giving attendance during the remainder of his course in another Scottish University, and may proceed to a degree in the latter University in the same way, in all respects as if the previous part of his Curriculum had been taken therein: Provided always that every such student must produce, to the satisfaction of the Senatus of the latter University, certificates of his having passed the Preliminary Examination, and of his attendance at the former University or Universities, and must be examined in all the subjects necessary for the degree of M.A. by the Examiners of the University in which he completes his Curriculum, and in which alone he will be allowed to graduate; and that no such student will be admitted to a degree in any University unless he has given attendance in such University during the last winter session of his Curriculum, and one other winter session or two summer sessions.

XXVI. A candidate for the degree of M.A. with Honours, who has failed to be placed in any class, may, provided that in the opinion of the Examiners he has given evidence of sufficient attainments in any subject for the ordinary degree of M.A., receive from them a certificate of having passed in such subject, which will count *pro tanto* as part of the examination required under the regulations for the ordinary degree of M.A.

XXVII. The degree of M.A. is in no case conferred on persons who have not satisfied the conditions hereinbefore set forth, and is not conferred *honoris causa tantum*.

XXVIII. A student who, at the time these Regulations came into operation, had commenced his course of study with a view to graduation in Arts in any of the Scottish Universities under the regulations in force at the time in such University, may complete his course and become a candidate for the degree of M.A., with or without Honours, in conformity with such regulations. And any such student who has passed the examination hitherto required for admission to a Curriculum of three sessions, if he desire to come under these regulations, is exempted from the Preliminary Examination herein required.

XXIX. Students may attend any classes without having passed the Preliminary Examination within the meaning of these Regulations, but such attendance will not qualify for graduation.

XXX. Attendance on classes in the Faculty of Arts in which the teaching is on the standard at present recognised for the classes hitherto known as junior or middle classes, will in no case qualify for gradua

tion. It is competent for the University Court in each University to discontinue the Junior Classes, or Middle Classes, where such exist, in Latin, Greek, and Mathematics, when, in the opinion of the Court, the provision for Secondary Education in schools throughout the country is sufficient to render such classes no longer necessary.

XXXI. Ordinances numbered 12, 14, 18, and 69 of the Commissioners under the Universities (Scotland) Act, 1858, as altered under the provisions of the said Act, are repealed, in so far as they are inconsistent with these Regulations.

GRADUATION OF WOMEN.

I. It is in the power of the University Court to admit women to graduation.

II. The conditions for graduation are the same for women as for men, subject to the following modifications, which have effect until provision is made for the instruction of women in all subjects qualifying for graduation in which provision is made for the instruction of men:—

(1) Section XXV. of Regulations for Degrees in Arts is not applicable to the graduation of women in Arts.

(2) So long as within the Faculty provision is not made for the instruction of women in any subject qualifying for graduation in which provision is made for the instruction of men, it is in the power of the University Court to admit to graduation women who have received the requisite instruction in that subject in any Scottish University, or from any teacher or in any Institution, within the University town, recognised for the purposes of graduation by the University Court: Provided always that every candidate for graduation produces evidence of having satisfied the conditions with respect to the Preliminary Examination, and be examined in all the subjects necessary for graduation by the Examiners of the University.

III. So soon as within the University provision is made for the instruction of women in all subjects qualifying for graduation in which provision is made for the instruction of men, the conditions for the graduation of women shall be the same as the conditions for the graduation of men.

IV. (1) Women who may attend classes in the University must matriculate, paying a fee of the same amount as that exigible for other students. (2) Women, who are candidates for graduation but not matriculated students, and who may attend classes within a University town, under the provisions of Section II. (2) hereof, must, at the commencement of each year of such attendance, enrol their names in a book to be kept in the University for that purpose, paying a Fee of the same amount as the Matriculation Fee paid by students of the University and having, in respect of such payment, a right to the use of the Library of the University.

ADDITIONAL REGULATIONS BY THE UNIVERSITY COURT.¹

Any Woman who has received the requisite instruction in Chemistry, Botany, and Zoology in any Scottish University, or in the Medical College for Women, Chambers Street, Edinburgh, will (subject to the provisions of Ordinance No. 18, General No. 9, Regulations for the Graduation of Women,² &c.) be admitted to Examination in these subjects for Graduation in Arts. Women may attend within the University the advanced Courses in Botany and Zoology, and the Advanced Lecture Courses in the Chemistry Department.

REGULATIONS FOR SPECIAL STUDY AND RESEARCH, FOR APPOINTMENT OF RESEARCH FELLOWS, &c.

I. It is in the power of the Senatus Academicus, with the approval of the University Court, to make regulations under which graduates of Scottish Universities, or of other Universities recognised by the University Court for the purposes hereof, or other persons who have given satisfactory proof of general education and of fitness to engage in some special study or research, may be admitted to prosecute such study or research in the University.

II. It is the duty of the Senatus Academicus—

- (1) To receive and decide upon all applications for admission to prosecute special study or research.
- (2) To prepare a list of all persons so admitted (hereinafter referred to as Research Students).
- (3) To make regulations for the supervision of their work.
- (4) To satisfy themselves from time to time that the Research Students are carrying on their work in the University in a satisfactory manner.
- (5) To suspend or exclude from any course any student whose conduct or progress is unsatisfactory.

III. Every applicant for admission must send in to the Senatus Academicus a written application stating any degree or other distinction which he has already obtained, the line of study or research which he wishes to prosecute and the probable period of its duration, together with evidence as to his character, capacity, and general qualifications.

IV. An application for admission is in the first instance referred by the Senatus to the appropriate Faculty, or to a Committee appointed by the Senatus; one member of the Committee shall always be a Professor

¹ Extra Academical Teachers in Edinburgh, whose Lectures qualify Women Students for Graduation in Arts in this University:—

T. W. Drinkwater, Ph.D., Chemistry and Practical Chemistry, 17th December 1894.

² See Ordinance, Appendix to CALENDAR, 1892-93, page 51.

or Lecturer within whose department the proposed line of study or research falls. No applicant shall be recommended by the Faculty or the Committee who has not satisfied them by examination or otherwise that he is qualified to prosecute the proposed line of study or research, and further—

- (a) That his proposed line of study or research is a fit and proper one ;
- (b) That he possesses a good general education ;
- (c) That he is of good character ;
- (d) That he proposes to prosecute his studies or research during a period to be approved by the Senatus.

The Faculty or the Committee shall make a report to the Senatus upon each application. It is also their duty, subject to the regulations of the Senatus, to provide for the supervision of the Research Student's work, and to report at least once a year to the Senatus as to his progress and conduct. The Senatus shall then determine whether he shall remain a Research Student.

V. Every Research Student is required to matriculate each year, paying the ordinary fee.

VI. Research Students have access to and the use of the University Laboratories and Museums, under such conditions as to payment and otherwise as the University Court, after consultation with the Senatus, may determine.

VII. The title of Research Fellow may be conferred by the Senatus, with the approval of the University Court, on Research Students who have shown special distinction. Such title shall not of itself confer any right to stipend, but it shall be in the power of the University Court to provide a stipend of such amount and for such period as it may think fit to any Research Fellow under the powers of Section XI., Sub-section 8, of Ordinance 27.

VIII. (1) The Research Fellows shall be appointed as aforesaid after consideration of the report or reports submitted in terms of Section IV. hereof.

- (2) The title of Research Fellow may be conferred either at the commencement of the Research Student's course of study or research, or at any time during its progress, as the Senatus may determine.
- (3) Research Fellows shall retain their title and stipend, if any, for the period during which they are engaged in special study or research in the University, and no longer.
- (4) Research Students who have been appointed Research Fellows shall continue to be subject to the conditions above prescribed as to the supervision of their work and the reports to be made thereon.

IX. Nothing herein contained shall prejudice the right of Research Students to such Fellowships, Scholarships, or Prizes as may be open to them by Ordinance or Deed of Foundation.

X. The University Court may, subject to the provisions of Section XI., Sub-section 8, of Ordinance 27, provide such sums as it may think fit in aid of the expenses of Special Study or Research.

REGULATIONS FOR HIGHER DEGREES IN ARTS AND SCIENCE.
DEGREE OF D.SC.

I. Graduates who have taken the degree of Master of Arts in any Scottish University with first or second class honours in Mathematics and Natural Philosophy under the conditions prescribed by the Regulations for Degrees in Arts, or under the Regulations previously in force in such University, may offer themselves for the degree of Doctor of Science (D.Sc.) in the same University after the expiry of five years from the date of their graduation in Arts, under the same conditions as if they held the degree of Bachelor of Science.

II. Research Students within the meaning of the Regulations for the Encouragement of Special Study and Research, and for the appointment of Research Fellows may offer themselves for the degree of D.Sc. of the University in which they have prosecuted some special study or research under those Regulations, although they have not taken the degree of B.Sc. or the degree of M.A. with honours as aforesaid in that University; provided—

(1) That they hold the degree of B.Sc. or M.B. of a Scottish or any recognised University, or a degree of any such University, which the Senatus shall hold to be equivalent to the degree of B.Sc. or to the degree of M.A. with first or second class honours in Mathematics and Natural Philosophy; provided that candidates who hold any such degree from a University outside the United Kingdom may be required, if the Senatus think fit, before beginning their course as Research Students with a view to the degree of D.Sc., to pass an examination equivalent to an Honours or to a Final Science examination in a group of subjects cognate to their line of work as Research Students.

(2) That they have spent not less than two winter sessions or an equivalent period as Research Students in the University granting the degree, and that they produce evidence of satisfactory progress in the special study or research undertaken by them during that period.

(3) That a period of not less than five years shall have elapsed from the date of the graduation required in sub-section (1) of this section.

III. All candidates for the degree of D.Sc. shall present a thesis or a published memoir or work,¹ to be approved by the Senatus

¹ The Thesis must be lodged and the fees paid before 1st December.

on the recommendation of the Faculty of Science; provided that, if required by the Senatus, the candidate shall also be bound to pass such an examination conducted orally or practically, or by written papers, or by all of these methods, on the subjects of his special study or of his thesis, as may from time to time be determined. The thesis shall be a record of original research undertaken by the candidate, and shall be accompanied by a declaration signed by him that the work has been done and the thesis composed by himself.

DEGREE OF D.PHIL.

IV. Graduates who have taken the degree of M.A. in any Scottish University with first or second class honours in Mental Philosophy, under the conditions prescribed by Ordinance No. 11 [General No. 6—Regulations for Degrees in Arts], or under the Regulations previously in force in such University, may offer themselves for the degree of Doctor of Philosophy (D.Phil.) in the same University after the expiry of five years from the date of such graduation.

V. Research Students as aforesaid may offer themselves for the degree of D.Phil. of the University in which they have prosecuted some special study under Ordinance No. 61 [General, No. 23—Regulations for the Encouragement of Special Study and Research, and for the appointment of Research Fellows], although they have not taken the degree of M.A. with honours as aforesaid in that University; provided—

(1) That they hold the degree of M.A. with first or second class honours in Mental Philosophy of any Scottish University, or a degree of any recognised University, which the Senatus shall hold to be equivalent to such degree with honours as aforesaid; provided that candidates who hold such a degree from a University outside the United Kingdom may be required, if the Senatus think fit, before beginning their course as Research Students, with a view to the degree of D.Phil., to pass an examination equivalent to an honours examination in a group of subjects cognate to their line of work as Research Students.

(2) That they have spent no less than two winter sessions or an equivalent period as Research Students in the University granting the degree, and produce evidence of satisfactory progress in the special study undertaken by them during that period.

(3) That a period of not less than five years shall have elapsed from the date of the graduation required in sub-section (1) of this section.

VI. All candidates for the degree of D.Phil. shall present a thesis or a published memoir or work,¹ which shall be an original contribution

¹ The Thesis must be lodged and the fees paid before 1st December.

to learning, to be approved by the Senatus on the recommendation of a Committee appointed by the Senatus; provided that, if required by the Senatus, a candidate shall also be bound to pass such examination, conducted orally or otherwise, on the subject of his thesis or of his special study as may from time to time be determined. The thesis, or memoir, or work shall be accompanied by a declaration signed by the candidate that it has been composed by himself. If the thesis has not already been published, it shall be published by the candidate in such manner as the Senatus shall approve.

DEGREE OF D.LITT.

VII. Graduates who have taken the degree of M.A. in any Scottish University with first or second class honours in any group other than Mathematics and Natural Philosophy or Mental Philosophy, under the conditions prescribed by Ordinance No. 11 [General No. 6—Regulations for Degrees in Arts], or under the Regulations previously in force in such University, may offer themselves for the degree of Doctor of Letters (D.Litt.) in the same University after the expiry of five years from the date of such graduation.

VIII. Research Students as aforesaid may offer themselves for the degree of D.Litt. of the University in which they have prosecuted some special study under Ordinance No. 61 [General No. 23—Regulations for the Encouragement of Special Study and Research, and for the appointment of Research Fellows], although they have not taken the degree of M.A. with honours as aforesaid in that University; provided—

(1) That they hold the degree of M.A. with first or second class honours in any group except Mathematics and Natural Philosophy or Mental Philosophy of any Scottish University, or a degree of any recognised University, which the Senatus shall hold to be equivalent to such degree with honours as aforesaid; provided that candidates who hold such a degree from a University outside the United Kingdom may be required, if the Senatus think fit, before beginning their course as Research Students with a view to the degree of D.Litt., to pass an examination equivalent to an honours examination in a group of subjects cognate to their line of work as Research Students.

(2) That they have spent not less than two winter sessions or an equivalent period as Research Students in the University granting the degree, and produce evidence of satisfactory progress in the special study undertaken by them during that period.

(3) That a period of not less than five years shall have elapsed from the date of the graduation required in sub-section (1) of this section.

IX. All candidates for the degree of D.Litt. shall present a thesis

or a published memoir or work,¹ which shall be an original contribution to learning, to be approved by the Senatus on the recommendation of a Committee appointed by the Senatus; provided that, if required by the Senatus, a candidate shall also be bound to pass such examination, conducted orally or otherwise, on the subject of his thesis or of his special study as may from time to time be determined. The thesis, or memoir, or work shall be accompanied by a declaration signed by the candidate that it has been composed by himself. If the thesis has not already been published, it shall be published by the candidate in such manner as the Senatus shall approve.

GENERAL.

X. Notwithstanding and in supplement of the Regulations as to Examinations, sections XIV. and XV., the Senatus Academicus in each University shall appoint such Professors or Lecturers as it may think suitable to conduct the examination of candidates who may offer themselves under the Regulations for Degrees in Science, or of these Regulations for the Degree of Doctor of Science, Doctor of Philosophy, or Doctor of Letters; and the University Court shall, after consultation with the Senatus Academicus, appoint an additional Examiner to act along with them. Such additional Examiner shall be a person of recognised eminence in the subject of the thesis, or memoir, or work which is to be submitted for approval. The result of the examination shall be reported to the appropriate Faculty or Committee of Senatus.

XI. The degrees of D.Sc. in Mental Science or D.Sc. in Philology shall no longer be conferred by any Scottish University.

XII. Candidates who have already completed the necessary attendance on classes required for the degree of D.Sc. in Mental Science or D.Sc. in Philology, under regulations hitherto in force in any Scottish University, may proceed to the degree of D.Phil., or of D.Litt., as the case may be, under this Ordinance:—provided such candidates comply with the provisions of Section VI. or Section IX. hereof, as the case may be, and that a period of not less than five years shall have elapsed from the date of their graduation as M.A.

XIII. The degrees of D.Sc., D.Phil., and D.Litt. shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth, and shall not be conferred *honoris causa tantum*.

The fee to be paid for Examination for each of the degrees of D.Sc. D.Phil., and D.Litt. is ten guineas, payable when the thesis is lodged.¹ and the fee for each re-examination for each of the degrees is £5, 5s.¹

Avogadro's Hypothesis. Molecular weights of gaseous and volatile substances. Atomic weights. Law of Dulong and Petit. Chemical Notation—Symbols; formulæ; equations. Simple chemical calculations.

The non-metallic elements and their chief compounds; especially the compounds of oxygen, of hydrogen, and of chlorine, with the other

non-metals. The more important inorganic acids. The atmosphere. Combustion. Oxidation and reduction.

The following metallic elements and their chief compounds; especially those with oxygen, with chlorine, and with sulphur: Gold, platinum, silver, mercury, lead, antimony, tin, copper, bismuth, zinc, cadmium, iron, aluminium, chromium, manganese, barium, strontium, calcium, magnesium, potassium, sodium.

The following salts: the ammonium salts; the more important sulphates, sulphites, thiosulphates, nitrates, nitrites, carbonates, bromides, iodides, iodates, phosphates, borates, silicates.

The relations of bases, acids, and salts. Electrolysis. Quantivalence. The periodic law.

The metallurgy of silver, mercury, copper, lead, tin, zinc, iron (including cast iron and steel). Alloys, such as brass, bronze, solder, type-metal. Amalgams.

The manufacture of aluminium, magnesium, potassium, sodium, glass, porcelain, mortar, gunpowder, sulphuric acid, sodium carbonate and bicarbonate, caustic soda, bleaching powder and chlorates, wrought-iron, steel, white lead.

Classification of Carbon Compounds. Marsh Gas and its Homologues. Chloroform. Methyl and Ethyl Alcohols and Ethers. Substituted ammonias and ammonium salts. Formic and Acetic Acids, Aldehyde, Acetone, Chloral, Olefiant Gas, Acetylene, Oxalic Acid, Lactic Acid. Tartaric Acid, Citric Acid. Fats and Oils, Saponification, Glycerine. Cellulose, Sugars, Starch. Distillation of Wood and of Coal. Benzene, Benzoic Acid, Phenol, Salicylic Acid, Oil of Bitter Almonds. Hydrocyanic Acid, Cyanides, Cyanates, Thiocyanates, Urea, Uric Acid.

5. *Practical Examination.*

(a) Simple inorganic preparations on a small scale, especially such as involve the formation and decomposition of the commoner salts.

(b) The qualitative examination of single substances. The substances given for examination may be:—Salts in solution; solid salts soluble in water; carbonates, sulphides, and oxides, insoluble in water but soluble in acids; metals. The salts given are confined to those derived from the metallic and salt radicals named in the following lists:—

Silver, Mercurous, Mercuric, Cupric, Lead, Stannous, Cadmium, Bismuth, Antimony (*Tartar Emetic* may be given), Arsenious, Zinc, Manganous, Ferrous, Ferric, Chromic, Aluminium, Calcium, Barium, Strontium, Magnesium, Ammonium, Sodium, Potassium.

Carbonate, Sulphite, Thiosulphate, Sulphide, Hypochlorite (Bleaching solution), Nitrite, Chloride, Bromide, Iodide, Cyanide, Sulphate, Chromate, Orthophosphate, Arsenate, Arsenite, Borate, Oxalate, Nitrate, Chlorate, Acetate.

(c) Acidimetry and Alkalimetry.

(For further information see the *Practical Chemistry Class Book* "Salts and their Reactions," published by James Thin.)

6. *Zoology.*

(a) The General Principles of Biology.

(b) The distinctive characters of the Invertebrate groups and the structure, habits, &c., of Amœba, Paramœcium, Hydra, Arenicola, Hirudo, Helix, and Nephrops.

(c) The distinctive characters of the Vertebrate groups and the structure, habits, &c., of Gadus, Raia, Rana, Columba, and Lepus.

(d) A general knowledge of the orders of Vertebrata.

(e) The outlines of the development of Amphioxus, Rana, Gallus, and Lepus, and of the characteristic larval forms of Echinodermata, Crustacea, Annelida, and Mollusca.

(f) The Geographical Distribution of Animals.

(g) A general knowledge of Wallace's Darwinism.

7. *Botany.*

The characteristic features of the following groups and classes of the vegetable kingdom :—

Thallophyta [Schizophyta, Algæ, Fungi]; Bryophyta [Hepaticæ, Musci]; Pteridophyta [Filicineæ, Equisetineæ, Lycopodineæ]; Spermophyta [Gymnospermæ, Angiospermæ (Monocotyledones, Dicotyledones)].

The fundamental facts and principles of Organography, Physiology, and Geographical Distribution.

The life-history of the following plants :—Bacterium, Nostoc, Spirogyra, Saccharomyces, Mucor, Vaucheria, Agaricus, Collema, Puccinia, Claviceps, Eurotium, Marchantia, Fucus, Polysiphonia, Funaria, Aspidium, Equisetum, Selaginella, Pinus, Cycas, Scilla, Capsella, Helianthus, Ulmus, Quercus.

The characters of plants belonging to the chief British natural orders of Spermophyta.

8. *Geology including Mineralogy.*

1. *Dynamical Geology.*—The nature and operation of geological agents :—The Atmosphere, Rain, Terrestrial Waters, Ice, the Sea, Plants and Animals, Volcanoes, Movements of the Earth's Crust.

2. *Mineralogy.*—Characters of the chief rock-forming minerals.

3. *Petrology.*—Megascopic and Microscopic Characters, Composition, Origin and Distribution of the more important Rocks.

4. *Structural Geology.*—Structure of Rock-masses, Inclination and Curvature of Rocks, Joints, Cleavage, Metamorphism, Faults, Overlap Unconformity.

5. *Palæontological Geology.*—Characters and distribution in time, of the more important Genera and Orders found fossil in Britain.

6. *Stratigraphical Geology.*—History of the Geological Systems of the British Islands.

7. *Physiographical Geology.*—Origin of the present outlines of the Earth's surface.

IV.—DEPARTMENT OF HISTORY AND LAW.

1. *History.*

Subject of Examination for 1903-1904.

General British History, viz. :—(1) History of the British Isles from B.C. 55 to A.D. 1837, in outline; (2) The same from 1603 to 1689, in detail.

The Examiners will attach greater importance to a grasp of principles than to mere knowledge of details.

Books recommended :—(a) For the *General History*, Gardiner's "Student's History of England," or Ransome's "Advanced History of England," Green's "Short History of the English People," Hume Brown, "History of Scotland," Morris' "History of Ireland," Woodward's "Expansion of the British Empire." (b) For the *Special Period*, Gardiner, "Puritan Revolution" (Epoch Series); Hallam, "Constitutional History of England"; Firth, "Oliver Cromwell"; Macaulay, "History of England"; Mathieson, "Politics and Religion in Scotland."

2. *Archæology and Art (History of).*

The subjects for examination will be the Class lectures, the Professor's Manual, "The Fine Arts," Conway's "Dawn of Art in the Ancient World," Tarbell's "History of Greek Art," Poynter's "Classic and Italian Painting." Candidates will be expected to show some knowledge of the original authorities for the different periods of Art History.

3. *Constitutional History and Constitutional Law.*

Subjects of examination: Constitutional History and Law of England, as treated of in the Lectures, and in the works of Stubbs, Hallam, and May; and that of the U.S. of America, of France, of Germany, and of Switzerland, as treated of in the Lectures, and in the works of Bancroft, Bryce, Adams and Cunningham, Daresté, Demombynes, &c.

4. *Roman Law.*

Subjects of examination: (1) The history of the law from the foundation of Rome to the time of Justinian, and (2) a general knowledge of the principles and doctrines of the Law. Gaius' Institutes and Muirhead's "Historical Introduction," are recommended for the historical part, and Justinian's Institutes, Bk. i. to Bk. iv., Tit. viii. (inclusive), must be professed for the doctrinal part.

5. *Public Law.*

I. The Philosophy of Law.

Green, Principles of Political Obligation; Ritchie, Natural Rights; Lorimer, Institutes of Law; Ahrens, Cour de Droit Naturel; Bluntschli, The Theory of the State. The Student's Austin; Holland, Jurisprudence; Pollock, First Book of Jurisprudence; Sir H. Maine's works.

EXAMINATIONS FOR GRADUATION IN ARTS
WITH HONOURS.

(*Examinations for Honours are held in April only.*)

(See Time-Table of Examinations, pp. 140-141.)

I.—CLASSICS.

N.B.—It should be understood that a general acquaintance with the Greek and Latin writers of the classical age will be expected from all candidates; and unseen passages from other than the prescribed authors will form an important part of the examination.

Latin prose composition—Translation from Authors not prescribed. Candidates may also offer Verse Composition.

Roman History.—A general knowledge of Roman History to the death of Trajan, and a more special knowledge in connection with the historical books prescribed.

Roman Literature.—A general knowledge of the course of Roman Literature, and a more minute knowledge of the Lives and Writings of the Authors prescribed.

2. *Latin for 1905.*

Horace—Plautus, *Rudens*—Lucretius, i., ii.—Valerius Flaccus, *Argonautica*, v. and vii.—Cicero, *De Oratore*, ii.—Tacitus, *Histories*, i., ii., and *Dialogus de Oratoribus*.

Latin prose composition—Translation from Authors not prescribed.

Candidates may also offer Verse Composition.

Roman History.—A general knowledge of Roman History to the death of Trajan, and a more special knowledge in connection with the Historical Books prescribed.

Roman Literature.—A general knowledge of the course of Roman Literature, and a more minute knowledge of the Lives and Writings of the Authors prescribed.

3. *Greek for 1904.*

Homer, *Iliad*, xiii.-xxiv.—*Greek Melic Poets*, Smyth (Macmillan)—Sophocles, *Trachiniae*—Aristotle, *Ethics*, i.-iv. and x.—Polybius, *History of the Achaean League*, Capes (Macmillan)—[Longinus] *On the Sublime* (Robert's text).

Greek prose composition—Translation from Authors not prescribed. Candidates may also offer Verse Composition.

Greek History.—A general knowledge of Greek History to the death of Alexander, and a more special knowledge in connection with the prescribed portions of Polybius.

Greek Literature.—A general knowledge of the course of Greek Literature, and a more minute knowledge of the Lives and Writings of the Authors prescribed.

Greek Grammar.—As a special subject, Monro's *Homeric Grammar* (the part relating to Homeric Syntax).

4. *Greek for 1905.*

Homer, *Odyssey*, i.-xii.—Pindar, *Olympian Odes*—Æschylus, *Agamemnon*, *Eumenides*—Thucydides, B. viii.—Aristotle, *Poetics*, and *Rhetoric*, B. iii.

Greek prose composition—Translation from Authors not prescribed. Candidates may also offer Verse Composition.

Greek History.—A general knowledge of Greek History to the death of Alexander, and a more special knowledge of the period included in Thucydides.

Greek Literature.—A general knowledge of the course of Greek Literature, and a more minute knowledge of the Lives and Writings of the Authors prescribed.

Greek Grammar.—As a special subject, Monro's *Homeric Grammar* (the part relating to Homeric Syntax).

Optional Subjects.

1. *Comparative Philology for 1904 and 1905.*

Candidates who take Comparative Philology as their optional subject for Graduation with Honours in Classics, will be examined in the following branches of Linguistic Science:—(a) Science of Language, including the history and general results of Linguistic research. (b) Principles of Indo-European Comparative Philology, with special reference to the Greek and Latin Languages. (c) Etymology of Greek and Latin.

Books recommended for private study:—(a) M. Müller, *Lectures on the Science of Language*. W. D. Whitney, *Language and the Study of Language*. B. Delbrück, *Introduction to the Study of Language*. (b) P. Giles, *Short Manual of Comparative Philology*.

Also recommended for reference:—King & Cookson, *Principles of Sound and Inflection*. Brugmann's *Grundriss* (Comparative Grammar of the Indo-Germanic Languages, trans. by J. Wright, R. S. Conway, and W. H. D. Rouse). Brugmann & Stolz, *Greek and Latin Grammar* (Iwan Müller's *Handbuch der Klassischen Alterthumswissenschaft*, vol. ii.). Blas, *Pronunciation of Ancient Greek* (Cambridge University Press). (c) Curtius, *Principles of Greek Etymology*, Book ii.

Classical Archæology for 1904 and 1905.

1. The general history of the Arts of Form in Greece. To be studied in Overbeck's "Schriftquellen" and Murray's "Handbook of Greek Archæology."

2. The history of Greek Sculpture. To be studied in E. Gardner's "Handbook of Greek Sculpture" and Brunn-Bruckmann's Photographs.

Ancient Philosophy for 1904.

The Pre-Socratic Philosophy, with original authorities as quoted in Ritter and Preller, *Historia Philosophiæ Græcæ*; The Sophists and Socrates; Plato, *Phædo*, together with the outlines of the Platonic Philosophy.

Books recommended:—Zeller, *Pre-Socratic Philosophy*. (Translation by Alleyne.) Burnet, *Early Greek Philosophy*.

Or, as an alternative:

The Logic, Philosophy of Nature, and Psychology of Aristotle, with special reference to Aristotle, *Physics*, bks. i., ii.: *De Anima*, bk. i. ch. 1.; bk. ii. chs. 1-6, 12; bk. iii. chs. 1-5; Trendelenburg, *Elementa Logices Aristoteleæ*.

Ancient Philosophy for 1905.

The Pre-Socratic Philosophy, with original authorities as quoted in Ritter and Preller, *Historia Philosophiæ Græcæ*; The Sophists and Socrates; Plato, *Phædo*, together with the outlines of the Platonic Philosophy.

Books recommended:—Zeller, *Pre-Socratic Philosophy*. (Translation by Alleyne.) Burnet, *Early Greek Philosophy*.

Or, as an alternative:

The Logic, Psychology and Ethics of Aristotle, with special reference to Aristotle; *De Anima*, bk. i. ch. 1; bk. ii. chs. 1-6, 12; bk. iii. chs. 1-5; *Nic. Ethics*, bks. i.-iv. and x.; Trendelenburg, *Elementa Logices Aristoteleæ*.

Ancient History for 1904.

Greek History.—The development of the Athenian Constitution and its working, as illustrated by contemporary records; Aristotle's *Respublica Atheniensium*.

Or, as an alternative:

Roman History, B.C. 70-44, with Cicero's Letters (Watson's Selections), parts i. and ii. Caesar, Civil War.

II.—MENTAL PHILOSOPHY.¹

1. *Logic and Metaphysics for 1904 and 1905.*

A competent knowledge of the History of Philosophy and of the more advanced doctrines of Logic and Psychology. In Logic, candidates are recommended to refer to Mill's *Logic*, Venn's *Empirical Logic*, and either Bradley's *Principles of Logic* or Bosanquet's larger *Logic* ; in Psychology, to Ward's article on Psychology and James's *Principles of Psychology*.

A special knowledge of the following books :—Plato, *Sophist*—Aristotle, *De Anima*, bk. i. ch. 1 ; bk. ii. chs. 1-6, 12 ; bk. iii. chs. 1-5—Spinoza, *Ethics*—Hume, *Treatise on Human Nature*, Book i. (Of the Understanding)—Kant, *Critique of Pure Reason*—Hegel's *Logic*, in Professor Wallace's translation, chs. i.-vi.

2. *Moral Philosophy for 1904 and 1905.*

A general knowledge of the history of ethical theory, and a more special knowledge of the following books :—

Plato, *Republic*—Aristotle, *Ethics*—Kant, *Theory of Ethics* (Abbott's trans.)—Sidgwick, *Methods of Ethics*—Green, *Prolegomena to Ethics*, or Hegel's *Philosophy of Right*.

3. *One of the following special subjects to be selected by the Candidate—*

(a) Greek Philosophy. (b) Advanced Psychology. (c) Political Philosophy.

(a) Greek Philosophy for 1904 and 1905 will include (1) a more detailed knowledge of the Greek books set in the general list ; (2) Aristotle, *Posterior Analytics*.

(b) Advanced Psychology for 1904 and 1905 (1) a more detailed knowledge of Ward's *Psychology*, and James' *Principles of Psychology* ; (2) either Stout's *Analytic Psychology* or Külpe's *Outlines of Psychology*.

(c) Political Philosophy for 1904 and 1905. (1) Aristotle, *Politics*—(2) Green, *Principles of Political Obligation*, or Sidgwick, *Elements of Politics*.

¹ The special examination in Greek (see p. 123) will be held at the same time as the first paper of the M.A. Pass Examination in Greek, in October 1902 and April 1903 and will consist of (1) Passages for translation from Aristotle, *Nic. Ethics*, bk. i. ; Plato, *Republic*, bk. vi. or vii. ; (2) Easy passages for unseen translation from Xenophon, Plato, or Aristotle. Candidates must enter their names, and state which book of Plato's Republic they offer, one month before the date of the examination.

III.—MATHEMATICS AND NATURAL PHILOSOPHY.

Pure Geometry, Algebra, Theory of Equations, including Determinants, Trigonometry (Plane and Spherical), Analytical Geometry, Differential and Integral Calculus, Calculus of Finite Differences. (The Candidate may, if he please, profess the Elements of Quaternion Analysis.)

Analytical Dynamics and Thermodynamics, with at least two other branches of Mathematical Physics (such as Advanced Dynamics, Electrostatics and Magnetism, Electro-kinetics and Electro-magnetism, Wave Theory (Light and Sound), Physical Applications of Vector Analysis, &c.), or with at least one such branch and one branch of Experimental Physics (such as Heat, Light, Electricity, &c.), in which the Candidate shall have submitted to the Examiners a thesis, approved by them, embodying the results of an original investigation.

IV.—ENGLISH (LANGUAGE, LITERATURE, AND BRITISH HISTORY).

1. Candidates for Honours in English must attend at least four complete courses of Lectures within their Honours group, viz.: (a) Not less than two Courses in English Literature, of which one at least must be an Honours Course; and (b) not less than two Courses—one of which at least must be an Honours Course—in the Subsidiary subjects, English Language and British History; or in either of them.

2. Every such candidate must be examined in all the three subjects mentioned in the Regulations, Section XI. (1) f.

*Subjects for 1904.*1. *Literature.*

1. Rhetoric and the Principles of Literature. The Professor's *History of Criticism*, vols. i. and ii., is recommended. Knowledge of the following required:—Aristotle's *Rhetoric* and *Poetics*; Quintilian's *Institutes*, especially books ix. and x.; Longinus, *On the Sublime*; Dante, *De Vulgari Eloquentia*; Jonson, *Discoveries*; Dryden, *Essay of Dramatic Poesy*; Addison, *Essays on Paradise Lost* and *The Pleasures of the Imagination*; Pope, *Essay on Criticism*; Johnson, *Lives of Cowley, Milton, Dryden, Pope, and Gray*; Wordsworth's *Prose Prefaces*; Coleridge, *Biographia Literaria*, cap. xiv. to end; M. Arnold, *Essays in Criticism* (Preface and two first Essays, with Prefatory Essay to Ward's *Poets*); Masson's *Essay on Milton's English and Versification* (in Edition of Milton); Guest's *English Rhythms*.

2. History of English Literature. (1) *General*.—*Books recommended*:—Ten Brink's *Early English Literature* (transl. by Kennedy); Stopford Brooke's *Early English Literature*; Ward's *English Dramatic Literature*; Saintsbury's *Short History of English Literature, Elizabethan Literature and Nineteenth Century Literature*; Gosse's *Eighteenth Century Literature*; Ward's *English Poets*; Craik's *English Prose*; Irving's *History of Scottish Poetry*. (2) *Special*.—Literature

of the Nineteenth Century. Candidates are expected to show thorough knowledge of the following :— Wordsworth, Byron, Shelley, Landor, Southey, in *Golden Treasury Selections*; Keats' *Poems*; Macaulay's *Essays on Restoration Drama, Clive, Ranke, Boswell's Johnson*; Carlyle, *Sartor Resartus* and *John Stirling*; Tennyson, *Poems to 1859*; Browning, *Selections*, 2 vols.; Matthew Arnold, *Selected Poems* and *Essays in Criticism*.

3. The subjects of any other Honours Course in English Literature the Candidate may have attended.

Candidates will be required to write a Critical Essay on some subject arising out of Nos. 1, 2, or 3.

2. Language.

1. The History of Old and Middle English. For Books recommended for reference see Course on the History of Old and Middle English.

2. *Special Readings*.—*Beowulf*, ll. 1-1250; *Judith*; Prose Passages in Sweet's *A.-S. Reader* (7th edit.); *King-Horn*; Minot's *Poems*; Chaucer, *The Tales of the Man of Lawe and the Pardoner*; *The Complaynt of Scotlande*. Also Sweet's *A.-S. Reader*, parts i. and ii. (*Archaic and Dialectal*), and Morris and Morris and Skeat's *Specimens*, parts i. and ii., in illustration of O.E. and M.E. Dialects.

3. Unseen passages in O.E. and M.E. for translation into modern English.

3. British History.

Either (a) British History from B.C. 55 to A.D. 1837 in outline, and (b) British History, A.D. 1603-1714 in detail; or, in the option of the Candidate (a) State and Church in England 1360-1563, and (b) Original sources relating to that period. The Examination will have special reference to Dr Lechler's *Wycliffe*; *Wycliffe's de officio regis*; the Vision of *Piers Plowman*; Prologue to Chaucer's *Canterbury Tales*; Fortescue's *Governance of England*; and Seebohm's *Oxford Reformers*. For other books recommended, see Outlines of Lectures.

Subjects for 1905.

1. Literature.

1. Rhetoric and the Principles of Literature. The Professor's *History of Criticism*, vols. i. and ii., is recommended. Knowledge of the following required :—Aristotle's *Rhetoric* and *Poetics*; Quintilian's *Institutes*, especially books ix. and x.; Longinus, *On the Sublime*; Dante, *De Vulgari Eloquentia*; Jonson, *Discoveries*; Dryden, *Essay of Dramatic Poesy*; Addison, *Essays on Paradise Lost* and *The Pleasures of the Imagination*; Pope, *Essay on Criticism*; Johnson's *Lives of Cowley, Milton, Dryden, Pope, and Gray*; Wordsworth's *Prose Prefaces*; Coleridge, *Biographia Literaria*, cap. xiv. to end; M. REGULATIONS FOR SCHOOLMASTER'S DIPLOMA.

1. Candidates for the Schoolmaster's Diploma must be graduates in Arts of a Scottish, English, or Irish University, or of some other University approved of by the Senatus and the University Court.

2. Each Candidate must have matriculated in the University for the year in which he presents himself for the Diploma.

3. Each Candidate must have attended the Class of the Theory, Art, and History of Education in the University.

4. Each Candidate must pass an Examination in the Theory, Art, and History of Education, to be conducted by the Professor of that subject, and an Examiner appointed by the University Court.

5. The subjects of Examination are announced annually in the *University Calendar*.

6. Each Candidate must give evidence either—

(a) That the Candidate has attended a Course of Practical Instruction as a King's Scholar in a Training College for Teachers ; *or*,

(b) Has gone through a complete course of Practical training in a Training College for Teachers—the Course to extend over not less than five months (eight hours weekly), and to include Demonstration and Criticism Lessons ; *or*,

(c) Has completed a Practical Course in St George's Training College, Edinburgh, and passed the practical examination of the University of Cambridge Syndicate.

N.B.—*Those desirous of obtaining the Secondary School Diploma will further be required to spend a month in a Secondary School.*¹

¹ The Heriot Governors, the Merchant Company, and the School Board of Edinburgh, have thrown open their Secondary Schools to students preparing for the Diploma.

7. Each Candidate must further satisfy the University of his practical aptitude as a Teacher by teaching a class in some special Subject or Subjects in which he has received instruction in the University, or in any Institution recognised by the University as qualifying for Degrees.

8. Each successful Candidate will receive a Diploma signed by the Vice-Chancellor of the University, or, in his absence, by the Principal or the Senior Professor. This Diploma is of two grades: (a) *Secondary School Diploma*, for Masters of Arts with Honours in any Department, testifying to their fitness for Secondary Schoolmasterships, and will state the Special Subjects in which the holder of the Diploma is qualified. When a Candidate requires special mention made of his competency to teach French or German, he is required to pass a practical examination in French or German pronunciation and conversation; (b) *General Diploma*, for those who have taken the ordinary Degree of M.A. This is recognised by the Scottish and English Education Departments as qualifying (in the case of Graduates of the University of Edinburgh and all other graduates recognised by the Education Department) for employment in Public Schools.

9. The Fee for the Diploma is £2, 2s.

The Examinations begin on Wed., 14th Oct. 1903, at 9 A.M., and on Friday, 25th March 1904, at 2.30 P.M., and Candidates are required to enter their names and pay the Fees at the *Matriculation Office* on or before 1st October and 3rd March.

The subjects of Examination are the same as for Graduation in Education (which see, page 146), but the Standard of Pass is much higher. And, in addition, the following books:—Quintilian's "Institutions," Books I. and II.; "The History of Education, Hellenic and Roman," as in the "Historical Survey of Pre-Christian Education," by the Professor; also "Studies in the History of Educational Opinion since the Renaissance," by the Professor.

A short Thesis will be prescribed to be written in the Examination Room on an Educational subject.

Books recommended for reading in addition to those named above and on page 146:—Matthew Arnold's *Report on High Schools in Germany*; *Thring on Teaching*; Sully's *Handbook of Psychology for Teachers*; Herbert Spencer's *Education*; Stuart Mill's *Rectorial Address, University of St Andrews*. *The Training of Teachers and Methods of Instruction* by Professor Laurie.

After obtaining the Diploma, early application should be made to The Secretary, Scotch Education Department, Dover House, London, asking for recognition as a Certificated Teacher.

I.—EXAMINATION FOR CANDIDATES FOR THE ARMY.

1. Graduates in Arts or in Science of this University, or anyone who has passed the Examinations for either of these degrees are eligible for Commissions in the Army. The limit of age is 17 to 23.

2. Students of this University who have passed "the Examination of Candidates for the Army," are also eligible for Commissions. They are required to attend one class in each of the following three Departments—viz. (a) Latin or Greek; (b) Logic, Moral Philosophy, or Rhetoric and English Literature; (c) Mathematics or Natural Philosophy,—and to pass the Examination on the M.A. standard, in the three subjects in which they have attended classes. The limit of age in this case is 17 to 22.

Candidates for Certificates must enter their names in and pay the Fees at the *Matriculation Office* at the same time as the Candidates for the M.A. Examinations. The Fee for the Examination is two guineas.

II.—THE CARNEGIE TRUST.

Instructions to Applicants for payment of Class Fees in the University, and in the Extra-mural Classes, attendance on which is recognised for graduation in the University.

Three qualifications are demanded. The applicant (1) must be over sixteen years of age; (2) must be of Scottish birth or extraction, or must have given two years' attendance after the age of fourteen at a school or institution under inspection of the Scotch Education Department; and (3) must be qualified by preliminary examination under the ordinances of the Scottish Universities Commission and the regulations of the Joint Board of Examiners, to attend the classes for which payment of fees is to be claimed. These Regulations may be altered.

Schedules of Application to be admitted to the benefit of the Trust can only be had by written application to the Secretary to the Trust, 14 Hanover Street, Edinburgh; and in writing for these, Applicants should state the University and Faculty in which they propose to study.

III.—APPOINTMENTS COMMITTEE.

The Senatus has instituted an Appointments Committee to assist Students and Graduates in obtaining Educational posts. A Register of available persons, with a Statement of their qualifications, is kept in the Matriculation Office. Schedules of Application may be obtained at the Matriculation Office. In order to cover expenses, a fee of 5s. is payable by each applicant on obtaining a permanent appointment through the Committee, or 2s. 6d. on obtaining a temporary one. Communications should be addressed to "The Convener of the Appointments Committee, University, Edinburgh."

(2.) Applications must be lodged with the Clerk of Senatus at least three weeks before the Annual Bursary Examination of the University, along with evidence of compliance with Rule I. (3.) One will be awarded annually to the candidate, matriculating for the first time in this University, who obtains the highest marks at the Entrance Bursary Examination in English, Latin, Greek, and Mathematics, provided the Examiners be satisfied with the standard he has attained. (4.) Each will be tenable for three years, value about £26, 13s. 4d. per annum. (5.) Failing candidates of the first year, the vacant Bursary will be awarded as a second year Bursary to the candidate who obtains the highest marks in the Bursary Examination for the second year; and, failing candidates of the first and second years, it will similarly be awarded as a third year Bursary. When awarded under this Rule it is tenable for one year only. (6.) Failing candidates qualified under Rule III. or Rule V., the Senatus may continue one of the Bursaries to its holder for a fourth year, provided he propose to continue his studies for a fourth year in some special subject. (7.) Each Bursar must be *bona fide* engaged in studying for a Degree in Arts or in Science, and must produce evidence at the end of each Winter Session that he has attended at least two classes in the Faculty of Arts, or in a Department of Science, and has made reasonable progress in his studies. (8.) Any breach of these regulations, or conduct unworthy of a scholar and a gentleman, will be punished by forfeiture of the Bursary. See Deed of Foundation, p. 497 of CALENDAR, 1887-88, and Regulations at p. 544 of CALENDAR for 1890-91. *Bursars*—1899, H. L. Mackenzie; 1901, William Ross; 1902, James A. Roy, John Alexander, for one year.

LXV. *Allan Bursaries*.—These Bursaries are available to Students attending classes in any of the Faculties of Arts, Medicine, or Law, in the University of Edinburgh, or to Students attending the classes in said University necessary for Degrees in Science; and are tenable for three years or for such part of that period as the Bursar shall remain a Student at the University. In

nominating Candidates for presentation to the Bursaries, care will be given to prefer such as have been born in the parish of Kelso, provided they are qualified by their previous education for entering the University. Apply to P. Stormonth Darling, Esq., writer, Kelso.

LXVI. *James Fairbairn Bursary*, founded by Mrs Kidd of Palmyra, Aigbarth, near Liverpool, in memory of James Fairbairn, late Governor of Heriot's Hospital, is open to competition to first year Students, and is tenable for four years. The Bursar is required to attend the Classes necessary for Graduation in Arts, and to take the Degree at the end of the Course. The Bursary cannot be held along with any other Bursary or Scholarship. See Deed of Foundation, p. 501 of CALENDAR, 1887-88. *Bursar—1900, A. F. Giles.*

LXVII. *Jardine of Thorlieshope Bursaries*.—Open only to natives of the rural districts of Roxburghshire and Dumfriesshire (villages and towns of the population of 2000 and upwards being excluded), who have attended the Public or Board Schools in said counties. In the event of there being no first year Candidates, the Bursaries will be thrown open to Candidates of the second, third, or fourth year in succession, but will be tenable for one year only. The Bursars are required to attend the Classes necessary for Graduation in Arts, and to take the Degree at the end of the Course. The Bursaries cannot be held along with any other Bursary or Scholarship. See Deed of Foundation, p. 497 of CALENDAR, 1887-88. *Bursars—1900, James M'Caig, David Henderson, George Young; 1901, Gilbert Carmichael, George Laidlaw, James S. Little.*

LXVIII. *The Glenbuck Bursary* may be held by a Student in any of the four Scotch Universities—preferably that of Glasgow or of Edinburgh. Candidates only are eligible who have resided not less than five years in the Parish of Muirkirk, and who have received part of their education at any school therein, or alternatively and postponed thereto, those who have been resident in any one of the Parishes of South Ayrshire for not less than five years, and who have received part of their education in any school in the same Parish. For further particulars, apply to Mr R. A. Leslie, Inspector, Muirkirk.

LXIX. *MacKenzie (Stornoway) Bursary*.—Candidates of the name of MacKenzie have a preference. The Examination is the same as for First Session Open Bursaries, and the Bursary will be awarded to the Candidate who stands highest, provided he has passed the Preliminary Examination in at least two subjects, one of which must be Latin, Greek, or Mathematics on the Higher Standard. Failing a preferential Candidate, the Bursary will be thrown open to competition as a first year Bursary in Arts. The Bursar is required to attend the Classes necessary for Graduation in Arts, and to take the Degree at the end of the course. For Regulations, see CALENDAR for 1895-96, p. 748. *Bursar—1900, John C. Mackenzie.*

LXX. *The Maclaurin Bursary*, tenable for four years, is by the will of the founder to be called the "Maclaurin Bursary," and is restricted to Students of the Founder's name of Maclaurin (or in Gaelic orthography "Maclalhrin"). The holder must pass the Preliminary Examination. It may be held in any of the Faculties. See Deed of Foundation, p. 544 of CALENDAR for 1890-91.

LXXI. *The Simson Bursaries* are each of the annual value of £25, and tenable for three years in the Faculty of Arts. They are open to Students who, having passed the Preliminary Examination, are entering on the first year of the Course in Arts, and are studying for the Ministry of the Church of Scotland. For conditions of tenure and subjects of examination, apply to the Rev. George T. Jamieson, The Manse, Portobello, Clerk to the Presbytery of Edinburgh.

LXXII. *Bailie Cousin's Bursary* is open for competition to Students entering the Faculty of Arts on a regular course for the Degree of M.A. The holder must regularly pass the departmental examinations appropriate to each year. The Bursary cannot be held along with any Fellowship, Scholarship, or Bursary of any Scottish University, or with any situation or appointment yielding an annual income of £30 or upwards. For Deed of Foundation see CALENDAR 1891-92, page 536. *Bursar*—1900, L. F. Robertson.

LXXIII. *Maule Bursaries*—These Bursaries are for the education of poor and deserving Students. They may be held by Students prosecuting their studies in any of the Faculties. The Examination is the same as for University Open Bursaries. See Excerpt from Trust Deed, p. 543 of CALENDAR for 1891-92, and Deed of Foundation, in CALENDAR for 1894-95. *Bursars*—1898, A. J. Ross, Andrew Remwick (five years); 1899, F. J. Chalmers; 1900, James Munro.

LXXIV. *The Donald Fraser Bursary* is awarded for high merit in the University Class of Natural Philosophy, combined with proficiency in Laboratory Work. The Bursar is required to give assistance in the University Physical Laboratory, and to engage in research there. The Bursary cannot be held along with any other Fellowship, Scholarship, or Bursary in any Scottish University. See Deed of Foundation, p. 545 of CALENDAR for 1891-92. *Bursar*—1903, G. W. Scarth.

LXXV. *The Baxter of Balgavies Bursaries* are open both to men and women who have been educated in the High School of Dundee for at least one year immediately preceding the competition. The subjects of Examination, and the values attached to each subject, are the same as for the Open Bursaries in Arts, with the omission of Italian, and the addition of Chemistry (full marks, 50), as a subject of Examination. Candidates may select not more than five subjects, and the successful candidates may study for the Degrees of M.A., B.Sc., B.L., LL.B., or M.B., Ch.B.

The successful candidates must have passed the Preliminary Examination in Arts or Science, or its equivalent. For Regulations, see page 429 of CALENDAR for 1897-98. *Bursars*—1901, W. J. C. Lawrie.

LXXVI. *The James Stuart Bursary* is tenable by a native of Parishes of Callander or Trossachs studying in any Scottish University with a view to taking the Degree of M.A. *Patrons*—The Kirk-Sessions of Callander and Trossachs.

LXXVII. *The Masterton Memorial Bursary*, of £30 a-year, tenable for three years, for the benefit of sons and daughters of ministers and missionaries of the United Free Church. Candidates may take the Bursary Examination in five, but not more than five subjects, one of which must be either French or German. The Bursary will not be awarded to any Candidate who has not passed the Preliminary Examination (including either Latin or Greek on the Higher Standard,

and either French or German) with a view to Graduation. For further information apply to Mr J. Forbes Moncrieff, C.A., 22 Hill Street, Edinburgh, before 1st September.

LXXVIII. *The London Inverness-shire Association Bursary*, of the value of £18 a year, and tenable for three years, is open, in the first place, to natives of the County of Inverness. The Examination is as for First Year Open Bursaries, with Gaelic (full marks 100) as an additional subject. Failing Preferential Candidates the Bursary may, with the consent of the Patrons, be awarded to the Candidate who stands highest in the Examination, and has at least obtained 50 per cent. of the available marks in Gaelic. Preferential Candidates to apply to James Doak, Esq., Hon. Sec., London Inverness-shire Association, 16 Mark Lane, London, E.C.

LXXIX. *Lanfine Bursaries*.—These Bursaries, each of the value of about £35 a year, and tenable for two years (but not after graduation), will be awarded annually, one in each of two Honours Groups in the following rotation:—1. English. 2. Modern Languages and Literature. 3. History. 4. Economic Science. 5. Classics. 6. Mental Philosophy. 7. Mathematics. Students shall be eligible after the completion of one academic year or their first Winter Session, but not later than the beginning of the fourth academic year from date of first matriculation. Every Candidate must have attended two Classes (Ordinary or Honours) within his Honours Group. *Bursars*—1903, *James Munro (Eng.)*; *Lilias B. Howden (Mod. Lang.)*.

XXIII.-XXXII. VANS DUNLOP SCHOLARSHIPS.

TEN VANS DUNLOP SCHOLARSHIPS, each of the annual value of about £100, and tenable for three years, are, by the Deed of Foundation, appropriated to the following subjects:—1. English Literature and Poetry; 2. Classical Learning—Latin and Greek; 3. Commercial and Political Economy and Mercantile Law; 4. Logic and Metaphysics; 5. Natural Philosophy; 6. Mathematics; 7. Hebrew and Oriental (Semitic) Languages; 8. History; 9. Moral Philosophy; 10. Sanskrit and Comparative Philology. In terms of the Trust-Disposition (which is given at p. 380 of CALENDAR for 1880-81), the Scholarships are given only for “distinguished proficiency” in the various subjects of competition, as determined by the Examiners and the Senatus Academicus.

The following are the General Regulations for the Examinations:—

Competitors for these Scholarships must have regularly attended at least one full Course or two Half-Courses in the University of Edinburgh during each Academic year in which they claim to have been Matriculated Students, and no Candidate is eligible who has discontinued attendance at the University of Edinburgh for more than one year. The years of Academic study count from the first year in which a Candidate has attended one of the classes qualifying for the degree of M.A.

Each Scholarship is tenable on condition that the Scholar submits annually to the University evidence that he is prosecuting his studies, or his professional work, in a manner satisfactory to the Senatus. The evidence may consist of—(1) Certificates of attendance on Lectures or Laboratories in this or some other University; or (2) Certificate of having acted as Assistant to a Professor in this or some other University; or (3) A written Report of work done by the Scholar during the year, together with a Thesis composed by himself on a subject connected with that work.

Not more than one of these Scholarships can be held by the same person, and Vans Dunlop Scholars cannot hold, along with their Scholarship, any other Fellowship, Scholarship, or Bursary in the University of Edinburgh.

Candidates for the Vans Dunlop Scholarships must, on entering for the Examinations, produce evidence that they have fulfilled the conditions of eligibility.

Candidates, if not already matriculated, are required to pay the Matriculation Fee for the year in which the competition takes place.

The names of Candidates highly distinguished in the Vans Dunlop Scholarship examinations may be published.

XXIII.—ENGLISH LITERATURE AND POETRY.

Candidates are subjected to an Examination testing—(1.) Knowledge of the History of English Literature generally, and more particularly through a prescribed period; (2.) Acquaintance with certain books, chiefly of English Poetry, prescribed for special reading; (3.) Ability in English Composition, in the form of an Essay, written in the Examination Room, on some subject of literary criticism.

The Competition is open to all who have been Matriculated Students for not less than two years in this University, and who have not completed five academic years either in this University alone or in this and any other University or Universities together; and who have given regular attendance in the Class of Rhetoric and English Literature, and in at least one other class on English Language or Literature. The next Competition may take place in March 1906.

The Professor of Rhetoric and English Literature, and an Examiner appointed by the Senatus, are the Examiners.

1903. *George A. Waters, M.A.*

XXIV.—CLASSICAL LEARNING—LATIN AND GREEK.

1. *Latin*.—The Examination will test:—

(a.) Power of Latin Composition, and of translating from Latin authors not previously prescribed.

(b.) Knowledge of Roman History and Literature.

2. *Greek*.—(a.) Power of Greek Composition, and of translating from Greek authors not prescribed.

(b.) Knowledge of Greek History and Literature.

The Competition is open to all who have been Matriculated Students for not less than two years in this University, and who have not completed four academic years either in this University alone or in this and any other University or Universities together; and who have given regular attendance in the Latin and Greek Classes necessary for graduation in Arts.

The next Competition will take place in October 1905.

The Professors of Humanity and Greek are the Examiners.

1902. *George Robertson.*

D. H. Wares, lapsed Scholarship, for one year.

XXV.—COMMERCIAL AND POLITICAL ECONOMY AND MERCANTILE LAW.

The Examination will test knowledge of the subjects assigned in the Deed of Endowment to the Chair of Commercial and Political Economy and Mercantile Law. It will include the subjects embraced in the Lectures, and also in books prescribed from time to time by the Appropriate Board of Studies.

The Competition is open to all who have been Matriculated Students

for not less than two years in this University, and who have not completed five academic years either in this University alone or in this and any other University or Universities together; and who have regularly attended the Class of Commercial and Political Economy and Mercantile Law. 1901. *H. C. Norman, M.A.*

XXXIII.—SKIRVING SCHOLARSHIP FOR MORAL PHILOSOPHY.

This Scholarship is to be founded (after the death of an annuitant) in accordance with the Will of the late David Skirving, of No. 13 Westbourne Park, London. It will be of the annual value of about £50, and tenable for three years. See Deed of Foundation at p. 350 of CALENDAR for 1876-77.

XXXIV.—LANG SCHOLARSHIPS.

This is a Bequest by the late John Lang, Esq. of Warren Park, Ayrshire, with the object of founding four Scholarships, to be called the "Lang Scholarships," one in Natural Philosophy, one in Mathematics, one in Chemistry, and one in Botany. The capital sum will be payable on the death of the survivor of two liferenters.

XXXV.—MACKAY SMITH SCHOLARSHIP IN NATURAL PHILOSOPHY.

This Scholarship is of the annual value of £25, and tenable for two years, is open for Competition to Students who have attended the Class of Natural Philosophy in this University. The successful candidate is required to attend the class of Natural Philosophy, or to prosecute the study of Natural Philosophy during at least one year of his tenure of the Scholarship, in such a way as the Senatus may direct or approve. The next award may be made in April 1904.

1902. *Thomas Oliver, B.Sc.*

XXXVI.—GEORGE SCOTT (TRAVELLING) SCHOLARSHIP.

This Scholarship, of about £35, 15s., is awarded annually (a previous holder not being ineligible for re-election), for the purpose of assisting Graduates in Arts of the University, of not more than three years' standing at the date of their election as Scholars (in the selection of whom a preference shall be given to natives of Perthshire, should any such apply) to travel for purposes of Study or Research. Applicants are required to state:—(1) The purpose for which they desire to use the Scholarship; and (2) What other means they have towards the object in view. The award will be based—(1) On the importance of the work to be undertaken; (2) the sufficiency of the means proposed to be applied to the work; (3) the capability of the applicant for the work he proposes to undertake. The holders are required in all cases to satisfy the Senatus, by half-yearly reports,

that they are carrying out the work undertaken; and must present a final report or deliver a short Course of Lectures on their work when completed. The appointment is made by the Senatus on a report by the Faculty of Arts on the merits of the applicants. Preference will be given to Candidates desiring to undertake work in the following groups of subjects, under the following scheme of rotation, provided always that a suitable Candidate presents himself:—(1) Classical Languages and Classical Archæology; (2) Mental Philosophy; (3) Mathematical and Physical Science; (4) Semitic and Indian Languages; (5) English and Modern Languages; (6) History. In 1904 the first preference will be given to a Candidate in Classical Languages and Classical Archæology. See Deed of Foundation in CALENDAR for 1897-98, page 419.

1902. *Elizabeth J. Ross* (Preferential Candidate).

XXXVII.—MACPHERSON SCHOLARSHIP.

This Scholarship is awarded annually by the Senatus Academicus to a student who has, within six years of the date of the competition, completed the examination necessary for the degree of Master of Arts in the University of Edinburgh, with or without honours, who has included in his examination the subjects of Latin and Greek, and who has attended the class of Celtic and attained distinction in that subject. The scholar must study Celtic in a University or other place offering special facilities for Celtic study, subject to the approval of the Senatus Academicus. The Scholarship is of the value of about £88, 7s. 4d., and is tenable for one year. Before 15th February next after his appointment the scholar must submit to the Senatus Academicus a report of the work he has done, and of such further studies in Celtic as he proposes to prosecute, and the Senatus Academicus may, if they think fit, appoint him to the said Scholarship for a further period of one year. In the case of a scholar being reappointed for a second year a new scholar cannot be appointed till the following year.

1903.

XXXVIII.—THE NICHOL FOUNDATION.

The free yearly interest or income derivable from this foundation, amounting to about £50, shall be paid to a deserving Student, who shall regularly attend and devote himself as assistant in the Physical Laboratory, and who shall be bound to give his whole time in promoting the study of Natural Philosophy in connection therewith. It is tenable for one year, but on the recommendation of the Professor of Natural Philosophy it may be continued for a second year or longer. It cannot be held along with any Bursary or Scholarship. See Deed of Foundation in CALENDAR for 1897-98, page 419.

1901. *J. H. Maclagan-Wedderburn.*

XXXIX., XL.—RITCHIE SCHOLARSHIPS FOR CIVIL SERVICE CANDIDATES.

These Scholarships, endowed by the late James Ritchie, formerly of Edinburgh, are for Candidates for the Civil Service of India. They are open annually, are each of the annual value of about £40, and tenable in the first instance for one year. They are not tenable along with any other Scholarship or Bursary without the express approval of the Senatus. Candidates must be eighteen years of age at the date of application (1st October), and they must be still eligible to compete for the Civil Service in the following August. The Scholarships will be awarded without examination, on the basis of work already done at Edinburgh University. Candidates will be expected to show evidence of some such distinctions as the following:—Second Class Honours (at least) in some department of the Faculty of Arts; a degree in Science; or Class Certificates of Merit (First Class) in three or four different subjects. The holders will be required (1) to declare their intention of competing for the Civil Service; (2) to pursue their studies in Edinburgh University, and to submit from time to time evidence of industry and progress in the subjects which they intend to offer in the Civil Service Competition. The holder of a Scholarship may offer himself again as a Candidate. He will not be debarred from entering his name for the Home as well as the India Service; and in the event of his being high enough in the list to have the option of a Home appointment, he will be free so to choose. Applications should be sent to the Secretary of Senatus on or before 1st October, and should be accompanied by (a) evidence of age, (b) a list of distinctions obtained in Class and Degree Examinations at Edinburgh.

1902. *W. B. Brander, R. M. Maciver.*

XLI.—GEORGE HERIOT'S TRAVELLING SCHOLARSHIP FOR TEACHERS OF MODERN LANGUAGES (MEN OR WOMEN).

This Scholarship of £100, tenable for one year, may be offered for Competition in March 1904. It will be open to a Graduate in Arts of this University, of not more than four years' standing at the date of election as Scholar, who has passed the Degree Examination (Honours or Ordinary) in one of the Modern Languages either before or after graduation, has attended an Honours Class in the Language for which the Scholarship is awarded, has obtained the Schoolmaster's Diploma in the University of Edinburgh, and who is, or intends to become, a Teacher of Modern Languages. If offered, the Scholarship will be awarded to the Candidate who stands highest in German. For further particulars apply to David Lewis, Esq., Treasurer, George Heriot's Trust, 20 York Place, Edinburgh, from whom schedules of application may be obtained, which must be lodged with him not later than 15th March.

1903. *Wilhelmina Jameson, M.A.*

IV.—FELLOWSHIPS.

See note under Bursaries, p. 177.

I.—GUTHRIE FELLOWSHIP IN CLASSICAL LITERATURE.

This fellowship, founded in 1866 by James Guthrie, Esq., London, is of the annual value of about £86, 2s. 6d., and is tenable for four years. By the terms of the Deed of Foundation (given at p. 210 of the CALENDAR for 1866-67) it is for proficiency in Classical Literature, and is open to Graduates in Arts of the University who have taken their Degree since the last competition. Students who have passed all their examinations for a Degree since the last competition, but have deferred graduating, are also eligible. It cannot be held along with any other Fellowship or Scholarship in a Scottish University. The next Competition may take place in April 1907.

1903. *William Pryde, M.A.*

II.—THE HAMILTON PHILOSOPHICAL FELLOWSHIP.

This Fellowship, founded in 1866 by the Subscribers to the fund for a Memorial to the late Professor Sir William Hamilton, and by the Association for the better endowment of the University, is of the annual value of about £88, 2s., and is tenable for three years. By the Deed of Foundation (given at p. 213 of CALENDAR for 1866-67), the Fellowship is open to all Graduates in Arts of the University of Edinburgh of not more than three years' standing at the time of the competition. It cannot be held along with any other Scholarship or Fellowship in any Scottish University. The subjects of examination are Logic, Metaphysics, Moral Philosophy, and the History of Philosophy. The next Competition may take place in April 1906.

1903. *Alexander Mackie, M.A.*

III.—SHAW FELLOWSHIP IN MENTAL PHILOSOPHY.

This Fellowship, founded in 1867 by Contributors to a Memorial to Sir James Shaw, Bart., a native of Ayrshire, afterwards Lord Mayor of, and M.P. for, London, and by the Association for the better endowment of the University, for the encouragement of the study of Logic, Psychology, Metaphysics, Moral Philosophy, and the History of Philosophy, is awarded after competitive examination on these subjects. It is open to Graduates in Arts of any of the four Scottish Universities, of not more than five years' standing at the time of the competition, is of the annual value of about £139, 15s., and is tenable

for five years. It cannot be held along with any other Fellowship, Scholarship, or Bursary in any Scottish University, and it is not open to the competition of any person who already holds a Fellowship in any English or Irish University, though the holder of the Shaw Fellowship will not be precluded from afterwards obtaining an English or Irish Fellowship. The holder is required during the fourth or fifth year of his tenure of the Fellowship to deliver in this University a Course of four Lectures on any of the subjects for the encouragement of the study of which the Fellowship was founded. The next Competition for the Fellowship may take place in December 1903 at the beginning of the Christmas holidays. (Deed of Foundation, p. 237 of CALENDAR for 1868-69.)

1899. *J. B. Baillie, M.A.* (Edin.).

Prox. access., A. M. Mackay, M.A. (Aber.).

IV.-VIII.—GEORGE HERIOT RESEARCH FELLOWSHIPS.

Applications for Fellowships or for renewal of Fellowships should be made annually, not later than 1st June. For further particulars apply to the Governors of George Heriot's Trust, 20 York Place, Edinburgh.

V.—ENDOWMENTS FOR RESEARCH AND GRANTS IN AID.

I.—WILLIAM DICKSON TRAVELLING FUND.

This Fund (the interest of which amounts to about £85 per annum) has been established for the purpose of assisting Graduates (men or women) of any Faculty, of not more than Three Years' standing, to travel, for a shorter or longer period, for purposes of study or research. Grants from the Fund may be made to holders of Scholarships, Bursaries, &c. Applicants are required to state—“(1) The purpose for which the Applicants desire to get a Grant for travelling; (2) the total amount of expenditure thought necessary; (3) the other means they have towards meeting this expenditure; and (4) the amount of the Grant required from the Fund.” The award of a grant to be based on—“(1) The importance of the work proposed to be undertaken; (2) the sufficiency of the means proposed to be applied to the work; (3) the capability of the Applicants for the work they respectively propose to undertake.” “Holders of Grants in all cases to satisfy the Senatus by periodical reports that they are carrying out satisfactorily the work or investigation undertaken; and to present a final report, or to deliver a course of public University Lectures on their work when completed.” Applications, on Special forms to be obtained at the Matriculation Office, must be lodged with the *Secretary of Senatus* on or before 15th March annually. For Deed of Endowment, see p. 514 of CALENDAR, 1889-90.

II.—EARL OF MORAY ENDOWMENT FOR THE PROMOTION OF ORIGINAL RESEARCH, page 209.

Section 5 to read as follows:—

Applications will only be considered at the November, January, and May Meetings of Senatus. Any Application should be in the hands of the Secretary of Senatus *at least six weeks* before the date of the Meeting at which it is to be considered.

II.—EARL OF MORAY ENDOWMENT FOR THE PROMOTION OF ORIGINAL RESEARCH.

1. The available income (which amounts to about £600 per annum) is, in the first place, applied to the payment of the actual expenses of the prosecution of Original Research, present or contemplated, intended and likely to increase existing human knowledge, in any of its departments.

In such expenses would be included apparatus, special accommodation, specimens, chemical substances, books, journals, pamphlets, reproductions of manuscripts, &c., and actual maintenance and travelling expenses, in so far as they are shown to be necessary for the purposes of research, provided that it shall be permissible to furnish out of the income such specific additions to the Library as may be deemed necessary to stimulate and aid research.

All apparatus, specimens, books, journals, pamphlets, &c., and all unused chemical substances shall, at the termination of the research, be returned, or otherwise accounted for to the University.

2. Any surplus income after meeting the claims defined in 1, above, may be expended in (a) the printing and publishing of noteworthy results, including illustrations for papers containing such results; and (b) the payment, after careful consideration of all the circumstances, of such grants of money as may be necessary to enable applicants to enter upon or carry on the work of research, or to encourage the prosecution of research.

3. All graduates and other members of the University, "or other persons who have given satisfactory proof of general education and of fitness to engage in some special study or research," are entitled to apply for assistance.

4. In so far as the subject of the research admits, the investigation shall be conducted in the buildings of the University.

5. Applications should be addressed to the Secretary of Senatus. See Regulations in CALENDAR for 1897-98, page 428.

III.—CARNEGIE POST GRADUATE SCHOLARSHIPS (£100) AND FELLOWSHIPS (£150), AND GRANTS IN AID FOR RESEARCH.

Graduates of this University, preferably with Honours in at least one of the groups of History, Economic Science, English, and Modern Languages and Literature, are entitled to become Candidates. Application forms may be had from the Secretary to the Carnegie Trust, the Merchants' Hall, 14 Hanover Street, Edinburgh, to whom all communications must be addressed. Nominations for Scholarships, and applications for Fellowships and Grants in Aid must be lodged with the Secretary not later than 1st May annually.

THE SWINEY LECTURESHIP ON GEOLOGY.

This Lectureship is in the patronage of the Trustees of the British Museum, is of the annual value of about £144, and is open to Graduates in any of the Faculties in this University who have obtained their Degrees after examination. For further particulars see under Faculty of Science, page 314.

Prizes.¹

1. The *Lord Rector's Prize*, of twenty-five guineas, for the best Essay on "Beginnings of the English Reformation, Civil and Religious, from the middle of the Fourteenth Century to 1517." The Prize is open to Matriculated Students of the University at 1st November 1903, and to Graduates of not more than two years' standing. Essays to be lodged with the Secretary of Senatus on or before 1st November, each Essay distinguished by a motto, and accompanied by a sealed envelope containing the name, address, and University standing of the Candidate.

2. *Scott and Dunbar Prize*, of about £20, will be awarded at the end of the Winter Session to the most deserving student in the Greek Classes.

3. *Bruce of Grangehill and Falkland's Prize*, of £20 (also £10 for prizes in the Junior Division of the Class), for the most distinguished Student in the Classes of Logic and Metaphysics, in Session 1903-1904, to be awarded "on such competition as the Professor may direct."

4. The *Elizabeth Hamilton Prize* of £5 is offered to the best Woman Student in the Ordinary Class of Moral Philosophy who desires to study for Honours, provided that her standing be not below that of the First Class Certificate.

5. *Neil Arnott Prize*, about £39, will, failing the appointment of a Student of Medicine, be awarded in October to the Candidate for the Degree of M.A. who has undergone with most distinction the ordinary examination in Natural Philosophy, with such additional examination in Experimental Physics as the Examiners may require.

6. *Cousin Prize in Fine Art*, of about £15, 4s., will be awarded at the end of the Winter Session for excellence in the Class of Fine Art.

7, 8, 9. The *Trustees of Gray's Prize Essay Fund* offer three Prizes of £15, £10, and £5 for the first, second, and third best Essays on "The Philosophy of History." The Prizes are open annually to Students of not more than three years' standing at the commencement of Winter Session 1902-3. Essays to be lodged with the Rev. John Blackwood Munro, Duns, Secretary to the Trustees, not later than 1st September.

10, 11. *Two Newton Bursaries or Prizes*, of about £23, 7s. 10d. each, tenable for two years, are awarded annually at the end of the Winter Session—one for proficiency in the Senior (Second) Class of Mathematics, and one in the Junior Class of Natural Philosophy.

12. The *Kelland Memorial Prize*, of about £4, 12s., will be awarded by Examination in October. The paper will be on the Higher Geometry for the John Welsh Bursaries (3rd October, at 9 A.M.), with such additional questions as may be deemed necessary. Students who made a complete attendance on the Senior Mathematical Class for the first time in the previous Session (1902-1903), or who have completed an ordinary graduation second half-course in Mathematics, the first half

¹ See footnote 2, p. 210.

of which was taken not earlier than the Summer Session of 1902, will alone be eligible to compete for the prize in October next. Names to be given in not later than 18th September.

13. *The Gladstone Memorial Prize*, of the value of £5 in books, will be awarded annually in March to the Student who in the opinion of the Professors of History, Political Economy, and Public Law has distinguished himself most highly during the preceding two years in any two of these subjects. A candidate is not eligible to compete a second time. Applications, with the necessary certificates, to be lodged with the Clerk of Senatus not later than 30th March.

14. *The University Endowment Association* offer a Prize of £5 in the ordinary French Class, and a similar Prize in the ordinary German Class.

Bursaries.¹

FOR STUDENTS ENTERING THEIR FIRST YEAR.

(*For Time-Table of Examinations, see pages 135-137.*)

Bursaries in Arts heretofore tenable for four years shall continue to be so tenable, provided that, if the holders graduate after three years, they shall only retain their Bursaries during a fourth year if they shall engage in study approved by the Senatus in subjects included in the Curriculum for Degrees in Arts or in Pure Science. Bursars in Arts, subject to the provision as to the fourth year of tenure, shall attend in each year at least two classes qualifying for Graduation in Arts, and shall duly perform the work of these classes: Provided that it shall be in the power of the Senatus, with approval of the University Court, to permit such Bursars to attend classes qualifying for Graduation in Pure Science in place of classes qualifying for Graduation in Arts. [See Ordinance No. 57.]

The Bursaries are awarded on the results of the University Bursary Examinations unless otherwise stated, and are tenable at the University of Edinburgh only. The Senatus reserve the power, under Section VIII. of Ordinance No. 57, to award not more than two First Year Bursaries in Arts in respect of exceptional distinction in any one branch of study.

For Bursary and other purposes, where the phrase "First-year's Student in Arts or Pure Science" is not by Deed of Foundation or otherwise defined, it shall mean "A Student in Arts or Pure Science who has not attended any class qualifying for Graduation in the said Faculties in any Scottish University."

The Subjects of Examination for the first year Bursaries, Nos. 1 to 18 inclusively in the following list, are on the *Higher Standard* and are the subjects prescribed for the Preliminary Examination, viz. :—English (full marks 100), Latin (100), Greek (100), Mathematics (100), French (50), German (50), Italian (50), and Dynamics (50), with additional

papers in English, Latin, Greek, Mathematics, French, and German. Candidates may select not more than five subjects; provided always that no Candidate will be credited with marks in any subject in which he has not obtained twenty-five per cent. of the total marks assigned to that subject. Those who select Latin, Greek, or Mathematics must for the Bursary Competition take the papers on these subjects on the Higher Standard. The Examination Papers are indicated in the Time-Table of Examinations by the figure 1.

Candidates for *Preferential or Restricted Bursaries* [Nos. 19 to 23 inclusively] which are not awarded by open competition must present themselves for the Preliminary Examination in Arts prescribed by the Regulations for Degrees in Arts, Section III., and no Bursary shall, except as hereinafter provided, be awarded to any Candidate who shall not have passed the Preliminary Examination in Arts (or its equivalent). But it is in the power of the Senatus, with the approval of the University Court, to admit to a Bursary in Arts not awarded by open competition a Candidate who shall have passed in at least one subject of the Preliminary Examination, on the condition that he shall not retain the Bursary unless he shall have passed in all the subjects not later than the Second Preliminary Examination after the date of his admission as Bursar. When there are more than one eligible Candidate for a restricted or preferential Bursary [Nos. 19 to 23 inclusively], the Subjects of Examination are:—English (as for Arts and Science Preliminary), Lower Latin, Lower Greek, and Lower Mathematics. Candidates for the MacKinnon and Ardvorlich Bursaries will in addition get Translation of an easy passage from Gaelic to English, Translation of Sentences from English to Gaelic, and Elementary Questions in Gaelic Grammar. The papers are indicated in the Time-Table of Examinations by the figure 3.

Candidates for Bursaries Nos. 1 to 18 inclusively, and for Second and Third Year Bursaries, may on and after 9th September obtain schedules at the Matriculation Office, University (Old) Buildings, which must be completed and returned to the Clerk of Senatus *on or before* 18th September. The Senatus may relax this Regulation in cases where very special cause has been shown.

Town Council Bursaries.—Candidates for Bursaries in the gift of the Town Council, a number of which are vacant, are referred to the "*City Clerk, Council Chambers, Edinburgh,*" to whom early application should be made. The Examination is the same as for the University Open Bursaries.

County Clubs, and others who prefer this examination, may, by arranging with the University Court, avail themselves of the University Examinations by giving written intimation of the names of their Candidates at the Matriculation Office not later than 18th September. Those who desire to have their Bursaries inserted in the CALENDAR, under the head of Bursaries open during the year, are requested to give intimation to the Editor of the CALENDAR before 1st January.

County Club and Private Bursaries.—Candidates for Bursaries instituted by various County Clubs are referred to the respective Secretaries of those Clubs. Information as to Private Bursaries may be obtained from the Patrons or from their Agents.

Candidates for Bursaries, unless also Candidates for the Preliminary Examination, pay no fee.

The names of the successful Candidates, and of others distinguished in the ordinary Bursary competition, will be published, in the order of merit, in the University Calendar, along with the names of the schools from which they come, provided that they have matriculated and enrolled in the necessary classes for 1903-1904.

I. FIRST YEAR BURSARIES¹ OPEN IN SEPTEMBER-OCTOBER 1903 THE EXAMINATION FOR WHICH IS ON THE HIGHER STANDARD.

1. *One John Welsh Classical Bursary*, of the annual value of £20, tenable for four years. Subjects of examination—Latin, Greek, English.

2. *One John Welsh Mathematical Bursary*, of the annual value of £20, tenable for four years. Subjects of examination—Mathematics, especially pure Geometry. (Candidates are recommended to read Macdonald's *Higher Geometry*, Wilson's *Solid Geometry and Conic Sections*, and Casey's *Sequel to Euclid*, as partly indicating the scope of the examination in Geometry. What will be looked for is, not so much exhaustive knowledge of all the more intricate theorems, as a thorough knowledge of such as are more elementary and fundamental in their character, and ability to apply these in fairly straightforward exercises.)

3. *Cousin Bursary*, £28 a year, tenable for three years. The Bursary cannot be held along with any Fellowship, Scholarship, or Bursary, or with any situation or appointment yielding an annual income of £30 or upwards.

4. *Lapsed Maule Bursary*, of £21, 7s. 6d. a year, tenable for two years, for the maintenance and education of a poor and deserving student if he shall continue so long to prosecute his studies at the University.

5, 6. *Two Sibbald Bursaries*, each of the annual value of £30, tenable for three years. Apply to Messrs Mackenzie, Innes & Logan, W.S., 23 Queen Street, Edinburgh, before 15th September.

7. *Thomson Bursary*, £25 a-year, tenable for four years. The Bursary is not tenable with any other Bursary or Scholarship. Apply to Messrs Traquair, Dickson & Maclaren, W.S., 11 Hill Street, Edinburgh, before 15th September.

8. *One Mann Bursary*, of £29, 18s. 4d., tenable for three years. Candidates must be sons of residents in the town of Nairn, *i.e.*, one or other of their parents must have resided within the municipal

¹ For Bursaries not restricted to particular years, see page 222.

boundaries for at least twelve months at some period prior to the competition. Should there be no qualified Candidates of the first year for the Bursary, a notice will be posted at the College gate soon after the Bursary Competition. Other Preferential Candidates must then lodge their claims within one week after the notice appears on the Board.

9. *One Jardine of Thorlieshope Bursary*, of the annual value of £35, tenable for four years. Open only to natives of the rural districts of Roxburghshire and Dumfriesshire (villages and towns with a population of 2000 and upwards being excluded) who have attended the Public or Board Schools in said Counties. The Bursars are required to attend the classes necessary for the Degree in Arts, and to take the Degree at the end of the course. In the event of there being no qualified First Year Student, the Bursaries may be thrown open to competition for one year only to second, third, or fourth year Students in succession.

10, 11. *Two Grant Bursaries*, each of the annual value of £45, and tenable for four years. The holders may attend classes in the Faculties of Arts, Science, Divinity, Law, or Medicine. Apply to Messrs Mackenzie, Innes & Logan, W.S., 23 Queen Street, Edinburgh, the agents for the Trustees, before 15th September.

12, 13. *Two Grierson Bursaries*, one of £20 and one of £24 a-year, if not awarded to Preferential Candidates. (See Nos. 21, 22.)

14. *A Baxter of Balgavies Bursary*, of the annual value of £30, and tenable for three years, open both to men and women who have been educated in the High School of Dundee for at least one year immediately preceding the competition.

15. *Blair Bursary*, of £9, 12s. a-year, tenable for three years.

16. *The London Inverness-shire Association Bursary* of £18 a-year, and tenable for three years, open in the first place to natives of the County of Inverness. Failing Preferential Candidates, the Bursary may, with the consent of the Patrons, be awarded to the candidate who stands highest in the examination, and has at least obtained 50 per cent. of the marks in Gaelic. The examination is as for First Year Open Bursaries, with Gaelic (full marks 100) as an additional subject. Apply to James Doak, Esq., Hon. Sec., 16 Mark Lane, London.

17. *Maclaurin Bursary* (restricted to Candidates of the name of Maclaurin), of about £74, 15s. a-year, and tenable for four years in any of the Faculties. Apply to the Town Council of Edinburgh for information regarding this, and the other Bursaries in their patronage.

18. *Chrystie Bursary*, of about £18 a-year, and tenable for four years. Candidates must pass the Preliminary Examination or its equivalent. Apply to the Clerk to the Faculty of Advocates, Parliament Square, Edinburgh, before 15th October.

PREFERENTIAL OR RESTRICTED BURSARIES THE EXAMINATION FOR WHICH (EXCEPT IN ENGLISH) IS ON THE LOWER STANDARD.

19. *Earl of Zetland's Bursary*, of the value of about £40 per annum, tenable for three years, is open for competition to First Year Students (male or female), natives, or children of parents one or both of whom have been born in or connected for a long period of years with the Islands of Orkney and Zetland. Candidates must either have been wholly educated in the Islands, or at least they must not have received any education elsewhere within four years. The Bursar must attend the classes in the Curriculum with a view to a Degree in Arts. Apply to Messrs Dundas & Wilson, C.S., 16 St Andrew Square, Edinburgh, before 15th September.

20. *Mackinnon Bursary*, of about £20, 7s. 6d. a-year (under deduction of expenses), tenable for three years. Candidates must be natives of the Counties of Argyll, Bute, Inverness, Ross, or Sutherland, and must be examined in Gaelic.

21, 22. *Two Grierson Bursaries*, one of £24 a-year and one of £20 a-year, both tenable for four years, and restricted in the first place to natives of the parishes of Crawford and Leadhills. If there be no Preferential Candidates, the examination will be as for Open Bursaries.

23. *Johnstone of Harthope Bursary*, of about £16, 5s. a-year, tenable for four years—restricted in the first place to a native of the Parishes of Moffat or Peebles (students of the name of Alexander or Johnstone preferred).

24-27. *Three George Heriot Bursaries for Men* will be offered for Competition to Students matriculating at the University for the first time, after having passed the Preliminary Examination for a Curriculum in Arts or Science. Each Bursary is of the annual value of £30 a year, and may be tenable for three years. Subjects of examination:—(1) Latin; (2) Mathematics; (3) English; (4) Greek; (5) French; (6) German; (7) Italian; and (8) Dynamics, with additional papers in each subject. The Bursaries are divided into two classes: A.—In this class English, Latin, Greek and Mathematics shall each have assigned to them double the marks assigned to any other subject; and B.—In this class English, Mathematics, French, German and Italian have double the marks assigned to any other subject. *Two* of the bursaries will be in *Class A* and *one* in *Class B*. Candidates in either class may select not more than five subjects of examination. The papers of all candidates are valued in accordance with the marks in both classes. The examination papers are indicated by the figure 1 in the Time-Table of Examinations. Schedules of applications for these Bursaries may be had from the *Governors of George Heriot's Trust*, at the Office of the Treasurer, 20 York Place, Edinburgh, on and after 15th August, and must be returned to him not later than 15th September. Candidates are required to state in their schedules of application the subjects in which they offer themselves for examination.

28-30. *Three Heriot High School Bursaries*, of £30 a-year, open to pupils of the High School, Edinburgh, and tenable for three years. Regulations as in last paragraph.

31-33. *Three George Heriot Bursaries for Women*, will be offered for competition to Students matriculating at the University for the first time, after having passed the Preliminary Examination for a Curriculum in Arts or Science. Each Bursary is of the value of £20 a-year, and may be tenable for three years. *One* of the bursaries will be in Class A and *two* in Class B. The subjects and conditions of the examinations are the same as for the Bursaries for men. Application to be made in the manner referred to in the previous paragraph. The examination papers are indicated by the figure 1 in the Time-Table.

34. *George Heriot Bursaries for Women*, of £30 each, tenable for one year, at St George's Training College, Edinburgh. The Bursaries are divided into two classes—(1) for Graduates, (2) for non-Graduates. The subjects of examination for Graduates are :—English (full marks 100), Latin (100), Greek (100), Mathematics (100), French (100), German (100). Candidates may select not more than three subjects; provided always that no Candidate will be credited with marks in any subject in which she has not obtained 25 per cent. of the total marks assigned to that subject. The papers to be taken are those set for first year open bursaries. The Examination Papers are indicated in the Time-Table of Examinations by the figure 1. Women-students who hold the Cambridge University Honour or Ordinary Certificates, which are equivalent to the degrees conferred on men-students, and women-students who hold the corresponding equivalents to degrees from the University of Oxford will rank for purposes of Competition as Graduates. The subjects of examination for non-Graduates shall be selected from those specified for *the Preliminary Examination of the University in Arts or Science*. Candidates may take as many subjects as they please; but should they fail to secure 25 per cent. of the marks allotted to a subject, the paper will be cancelled. The marks are as follows :—English, 100; Latin (Higher Grade), 100; Latin (Lower Grade), 50; Mathematics (Higher Grade), 100; Mathematics (Lower Grade), 50; Greek (Higher Grade), 100; Greek (Lower Grade), 50; French, 80; German, 80; Italian, 80; Dynamics, 50. No marks will be given for the Lower paper in any subject where the Higher paper in that subject is also taken. In October 1903 *one* bursary *only* in the Graduate Class will be offered. Applications for Schedules for these Bursaries may be made to the Governors of George Heriot's Trust at the Office of the Treasurer, 20 York Place, Edinburgh, on and after 15th August, and must be returned to him not later than 15th September.

35. *Two Simson Bursaries*, of the annual value of £25, tenable for three years, for Students who, having passed the Preliminary Examination, are entering on the first year of the course in Arts and are studying for the Ministry of the Church of Scotland. See

definition of a First-year's Student, at page 214. *One* Special Bursary of £25 for one year, open to Students for the Ministry of the Church of Scotland who are attending Classes at the University with a view to passing the Preliminary Examination. The Examination for these *three* Bursaries will be held in the end of October. For further details and subjects of Examination apply to the Rev. G. T. Jamieson, Clerk to the Presbytery of Edinburgh, The Manse, Portobello.

36, 37. *Two Macdougall Bursaries*, of £25 per annum, tenable for three years. Candidates must have been born within the County or City of Perth. Students attending the Gaelic Class preferred. It cannot be held with any other Bursary or appointment yielding together upwards of £50 per annum. Apply to W. Cochrane Young, Esq., Solicitor, Perth.

38-40. *Bursaries offered by The Edinburgh Association for the University Education of Women*—

(1) *The Victoria Jubilee Bursary*, founded by His Excellency Dr Gunning, of about £30 for one year, to be held at Masson Hall. Open to a third year Student desiring to graduate in Arts or Science with Honours.

(2) *The Earl of Zetland's Bursary*, about £20 for one year.

(3) *The Mair Bursary*, of about £20 for two years. Open to Candidates intending to follow a profession.

These Bursaries are offered to women Candidates. The Subjects of Examination for 2 and 3 are the same as for the University First Year Open Bursaries, see page 214. They cannot be held along with any other Bursary or Scholarship whatsoever, and will be awarded to such Candidates as in the opinion of the Executive Committee best fulfil the conditions of the several trusts.

Apply by letter to the Hon. Secretary of the Association, Miss Louisa Stevenson, 13 Randolph Crescent, Edinburgh, for No. 1 before 15th February and for Nos. 2 and 3 before 15th September 1903.

The Buchanan Bursaries have in the meantime been suspended. P. G. KEYDEN, 186 West George Street, Glasgow, *Secretary*.

41. *The M'Glashan Bursary*, offered by the Committee of St George's Classes.—Bursary of £10 for one year, offered to the woman student who passes highest among members of the St George's Oral or Correspondence Classes completing the Arts Preliminary Examination in October with a view to Graduation. For further information apply to the Secretary, St George's Classes, 5 Melville Street, Edinburgh.

4. *Donald Fraser Bursary*, of £51, for high merit in the class of

Natural Philosophy, combined with proficiency in Laboratory Work, is awarded annually at the end of the Winter Session.

5, 6. *Two Lanfine Bursaries* of £35 each, and tenable for two years, will be awarded in April 1904—one in the History Honours group and one in the Economic Science Honours group. Subjects of Examination: *History*. The two Honours papers in General British History, and the two Honours papers in the Constitutional History of England. *Economic Science*. The three general Honours papers in Economic Science (excluding the questions on the special subjects) and either (a) the two general papers in British History, or (b) the two general papers in Constitutional History, or (c) two special papers representing about half the amount of work required for Honours in Moral Philosophy. Candidates will be eligible after the completion of one academic year, or after their first Winter Session, but not later than the beginning of their fourth academic year from the date of first Matriculation. Candidates must have attended two Classes (Ordinary or Honours) within their Honours group. Names to be entered on or before 15th March.

The attention of all Bursars in the Faculty of Arts is particularly called to the following regulation:—

“Bursars in the Faculty of Arts (to whose Bursaries special conditions are not attached) must annually attend at least two of the Classes necessary for the Degree of Master of Arts, and must present themselves at the Examinations necessary for that Degree.

“Each Fellow, Scholar, Bursar, or Prizeman, when he applies to the Factor for payment, must produce a Certificate signed by the Dean, or the Professor to whose department the Foundation is attached, attesting his regular attendance on the proper Classes, etc., or otherwise that he has fulfilled the conditions attached to the Foundation.”

Certificates, in terms of this regulation, will be given to Bursars, by the *Dean of the Faculty of Arts*, after 14th November, and at the end of the Session. In applying to the Dean for the Certificate in November, Bursars must present their Class Cards for the Session; and at the end of the Session they must present certificates from the Professors that they have attended with regularity and made progress in their studies. Payments are made by the University Factor, Mr Henry Cook, W.S., 61 North Castle Street, Edinburgh, on and after 14th November for the Martinmas payments, and on and after 19th May for the Whitsunday payments,—between 10 and 3 o'clock.

N.B.—*Bursars, Scholars, and Fellows who desire to resign should at once announce this to the Factor. They must apply to the Factor for the instalments due to them within three months after they have become payable, otherwise they will be regarded as having resigned.*

G. CRYSTAL, LL.D.,
Dean of the Faculty of Arts, and
Professor of Mathematics.

Faculty of Science.

Dean—PROFESSOR GEIKIE, D.C.L., LL.D.

Students who do not intend to graduate may attend any of the Classes on payment of the Matriculation and the Class Fees, without having passed any Preliminary Examination. Attendance on any Class with a view to Graduation in Pure Science will not qualify unless the whole Preliminary Examination has been previously passed. Those who intend to graduate in Engineering or in Agriculture must pass the Preliminary Examination before they present themselves for any part of the First Science Examination, but not necessarily before entering on the Curriculum. The Classes in the Faculty, except a few in which arrangements have not yet been made, are open to women.

The Class Fees are collected by the Factor. For the purpose of receiving fees he will attend at the University for a short period at the beginning of the Winter and Summer Sessions, and fees not then paid will be taken at his Office, 61 Castle Street. All communications regarding Class Fees should be addressed to, and all cheques for same drawn in favour of The Collector of Class Fees, Edinburgh University.

See as to payment of Class Fees by Carnegie Trust, page 164.

CLASS SESSIONS.

There are Two Sessions in each year, viz. :—

I. The Winter Session, which opens on 13th October 1903, and closes on 25th March 1904. Practical Anatomy begins on 1st October. Courses in the Faculty of Medicine which qualify for Graduation in Science close on 18th March. The Practical Anatomy Rooms remain open till the end of March.

The Classes meet for the last time before the Christmas Vacation on Friday, 18th December 1903, and re-assemble on Tuesday, 5th January 1904.

II. The Summer Session opens on the 2nd May, and closes on the 13th of July 1904. The Practical Anatomy Rooms remain open till the end of July.

The Graduation Ceremonials take place on Saturday, 9th April, and Saturday, 23rd July 1904.

The following means are afforded for Practical Instruction:—

I. LABORATORIES.

PHYSICAL LABORATORY,¹ affording Students a practical knowledge of the construction and use of physical apparatus, and the mode of conducting experimental inquiries, daily from 10 to 3, under the Professor, assisted by W. Peddie, D.Sc.

GEOLOGICAL AND PETROLOGICAL LABORATORY, for practical instruction in the study of Minerals, Rocks, and Fossils, and the methods of plotting and drawing geological maps and sections, under the Professor, assisted by J. D. Falconer, M.A., B.Sc.

ENGINEERING DRAWING CLASS ROOM, daily, from 10 to 4, for instruction in drawing and drawing-office routine.

THE ENGINEERING (FULTON) LABORATORY, open daily from 10 to 5, for practical instruction in the processes employed by the Engineer in the Experimental Determination of the Physical and Economical Constants of Materials, Machines, and Prime Movers.²

PRACTICAL INSTRUCTION IN OFFICE AND FIELD-WORK, in connection with the Summer Course on Surveying, Levelling, &c., from 9 to 4.

AGRICULTURE DEPARTMENT in the Museum of Science and Art, open daily to Students attending the Agriculture Class. Excursions to farms are made on Saturdays. The leading agricultural newspapers are left for the use of Students in the Agriculture Lecture Room.

ROYAL OBSERVATORY, open to Students of Astronomy on Friday evening, from 7.30 P.M.

ROYAL BOTANIC GARDEN LABORATORY at the ROYAL BOTANIC GARDEN, open daily for the practical study of plants and for research, under the Professor, assisted by A. W. Borthwick, B.Sc., and William Smith, M.A.

PHYSIOLOGICAL LABORATORY, for Physiological Research, and the study of Practical Physiology, open daily, under the Professor, assisted by P. T. Herring, M.D.; John Malcolm, M.D.; Sutherland Simpson, M.D., D.Sc.; and Andrew Hunter, M.A., B.Sc., M.B., Ch.B.

The CHEMICAL LABORATORIES (distinct from the Practical Chemistry Class Room) have accommodation for forty Students. They contain

¹ Fees.—Three months' Course of two hours daily, £2, 2s.; whole Academic Year, two hours daily, £4, 4s.; whole Academic Year for hours during which the Laboratory is daily open, £6, 6s.

² Fee.—Winter Session, £6, 6s.; Summer Session, £6, 6s.

the necessary equipment for a complete course of instruction in the various branches of Chemical Work and for Research. The instruction given includes Complex Qualitative Analysis, Quantitative, Inorganic, and Organic Analysis (with special courses in Gas Analysis, Assaying, &c.), and Chemical Preparations. The training is suited not only for Students studying for Science and Arts Degrees, or for the Examinations of the Institute of Chemistry, but also for persons desiring to qualify themselves as Analysts, Technical Chemists, &c.

The Laboratories¹ are open from 9.30 to 4.30 daily, during the Winter and Summer Sessions, and are under the charge of Professor Crum Brown, assisted by Leonard Dobbin, Ph.D.; Hugh Marshall, D.Sc.; W. W. Taylor, M.A., D.Sc.; and Charles E. Fawsitt, B.Sc., Ph.D.

The Chemistry Department will be closed on 20th March and 15th July for the Winter and Summer Sessions respectively.

DISSECTING ROOMS, open daily under Professor Cunningham, assisted by David Hepburn, M.D.; David Waterston, M.D.; E. B. Jamieson, M.B., Ch.B.; R. M. Rowe, M.B., Ch.B.; and other assistants. Open 1st October 1903 and 2nd May 1904, and continue open till the end of March and of July for the Winter and Summer Sessions respectively.

NATURAL HISTORY LABORATORIES,² for research and for study of the structure and development of Invertebrate and Vertebrate forms, open daily, under the Professor, assisted by J. Beard, D.Sc.; and J. H. Ashworth, D.Sc.

PUBLIC HEALTH INSTITUTE, Warrender Park Road, for Laboratory Work for Candidates for qualifications in Public Health and for bacteriological research, open daily, under the Professor, assisted by J. Buchanan Young, M.B., D.Sc. (Public Health). Open 13th October 1903 and 2nd May 1904.³

II. MUSEUMS. See pages 59-62.

¹ Fees.—*Whole-day*—Winter Session, £10, 10s.; Oct.-Dec., or Jan.-March, or Summer Session, £5, 5s. *Half-day*—Winter Session, £6, 6s.; Oct.-Dec., or Jan.-March, or Summer Session, £3, 3s. Preference will be given to Students in the above order. Students who are not Matriculated may attend the Chemical Laboratory on payment of the entrance fee of 5s. in addition to the Laboratory fees. *Payment of the Entrance Fee does not entitle the student to a certificate of attendance, nor confer any other University privilege.* Intending Students should make early intimation of their wish to obtain places in the Laboratory as the accommodation is limited.

² Fees.—Winter Session, £10, 10s.; Summer Session, £6, 6s.

³ Fees.—*Whole-day*.—Winter Session, £10, 10s.; or Oct.-Dec., or Jan.-March, or Summer Session, £5, 5s. *Half-day*—Winter Session, £6, 6s.; Oct.-Dec., or Jan.-March, or Summer Session, £3, 3s. Preference will be given to Students in the above order. Students who are not Matriculated may attend the Public Health Laboratory on payment of the entrance fee of 5s. in addition to the Laboratory fees. *Payment of the Entrance Fee does not entitle the student to a certificate of attendance, nor confer any other University privilege.*

Courses of Lectures.

1903-1904.

I.—PURE SCIENCE.

I. MATHEMATICS.

PROFESSOR CHRYSAL.

CHARLES TWEEDIE, M.A., B.SC.,
ELLICE MARTIN HORSBURGH, M.A., B.SC. } *Lecturers.*

For Synopses of Lectures, see under Faculty of Arts.

II. ZOOLOGY, including COMPARATIVE ANATOMY.

PROFESSOR EWART.

For Synopses of Lectures on Zoology and of Courses on Practical Zoology, see under Faculty of Medicine.

COMPARATIVE EMBRYOLOGY.

J. BEARD, D.Sc., *Lecturer.*

The Course consists of Lectures and Practical Work.

Lectures.—The following subjects will be dealt with :—Conjugation and sexual reproduction, the maturation, &c., of the egg and spermatozoon, the modes of formation of the germinal layers in a series of selected types, the development of Scyllium or Raja, Amphioxus and Rana as a basis for general Vertebrate Embryology, the organogeny of the chief systems of organs in the Vertebrata, the evolution and comparative development of the placenta. A few lectures will be given on the general principles and theory of Comparative Embryology, the recapitulation theory, and the nature of larval forms.

Practical Work.—Each member of the Class will have an opportunity of preparing for himself and studying a series of preparations to illustrate the development of Salmo, Rana, Gallus, and other forms. In addition, an extensive series of preparations of Raja, Scyllium, Torpedo, and Lacerta, &c. and of certain Invertebrate forms will be available.

In the Laboratory Work members of the Class may confine their studies to one particular type, or to some selected branch, such as Mammalian Embryology.

Books for reference.—Marshall's "Vertebrate Embryology"; Hertwig's "Embryology of Man and the Higher Vertebrates"; Korschelt und Heider's "Vergleichende Embryologie der Wirbellosenthiere"; and E. B. Wilson's "The Cell."

MORPHOLOGY OF THE VERTEBRATA.

A Course of twenty-five Lectures on the Morphology of the Vertebrata; the nervous system and its sense organs and the genito-urinary system receiving particular attention.

As far as time permits the question as to the morphological nature of the vertebrate head and skeleton will be discussed.

INVERTEBRATE ZOOLOGY

J. H. ASHWORTH, D.Sc., *Lecturer.*

A Course of twenty-five Lectures on the Morphology of the Invertebrata. This year the Lectures will be on the Arthropoda, Mollusca and Echinodermata. In the Laboratory members of the class will study types selected from the above-named groups.

III. BOTANY.

PROFESSOR BAYLEY BALFOUR.

Winter Session, 1903.

Lectures.—A Course of advanced lectures and advanced work in the Botanical Laboratory is provided for.

Summer Session, 1904.

This Course is the same as for Students of Medicine with additional Laboratory work.

PLANT PHYSIOLOGY.

A. W. BORTHWICK, B.Sc., *Lecturer.*

A Course of Lectures and Practical Demonstrations will be given at the Royal Botanic Garden in the Winter and the Summer Sessions.

IV. NATURAL PHILOSOPHY.

PROFESSOR MACGREGOR.

C. G. KNOTT, D.SC., *Lecturer on Applied Mathematics.*

WILLIAM PEDDIE, D.SC., *Lecturer on Experimental Physics.*

For Synopses of Courses see under Faculty of Arts.

The ordinary Natural Philosophy Class, with fifty hours of practical work in the Laboratory, qualifies for the first B.Sc. Examination.

The Honours Classes in Dynamics and Thermodynamics qualify as Half-Courses for the first stage of the final Examination in Pure Science.

The Honours Classes in Advanced Dynamics, Electricity, Physical Applications of Vector Analysis, and Wave Theory (Sound and Light), and the Advanced Experimental Physics and Senior and Advanced Practical Physics Classes qualify as Half-Courses for the second stage of the Final Examination in Pure Science.

APPLIED MATHEMATICS.

C. G. KNOTT, D.SC., *Lecturer.*

For Synopses of Courses see under Faculty of Arts.

V. CHEMISTRY.

PROFESSOR CRUM BROWN.

LEONARD DOBBIN, PH.D., HUGH MARSHALL, D.SC., and

W. WHITE TAYLOR, M.A., D.SC., *Lecturers.*

For Synopses of Elementary Courses, see under Faculty of Medicine.

INTERMEDIATE COURSE (ORGANIC AND INORGANIC).

PROFESSOR CRUM BROWN, and *Lecturers.*

This Class meets at 1 P.M. daily during the Summer Session. It is intended for Senior Students taking chemistry as a subject of their Final Examination.

ADVANCED COURSE.

DR TAYLOR, *Lecturer.*

This Class meets at 4 P.M. three times weekly during the second half of the Winter Session. It is intended for Science Students taking chemistry on the higher standard in their Final Examination.

The Subjects vary from year to year. For 1904 the Subject proposed is "Selected chapters of Physical Chemistry," including:—Solutions, Chemical Equilibrium, Thermo-chemistry, Electro-chemistry, Physical Properties and Molecular Structure.

LABORATORY.

In the Laboratory, Students who can devote several hours each day to work, are taught Chemical Analysis (including Mineral Analysis, Organic Analysis, Gas Analysis, and Assaying), the preparation of chemical substances, and the examination and determination of their properties. Students who are sufficiently advanced in such practical work may engage in the investigation of chemical problems under the superintendence of the Professor and Lecturers.

CHEMICAL THEORY AND HISTORY OF CHEMISTRY.

DR DOBBIN, *Lecturer.*

The subjects will vary from year to year. They will include historical matters, and discussions of the more important chemical theories which are at present productive or which have been superseded. The Class will meet on Mondays and Fridays at 10 A.M., during the Summer Session. The Subject proposed for the Summer of 1904 is "The History of the Discovery and Investigation of Gases."

MINERALOGY AND CRYSTALLOGRAPHY (ADVANCED).

DR MARSHALL, *Lecturer.*

Daily, at 9 A.M., beginning Tuesday, 3rd May. Fee, £2, 2s.
The earlier part of the Course will be on Physical Crystallography generally, including the optical and other properties of

crystalline substances and the geometrical properties of crystals. The latter part will deal specially with those portions of Systematic Mineralogy not included in the earlier section, and with the Descriptive Mineralogy of minerals which are important from a geological or a chemical point of view. Some of the meetings will be devoted to Elementary Practical Work and Demonstrations.

VI. ASTRONOMY.

PROFESSOR COPELAND.

(Sixty Lectures, and, on different days, Twenty Meetings of two hours each for Observatory work.)

Lectures on Practical Astronomy will be delivered on Mondays, Tuesdays, Wednesdays and Thursdays. Instruction in the use of portable and fixed astronomical instruments will be given at the Royal Observatory on Blackford Hill, on Fridays, beginning at 7 P.M. Attendance at the evening demonstrations is obligatory on all who take Astronomy as a qualifying course for graduation. The Lectures will be divided into two sections, the first of which will embrace the theory and use of Astronomical Instruments, together with as much General Astronomy as is requisite to guide the student in making observations in the field as well as in an observatory. The Second Division will treat of the utilization of observations of Comets, etc., in the computation of orbits and ephemerides.

PRACTICAL ASTRONOMY (ADVANCED SUMMER CLASS).

This Class, consisting of thirty meetings of two hours each, will only be held if a sufficient number of Students present themselves. It will meet at the Royal Observatory, Blackford Hill, on Tuesdays and Fridays in the Summer Session. Evening hours will also be arranged to suit the progress of the work.

VII. HUMAN ANATOMY, including ANTHROPOLOGY.

PROFESSOR CUNNINGHAM.

For full Synopsis of Lectures on Anatomy and for Course of Practical Anatomy, see under Faculty of Medicine.

ANTHROPOLOGY.

If a sufficient number of Students express their intention of selecting Human Anatomy, including Anthropology, as a subject for the Degree of B.Sc., the Professor of Anatomy will deliver, during the Summer Session, a course of twenty-five Lectures on Physical Anthropology. Members of the Class are trained in Anthropometrical methods. Fee, £2, 2s. ; or for Students who take the Summer Course of Practical Anatomy, £1, 1s.

VIII. PHYSIOLOGY.

PROFESSOR SCHÄFER.

For Synopsis of Lectures, and Elementary Courses of Practical Physiology and Histology, see under Faculty of Medicine.

ADVANCED PRACTICAL PHYSIOLOGY.

This Course is devoted to Experimental and Chemical Physiology and Histology of a more advanced nature than that of the ordinary course of Practical Physiology. It is assumed that those who propose attending this Course have already attended the Elementary Course (*or*, a similar Course elsewhere) and the Lectures. The Course is divided into three parts, viz., (1) Experimental, (2) Chemical, (3) Histological. Parts 1 and 2 are taken in the Winter Session, and occupy six hours a week. Part 3 is taken in the summer.

This Course is adapted for those preparing for examinations in Natural Science and Honours Examinations in Physiology, and for those who may afterwards desire to prosecute Physiological Research.

IX. GEOLOGY, including MINERALOGY.

PROFESSOR GEIKIE.

Winter Course.

I. CLASS OF GEOLOGY AND MINERALOGY.—Daily, at 4 o'clock. The Course embraces :—

1. *Dynamical Geology*—A discussion of the nature and causes of geological changes effected on the surface and within the interior of the earth.

2. *Mineralogy*—An account of the physical and chemical characters of minerals, and a description of some of the more important and typical species in the various mineral groups.

3. *Petrography*—A description of the various families of rocks.

4. *Structural Geology*—A description of the geological structure and relations of rock-masses to each other.

5. *Palæontological Geology*—An account of the nature and use of fossils in geological inquiry.

6. *Palæontology*—A description of the more important types of life represented by fossils.

7. *Historical Geology*—The history of the successive geological periods.

This Course, after Christmas, is a Half-Course qualifying for Graduation in Arts.

[*N.B.*—For Arts Students a course of ten laboratory demonstrations of two hours each forms part of the ordinary Winter Course. They must also attend the Field Demonstrations.]

Text-Books—“*Outlines of Geology*,” by the Professor (*Stanford*); Hatch’s “*Mineralogy*” (*Whittaker*); Hatch’s “*Petrology*” (*Sonnenschein*) or Harker’s “*Petrology for Students*” (*Cambridge University Press*). More detailed works of reference, most of which are in the College Reading-Room, are recommended for each branch of the lectures.

II. CLASS OF PRACTICAL MINERALOGY AND GEOLOGY.—Two hours (2 to 4), on Mondays, Wednesdays and Fridays under superintendence of the Professor.

III. FIELD DEMONSTRATIONS.—Short excursions are made on Saturdays to places of geological interest near Edinburgh, when the Class Lectures are illustrated by demonstrations in the field, and practical instruction is given in Geological Surveying.

These Field Demonstrations are open to Students attending either the Class Lectures or the Practical Class.

Adjoining the Class-room is a small Museum exhibiting the characters of minerals and rocks, and the typical fossils of the different geological systems.

Summer Course.

The following subjects are dealt with in this Course :—

1. *Petrography*.—(The lectures are illustrated by demonstrations in the Laboratory and the Class Museum.)
2. *Palæontological Geology*.—(Class Museum, see above.)
3. *Geotectonic or Structural Geology*.—Under this head *Dynamical Geology* is also discussed in more or less detail.
4. *Geological Surveying*.
5. *Economic Geology: application of Geology to Mining, Engineering, Agriculture, Public Health, &c.*
6. *Physiographical Geology: an inquiry into the origin of the present outlines of the earth's surface.*

Structural and Physiographical Geology form the principal portion of this Course, but no previous knowledge of Geology is required of the student—the elementary principles of the science being set forth both in the lecture-room and the field. The Class meets on Mondays, Wednesdays, and Fridays at 4, and a series of practical lessons on the study of rocks will be given at the beginning of the Session on Tuesdays and Thursdays at the same hour. The Saturdays, so far as possible, are devoted to field demonstrations, when the mode of geological mapping and section drawing is explained and illustrated. This Course is a Half-Course qualifying for Graduation in Arts.

PETROLOGY.

J. D. FALCONER, M.A., B.Sc., *Lecturer*.

Lectures and Practical Work, on Mondays, Wednesdays, and Fridays, from 10 to 12, in Summer.

II.—APPLIED SCIENCE.

I.—ENGINEERING.

The work of this department includes Lectures, Drawing Office work, practical work in the Laboratories, and visits to Engineering works and manufactories, details of which are given below.

It must be clearly understood that these Classes are not

intended to supersede the practical training which can only be acquired in the office or workshop during a pupilage or its equivalent. The training given in these Classes, however, will be found to be of value in enabling those who have gone through them to obtain more advantage from the opportunities afforded them during their professional pupilage or apprenticeship.

Though primarily intended to meet the wants of students who propose to devote themselves to some branch of engineering, the work of the Classes will be found to be of direct practical value to those who are training for the profession of an architect, and also to all those who propose to engage in occupations directly connected with manufacturing industry.

Courses of Study.

The following Courses are recommended for Civil Engineering Students, who are preparing for the Degree of B.Sc. in Engineering :—

1st Year. — Mathematics [Intermediate Honours Class, Practical Division (Winter and Summer)], Chemistry and Chemical Laboratory, or Natural Philosophy and Laboratory.

2nd Year. — Junior Engineering, Engineering Drawing (Junior), Chemistry and Chemical Laboratory, or Natural Philosophy and Laboratory.

3rd Year.—Senior Engineering, Engineering Drawing (Senior) Applied Mathematics (Advanced Science Class), Engineering Laboratory, Geology, or other Optional Course.

The Engineering Field-Work Class may be taken in any of the Summer Sessions.

Students who are preparing for Mechanical Engineering should attend during the second and third years, classes in the Heriot-Watt College on Mechanical Engineering, and Mechanical Engineering Drawing ; and those preparing for Electrical Engineering must also attend the class of Electrical Engineering. (See p. 248.)

I. CHEMISTRY.

PROFESSOR CRUM BROWN.

For Synopsis of Courses, see under Faculty of Medicine.

II. MATHEMATICS.

E. M. HORSBURGH, M.A., B.S.C., *Lecturer.*

For Synopsis of Lectures, see under Faculty of Arts.

III. NATURAL PHILOSOPHY.

PROFESSOR MACGREGOR.

DR. W. PEDDIE.

For Synopsis of Lectures, see under Faculty of Arts.

IV. ENGINEERING.

PROFESSOR HUDSON BEARE.

Winter Session.

Two complete Courses of Lectures will be given in each Winter Session, and each of these complete Courses is divided into two Half-Courses. A student is permitted to attend a Half-Course of either of the two complete courses on payment of half the fee for a complete Course.

*Junior Course.**Lectures.*—Monday, Wednesday and Friday, 9 A.M.*Laboratory Instruction.*—On two days a week, for at least two hours on each day. The hours for this will be arranged at the first meeting of the Class.

The following subjects will be dealt with in these Lectures:—

During the first half of the Course, from October to Christmas, the Materials of Construction, their Origin, Preparation, Properties and Uses; the Friction and Efficiency of Machines; Elementary Hydraulics, and Hydraulic Appliances, including the Gauging of Water.

In the second half of the Course, after Christmas, the Lectures will deal with the Strength and Elasticity of Materials, the Strength and Stiffness of Beams, Columns, and Shafts, and of Framed Structures.

*Senior Course.**Lectures.*—Tuesday, Thursday and Saturday, at 9 A.M.*Laboratory Instruction.*—On two days a week, for at least two

hours on each day. The hours for this will be arranged at the first meeting of the Class.

In the first half of the Course, from October to Christmas, the Lectures will deal with Waterworks, Drainage and Sewerage Works, and Sewage Disposal, including the Design of Earthworks and Masonry Structures required in such Engineering works.

In the second half of the Course, after Christmas, the Lectures will treat of Railways and Tramways, and of works connected with Rivers, Canals, Harbours, Breakwaters, &c.

In each Class Monthly Examinations are held, and each week unless there be an examination, a problem paper is set, to be worked out at home. The questions proposed are such as are met with in the Practice of Engineering, and the answers, being returned to the students annotated and corrected, form a body of examples for subsequent reference.

There is also a Tutorial Class held fortnightly, at which the questions set in the Problem Papers are discussed and explained.

Visits to Engineering Works and Manufactories will be made from time to time, and as far as possible, one visit will be arranged for in each month of the Session.

Summer Session.

ENGINEERING FIELD-WORK.

A course of Practical Instruction in Surveying, Levelling, Setting Out, and Calculation of Quantities, is given each Summer. The Course consists of Lectures, of practical work in the Field, and of plotting work in the Drawing Office. The subjects dealt with include Surveying with the chain and with angular instruments; Levelling; the Optical and Mechanical Principles, Tests and various Adjustments of Surveying and Levelling Instruments; Setting out of Curves; Triangulation and Tacheometry. The Class will meet three times a week, and the whole of each of these days will be occupied in the work of the Class, from 9 until 4. The Course will begin early in May, and will be completed about the end of June.

ENGINEERING DRAWING.

W. HUME KERR, M.A., B.SC., *Lecturer.*

The Drawing Class will be open daily, except Saturday, from 10 A.M. to 4 P.M. Each Student is required to attend at least eight hours per week (the times of attendance to be arranged at the beginning of the Session). Every Student is, however, expected to devote additional time to the Drawing Office work. It is desirable, when possible, that Students should take the Classes of Engineering Drawing simultaneously with the Classes in Engineering, but the Junior Classes may be attended by those who are preparing to enter the Junior Engineering Class in the following Session. These Classes will be found useful also to those who propose to become Architects or Surveyors. The work is arranged so as to form a Two Years' Course.

*Junior Course.**Lectures.—*

The subjects dealt with in this Course will include the following:—GRAPHICAL CALCULUS; Signs of Lines and Areas; Additions of Vectors and Rotors; Vector and Link Polygons, and their application; Areas of Plane Figures; Centroids; Volumes, Moments of Inertia; the Use and Theory of such instruments as Logarithmic Slide Rules, Planimeters, &c. PROJECTIVE GEOMETRY; Properties of similar figures; Plan and Elevation; Perspective and Projective Geometry; Construction of Sections of Conical and Cylindrical Surfaces, and of Surfaces of Revolution; Development. GRAPHICAL STATICS; Theory of the Arch; Suspension Bridge and Catenary; Lines of Pressure; Reciprocal Figures; Framed Work; Bending Moment, and Shear Curves for Simple Beams, Theory of the Elastic Line.

*Senior Course.**Lectures.—*

This Course is arranged to be as far as possible a progressive Course of Civil Engineering Design, in which the Students will apply practically the instruction they receive in the Lectures. It will include therefore the making of working drawings of the

details of girders, of steel bridges and roofs, and of structures in masonry, timber, &c. Instruction will be given in the photographic methods of reproducing tracings, &c.

ENGINEERING LABORATORY.

The Fulton Engineering Laboratory, which was established in the year 1889, is intended to provide systematic instruction in the experimental methods which serve for determining the numerical data employed in Engineering calculations, and to familiarise Students with the Strength and other physical properties of the chief materials used by Engineers. Such instruction is valuable for two reasons. In the first place, only those who have had practical acquaintance with experimental processes can judge of the limits of accuracy of numerical data derived from experiments; and in the second place, engineers are frequently called upon to make special experiments for their own guidance, and in such cases a previous training in the art of experiments and in the methods which have been successfully adopted by others will be found to be of the utmost value.

Experiments will be carried on in the Laboratory on the Strength of Materials, on Friction, on Hydraulics, &c. The Laboratory contains a Testing Machine capable of exerting a pull of 100 tons, with specially arranged appliances for making accurate measurements of small strains, a smaller testing machine of 15,000 pounds capacity, a torsion testing machine, cement testing machines, beam testing machine, tanks and other appliances fitted up for experiments on Hydraulics and on the Flow of Water, and a considerable number of the ordinary workshop tools, both for wood and metal work for the preparation of apparatus and specimens.

As the Instruction in the Laboratory is, to a large extent individual, it is possible for Students to enter at any period of the Session. Advanced Students, especially those who have already been engaged in practical work before entering the College Class are encouraged to undertake original investigations on matters in relation to which Engineers still require experimental data.

MUNICIPAL ENGINEERING.

The attention of Students attending the Engineering Class, who propose to devote themselves to such work as falls within the scope of what is usually called Municipal or Sanitary Engineering, is directed to the Course of Lectures on Sanitary Engineering and Building Construction, which has been specially arranged for candidates for Degrees in Public Health. For full details see under Public Health, p. 250.

HERIOT-WATT COLLEGE.

In accordance with an agreement entered into between the University Court and the Governors of George Heriot's Trust for the purpose of arranging a joint curriculum of study for the degree in Engineering Science, the following classes in the Heriot-Watt College should be attended by University students preparing for the B.Sc. degree who propose to devote themselves to Mechanical and Electrical Engineering:—

MECHANICAL ENGINEERING.

PROFESSOR RICHARD STANFIELD.

Lectures—Monday and Wednesday, 10-11.

Tutorial—Thursday, 11-12.

Laboratory—Thursday, 1-4.

COURSE ON THE THEORY AND PRACTICE OF THE STEAM ENGINE AND GAS AND OIL ENGINES.

THERMODYNAMICS.—Theory of the steam-engine; calculation of internal and external energy; thermal efficiency; properties and laws of steam and permanent gases; efficiency of perfect heat-engine; calculation of density of steam; entropy; adiabatic equation; entropy diagrams; Rankine's efficiency; cylinder condensation; superheating; compounding, principle and advantage of.

ENGINE AND BOILER TESTING.—Calorific value of fuels; calorimeters; flue gas analysis; radiation and other losses in boilers; heat balance-sheet; indicators and indicator diagrams; determination of moisture in steam; steam

calorimeters ; effect of jackets ; Willans' law ; brakes ; testing indicators and gauges.

DISTRIBUTION OF STEAM.—Valves and valve gears ; Zeuner valve diagrams ; Meyer's expansion gear ; radial gears ; governors ; stability and power of governors ; link motions.

STEAM ENGINES.—Various forms ; high-speed engines ; types of compound engines ; computation of size for a given horse-power ; condensers—jet, surface, and evaporative ; steam turbines ; balancing of engines.

BOILERS.—Theory and construction of various types ; Lancashire ; multitubular ; marine ; water-tube ; economical combustion of fuel ; mechanical stokers ; grate and heating surfaces ; evaporative power ; economisers and feed-heaters ; injectors ; boiler inspection ; natural, forced, and induced draught ; super-heaters ; boiler fittings ; non-conducting compositions for boilers and steam-pipes ; steam-traps.

GAS AND PETROLEUM ENGINES.—The different cycles of operations ; various modern forms ; methods of igniting and governing ; scavenging principle ; testing gas and oil engines ; gas and oil calorimeters ; vaporisation and flash-points of petroleum ; efficiency of gas and oil engines ; producer gas, gas producers ; blast-furnace gas for motive power ; starting gear.

During the above course students will carry out complete engine and boiler tests with the experimental engine and boiler ; also gas and oil engine tests, etc.

The Engineering Laboratory is equipped with a large Compound Steam Engine and Locomotive Boiler, arranged for, and fitted with, all the necessary apparatus for most complete tests of engine and boiler economy, etc. The engine is designed to work compound or simple expansion, condensing or non-condensing, and with varying crank angles. Tanks are arranged so that the feed and condensing water can be accurately measured. A steam calorimeter is also fitted to measure the moisture in the steam supplied to the engine. Brakes and all needful indicator tackle are provided, and thermometers and gauges are attached to all essential points. Coal, gas, and oil calorimeters are also provided.

The large Gas Engine used for driving the machinery in the Engineering Workshop is also arranged for experimental work ; and there is a 5-brake-horse-power Petroleum Engine, fitted with all necessary appliances for making tests.

COURSE ON KINEMATICS AND DYNAMICS OF MACHINERY.

KINEMATICS OF MACHINES.—Definition of a machine ; higher and lower pairing ; relative linear and angular velocity of mechanisms ; rolling contact ; the theory of toothed wheels ; epicycloidal and involute teeth ; cams.

DYNAMICS OF MACHINES.—Forces required to accelerate the moving parts of machines ; velocity and acceleration diagrams ; variation of crank effort in direct-acting engine with variable steam pressure ; fluctuation of energy ; variation of speed ; fly-wheels ; effect of inertia of reciprocating parts of an engine.

FRICTION OF MACHINES.—Friction of sliding, turning, and screw pairs ; belt friction ; brakes and dynamometers : graphical solution of engineering problems.

MECHANICAL DRAWING.

Lectures—Tuesday, 3-4.

Drawing Class—Tuesday, 1-4 ; Friday, 2-4.

Principles of machine design ; complete working drawings of engines, machines, or parts of machines ; making working drawings from freehand sketches and measurements of the machinery in the engineering laboratory. Working out valve motion diagrams ; inking in and colouring finished drawings ; making tracings suitable for taking photographic prints for use in the workshop.

ELECTRICAL ENGINEERING.

PROFESSOR BAILY, M.A.

Lectures—Tuesday and Thursday, 10-11.

Monday, 11-12.

Laboratory—Wednesday, 10.30-12.30, and Friday, 11-1.

The subjects dealt with in the lectures include a treatment of electrical instruments for the measurement of electromotive

force, current, resistance, power, etc. ; the testing of magnetic materials ; the theory and construction of continuous and alternating current dynamos and motors, transformers, accumulators, arc and incandescent lamps, and other electrical appliances. A short treatment will also be given of the design of central stations, the distribution of power by electrical means, electric traction and electrical operations in factories. The lectures on Mondays, 11-12, are devoted to a treatment of electrical theory, and systems and methods of measurement are dealt with in a manner suitable for electrical engineers.

In the laboratory, students work for the most part in small groups, and carry out work on the testing and calibration of instruments, batteries, lamps, electrical and magnetic materials, etc., and tests are made on the dynamos and motors in the laboratory. The laboratory contains a large 26 h.-p. motor for driving the dynamos, a 10-kilowatt continuous current dynamo, a 10-kilowatt alternator, a 4 h.-p. motor and dynamo coupled set, and other small motors, transformers, etc. A battery of 60 large cells supplies current at any required pressure for experimental work, and the town mains are also available. There is a large equipment of commercial and standard instruments of all kinds for commercial and scientific testing and experimental work.

Students devote a part of the Laboratory Course to work in the Physical Laboratory, principally on Electricity and Heat ; but this arrangement may be modified, if a Student is receiving the practice in Physical Laboratory work elsewhere.

V. APPLIED MATHEMATICS.

C. G. KNOTT, D.Sc., *Lecturer.*

The Advanced Science Course on Applied Mathematics, of fifty Lectures, is adapted for Engineering Students. In the treatment of the subject practical applications and, in particular, graphical methods of solution will receive attention ; while the simpler processes only of the differential and integral calculus will be used. The Course will include the Kinematics, Kinetics,

and Statics, of particles, rigid solids, flexible cords, and fluids ; also Strains and Elasticity and Thermodynamics.

Books recommended.—The simpler sections of Tait's *Dynamics* ; Rankine's *Applied Mechanics*.

VI. PHYSICAL APPLICATIONS ON VECTOR ANALYSIS.

This Summer Class will be found useful to Engineering Students, especially those who purpose studying Electrical Science. See outlines of Lectures under Faculty of Arts.

VII. GEOLOGY AND MINERALOGY.

PROFESSOR GEIKIE.

For Synopsis of Lectures, see Summer Course under Pure Science.

III.—PUBLIC HEALTH.

I. LABORATORY WORK.

PROFESSOR HUNTER STEWART.

(I.) PRELIMINARY WORK.

Exercises in weighing, each worker testing the accuracy of the graduation of his pipettes and burettes by weighing. Taking specific gravities of solids and liquids.

(II.) CHEMICAL AND PHYSICAL WORK.

AIR.—Temperature, Maximum and Minimum Thermometers—Pressure—Reading of Barometer, and correction for Elevation and Temperature—Moisture—Dew Point by Daniell's Hygrometer and Wet and Dry Bulb Thermometers—Determination of Absolute and Relative Humidity—Quantitative Determination of Carbonic Acid and Ammonia.

SOIL.—Determination of Water Capacity—Porosity and Permeability of Sand and Loamy Soil—Determination of Ammonia and Organic Nitrogen in Soil, and of Carbonic Acid in Ground Air—Use of Earth Thermometers.

WATER.—Total Solid Residue and Quantitative Estimation

of Lime, Magnesia, and Sulphuric Acid in a Water Residue—Chlorides—Hardness—Lead in Water (colorimetrically)—Organic Matter in terms of “Albuminoid Ammonia,” Organic Carbon and Nitrogen, and as “Oxygen required”—Nitrates and Nitrites by conversion into Nitric Oxide and Measurement of the Gas—Nitrites by Gries’ Method.

Gases in Water.—Determination of Total Volume of Gases and of the Nitrogen and Oxygen—Estimation of Oxygen by Manganous Chloride.

Sewage.—Composition of Sewage and of Effluents from Purification Works.

FOODS.—*Cereals, &c.*—Estimation of Albuminoids by Kjeldahl’s Method, Fat by Extraction, Starch by conversion into Sugar.

Sugar.—(1) By Fehling’s Solution volumetrically, and in Terms of Weight of Copper Oxide reduced (2) by Polarimeter.

Milk.—Estimation of Albumen, Fat, Sugar, and Salts by Ritthausen’s Method, and by Hoppe-Seyler’s Method—Specific Gravity and Reaction of Milk.

Butter and Butterine.—Moisture—Salt—Casein—Determination of Nature of the Fat in terms of Volatile and Fixed Acids.

Tea and Coffee.—Moisture, Extract, Ash.

Cocoa.—Moisture, Fat, Ash.

Wine, Beer, &c.—Extract, Alcohol, Sugar, and Acidity.

Lime Juice and Lime Juice Cordial.—Extract, Ash, Sugar, Acidity.

DISINFECTANTS. — Estimation of available Chlorine in Bleaching Powder—Determination of Comparative Value of different Disinfectants by lethal action on Microbes.

VENTILATION.—Determination of the amount of Carbonic Acid and of moisture in the air of an occupied room. Each worker reports at least once on the state of the air of a room, ventilated by extraction, in terms of the amount of Carbonic Acid present, and also of the amount of air renewal, measured by the Anemometer.

The foregoing work is done by each worker, and in each subject his results must be satisfactory before he can leave it. During this part of the Course, Laboratory Lectures are given twice a week, when the rationale of the methods and the interpretation of the results are discussed.

(III.) BACTERIOLOGICAL.

The subject of the Laboratory Lectures during this part of the Course consists of a consideration of:—

The Morphology and Classification of the Micro-organisms—Sterilization by Dry and Moist Heat—Disinfection—Methods of Cultivation—Methods of obtaining Pure Cultures in Solid and Liquid Media—Anærobic Micro-organisms, and the Methods for their Culture—Bacterial Products, Ptomaines and Antitoxins—Micro-organisms in Water, Air, and Soil—Removal of Micro-organisms from Water (1) on the large scale by Sand Filtration—Construction and working of Filter Beds—Theory of Sand Filtration—(2) On the small scale by Pasteur-Chamberland, Berkefeld, and other Filters—Micro-organisms in Milk—Sterilization of Milk on small and large scale—Pasteurization of Milk.

Practical work by each worker—Sterilizing all glass apparatus, *e.g.* tubes, dishes, pipettes, &c.

Preparation in all stages of the following Culture Media—Nutrient Broth, Jelly, and Agar Agar, Blood Serum, Potato Gelatine, Worts Gelatine, Glycerine Agar, Potatoes in Roux's Tubes, &c.

From a mixture of several Micro-organisms to get a pure Culture of *one*, by (1) method of dilution in liquid medium, and (2) by plate cultivation on a solid medium.

Cultivation, staining, and microscopical examination of:—

Mould Fungi.—Penicillium—Aspergillus—Mucor.

Yeast Fungi.—Yeast—Mycoderma Vini.

Fission Fungi.—The ordinary bacteria found in Air, Water, Soil, or Milk, *e.g.* Bacillus Subtilis, Mycoides, Megaterium, Proteus, Lactic Acid, Prodigiosus, Micrococcus Auranti-

acus, Ureæ, &c.; and also the following pathogenic forms—Tubercle, Diphtheria, Anthrax, Typhoid, Tetanus, Cholera, Plague, Coli Communis, Enteritidis, Malignant Oedema, Symptomatic Anthrax, Streptococcus pyogenes.

Bacteriological Examination in cases of Suspected Infectious disease—

(1) *In Man.*—Tubercle, Diphtheria, Typhoid Fever, Plague, Cholera, &c.

(2) *In Lower Animals.*—Tubercle, Anthrax, Symptomatic Anthrax, &c.

Cultivation of Micro-organisms in Air by Petri's Method, in Soil (from borings at different depths), and in Water. Daily for a week each worker bacteriologically examines the Edinburgh Water Supply. The filter beds are visited, and samples of the water both before and after filtration are bacteriologically examined.

II. PHYSICS.

PROFESSOR MACGREGOR AND DR PEDDIE.

A practical study of the following :—

(1) *Properties of Solids and Fluids.*—Specific gravity, elasticity as exhibited under tension, torsion and flexure; laws of liquid pressure; surface tension; viscosity of liquids; variation of volume with pressure for gases and vapours.

(2) *Heat.*—Corrections of thermometers; variation of the volume of a gas with temperature; pressure of vapour in the atmosphere; boiling points; specific heat; latent heat.

(3) *Light.*—Focal lengths and magnifying powers of lenses and systems of lenses; refractive indices of solids and liquids; photometry; laws of polarization of light; rotation of the plane of polarization; spectrum analysis.

(4) *Electricity.*—Resistance of wires, electrolytes, galvanometers and batteries; determination of strength of current.

III. GEOLOGY.

PROFESSOR GEIKIE.

For Synopses of Courses, see under Pure Science.

IV. PUBLIC HEALTH AND SANITARY SCIENCE.

PROFESSOR HUNTER STEWART.

1. Sanitary Law, specially the Public Health Act (Scotland), 1897—The English Acts—Notification of Infectious Diseases—Housing of the Working Classes—Factories—Cowsheds and Dairies—and Nuisance removal Acts, &c., Bye-laws.

2. Vital Statistics—Census, how determined—Death Rates crude, corrected and standard—Birth and Marriage Rates—Life Tables—Zymotic Death Rate—Age Rate, Case Mortality—Variations in Case Incidence and Case Mortality—Value of Vital Statistics in Public Health Work—Mortality as affected by Occupation—Sickness Rates, &c.

3. *Epidemiology*—Medicine in relation to Public Health—Immunity—Prophylaxis—Vaccination—Geographical distribution and etiology of the infectious diseases—Diseases of Animals communicable to man—Food Poisoning, Botulismus—Climates as determined by prevalent winds, temperature, moisture, altitude, and soil—Tropical, Temperate, and Arctic Climates.

4. Practical Sanitation—Water Supplies—Infectious Diseases Hospitals—Disinfection of clothing, dwellings, and discharges from sick—Slaughter-houses—Meat inspection—Ventilation—Sewage disposal—Hygiene of Schools—Disposal of the dead.

V. SANITARY ENGINEERING, BUILDING CONSTRUCTION, ETC.

PROFESSOR HUDSON BEARE.

(1) Site, environment, and construction of Dwellings, Sanitary fittings in houses.

(2) Water supply and distribution.

(3) Collection, treatment and disposal of Sewage and other Refuse.

(4) Air Supply, Ventilation and Warming.

(5) Nature, strength, and fitness of structural materials employed in Sanitary Works.

(6) Design of Sanitary Works, Municipal and Domestic.

VI. INSTRUCTION IN MENSURATION AND DRAWING.

W. HUME KERR, M.A., B.Sc., *Lecturer.*

The Course will include the following subjects:—Scales, their Construction and Uses—Estimation of Areas and Volumes—Elements of Plane and Solid Geometry, and their application to the making of Structural Drawings from Models and Figured Sketches—The use of the Slide Rule and other Calculating instruments—Plotting of Land Surveys and Sections—Elementary Building Construction.

VII. CLINICAL INSTRUCTION regarding Fevers and Infectious Diseases during three months in a recognised Hospital.

IV.—AGRICULTURE.

I *a.* MATHEMATICS.

PROFESSOR CHRYSTAL.

CHARLES TWEEDIE, M.A., B.Sc., *Lecturer.*

Senior Classes, as for M.A. Synopses, see Faculty of Arts.

I *b.* ZOOLOGY.

PROFESSOR EWART.

For Synopsis of Lectures, see under Faculty of Medicine.

I *c.* BOTANY.

PROFESSOR BALFOUR.

For Synopsis of Lectures, see under Faculty of Medicine.

II. NATURAL PHILOSOPHY.

PROFESSOR MACGREGOR.

For Lecture and Laboratory Courses, see under Faculty of Arts.

III. CHEMISTRY.

PROFESSOR CRUM BROWN.

For Synopsis of Lectures, see under Faculty of Medicine.

IV. AGRICULTURE AND RURAL ECONOMY.

PROFESSOR WALLACE.

1. *Definition of Agriculture.*—Aid given by the Allied Sciences.
2. *Surface Geology.*—Formation and Classification of Soils—their Physical and Chemical Properties. Importance of Organic Nitrogen. Fixation of free Nitrogen. Indications of good or bad Soils—Methods of Management and Improvement.
3. *Drainage and Cultivation.*—Practice—Advantages of Drainage—Irrigation—Wet-Warping—Mixing or Top-Dressing—Claying—Marling—Chalking—Liming—Paring and Burning—Clay-Burning. The Effect on Soils of Cultivation and the Growth of Plants.
4. *Implements and Machines of the Farm.*—Importance of their proper Construction and careful Management.
5. *Steam Cultivation.*—Advantages and Disadvantages—The “Darby” Land Digger and Agricultural Motor.
6. *Motive Powers Employed on the Farm.*—1st, Man : 2nd, Horse ; 3rd, Mechanical Powers (Water, Wind, Compressed Air, Gas, Oil, Steam)—their Values and Advantages.
7. *Farm Servants.*—Labour and Wages—Day-work and Piece-work. Detailed and total costs of Horse and Hand Labour.
8. *Importance of Rotations.*—Different Rotations and reasons why they are adopted—Systems of Farming.
9. *Our Farm Crops* (including Grain, Root, Forage, and Hay Crops).—Selection and Cultivation: The Garton System of Plant Breeding. Prevention of Diseases.
10. *Identification of Grasses and Valuable Pasture Plants.*—Their Characteristics and Habits—Detection of Adulterations of Seeds—Regulations to protect Farmers in buying Seeds.
11. *The Management of Permanent Pasture.*—Proper Methods of making new Pasture—its After-treatment.
12. *Weeds in Pastures* and Means of Destroying them.
13. *Silage and the System of Ensilage.*—Its Advantages, &c.—Its Suitability and Unsuitability according to Locality.
14. *Manures.*—Farm-yard Manure—Mixing, Storing, and Application—great advantage as a General Manure. Special

Manures and so-called Artificials—Times and Methods of their Application. Utilization of Liquid Manure and Town Sewage.

15. *Buildings and Fences.*—Construction of Fences—General Arrangement of Farm-Buildings—best Flooring and Inside Plans and Dimensions of Byres, Cattle-Sheds, Stables, &c.—Covered Yards—Ventilation—Drainage.

16. *Live-Stock.*—Cattle, Pigs, Horses, Sheep, Poultry—Breeds of each, and suitability to Local Conditions—“Principles of Breeding.” Feeding and Management—Mixtures of Food. Cost of Producing a Stone of Beef, Mutton, and Pork, showing Profit.

17. *Dairying in all its Branches,* including the suitability of surrounding Conditions—Classes of Dairy Stock, and their Management—Treatment of Milk, its Sale, its Manufacture into Cheese, Butter, &c.

18. *Feeding Stuffs.*—Suitability of Common Food Substances to different Classes of Farm Stock—Purchase and disposal of the same—their Manurial Residues.

Text-Books.—Wallace’s “Farm Live Stock of Great Britain,” M’Connell’s “Note-Book of Agricultural Facts and Figures,” Fream’s “Elements of Agriculture,” “Rothamsted Experiments,” and “Soils and their Properties.”

Students are invited to consult the Professor at the beginning of the Session as to their plan of work.

Periodical visits will be made to suitable Farms. A Medal may be given for the best report on these excursions.

THE GARTON LECTURES ON COLONIAL AND INDIAN AGRICULTURE

(Free to present and last year’s Students of Agriculture).

PROFESSOR WALLACE.

Session 1903-4, 20 Lectures.

Introduction.—General view of the Agriculture of Canada, Australasia, Egypt and South Africa.

THE DOMINION OF CANADA.

Eastern Provinces.—Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island (the garden of Canada)—The leading features of the country—the Agricultural practices of these older settled areas—The Dairy Industry—Exports of Cheese and Butter.

Manitoba and the North West Territories.—System of Government Survey into Townships of six miles square—Wheat-growing on the Prairies—Elevator system of handling Grain—Cattle Ranching—Sheep Breeding and Feeding—The advantages of Mixed Farming—The Scottish Crofter Settlements.

British Columbia.—Its Grazing Capabilities—Its Agricultural Resources, with special reference to the Peace River District.

Government Aid to Agriculture.—The Experimental and Demonstration Farms—Agricultural Education, with special reference to the Guelph Agricultural College, Ontario.

AUSTRALASIA.

The Distinctive Features (Orographical, Geological, etc.) of the various Colonies—New South Wales, Victoria, South Australia, Queensland, Western Australia, New Zealand and Tasmania.

Crop Cultivation.—Rotations—Cereals—Forage—Potatoes—Diseases, Fungoid and Insect Attacks, and the Injurious Influences of Climate—Grape Growing—The Wine Industry—Trade with Europe.

Pasture.—Good Native Grasses—Salt Bushes—Injury to Sheep and Wool from Spear Grass and Bur Clover (*Medicago denticulata*).

Water Supply.—Irrigation (especially in Victoria)—Artesian Wells (chiefly in Queensland)—Rainfall—Periodic Droughts—Desert Country.

Reclamation of Land.—“Ring-barking” forest areas—“Bush-falling”—“Fern-crushing”—Drainage of Swamps—Burning off Withered Growths and the Sowing of Grass and other Pasture Seeds—Thistles on newly cleared land—Fencing.

Live Stock Industry.—Sheep—The Merino, Longwools (Lincoln, English- and Border-Leicesters, Romney or Kent Sheep)—Crosses as Frozen Meat producers—The Wool Trade.

Horses.—Breeding and Management—Their value as Army Remounts in India and South Africa.

Cattle.—British Breeds imported into the Colonies—Short-horn, Polled Angus, Hereford, Devon, Kerry, and Ayrshire, etc.—Kiama Milking Breed.

Dairying.—Rapid development in the Colonies—Export of Butter and Cheese—Encouragement given and control exercised by Government over Exports—Cold Storage.

Agricultural Colleges.—At Christchurch, Roseworthy, Dookie, Longernong, and Hawkesbury—Systems of Management—Successful Results.

THE SMALLER CROWN COLONIES.

Main Points of Interest in—West India Islands, British Guiana, the Straits Settlements, Uganda and other African Continental Possessions and Islands—Islands in the South Atlantic and Pacific Ocean.

Miscellaneous.—Relations of the Agriculture of the Colonies and India to that of the Mother Country—Exports of Agricultural Produce, etc., from the Colonies and India, with special reference to Earth Phosphates, Bones, and other manures, Frozen Meat, Cotton, Grain (including Wheat), Tea and Coffee, Sugar, Fresh Fruit, Spices, etc.

[*The Garton Lectures on Agriculture in 1904-1905 will be devoted to India, Ceylon, Egypt, and South Africa.*]

V. AGRICULTURAL CHEMISTRY.

A. PEEBLES AITKEN, D.Sc., *Lecturer.*

The Course comprises Lectures, Demonstrations, and Laboratory work :—

1. *The Atmosphere.*—The relation of its constituents to plant life—rain, dew, fog, and hoar frost, their causes and effects.

2. *Soils.*—Origin and formation—physical and chemical processes included in the term “weathering”—inorganic and organic constituents of soils—essential elements of fertility—work of living organisms in the soil—decay and putrefaction of vegetable matter—formation of humus—nitrification—relation of soils to air and moisture—capillarity—absorption of salts by soils—lysimetry—circumstances affecting the composition of drainage water—amelioration of soils by physical and chemical means—classification, investigation, and analysis of soils.

3. *Plants.*—Mineral and organic constituents of plants—their transformations and translocations during the life of plants from germination to maturity—respiration, transpiration, and assimilation—plant nutrition, and the specific effects of nutritive substances upon the growth and development of plants—water culture and other methods of investigating plant nutrition—meteorological conditions affecting the health and vigour of plants—sources whence plants derive their nitrogenous constituents—symbiosis—analysis of vegetable substances.

4. *Manures.*—Their classification, composition, and characteristics—specific action and suitability for different soils, climates, and crops—economic use, and the principles regulating their application—methods of conducting manurial experiments—analysis and investigation of manures—valuation of manures, and of unexhausted fertility.

5. *Crops.*—Their composition and classification—fodder crops, their relative value as food—external conditions affecting their nutritive value, preservation, and digestibility—theory of rotations—crop residues and their relation to the fertility of the soil.

6. *Animal Nutrition.*—Chief constituents of the animal body—respiration—digestion—influence of diet on the growth and health of animals—laws of flesh and fat production, and relation of food to work—nutrient ratio as a guide to feeding—animal waste—relation of food to manure—external conditions affecting the health and growth of animals—preparation of fodder—analysis and investigation of feeding stuffs.

7. *Dairy Produce.*—Composition of milk—its physical characters—diseases and sophistications to which it is liable—char-

acteristics of its ingredients—its analysis—butter and cheese—their composition, sophistication, and analysis—scientific aspects of dairy management.

VI. GEOLOGY.

PROFESSOR GEIKIE.

For Summer and Winter Courses, see under Pure Science.

VII. VETERINARY HYGIENE.

Lectures of recognised teachers of the subject.

VIII. AGRICULTURAL ENTOMOLOGY.

Course of twenty Lectures and Demonstrations.

W. FREAM, LL.D., B.Sc., *Steven Lecturer.*

(Free to Present and Past Students of the Agriculture Class.)

Position of Insects in the Animal Kingdom.

Morphology and physiology of Insects, particularly in so far as such knowledge is useful in baffling attacks of insect pests. Structural modifications of the mouth, legs, and wings.

Life-history of Insects.

General principle that where the life history involves a series or cycle of changes, the measures of suppression should be directed against the weakest link in the chain. Illustrations.

Methods of insect attack, and enormous losses consequent thereon. Incidentally:—(a) Stage in the life-history of the insect at which it becomes actively injurious. (b) Period in the growth of the crop when insect injury begins. (c) Organs of the plant which are attacked.

Methods of *prevention*, as distinguished from *remedy*.

General methods of prevention or remedy, as distinguished from *special*. The former are, in the main, agricultural. The latter usually involve the application of specific insecticides, or the subjection of the crop to treatment distinct from ordinary agricultural operations.

Insecticides : composition and properties of the more important. Methods of application. Fumigation.

Mechanical appliances for the distribution of insecticides.

Inter-relationship of economic entomology and systematic botany.

Natural enemies of insects ; particularly (a) insectivorous mammals and birds, (b) other insects, (c) parasites.

Classification of insects, directed especially to the means of identifying injurious insects in their several stages.

Characters of the natural orders of insects illustrated by genera which furnish destructive species.

Special discussion of the natural orders Coleoptera, Hymenoptera, Lepidoptera, Hemiptera, and Diptera.

Convenient groupings of insects—(a) According to crop attacked ; (b) According to mode of attack.

Detailed discussion of insects injurious to crops, to forest and fruit trees, and to live stock in Britain, with methods of prevention and remedy :—*inter alia*—Wireworms, weevils, turnip-flies, bark beetles, thrips, saw-flies, sirices, surface-caterpillars, winter moths, codlin-moths, goat-moths, leopard-moths, magpie-moths, cabbage butterflies, aphides, scale-insects, mangel-flies, cabbage-flies, onion-flies, Hessian flies, wheat-midges, gout-flies, frit-flies, celery-flies, leather-jackets, ox-warble-flies, sheep's-nostril flies, gad-flies, forest-flies, sheep-louse flies, &c. Other pests, outside the class Insecta :—as millepedes, arachnids, eel-worms. Present position of Agricultural Entomology in Britain, &c., and remarkable advances made during recent years.

The course is profusely illustrated by carefully prepared natural specimens, the characters of which are demonstrated by the Lecturer. The instruction is further facilitated by a unique set of special coloured diagrams, from the pencil of the late Miss Ormerod.

IX. ECONOMIC SCIENCE AS APPLIED TO AGRICULTURE.

PROFESSOR NICHOLSON.

Lectures up to Christmas, see under Faculty of Arts.

X. (a) FORESTRY.

COLONEL BAILEY, *Lecturer.*

Five days a week, at 10 A.M., during Winter.

1. *Principles of Sylviculture.*—On the general lines of Dr Schlich's "Manual of Forestry," vol. i.

2. *Formation and Tending of Woods.*—On the general lines of Dr Schlich's "Manual of Forestry," vol. ii.

3. *Protection of Standing Woods.*—Draining; fencing; cold winds and storms; fires; mammals and birds; insects; diseases; weeds; frost and drought; rain, hail, snow and rime; wounds.

4. *Timber.*—Its structure, characteristics, and identification; relative form and size of stem, branches and roots; physical properties; seasoning; defects and unsoundness; durability.

5. *Utilisation of Produce.*—Uses of wood; felling; conversion; measurement and sale; transport; harvesting of bark; fodder, fruits, and litter; impregnation; charcoal.

6. *Working Plans.*—General principles.

7. *Uses and Effects of Forests.*—Direct uses; indirect effects—effects on temperature and moisture, mechanical effects.

8. *Forestry in Scotland.*—General considerations; the financial question.

X. (b) EXPERIMENTAL PHYSICS.

Graduation in Science.

I.—PURE SCIENCE.

REGULATIONS AND CURRICULA FOR DEGREES IN PURE SCIENCE.

Candidates who began attendance on qualifying Science Classes before 1st October 1892, are referred to the CALENDAR for 1895-96 or previous Calendars.

N.B.—Figures within brackets refer to the Sections of Ordinance No. 12.

[I.] Two Degrees in Science are conferred by the University of Edinburgh, viz.:—Bachelor of Science (B.Sc.) and Doctor of Science (D.Sc.). These degrees are given in Pure Science and in Applied Science.

I.—PRELIMINARY EXAMINATION.

The Preliminary Examinations in General Education are held in the Examination Hall in the University, in autumn and spring. (Time-Table, pages 301 and 302.)

Candidates may obtain Schedules at the Matriculation Office on and after 8th September 1903 and on and after 15th February 1904. The Schedules must be completed and lodged along with the Fees not later than 18th September 1903 and 1st March 1904 for the Autumn and Spring Examinations respectively.

Fee, 10s. 6d. for each appearance.

Candidates may pay the Fees personally, or transmit them to T. GILBERT, University, Edinburgh, by *Post Office* or *Postal Orders* or by *Bank Drafts* crossed Union Bank of Scotland (Hunter Square Branch), Edinburgh, but not by cheques on private accounts. When names are not entered and Fees paid, or a Pass to the Examination obtained where the fee has been previously paid, on or before the stated dates, an additional or late entry fee of 10s. must be paid before the Candidate can be admitted to Examination. This fee will not be received after twelve o'clock of the last day but one preceding the Examination for which the Candidate desires to appear, without the express permission of the Dean of his Faculty and the subsequent sanction of the Senatus. A Candidate must enter his Name and pay the Fee, or, when the Fee has been previously paid, obtain a Pass, for each periodical Examination at which he desires to appear.

[II.] I. Candidates before entering on the Curriculum must, unless exempted, pass a Preliminary Examination in the following subjects:¹—

(1) English.

¹ See section 5, and also additional Regulations of Joint Board of Examiners, page 477.

- (2) One of the following:—Latin, Greek, French, or German.
- (3) Mathematics.
- (4) One of the following:—Latin, Greek, French, or German (if not already taken), Italian, or such other language as the Senatus may approve,¹ Dynamics.
2. *English* includes Grammar and Composition, and the Outlines of Geography and British History, the standard being that presently adopted for the Higher Grade Leaving Certificate of the Scottish Education Department.
3. *Latin* and *Greek* comprise grammatical questions, translations into English from Latin or Greek authors, not previously prescribed, and translations of plain passages or easy sentences from English into Latin or Greek. The standard is that presently adopted for the Lower Grade Leaving Certificate.
4. *French*, *German*, and *Italian* comprise grammatical, literary, and easy philological questions, translation into English from French, German, or Italian authors, not previously prescribed, and translations from English into French, German, or Italian. The standard is that presently adopted for the Higher Grade Leaving Certificate of the Scottish Education Department.
5. *Mathematics*—A student, who, having passed the Arts Preliminary Examination, has thereafter obtained a certificate of attendance on a qualifying class of Mathematics, will not be required to pass any further examination in Mathematics as a condition of entering on the course of study for graduation in Science.
6. Candidates may take Mathematics on the intermediate standard instead of on the higher standard,² provided they also take an additional modern language on the standard of the Preliminary Examination for Degrees in Medicine, as a fifth subject.
- Mathematics on the intermediate standard* comprises Mathematics on the lower standard—viz., (1) Arithmetic, including Vulgar and Decimal Fractions, Proportion, Percentage, Square Root, Simple Interest; (2) Algebra, including Fractions, Factors, Square Root, Equations of the First Degree, Simultaneous Equations of the First Degree, Easy Quadratic Equations, Problems leading to the above Equations; (3) Geometry—Euclid, Books I., II., and III. (or their equivalents), with easy deductions; and also (a) Euclid; Book VI., Propositions 1-19, or Geometry equivalent thereto. (b) Algebra; Quadratic Equations, Ratio and Proportion. (c) The Trigonometry of Right-angled Triangles.
- No Candidate will be entitled to profess Mathematics, Natural

¹ Any Candidate who proposes to be examined in a language other than those above named, is required to apply to the Senatus for approval before 1st February or 1st July for the Spring and Autumn Examinations respectively.

² This does not apply to graduation in Engineering.

Philosophy, or Astronomy at the Final Science Examination, unless he has passed the Preliminary Examination in Mathematics on the higher standard.

Mathematics on the higher standard comprises Mathematics on the lower standard as above, and Books IV., VI., and the first twenty-one propositions of Book XI. (or their equivalents), with deductions, Quadratic Equations, Trigonometry to the solution of Triangles inclusive, and the use of Logarithmic Tables.

7. *Dynamics* includes Elementary Statics and Kinetics of Solids, Liquids, and Gases.
8. A Candidate must pass in all the required subjects at one or not more than two Examinations, provided that he may offer himself for re-examination, as often as may be necessary, to satisfy this condition.
9. A Degree in Arts (not being a Degree *honoris causa tantum*) in any of the Universities of the United Kingdom, or in any Colonial or Foreign University specially recognised for the purpose by the University Court, after consultation with the Senatus, will exempt from the Preliminary Examination.
10. Attendance on any Science Class will not qualify for Graduation in Pure Science unless the whole Preliminary Examination has been previously passed.¹

BOARDS OF STUDIES, &c.

(*Ordinance No. 12.*)

[VI.] (1) It shall be the duty of the Senatus to determine from time to time the number of meetings of which a full course in any subject shall consist, and to report its determination to the University Court for its approval.

(2) The Senatus, with the approval of the University Court, may sanction half courses of not less than half the number of meetings which constitute a full course in the subject; but two half courses shall be held to be equivalent to a full course in such cases as the Senatus, with the approval of the University Court, may determine, and under such regulations as may from time to time be made for that purpose.

(3) It shall be the duty of the Professor and Lecturer² annually at the end of each winter session to submit to the Senatus a scheme specifying what proportion of the courses shall be devoted to lectures, practical demonstrations, examinations, and tutorial work respectively. The Senatus shall transmit such scheme, with such observations as it may think fit to make thereon, to the University Court for its approval.

(4) It shall be the duty of the Professors and Lecturers annually at the end of each winter session to submit to the Faculty of Science to be hereafter constituted in each University, for its consideration, a

¹ See Sect. [X.], page 270.

² This applies to all Extra-mural Teachers in Edinburgh whose Courses have been recognised.

syllabus of the subjects and books proposed for the work of their classes during the next Academical Year. The Faculty of Science shall transmit such syllabus, with such observations as it may think fit to make thereon, to the Senatus for its approval.

[VII]. The provisions of the preceding section shall not apply to approved Institutions or recognised teachers outside the Town in which the University is situated; but the University Court shall not grant or continue recognition to any Institutions or teachers unless they shall be satisfied that their courses of instruction are equivalent to the courses sanctioned in the Universities of Scotland.

(Ordinance No. 42.)

II. The Commissioners statute and ordain as follows:—

(1) For the better carrying out of the purposes of Section VI., Sub-sections 1, 2, and 3, of Ordinance No. 12 [General No. 7—Regulations for Degrees in Science], the Senatus Academicus shall institute a Board or Boards of Studies consisting of Professors in the Faculty of Science, together with such Professors in other Faculties whose subjects qualify for graduation in Science, and such of the Lecturers in the University appointed under the provisions of Ordinance No. 17 [General No. 10—Regulations as to Assistants and Lecturers] as the Senatus may from time to time select.

(2) The Senatus shall appoint one of the members of such Board or Boards to be Convener thereof.

(3) It shall be the duty of such Board or Boards of Studies to consider the matters specified in the said Section VI., Sub-sections 1 and 2, of the said Ordinance, and to report their opinion on the same to the Faculty of Science for consideration before transmission by the Faculty to the Senatus.

(4) In carrying out the duty imposed upon them by the said Section¹ VI., Sub-section 3, of the said Ordinance, the Professors and Lecturers shall submit the schemes therein mentioned to the Board or Boards of Studies, by whom the same shall be transmitted to the Faculty of Science, who shall submit them to the Senatus Academicus, with such observations as they may think fit to make thereon.

II.—DEGREE OF B.SC. IN PURE SCIENCE.

[III.]² 1. Candidates for the Degree of B.Sc. must, in the course of not less than three Academical years (*i.e.* three Winter Sessions, or two Winter Sessions, and three Summer Sessions), attend at least seven courses of instruction in the subjects included in the Science Examination which they purpose to undergo.

2. Three of these Courses must be in subjects prescribed for the First Science Examination, and four must be in subjects prescribed for the Final Science Examination.

[IV.] 3. Four of the seven Courses must be taken in the University of

¹ See footnote, page 266.

² Figures within brackets refer to the Sections of Ordinance No. 12.

Edinburgh. The remaining three Courses may be taken at this University or at other Universities or Institutions approved by the University Court, or under teachers recognised by the University Court for purposes of Graduation in Science, provided that the fees for attendance at an approved Institution or under a recognised teacher in Edinburgh, shall in all cases not be less than the fees exigible for the corresponding Courses in the University of Edinburgh.¹

- [v.] 4. Every Candidate for a Degree in Science must produce his Matriculation Ticket for the year in which he appears for Examination or Graduation.
5. All Candidates, not Matriculated Students of this University, availing themselves of the permission to attend Lectures at approved Institutions or by recognised teachers in Edinburgh, must, at the commencement of each year of such attendance, enrol their names at the Matriculation Office, paying a fee of the same amount as the Matriculation Fee, and having, in respect of such payment, a right to the use of the University Library.
- [xvii.] 6. A Student who before October 1892 has completed a part of his course of study with a view to Graduation in Science under regulations in force at the time in this University, and shall thereafter complete his course of study and pass the necessary Examinations in conformity with such regulations, or with those now in force, may become a Candidate for the Degree of B.Sc.
7. Candidates for Graduation who have previously passed the Examinations are required to intimate to the Clerk to the Senatus their intention to graduate, and pay the Registration fee at least ten days before the date of Graduation. Those whose Examinations are not then completed are required to give such intimation at the earliest possible date, and at latest one clear day before the day of Graduation.

UNIVERSITIES AND INSTITUTIONS AT PRESENT RECOGNISED IN
TERMS OF REGULATION II. 3.

The Universities of St Andrews, Glasgow, Aberdeen, Oxford, Cambridge, Dublin, and Victoria University, Manchester. Heriot-Watt College:—Mathematics qualifying for First Science Examination; Mechanics and Physics, as equivalent to one course in Natural Philosophy, qualifying for the first B.Sc. examination in Pure Science, Engineering, and Agriculture; Chemistry and Chemical Laboratory, as qualifying for the first and final B.Sc. examination; Electricity (Pure and Applied), Engineering Lectures and Drawing, Laboratory Practice (Mechanical or Electrical), as qualifying for the degree of

¹ Only Institutions and Teachers with the necessary staff and appliances for Theoretical and Practical Instruction in Science will be recognised by the University. A List of Universities, Institutions and Teachers at present recognised in terms of this regulation is given above.

B.Sc. in Engineering. The Glasgow and West of Scotland Technical College; University College, Dundee; University College, London; King's College, London; The Royal Colleges of Science, South Kensington; The Owens College, Manchester; The Mason College, Birmingham; The College of Science, Newcastle-on-Tyne; The Yorkshire College of Science, Leeds; University College, Bristol; University College, Liverpool; The Firth College, Sheffield; University College, Nottingham; The University College of North Wales, Bangor; University College of Wales, Aberystwyth; The University College of South Wales and Monmouthshire; The Engineering College, Cooper's Hill. The Queen's College, Belfast; The Queen's College, Cork; The Queen's College, Galway; The College of Science, Stephen's Green, Dublin; The School of Mines, Dublin; The Royal Agricultural College, Cirencester; The College of Agriculture, Downton; and the Veterinary Colleges of the United Kingdom; M'Gill University, Montreal; The University College of Toronto; Queen's University, Kingston, Ontario; The University of Sydney; The University of Melbourne; The University of Adelaide; Wellington College; The University of New Zealand; The University of Otago; Dalhousie College, Halifax, Nova Scotia; Stellenbosch College, South Africa; The University of Harvard; The University of Yale; The Johns Hopkins University; The Universities, and Polytechnic Schools supported and regulated or recognised by the governments of the respective Countries of Europe; Colleges affiliated (up to B.A. and B.Sc. Standards) to Universities of India; Engineering Colleges affiliated to the said Universities.

EXAMINATIONS.

DEGREE OF BACHELOR OF SCIENCE.

For the Degree of B.Sc. there are two Examinations, conducted by written questions, as well as orally and practically.

(a) *First Science Examination.*

[VIII.] I. The First Examination for the Degree of B.Sc. is as to the general knowledge of the Candidate on the following subjects:—

- (i.) Mathematics, or Biology (*i.e.* Zoology and Botany, Lectures and Practical Work).
- (ii.) Natural Philosophy.¹
- (iii.) Chemistry, with Practical Chemistry.²

¹ After 1905-6 a full course in Natural Philosophy will be held to include at least 100 lectures, and 50 hours of practical work in the Laboratory.

² Students who intend to take Chemistry as one of the subjects in the Final Examination are recommended to take a half-day course for three months in the Chemical Laboratory, instead of attending the Class of Practical Chemistry.

2. The Examination in these subjects is the same as for the ordinary degree of Master of Arts. [The First Professional Examination (Medicine) in Zoology and Botany is not accepted as equivalent.]

3. Candidates may present themselves in any one or more of these subjects at any Examination held after they have attended a full course in the subject or subjects professed.

(b) *Final Science Examination.*

[IX.] 1. The Final B.Sc. Examination is on a higher standard in any three or more of the following subjects:—

- (1) Mathematics.
- (2) Natural Philosophy.
- (3) Astronomy.
- (4) Chemistry.
- (5) Human Anatomy, including Anthropology.
- (6) Physiology, including Histology and Physiological Chemistry.
- (7) Geology, including Mineralogy.
- (8) Zoology, including Comparative Anatomy.
- (9) Botany, including Vegetable Physiology.

2. The standard of this Examination is as nearly as possible equivalent to that of the Examination for the Degree of M.A. with Honours, where the subjects are different: and where the subjects are the same the examination is identical.

3. A subject already taken for the First Examination may be taken also for the Final Examination.

4. Candidates presenting themselves for the Final Examination must have attended four full courses of higher instruction, including practical or laboratory work, in the Subjects professed. [See below.]

5. The Final Science Examination cannot be taken sooner than one year after the Candidate has passed the First Science Examination.

[X.] If a student, before passing the Preliminary Examination has attended a class qualifying for graduation, the Senatus may, on special cause shown, permit him to count such class for examination, on condition of his passing the full Preliminary Examination within such time as the Senatus may appoint.

[XI.] A Candidate for the degree of B.Sc. is not deemed to have attended a class as part of the curriculum for that degree unless he presents a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

[XII.] The Examiners for the degree of B.Sc. have power to report that a Candidate has passed with special distinction in one or more of the subjects professed by him: and in such case a Diploma is given setting forth the subjects in respect of which the degree has been granted, and the subject or subjects in which special distinction has been obtained.

COURSES FOR FINAL EXAMINATION IN PURE SCIENCE.¹

In Mathematics and Natural Philosophy the Examination is the

¹ See footnote, page 268.

same as for Honours in Arts. In each of the other subjects professed, two written papers are set, namely, a *first* and a *second* paper; and the Practical and Oral Examinations also consist of *first* and *second* parts. The second part of the Examination is of a higher standard than the first. Candidates must pass the first section of the Examination (as well written as practical and oral) in all the subjects professed. They must also pass the second section in at least one of their subjects. The following Courses of Higher Instruction in this University, (1) Intermediate and (2) Advanced, qualify for the first and second stages of the Final Examination in Pure Science:—

1. Mathematics: (1) *Intermediate Course*, as for Honours in Arts. (2) *Advanced Course*, as for Honours in Arts.

2. Natural Philosophy: (1) *Intermediate*: Honours Classes (Half-Courses in Dynamics and Thermodynamics, (2) *Advanced*: Honours Classes in Advanced Dynamics, Electricity, Wave Theory, Sound and Light, and applications of Vector Analysis to Physics and Advanced Experimental Physics and Senior and Advanced Practical Physics, are recognised as Half-Courses.

3. Astronomy: (1) *Intermediate Course*: Winter Lecture Course, including Practical work, (2) *Advanced Course* of Practical Instruction at the Observatory.

4. Chemistry: (1) *Intermediate Course*: One Winter Course, or two Summer Courses in the Laboratory. (2) *Advanced Course*: Further Laboratory Work and one additional Lecture Course.

5. Human Anatomy, including Anthropology: (1) *Intermediate Course*: Six months' Lectures on Systematic Anatomy (Winter Session), with six months' Practical Anatomy. (2) *Advanced Course*: Course of Anthropology.

6. Physiology: (1) *Intermediate Course*: Six months' Lecture Course (Winter Session) and Practical Work (Winter and Summer Session). (2) *Advanced Course*: Laboratory Work (Winter Session).

7. Geology, including Mineralogy: (1) *Intermediate Course*: Winter Lecture Course and Practical Class. (2) *Advanced Course*: Laboratory Work, or Advanced Lecture Course—either Petrology or Mineralogy and Crystallography.

8. Zoology, including Comparative Anatomy: (1) *Intermediate Course*: Six months' Course, including Lectures on Invertebrate Zoology, and on Embryology, with Laboratory Work. (2) *Advanced Course*: Six months' Course on the Morphology of the Invertebrata and Vertebrata, and Laboratory Work.

9. Botany, including Vegetable Physiology: (1) *Intermediate Course*: One Winter and One Summer Course in Laboratory. (2) *Advanced Course*: Laboratory Work, with one or more Lecture Courses.

The Final Science Examinations must be completed within twelve months.

DEGREE OF DOCTOR OF SCIENCE.

1. Graduates of this University who have held the Degree of B.Sc. for five years may offer themselves for the Degree of D.Sc. Candidates must profess one of the following branches of Science:—Mathematics; Natural Philosophy; Astronomy; Chemistry; Human Anatomy, including Anthropology; Physiology, including Histology; Geology, including Mineralogy; Zoology, including Comparative Anatomy; Botany, including Vegetable Physiology; and in this they will be expected to show a thorough knowledge.

2. Masters of Arts of this University with first or second class honours in Mathematics and Natural Philosophy under the conditions prescribed by the present Regulations for Degrees in Arts, or under the Regulations previously in force in this University, may offer themselves for the degree of D.Sc. after the expiry of five years from the date of their graduation in Arts, under the same conditions as if they held the degree of B.Sc.

3. Research Students within the meaning of the Regulations for the Encouragement of Special Study and Research and for the appointment of Research Fellows, may offer themselves for the degree of D.Sc. of the University in which they have prosecuted some special study or research, although they have not taken the degree of B.Sc. or the degree of M.A. with honours as aforesaid, in that University; provided—

(1) That they hold the degree of Bachelor of Science or Bachelor of Medicine of a Scottish or any recognised University, or a degree of any such University, which the Senatus shall hold equivalent to the degree of B.Sc. or to the degree of M.A. with first or second class honours in Mathematics and Natural Philosophy; provided that Candidates who hold any such degree from a University outside the United Kingdom may be required, if the Senatus think fit, before beginning their course as Research Students with a view to the degree of D.Sc., to pass an examination equivalent to an Honours or to a Final Science examination in a group of subjects cognate to their line of work as Research Students.

(2) That they have spent not less than two winter sessions or an equivalent period as Research Students in the University granting the degree, and that they produce evidence of satisfactory progress in the special study or research undertaken by them during that period.

(3) That a period of not less than five years shall have elapsed from the date of the graduation required in sub-section (1) of this section.

4. All Candidates for the degree of D.Sc. shall present a Thesis or a published Memoir or Work, to be approved by the Senatus on the recommendation of the Faculty of Science; provided that, if required by the Senatus, the Candidate shall also be bound to pass such

an examination conducted orally or practically, or by written papers, or by all of these methods, on the subjects of his special study or of his Thesis, as may from time to time be determined. The Thesis shall be a record of original research undertaken by the Candidate, and shall be accompanied by a Declaration, signed by him, that the work has been done and the Thesis composed by himself.

The Thesis must be lodged with the *Dean of the Faculty of Science* and the fees paid on or before 1st December.

5. Notwithstanding and in supplement of the Regulations as to Examinations, the *Senatus Academicus* shall appoint such Professors or Lecturers as it may think suitable to conduct the examination of candidates who may offer themselves for the degree of D.Sc., and the University Court shall, after consultation with the *Senatus Academicus*, appoint an additional Examiner to act along with them. Such additional Examiner shall be a person of recognised eminence in the subject of the thesis, or memoir, or work which is to be submitted for approval. The result of the examination shall be reported to the appropriate Faculty or Committee of *Senatus*.

6. The degree of D.Sc. shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth, and shall not be conferred *honoris causa tantum*.

7. The fee for examination for D.Sc. is £10, 10s.; for re-examination, £5, 5s.

REGULATIONS FOR SPECIAL STUDY AND RESEARCH AND FOR APPOINTMENT OF RESEARCH FELLOWS.

I. The *Senatus*, with the approval of the University Court, may make regulations under which graduates of Scottish Universities, or of other Universities recognised by the University Court, or other persons who have given satisfactory proof of general education and of fitness to engage in some special study or research, may be admitted to prosecute such study or research in the University.!

II. It is the duty of the *Senatus* in each University—

- (1) To receive and decide upon all applications for admission to prosecute special study or research.
- (2) To prepare a list of all persons admitted as Research Students.
- (3) To make regulations for the supervision of their work.
- (4) To satisfy themselves from time to time that the Research Students are carrying on their work in a satisfactory manner.
- (5) To suspend or exclude from any course any student whose conduct or progress is unsatisfactory.

III. Every applicant must send in to the *Senatus* a written application stating any degree or other distinction he has obtained, the line of study or research he wishes to prosecute and the probable period of its duration, together with evidence as to his character, capacity, and general qualifications.

IV. Any application shall be in the first instance referred by the Senatus to the appropriate Faculty, or to a Committee appointed by the Senatus; one member of the Committee shall always be a Professor or Lecturer within whose department the proposed line of study or research falls. No applicant shall be recommended by the Faculty or the Committee who has not satisfied them by examination or otherwise that he is qualified to prosecute the proposed line of study or research, and further—

- (a) That his proposed line of study or research is fit and proper;
- (b) That he possesses a good general education;
- (c) That he is of good character;
- (d) That he proposes to prosecute his studies or research during a period to be approved by the Senatus.

The Faculty or the Committee shall report to the Senatus on each application. It shall also be their duty, subject to the regulations of the Senatus, to provide for the supervision of the Research Student's work, and to report at least once a year to the Senatus as to his progress and conduct. The Senatus shall then determine whether he shall remain a Research Student.

V. Every Research Student shall be required to matriculate each year, paying the ordinary fee.

VI. Research Students have the use of the University Laboratories and Museums, under such conditions as the University Court, after consultation with the Senatus, may determine.

VII. The title of Research Fellow may be conferred by the Senatus with the approval of the University Court, on Research Students who have shown special distinction. Such title shall not of itself confer any right to stipend, but it shall be in the power of the University Court to provide a stipend of such amount and for such period as it may think fit to any Research Fellow.

- VIII. (1) The Research Fellows shall be appointed after consideration of the report or reports submitted in terms of Section IV.
- (2) The title of Research Fellow may be conferred at the commencement of the Research Student's course of study or research, or at any time during its progress, as the Senatus may determine.
 - (3) Research Fellows shall retain their title and stipend, if any, for the period during which they are engaged in special study or research in the University, and no longer.
 - (4) Research Students who have been appointed Research Fellows shall continue subject to the above conditions as to the supervision of their work and the reports to be made thereon.

IX. Nothing herein contained shall prejudice the right of Research Students to such Fellowships, Scholarships, or Prizes as may be open to them by Ordinance or Deed of Foundation.

X. The University Court may provide such sums as it may think fit in aid of the expenses of Special Study or Research.

REGULATIONS FOR THE GRADUATION OF WOMEN AND FOR
THEIR INSTRUCTION.

EXCERPTS FROM ORDINANCE NO. 18 (GENERAL NO. 9).

1. It shall be in the power of the University Court to admit women to graduation.

2. The conditions for graduation shall be the same for women as for men, subject to the following modifications, which shall have effect until provision is made for the instruction of women in all subjects qualifying for graduation, in which provision is made for the instruction of men :—

Section 3 of the Regulations for Degrees in Science shall not be applicable to the graduation of women in Science, so long as within the Faculty provision is not made for the instruction of women in any subject qualifying for graduation in which provision is made for the instruction of men, and it shall be in the power of the University Court to admit to graduation women who have received the requisite instruction in that subject in any other Universities or Institutions approved by the University Court, or under teachers recognised by the University Court for purposes of Graduation in Science: Provided always that every candidate for graduation shall produce evidence of having satisfied the conditions with respect to the Preliminary Examination, and shall be examined in all the subjects necessary for graduation by the Examiners of the University.

3. So soon as within the University provision is made for the instruction of women in all subjects qualifying for graduation in which provision is made for the instruction of men, the conditions for the graduation of women shall be the same as the conditions for the graduation of men.

4. (1) Women who attend classes in the University must matriculate, paying a fee of the same amount as that exigible for other students.
(2) Women, who are candidates for graduation but not matriculated students, and who may attend classes in Edinburgh, under the provisions above set forth, must, at the commencement of each year of such attendance, enrol their names in a book to be kept in the University for that purpose, paying a Fee of the same amount as the Matriculation Fee paid by students of the University; and having, in respect of such payment a right to the use of the Library of the University.

ADDITIONAL REGULATIONS BY THE UNIVERSITY COURT.

Any woman who has received the requisite instruction in Chemistry, Botany, and Zoology, in any other University or Institution already approved by the University with the view to the Graduation of men, or under any teacher already recognised

with that view, or in the Medical College for Women, Chambers Street, Edinburgh, will—subject to the provisions of Ordinance¹ No. 18, General No. 9, Regulations for the Graduation of Women, &c.—be admitted to Examination in these subjects for Graduation in Science.

Women may attend within the University the advanced Courses in Botany and Zoology, and the advanced Lecture Courses in the Chemistry Department, qualifying for Graduation in Science.

OUTLINE OF EXAMINATIONS.

I.—FIRST EXAMINATION FOR B.SC. IN PURE SCIENCE.

(a 1) MATHEMATICS.

Arithmetic—Euclid, Books I., II., III., IV., VI., and XI., or their equivalent, with their application to Mensuration—Algebra, Trigonometry, Conic Sections, Geometrical and Analytical.

Candidates must show sufficient knowledge in each of the subjects of Examination.

(a 2) ZOOLOGY.

(a) The General Principles of Biology.

(b) The distinctive characters of the Invertebrate groups, and the structure, habits, &c., of Amœba, Paramœcium, Hydra, Arenicola, Hirudo, Helix, and Nephrops.

(c) The distinctive characters of the Vertebrate groups, and the structure, habits, &c., of Gadus, Raia, Rana, Columba, and Lepus.

(d) A general knowledge of the Orders of Vertebrata.

(e) The outlines of the development of Amphioxus, Rana, Gallus, and Lepus, and of the characteristic larval forms of Echinodermata, Crustacea, Annelida, and Mollusca.

(f) The Geographical Distribution of Animals.

(g) A general knowledge of Wallace's Darwinism.

(a 2) BOTANY.

The characteristic features of the following groups and classes of the vegetable kingdoms:—

Thallophyta (Schizophyta, Algæ, Fungi); Bryophyta [Hepaticæ,

¹ See Ordinance, Appendix to CALENDAR, 1892-93, page 51.

Musci]; Pteridophyta [Filicineæ, Equisetineæ, Lycopodineæ]; Spermophyta [Gymnospermæ, Angiospermæ (Monocotyledones, Dicotyledones)].

The fundamental facts and principles of Organography, Physiology, and Geographical Distribution. The life-history of the following plants:—Bacterium, Nostoc, Spirogyra, Saccharomyces, Mucor, Vaucheria, Agaricus, Collema, Puccinia, Claviceps, Eurotium, Marchantia, Fucus, Polysiphonia, Funaria, Aspidium, Equisetum, Selaginella, Pinus, Cycas, Scilla, Capsella, Helianthus, Ulmus, Quercus.

The characters of plants belonging to the chief British natural orders of Phanerogamæ.

(b) NATURAL PHILOSOPHY.

Elementary Dynamics.

Experimental Physics.

Candidates must show sufficient knowledge of both subjects.

(c) CHEMISTRY.

Chemical changes as distinguished from physical changes. Elements; compounds; mixtures. Laws of chemical combination by weight and by volume. The Atomic theory. Atoms; molecules. Avogadro's Hypothesis. Molecular weights of gaseous and volatile substances. Atomic weights. Law of Dulong and Petit. Chemical Notation—Symbols; formulæ; equations. Simple chemical calculations.

The non-metallic elements and their chief compounds; especially the compounds of oxygen, of hydrogen, and of chlorine with the other non-metals. The more important inorganic acids. The atmosphere. Combustion. Oxidation and reduction.

The following metallic elements and their chief compounds; especially those with oxygen, with chlorine, and with sulphur: Gold, platinum, silver, mercury, lead, antimony, tin, copper, bismuth, zinc, cadmium, iron, aluminium, chromium, manganese, barium, strontium, calcium, magnesium, potassium, sodium.

The following salts: the ammonium salts; the more important sulphates, sulphites, thiosulphates, nitrates, nitrites, carbonates, bromides, iodides, iodates, phosphates, borates, silicates.

The relations of bases, acids, and salts. Electrolysis. Quantivalence. The periodic law.

The metallurgy of silver, mercury, copper, lead, tin, zinc, iron (including cast iron and steel). Alloys, such as brass, bronze, solder, type-metal. Amalgams.

The manufacture of aluminium, magnesium, potassium, sodium, glass, porcelain, mortar, gunpowder, sulphuric acid, sodium carbonate

and bicarbonate, caustic soda, bleaching powder and chlorates, white lead.

Classification of Carbon compounds. Marsh Gas and its Homologues. Chloroform. Methyl and Ethyl Alcohols and Ethers. Substituted ammonias and ammonium salts. Formic and Acetic Acids, Aldehyde, Acetone, Chloral, Olefiant Gas, Acetylene, Oxalic Acid, Lactic Acid. Tartaric Acid, Citric Acid. Fats and Oils, Saponification, Glycerine. Cellulose, Sugars, Starch. Distillation of Wood and of Coal. Benzene, Benzoic Acid, Phenol, Salicylic Acid, Oil of Bitter Almonds, Hydrocyanic Acid, Cyanides, Cyanates, Thiocyanates, Urea, Uric Acid.

PRACTICAL EXAMINATION.

(a) Simple inorganic preparations on a small scale, especially such as involve the formation and decomposition of the commoner salts.

(b) The qualitative examination of single substances. The substances given for examination may be:—Salts in solution; solid salts soluble in water; carbonates, sulphides, and oxides, insoluble in water but soluble in acids; metals. The salts given are confined to those derived from the metallic and salt radicals named in the following lists:—

Silver, Mercurous, Mercuric, Cupric, Lead, Stannous, Cadmium, Bismuth, Antimony (*Tartar Emetic* may be given), Arsenious, Zinc, Manganous, Ferrous, Ferric, Chromic, Aluminium, Calcium, Barium, Strontium, Magnesium, Ammonium, Sodium, Potassium.

Carbonate, Sulphite, Thiosulphate, Sulphide, Hypochlorite (Bleaching solution), Nitrite, Chloride, Bromide, Iodide, Cyanide, Sulphate, Chromate, Orthophosphate, Arsenate, Arsenite, Borate, Oxalate, Nitrate, Chlorate, Acetate.

(c) Acidimetry and Alkalimetry.

(For further information see the *Practical Chemistry Class Book* "Salts and their Reactions," published by James Thin.)

II.—FINAL EXAMINATION.

(a) MATHEMATICS.

Pure Geometry, Algebra, Theory of Equations, including Determinants, Trigonometry (Plane and Spherical), Analytical Geometry, Differential and Integral Calculus, Calculus of Finite Differences. (The Candidate may, if he please, profess the Elements of Quaternion Analysis.)

(b) NATURAL PHILOSOPHY.

Analytical Dynamics and Thermodynamics, with at least two other branches of Mathematical Physics (such as Advanced Dynamics, Electrostatics and Magnetism, Electrokinetics and Electromagnetism,

Physical Applications of Vector Analysis, Wave Theory of Light, &c.), or with at least one such branch and one branch of Experimental Physics (such as Heat, Light, Electricity, &c.) in which the Candidate shall have submitted to the Examiners a report approved by them, embodying the results of an original investigation.

(c) ASTRONOMY.

1. The Principles and Practice of astronomically finding the geographical co-ordinates of the place of observation on land and at sea.

2. The Principles that guide the actual determination of the chief astronomical constants—*refraction, aberration, nutation, precession, and solar-parallax* in fixed observatories.

3. The methods used for determining the figure and size of the earth.

The Candidate will be required to explain the general principles on which the orbits of planets, etc., are calculated, and must show a thorough knowledge of the methods followed in the case either of a *comet, planet, double-star, or of a meteorite and a meteoric swarm.*

One group of observations must have been made in the field, or at an observatory, and fully reduced so as to show the value of the derived results, and the precautions that have been taken to free them from instrumental and personal errors. Candidates will also be examined as to the best ways of testing the critical parts of instruments, such as a *pivot, screw, level, &c.*

(d) CHEMISTRY.

Written and Oral Examinations:—Inorganic Chemistry, including Mineralogical Chemistry; Organic Chemistry; Chemical Crystallography; History of Chemistry.

In the written papers a choice of questions is allowed, so as to adapt the examination to the various courses of advanced study which Candidates may have selected.

Practical Examination:—*Intermediate*: Complex qualitative Analysis; Inorganic preparations; Gravimetric and Volumetric Analysis.

Each Candidate taking the higher standard will also be examined on Organic Preparations, Ultimate Organic Analysis, and one of the following subjects, selected by himself:—Gas Analysis; Assaying; Physico-chemical measurements.

(e) HUMAN ANATOMY, INCLUDING ANTHROPOLOGY.

Candidates are required to show a competent knowledge of the development of the human body and of its parts and organs; also the position and general arrangement of the different "systems" of organs which enter into its construction, and the structure both of these organs and of the simple tissues. A special knowledge of the locomotory

apparatus and of the nervous and vascular systems will be required. An acquaintance with the technical applications of human anatomy to the practice of Medicine and Surgery is not asked for.

The Anthropological part of the subject will embrace a knowledge of race characters as found in the skull and other parts of the skeleton, in the skin, eyes, hair, features, and the external configuration of the body generally. The methods of anthropometrical measurement both of the living body and of the skeleton should be known. The possible influence of use and of external surroundings in producing modifications in the physical characters of man will require attention. An acquaintance with the "types" of mankind and the structural relations of man to the higher mammals will also be expected.

(f) ANIMAL PHYSIOLOGY.

(Written and Practical Examinations.)

The minute Structure, Chemical Composition, and Functions of the Tissues and Organs of the Animal Body.

The Chemical Composition and Products of the Foods and Fluids involved in the Processes of Nutrition and Secretion.

In the Practical Examination Candidates may be examined orally on any of the above subjects, and will be required to show a practical acquaintance with the methods employed in Histology, Physiological Chemistry, and Experimental Physiology.

(g) GEOLOGY, INCLUDING MINERALOGY.

1. *Dynamical Geology.*—The nature and operation of geological agents:—The Atmosphere, Rain, Terrestrial Waters, Ice, the Sea, Plants and Animals, Volcanoes, Movements of the Earth's Crust.

2. *Mineralogy.*—Physical and Chemical characters of the more important and typical species in the various mineral groups—more especially the rock-forming minerals and ores.

3. *Petrography.*—Megascopic and Microscopic Characters, Composition, Origin and Distribution of Rocks.

4. *Structural Geology.*—Structure of Rock-masses, Inclination and Curvature of Rocks, Joints, Cleavage, Foliation, Metamorphism, Faults, Overlap, Unconformity.

5. *Palaeontological Geology.*—Characters, and distribution in time, of the more important Genera and Orders, especially those found fossil in Britain.

6. *Stratigraphical Geology.*—The History of the Geological Systems—more especially those of the British Islands.

7. *Physiographical Geology.*—Origin of the present outlines of the Earth's surface.

(h) ZOOLOGY, INCLUDING COMPARATIVE ANATOMY.

1. The Systematic Zoology of the Invertebrate and Vertebrate groups.
 2. The Elements of the Comparative Anatomy and Development of the Invertebrata and Vertebrata.
 3. The Principles of Natural Selection, a Knowledge of the Geographical Distribution of Vertebrate Animals.
- The following books are recommended:—Haswell and Parker's "Zoology"; Lang's "Text-Book of Comparative Anatomy"; Beddard's "Mammalia"; Darwin's "Origin of Species"; Wallace's "Darwinism" and "Island Life"; Marshall's "Embryology."

(i) BOTANY, INCLUDING VEGETABLE PHYSIOLOGY.

1. Organography and Physiology of Plants.
2. The Principles of Plant Classification, and the Systematic Characters of the chief Families of Plants, including the Life Histories of Representative Types.
3. The chief facts of Geographical Distribution, and the explanation of these.
4. The chief facts of Vegetable Palæontology, and their bearing on the Theory of Descent.

II.—ENGINEERING.

REGULATIONS AND CURRICULUM FOR DEGREES IN ENGINEERING.

Candidates who began attendance on qualifying Science Classes before 1st October 1893, are referred to CALENDAR 1895-96 or previous CALENDARS.

I. Two degrees in Science in Engineering are conferred by the University of Edinburgh—viz., Bachelor of Science in Engineering and Doctor of Science in Engineering.

I.—PRELIMINARY EXAMINATION FOR BACHELOR OF SCIENCE.

II. Every candidate for the degree of B.Sc. in Engineering must pass the Preliminary Examination¹ prescribed for Degrees in Pure Science, and the conditions with respect thereto imposed by the Regulations for Degrees in Pure Science are applicable in all respects to Degrees in Engineering except as follows—viz., Mathematics must be passed on the Higher Standard and the Preliminary Examination must be passed before the candidate presents himself for any part of the First Science Examination, but not necessarily before the candidate enters on his curriculum.

¹ See page 264.

II.—COURSES OF INSTRUCTION.

III. (1) Candidates must, in the course of not less than three Academical years (*i.e.* three Winter Sessions, or two Winter Sessions and three Summer Sessions), attend at least the eleven courses of instruction prescribed under Section VIII. hereof.

(2) It is the duty of the Senatus to determine from time to time which of the said courses are full and which are half courses respectively, and also to determine the number of meetings of which such full courses and half courses respectively shall consist, and to report its determination to the University Court for its approval.

IV. (1) Five full courses or their equivalent (counting two half courses as one full course) must be taken in the University of Edinburgh, and must include the necessary courses in Engineering, except where the University Court, after consultation with the Senatus, sees fit to allow one of the courses in Engineering to be taken outside the University under the provisions of the next sub-section.

(2) The remainder of the said courses may be taken in other Universities or Institutions approved by the University Court, or under teachers recognised by the University Court for purposes of graduation in Science in Engineering :¹ Provided that the fees for attendance at an approved Institution in Edinburgh or under a recognised teacher there are not less than the fees exigible for the corresponding courses in the University of Edinburgh.

V. The University Court may make regulations to enable candidates, not matriculated students of the University of Edinburgh, availing themselves of the permission to attend lectures at approved institutions or by recognised teachers in Edinburgh to obtain, on payment of a fee not exceeding in amount the matriculation fee paid by the students of the University, a right to the use of the Library of the University.

VI. (1) It is the duty of the Professors² and Lecturers annually at the end of each winter session to submit to the Senatus a scheme specifying what proportion of the courses shall be devoted to lectures, practical demonstrations, examinations, and tutorial work respectively. The Senatus transmits such scheme, with such observations as it may think fit to make thereon, to the University Court for its approval.

(2) It is the duty of the Professors² and Lecturers annually at the end of each winter session to submit to the Faculty of Science, for its consideration, syllabuses of the subjects and books proposed for the work of their classes during the next Academical year. The Faculty of Science transmits such syllabuses, with such observations as it may think fit to make thereon, to the Senatus for its approval.

VII. The provisions of the preceding section do not apply to approved Institutions or recognised teachers outside Edinburgh ; but the University Court will not grant or continue recognition to any Institu-

¹ See footnote, page 268.

² See Boards of Studies, page 266.

tions or teachers unless it is satisfied that their courses of instruction are equivalent to the courses sanctioned in the University of Edinburgh.

VIII. The subjects of study are as follows :—

1. Mathematics, including Analytical Geometry, and Differential and Integral Calculus.
2. Natural Philosophy, including Applied Higher Mathematics.
3. Chemistry, including Practical Chemistry.
4. A course in the Physical Laboratory or in the Chemical Laboratory, or of Practical Chemistry.
- 5, 6. Two Courses in Practical work in Drawing.
- 7, 8, 9. Three Courses in Engineering, including Engineering Laboratory Practice, and Field Work.
10. Natural Philosophy, involving Higher Mathematics.
11. One of the following :—
 - (a) Engineering Laboratory Practice, Mechanical or Electrical (Special Course).
 - (b) Electricity—Pure and Applied.
 - (c) Geology and Mineralogy.

III.—SCIENCE EXAMINATIONS.

(a) *First Science Examination.*

IX. (1) There is a First Science Examination in the three following subjects, viz.:—(1) Mathematics, (2) Natural Philosophy, (3) Chemistry including Practical Chemistry; and the examinations in Natural Philosophy, and in Chemistry are so far as possible practical.

The examination in Geometrical Drawing may be taken either at the First or at the Final Science Examination.

(2) The examination in Mathematics includes the higher branches of Mathematics specified under Mathematics in the Section immediately preceding; but it is optional to Candidates to pass the same examination in this subject as that required for the ordinary Degree of M.A., provided that in that case they will be required, before graduation, to pass an examination in the remainder of the subject.

(3) Candidates may present themselves in any one or more of the subjects of the First Science Examination at any examination held after they have attended a full course in the subject or subjects professed.

The following Classes in the University qualify for the First Science Examination in Engineering :—

1. Mathematics—Intermediate Honours Class, Practical Division (Winter), or Intermediate Honours, Practical Division (Summer).
2. Natural Philosophy Class and Junior Practical Class.
3. Chemistry Class and Practical Chemistry Class.
4. Physical or Chemical Laboratories—A three months' Course in either.

(b) Final Science Examination.

X. (1) There is a Final Science Examination in the remaining subjects specified in Section VIII. ; and, if required, in the higher branches of Mathematics as provided in Section IX., Sub-section 2.

(2) Candidates may present themselves in one or more of these subjects at any examination after they have passed the whole of the subjects in the First Science Examination and have attended the required courses in the subjects professed, provided that for this purpose subjects 5, 6, 7, 8, and 9, specified in Section VIII., shall form one subject.

XI. A candidate for the degree of B.Sc. in Engineering is not deemed to have attended a class as part of the curriculum for that degree who does not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

XII. It is competent to the Examiners for the degree of B.Sc. in Engineering to report that a candidate has passed with special distinction in one or more of the subjects professed by him ; and in such a case a diploma is given setting forth the subjects in respect of which the degree has been granted, and the subject or subjects in which special distinction has been obtained.

XIII. It is competent to the University Court to modify from time to time the provisions as to the curriculum, in case such modification be rendered desirable by the development of Engineering Science, or in consequence of further provisions having been made within or without the University for the study of any branch of the said Science : Provided that in no case shall the number of full courses of study required be less than the number required for the degree of B.Sc. in Pure Science.

The following Classes in the University qualify for the Final Science Examination in Engineering :—

1. Drawing—Class of Engineering and Mechanical Drawing during two Winter Sessions, or one Winter and two Summer Sessions.
2. Engineering—(a) The Junior and Senior Classes of Engineering during two Winter Sessions. (b) Class of Engineering Field-Work, held in Summer.
3. Natural Philosophy, involving Higher Mathematics—Advanced Course of Dynamics, Winter Session.
4. Engineering Laboratory, or Geology and Mineralogy—A three months' Course in either.

HERIOT WATT COLLEGE.—In accordance with an agreement entered into between the University Court and the Governors of George Heriot's Trust for the purpose of arranging a joint curriculum of study for the degree in Engineering Science, the following classes at the Heriot Watt College have been recognised by the University Court as qualifying for the First Science Examination and the Final Science Examination in Engineering.

Mathematics :—A two years' course qualifying for the First Science Examination up to the standard required for the ordinary degree of M.A. ; *Mechanics and Physics*, as equivalent to one course in Natural Philosophy ; *Chemistry and the Chemical Laboratory* ; *Electrical Engineering*, including lectures and laboratory practice ; *Engineering* :—Lectures, Mechanical Drawing and Laboratory practice.

IV.—DOCTORATE OF SCIENCE IN ENGINEERING.

XIV. Graduates of the University of Edinburgh who have held the degree of B.Sc. in Engineering for five years, may offer themselves for the degree of D.Sc. in Engineering.

XV. A candidate for the degree of D.Sc.¹ in Engineering must present a Thesis, or a published memoir or work, to be approved by the Senatus on the recommendation of the Faculty of Science : Provided that, if required by the Senatus, the candidate must pass such examination as may be determined. The Thesis must be a record of original research undertaken by the candidate, or of important engineering work designed by himself, and actually carried out, and must be accompanied by a declaration, signed by him, that these conditions have been satisfied.

GENERAL.

XVI. Candidates who produce certificates that they have satisfied all the conditions prescribed by these Regulations, and who have passed the necessary examinations, will be entitled to receive the degrees of B.Sc. in Engineering and D.Sc. in Engineering, as the case may be, on the payment of the fees required.

XVII. A student who, when these Regulations came into operation, had completed a part of his course of study with a view to graduation in Science in Engineering in the University of Edinburgh, under regulations in force at the time, and who thereafter completes his course of study and passes the necessary examinations in conformity with such regulations, or with the provisions hereof, may become a candidate for the degree of B.Sc. in Engineering.

XVIII. The degrees of B.Sc. and D.Sc. in Engineering are in no case conferred on persons who have not complied with the above conditions, and are not conferred *honoris causâ tantum*.

OUTLINE OF SUBJECTS OF EXAMINATION.

FIRST BACHELOR OF SCIENCE EXAMINATION.

1. MATHEMATICS—Two papers, one of two hours and one of three hours, to be taken at one time.² Subjects:—Mensuration ; Trigono-

¹ The Thesis must be lodged with the Dean of the Faculty on or before 1st December.

² A candidate who has passed the M.A. Examination in Mathematics is exempted from the first of these papers.

metrical Solution of plane triangles, involving the use of logarithmic tables (to be brought by the candidates). Curve-tracing; Elements of Cartesian and Polar Co-ordinates, including application to the analytical geometry of the straight line and the conic sections; Expansion of a determinant and elements of the theory of equations.

Fundamental ideas of the Differential and Integral Calculus; Differentiation and Integration of Simple Functions; Geometrical Interpretation of Differentiation and Integration; Elementary application to plane curves, maxima and minima of functions of one variable, areas, volumes, centres of mass and moments of inertia; Simple Differential Equations.

2. NATURAL PHILOSOPHY.

3. CHEMISTRY—Same as for First Examination in Pure Science.

SECOND BACHELOR OF SCIENCE EXAMINATIONS.

1. (a) ENGINEERING—

Field-Work.—Surveying; Levelling; Setting out of Work; Calculation of Quantities.

Properties of Materials.—General Properties, with special knowledge of their Strength, and the Purposes to which they are applied, and some knowledge of their Cost.

Strength and Stability of Structures designed by Civil Engineers.—Metal and Timber Bridges and Roofs. Arches in Masonry. Walls. Retaining Walls. Embankments. Cuttings. Breakwaters. Aqueducts. Pipes. Canals.

Strength and Form of the Elements of Machines.

Design of Combined Structures.—An elementary knowledge of the Design of Bridges and Roofs, of Reservoirs, Embankments, collecting and distributing Machinery of Waterworks, and of the main features of Railway construction, Harbours, and Drainage.

Design of Machinery.—An elementary knowledge of the construction of the Steam Engine, stationary and locomotive, of Prime Movers driven by Water, of Mill-wright work, and the general arrangement of Workshops and Factories.

Prime Movers.—Theory of Heat Engine. The Hot Air Engine. The Steam Engine. The Gas Engine. Turbines and Water Wheels. *Power Transmission*—Telodynamic, Hydraulic, Electric.

Engineering Laboratory Practice.

(b) DRAWING—

Candidates must exhibit a good knowledge of Geometrical Drawing, including the use of Graphics as applied in the solution of Engineering problems, and be able to represent neatly, in the usual manner employed by engineers, Plans and Sections of Buildings and Machinery, and also to make Engineering Sketches with figured dimensions from actual objects.

2. NATURAL PHILOSOPHY—

Applied Mathematics, chiefly Dynamics.

3. (a) ENGINEERING LABORATORY PRACTICE, MECHANICAL OR ELECTRICAL.

(b) ELECTRICITY—PURE AND APPLIED.

(c) GEOLOGY AND MINERALOGY—

Dynamical Geology.—Nature and Operation of geological agents :—The Atmosphere, Rain, Terrestrial Waters, Ice, the Sea, Plants and Animals, Volcanoes, Movement of the Earth's Crust.

Mineralogy.—Physical and Chemical characters of the more important and typical species in the various mineral groups—more especially the rock-forming minerals and ores.

Petrography.—Megascopic and Microscopic Characters, Composition, Origin and Distribution of Rocks.

Structural Geology.—Structure of Rock-Masses, Bedding, Joints, Cleavage, Foliation, Metamorphism, Faults, Unconformity.

Physiographical Geology.—Origin of the present outlines of the Earth's surface.

Engineering Geology.—The Applications of the Science to various Engineering Operations.

DOCTOR OF SCIENCE EXAMINATION.

A Candidate for this Degree will be required to offer a thesis or published memoir affording evidence of original work, and may also be required to pass a Special Examination. See page 285.

III.—PUBLIC HEALTH.

IV. REGULATIONS AND CURRICULUM FOR DEGREES IN PUBLIC HEALTH.

Candidates who commenced attendance on qualifying Science Classes before 1st October 1894 are referred to the CALENDAR for 1895-96, or to previous CALENDARS.

I. Two degrees in Science in Public Health are conferred by the University of Edinburgh, viz., Bachelor of Science in Public Health and Doctor of Science in Public Health.

I.—BACHELOR OF SCIENCE.

II. Candidates for the degree of B.Sc. in Public Health must be graduates in Medicine of a University of the United Kingdom, or of some other University recognised for the purpose by the University Court of the University of Edinburgh.¹

III. Candidates must be matriculated for the year in which they appear for examination or graduation.

¹ *Universities specially recognised under this section:*—The University of Würzburg; McGill University, Montreal; University of Harvard, U.S.A., 14th Oct. 1899; Queen's College, Kingston, Ontario, Canada, 18th December 1899.

(A)—*First Examination.*

IV. Candidates for the degree of B.Sc. in Public Health, before proceeding to the first examination, must produce evidence (1) that, after their graduation in Medicine, they have practically studied Bacteriology, the Pathology of the Diseases of Animals transmissible to man, and Chemistry as applied to Public Health, for at least twenty hours per week during a period of not less than eight months, of which at least five consecutive months must be in the Public Health Laboratory of the University of Edinburgh, and the remainder in the foresaid Laboratory, or in a Public Health Laboratory recognised for the purpose by the University Court;¹ and (2) that they have attended in the University of Edinburgh or any other Scottish University, in addition to the course of lectures in Physics qualifying for graduation in Medicine, such further course in Physics as the Senatus Academicus, with the approval of the University Court, shall deem necessary, and such a course of lectures in Geology, extending over not less than three months, as the Senatus with the like approval shall deem sufficient and appropriate.

The Courses in this University which at present qualify are the Laboratory Course in Physics for Students in Public Health, and either the ordinary Winter Course or the Summer Course in Geology.

(B)—*Second Examination.*

V. Candidates for the degree of B.Sc. in Public Health are not admitted to the second examination for the degree sooner than eighteen months after having taken their degree in Medicine, nor sooner than six months after having passed their first examination for the degree of B.Sc. in Public Health. They must have attended, subsequent to Graduation in Medicine, two separate courses in Public Health in the University of Edinburgh, or in any University of the United Kingdom, or any Indian, Colonial, or Foreign University recognised for the purpose by the University Court, or in such Medical School or under such teacher as may be recognised or approved for the purpose by the University Court, each course consisting of forty lectures at least; one of these courses shall deal with Medicine and the other with Engineering, each in its relation to Public Health, in such manner as the Senatus Academicus, with the approval of the University Court, shall determine.

¹ *Public Health Laboratories and Teachers recognised under this section:—*

University, Birmingham,	{ E. Percy F. Frankland, Ph.D., October 1894.
Liverpool School of Science and Technology,	{ George Tate, Ph.D., 15 June 1891.
King's College, London,	{ W. R. Smith, M.D., D.Sc., November 1891.
University of Aberdeen,	{ Professor Matthew Hay, M.D. 15 February 1891.
Pasteur Institute, Paris,	{ 22 October 1892.
University of Cambridge,	{ 13 December 1897.

They must also give evidence that, subsequent to Graduation in Medicine, (1) they have during three months, which must be separate and distinct from the period of Laboratory instruction, been diligently engaged in acquiring a practical knowledge of the duties, routine and special, of Public Health administration under the supervision of (a) a Medical Officer of Health recognised for this purpose by the General Medical Council; (b) a Sanitary Staff Officer of the Royal Army Medical Corps, having charge of an Army Corps, District or Command, recognised for this purpose by the General Medical Council; (2) that they have attended during three months the practice of an Hospital for Infectious Disease, at which opportunities are afforded for the study of methods of administration; and (3) that they have had three months' instruction in Mensuration and Drawing under a teacher recognised for this purpose by the University Court.

The lectures in this University which qualify are—(1) Advanced Course of Public Health and Sanitary Science by the Professor of Public Health; and (2) the course of instruction (Theoretical and Practical) in Sanitary Engineering and Building Construction by the Professor of Engineering, and the Class of Mensuration and Drawing by the Lecturer on Drawing.

VI. There is a first examination for the degree of B.Sc. in Public Health in (1) Laboratory Work, the examination being practical, written, and oral; (2) in Physics; and (3) in Geology, if an examination in Physics or Geology, as the case may be, qualifying for graduation either in Science or Arts has not previously been passed by the candidate.

VII. There is a second examination, written, oral, and as far as possible practical, for the degree of B.Sc. in Public Health in the following subjects, included in the course of instruction in Public Health—viz. (1) Sanitation, (2) Sanitary Law, (3) Vital Statistics, and (4) Medicine in its bearings on Public Health, and the examinations in these subjects are taken at one time. The examination in Sanitation, provided for under this section, shall include Reports by the candidates on Dwellings, Workshops, Hospitals, and Sanitary Schemes generally.

Candidates for B.Sc. (Public Health) must conform to the Regulations of the General Medical Council for Diploma in Public Health.

VIII. The Board of Studies for the Faculty of Science¹ from time to time, with the approval of the Senatus, determines and announces the character of the instruction to be given in the Laboratory, and fixes the standard of the examinations.

IX. It is competent for the University Court, after consultation with the Senatus, to modify from time to time the provisions as to the work and instruction hereinbefore specified as necessary for graduating in

¹ See Boards of Studies, page 266.

Science in Public Health, in case such modification may be rendered desirable by the development of the Science of Public Health, or by increase of the facilities provided in the said University or elsewhere for the study of any branch of the said Science.

SCHEDULES OF THE SUBJECTS OF EXAMINATION.

LABORATORY WORK.

(1.) *Examination of Water.*—Physical Properties, Chemical Properties, Microscopical Appearances, Pollution of Potable Waters.

(2.) *Examination of Air.*—Temperature, Pressure, Humidity; Carbonic Acid, Ozone, Micro-organisms, Organic Matter, Noxious Emanations.

(3.) *Examination of Foods.*—Milk, Butter, Butterine, or Oleomargarine, Flour, Bread, Starchy foods, Sugar, Honey, Butcher meat, Fish, Vegetables.

(4.) *Examination of Beverages.*—Tea, Coffee, Cocoa, Alcoholic Beverages, Aërated Waters.

(5.) *Examination of Condiments.*—Salt, Pepper, Mustard, Vinegar, and Preserves; Examination of Lime Juice. Nutritive Value of Dietaries.

(6.) *Sewage.*—Examination of sewage and of effluents after treatment.

(7.) *Soils.*—Temperature, Humidity, Permeability, Chemical Composition, Gases of the Soil, Micro-organisms.

(8.) *Disinfectants and Deodorisers.*—Chemical Examination of the Materials, Determination of their comparative power.

(9.) *Building Materials.*—Chemical and Physical Properties.

(10.) *Clothing.*—Physical Properties of Clothing Materials.

(11.) *Bacteriology.*—Micro-organisms in relation to Epidemic and other Diseases. Culture and recognition of Pathogenic and Non-Pathogenic, Aerobic and Anaerobic, Micro-organisms.

PHYSICS.

(1.) *Properties of Solids and Fluids.*—Specific Gravity, Elasticity, Laws of Pressure, Surface Tension, Viscosity.

(2.) *Heat.*—Thermometers, Expansion, Hygrometry, Boiling-points, Specific Heat, Latent Heat.

(3.) *Light.*—Lenses, Refractive Indices, Photometry, Polarization, Spectrum Analysis.

(4.) *Electricity.*—Current Strength, Resistance, Electrolytic Resistance, Batteries, Galvanometers.

GEOLOGY.

(1.) *Dynamical Geology.*—The nature and operation of Geological agents:—The Atmosphere, Rain, Underground Water, Rivers, Ice, the Sea, Plants and Animals, Volcanoes, Movements of the Earth's Crust.

(2.) *Mineralogy and Petrology.*—Characters of the more common and widely-distributed minerals and rocks.

(3.) *Structural Geology.*—The structure of rock-masses, more especi-

ally Bedding, Inclination and Curvature, Joints, Faults. Water-supply and Draining in connection with Geological Structure. Nature and Origin of Soils and Sub-Soils.

EPIDEMIOLOGY [MEDICINE IN ITS RELATION TO PUBLIC HEALTH].

The Causes of Endemic and Epidemic Diseases, as well as of Epizootics; of the Contagious or Infectious Diseases; and of those incidental to particular trades, or otherwise produced by the surroundings of the patient. Prophylaxis. Immunity. Vaccination against disease. Nature and Value of Vaccines.

SANITATION.

(1.) *Site, Environment, and Construction of Dwellings.*—Influence of Position, Aspect, and Climate; Meteorological and Geological Conditions; Soil and Drainage; Elements of Building Construction.

(2.) *Water Supply.*—Quantity per head; Relative Eligibility of available Sources of Supply; Estimation of yield; Methods of utilising various Sources of Supply; Storage, Subsidence, and Filtration; Distribution—(a) General, (β) Domestic; Causes, Detection, and Treatment of contaminated Supply.

(3.) *Air Supply.*—Quantity and Temperature, with knowledge of use of instruments employed in their Measurement; Causes and Detection of Impurities; Warming and Ventilation; Characteristics and Fitness of various methods in use.

(4.) *Excreta, Refuse, and Sewage.*—Character and Quantity of in (a) Urban, (β) Rural Districts—

A. Collection and Removal from (1) the Dwelling, (2) the Town or Village; Nature, Practical details, and maintenance of the several methods employed.

B. Disposal: (1) Sanitary, (2) Insanitary methods; Precipitation, Filtration, Irrigation, Discharge; General details of necessary works.

(5.) *General Structural and Mechanical Details of Sanitary Works.*—Character, Fitness, and Qualities of Materials (Brick, Cement, Earthenware, Iron, Lead); Design, setting out, and laying of Sewers; Plumbing and Iron-work.

(6.) *Hospitals.*—Principles of Design and Construction.

(7.) *Infectious and Epidemic Diseases.*—Origin, Modes of Propagation, and Means of Prevention; Epizootics.

(8.) *Disinfectants.*—Selection and application.

(9.) *Effects of Insanitary Conditions.*—Insufficient house accommodation, Vitiating of Air, Impure Water, Bad or insufficient Food.

(10.) *Unhealthy Occupations.*—Means of mitigating or removing their unhealthiness.

(11.) *Nuisances.*—Urban, Rural, and Domestic.

(12.) *Disposal of the Dead.*—Burial, Cremation.

N.B.—Candidates are required to be able to interpret plans sub-

mitted to them, and to illustrate their answers when necessary by sketches.

SANITARY LAW AND VITAL STATISTICS.

1. Sanitary Administration. Laws affecting Factories, Workshops, Mines, Common Lodging-houses, Removal of Refuse, Nuisances, Rivers Pollution, Alkali Works, Burial Grounds, Unwholesome Food, Adulteration of Food and Drugs. Sale of Poisons.

2. Methods of estimating Population. Death, Birth, and Marriage Rates. Mortality as affected by Age, Sex, and Occupation. Case Mortality. Life Tables.

NOTE.—In making calculations, the Candidate will be expected to understand the use of Logarithms, the Slide Rule, and Arithmometer.

II.—DOCTORATE OF SCIENCE.

X. Graduates who have held the degree of B.Sc. in Public Health from the University of Edinburgh for a term of five years may offer themselves for the degree of D.Sc. in Public Health in the said University.¹

XI. Candidates for the degree of D.Sc. in Public Health must present a thesis, or a published memoir or works, to be approved by the Senatus, on the recommendation of the Faculty of Science, and are required to pass an examination in Public Health, and in such of its special departments as the Senatus, with the approval of the University Court, may determine. [Candidates for D.Sc. in Public Health may appear for examination in any one of the departments of knowledge required for the degree of B.Sc. in Public Health. They are required to submit the subject in which they propose to be examined for approval at least two months before the date of the Examination.²]

The theses, or published memoirs or works, must be records of original research undertaken by the candidates, and must be accompanied by a declaration, signed by them, that the work has been done and the theses or memoirs composed by themselves.

GENERAL.

XII. Candidates who produce certificates that they have satisfied all the conditions prescribed by this Ordinance, and who have passed the necessary examinations, are entitled to receive the degrees of B.Sc. in Public Health and D.Sc. in Public Health, as the case may be, on payment of the fees required.

XIII. Students who, at the time when these Regulations come into operation, have completed a part of their course of study with a view to graduation in Science in Public Health in the University of Edinburgh, under regulations in force at the time therein, and thereafter

¹ See also Regulations for Research Students taking D.Sc., Section 3, page 272.

² The Thesis must be lodged on or before 1st December, and the Subject of Examination must be submitted to the Dean before 20th January. The Examination will take place about the end of March.

completes the course of study and passes the necessary examinations in conformity with such regulations, or with the provisions hereof may become candidates for the degree of B.Sc. in Public Health.

XIV. The degrees of B.Sc. and D.Sc. in Public Health are in no case conferred on persons who have not complied with the conditions hereinbefore set forth, and are not conferred *honoris causâ tantum*.

IV.—AGRICULTURE.

REGULATIONS AND CURRICULUM FOR GRADUATION IN AGRICULTURE.

Candidates who began attendance on Qualifying Science Classes before 1st October 1893, are referred to CALENDAR 1895-96, or to previous CALENDARS.

I. A degree of Bachelor of Science in Agriculture is conferred by the University of Edinburgh.

I. PRELIMINARY EXAMINATION.

II. Every candidate for the degree of B.Sc. in Agriculture must pass the Preliminary Examination¹ prescribed for Degrees in Pure Science; and the conditions imposed with respect thereto by the said Regulations are applicable in all respects to the Degree in Agriculture, except as follows:—The Preliminary Examination must be passed before the candidate presents himself for any part of the First Science Examination, but not necessarily before the candidate enters on his curriculum.

COURSES OF INSTRUCTION.

III. (1) Candidates must, in the course of not less than three Academical years (*i.e.* three Winter Sessions, or two Winter Sessions and three Summer Sessions), attend at least eleven courses of instruction in subjects prescribed for examination under Section VIII. hereof.

(2) It is the duty of the Senatus to determine from time to time which of the said courses are full courses and which are half courses respectively, and also to determine the number of meetings of which such full courses and half courses respectively shall consist,² and to report its determination to the University Court for its approval.

IV. (1) Five full courses or their equivalent (counting two half courses as one full course) must be taken in the University of Edinburgh, and must include the course in Agriculture and Rural Economy.

(2) The remainder of the said courses may be taken in other Universities or Institutions approved by the University Court, or under teachers recognised by the University Court for purposes of graduation in Science in Agriculture:³ Provided that the fees for attendance at an approved Institution in Edinburgh or under a recognised teacher there must not

¹ See page 264.

³ See footnote, page 268.

² See Boards of Studies, page 266.

be less than the fees exigible for the corresponding courses in the University of Edinburgh.

(3) Residence and practical work at a farm is required of each candidate to such an extent and under such regulations as the Senatus, with the approval of the University Court, may from time to time appoint.¹

V. The University Court may make regulations to enable candidates, not matriculated students of the University of Edinburgh, availing themselves of the permission to attend lectures at approved Institutions or by recognised teachers in Edinburgh, to obtain, on payment of a fee not exceeding in amount the matriculation fee paid by the students of the University, a right to the use of the Library of the University.

VI. (1) It is the duty of the Professors and Lecturers annually, at the end of each winter session, to submit to the Senatus a scheme specifying what proportion of the courses is to be devoted to lectures, practical demonstrations, examinations, and tutorial work respectively. The Senatus transmits such scheme, with such observations as it may think fit to make thereon, to the University Court for its approval.

(2) It is the duty of the Professors and Lecturers annually at the end of each winter session to submit to the Faculty of Science, for its consideration, a syllabus of the subjects and books proposed for the work of their classes during the next Academical year. The Faculty of Science transmits such syllabus, with such observations as it may think fit to make thereon, to the Senatus for its approval.

VII. The provisions of the preceding section do not apply to approved institutions or recognised teachers outside Edinburgh; but the University Court will not grant or continue recognition to any Institutions or teachers unless it is satisfied that their courses of instruction are equivalent to the courses sanctioned in the University of Edinburgh, where such exist.

VIII. The subjects of study are as follows² :—

1. Mathematics, or Biology (*i.e.* Zoology and Botany).
2. Natural Philosophy.
3. Chemistry, including Practical Chemistry.
4. Agriculture and Rural Economy.
5. Agricultural Chemistry.
6. Geology.
7. Veterinary Hygiene.
8. Agricultural Entomology.
9. Economic Science as applied to Agriculture.
10. A course in one of the following :—(*a*) Forestry ; (*b*) Experimental Physics ; (*c*) Engineering.
11. Engineering Field Work.

¹ Residence and Practical work at a farm must be not less than twelve months.

² See footnote, page 268.

II. SCIENCE EXAMINATIONS.

(a) *First Science Examination.*

IX. (1) There is a First Science Examination in the three following subjects—viz. (1) Mathematics, or Biology (*i.e.* Zoology and Botany); (2) Natural Philosophy; (3) Chemistry, including Practical Chemistry.

(2) The examination in all these subjects is the same as the examination in these subjects for the degree of B.Sc. in Pure Science, as specified in the Regulations therefor.

The following courses in this University qualify for the First Science Examination in Agriculture :—

1. (1) Senior Mathematics of 100 Lectures, as for the degree in Pure Science, or (2) Biology (Zoology, Botany) as for Pure Science.

2. Natural Philosophy, as for Pure Science.

3. Chemistry, full course, including Practical Chemistry, as for Pure Science.

(3) Candidates may present themselves in any one or more of the subjects of the First Science Examination at any examination held after they have attended a full course in the subject or subjects professed.

(b) *Final Science Examination.*

X. (1) There is a Final Science Examination in the remaining subjects (4 to 11 inclusive) specified in Section VIII. hereof.

(2) Candidates may present themselves in any one or more of these subjects at any examination held after they have passed the whole of the subjects comprised in the First Science Examination, and have attended the required courses in the subjects professed.

The following courses qualify for the Final Science Examination in Agriculture :—

1. Agriculture and Rural Economy—Full course of about 100 Lectures and 10 Field Demonstrations.

2. Agricultural Chemistry—Full course (including Lectures and Practical Work) of about 100 hours.

3. Geology—Half-course of 25 Lectures, 10 Demonstrations in Laboratory, and 8 Field Demonstrations.

4. Veterinary Hygiene—Half-course of about 50 Lectures.

5. Agricultural Entomology—Half-course of about 20 hours.

6. Economic Science, as applied to Agriculture—Half-course of about 50 Lectures—the Political Economy Class in Arts till Christmas.

7. A course in one of the following :—

(a) Forestry—Full course of about 100 Lectures.

(b) Experimental Physics—Full Laboratory course of 100 hours.

(c) Engineering—Full course of about 100 hours.

8. Engineering Field Work :—Half-course, extending over three weeks, 75 hours—Lectures, Drawing Office, and Field.

XI. If a student, before passing the Preliminary Examination, has attended a class qualifying for graduation, the Senatus may, on special

cause shown, permit him to count such class for graduation, on condition of his passing the full Preliminary Examination within such time thereafter as the Senatus may appoint, and in every such case the Senatus reports to the University Court the reasons for the relaxation.

XII. A candidate for the degree of B.Sc. in Agriculture shall not be deemed to have attended a class as part of the curriculum for that degree who does not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

GENERAL.

XIII. Candidates who produce certificates that they have satisfied all the conditions prescribed by these Regulations, and who have passed the necessary examinations, will be entitled to receive the degree of B.Sc. in Agriculture, on payment of the fees required.

XIV. A student who, at the time when these Regulations came into operation, had completed a part of his course of study with a view to graduation in Science in Agriculture in the University of Edinburgh, under regulations in force at the time therein, and who thereafter completes his course of study and passes the necessary examinations in conformity with such regulations, or with the provisions of these Regulations, may become a candidate for the degree of B.Sc. in Agriculture.

XV. The degree of B.Sc. in Agriculture shall in no case be conferred on persons who have not complied with the conditions hereinbefore set forth, and shall not be conferred *honoris causâ tantum*.

OUTLINE OF SUBJECTS OF EXAMINATION.

FIRST BACHELOR OF SCIENCE EXAMINATION.

1. (a) MATHEMATICS, or (b) BIOLOGY (*i.e.* ZOOLOGY and BOTANY).
2. NATURAL PHILOSOPHY.
3. CHEMISTRY, including Practical Chemistry.

The Examinations are the same as for the First B.Sc. in Pure Science.

FINAL BACHELOR OF SCIENCE EXAMINATION.

I. AGRICULTURE AND RURAL ECONOMY: ITS SCIENTIFIC PRACTICE.

1. *Definition of Agriculture*.—Aid given by the Allied Sciences.
2. *Surface Geology*.—Formation and Classification of Soils—their Physical and Chemical Properties. Importance of Organic Nitrogen. Indications of good or bad Soils—the Methods of Management.

3. *Drainage and Cultivation.*—Practice and Advantages of Drainage—Irrigation—Wet-Warping—Mixing or Top-Dressing—Claying—Marling—Chalking—Liming—Paring and Burning—Clay-Burning. The Effect on Soils of Cultivation and the Growth of Plants.

4. *Implements and Machines of the Farm.*—The Importance of their proper Construction and Careful Management.

5. *Steam Cultivation.*—Its Advantages and Disadvantages—Development of the “Darby” Land Digger. The Farm “Motor.”

6. *The Motive Powers Employed on the Farm.*—1st, Man; 2d, Horse; 3d, The Mechanical Powers (Water, Wind, Compressed Air, Gas, Oil, and Steam)—their Comparative Values and Advantages.

7. *Farm Servants.*—Their Labour and Wages—Day-work and Piece-work. Detailed and total costs of Horse and Hand Labour.

8. *The Importance of Rotations.*—Different Rotations and reasons why they are adopted—Systems of Farming.

9. *Our Farm Crops* (Grain, Root, Forage, and Hay Crops).—Their Selection and Growth; the Garton System of Plant Breeding—Prevention of Insect Injuries and Diseases.

10. *Identification of Grasses and other Valuable Pasture Plants.*—Character and Habits of those of importance—Detection of Adulterations.—Regulations necessary to protect the Farmer in buying Seeds.

11. *The Management of Permanent Pasture.*—Proper Methods of making new Pasture—its After-treatment.

12. *Weeds in Pastures* and Means of Destroying them.

13. *Silage and the System of Ensilage.*—Its Advantages, &c.—Its Suitability and Unsuitability according to Locality.

14. *Manures.*—Farm-yard Manure—its proper Mixing, Storing, and Application—its great advantage as a General Manure. Special Manures and so-called Artificials—their Uses, Abuses, and Adulterations—the proper Times and Methods of their Application. The Value and Use of Liquid Manure and Town Sewage.

15. *Buildings and Fences.*—The proper Construction of Fences—the General Arrangement of Farm-Buildings—the best Flooring and Inside Plans and Dimensions of Byres, Cattle-Sheds, Stables, &c.—Covered Yards—Ventilation—Drainage of Houses and Farm-yards.

16. *Live-Stock, embracing Cattle, Pigs, Horses, Sheep.*—The Various Breeds of each, and suitability of some to Local Conditions—“The Principles of Breeding.” Feeding and Management—Cost of Feeding—Proper Mixtures of Food to Use. Cost of the Production of a Stone of Beef, Mutton, and Pork, showing the Amount of Profit in each Case.

17. *Dairying in all its Branches,* including the suitability or otherwise of surrounding Conditions—the proper Classes of Dairy Stock to keep, and their Management—the Treatment of Milk, and its Sale or Manufacture into Cheese, Butter, &c.

18. *Feeding Stuffs.*—Suitability of the Common Food Substances to the Different Classes of Farm Stock—The Purchase, Storing, and Administration of the same—their Manurial Residues.

2. AGRICULTURAL CHEMISTRY.

1. *Atmosphere*.—Relation of its Constituents and Conditions to Plant Life.
2. *Soils*.—Origin, Formation, Composition, Biology, Amelioration.
3. *Plants*.—Constituents, Germination, Nutrition, Maturation, Symbiosis.
4. *Manures*.—Nature, Uses, Application, Valuation, Compatibility, Exhaustion.
5. *Crops*.—Classification, Relation, Preservation, Uses as Fodder, Residual Value.
6. *Animal Nutrition*.—Nutritive Processes, Laws of Flesh and Fat Production, Digestibility of Fodders, Nutrient Ratio, Relation of Food to Work and to Manure.
7. *Dairy*.—Composition of Dairy Products, Circumstances affecting Quantity and Quality, Scientific Management.
 - Tests for the detection of Potassium, Sodium, Ammonium, Magnesium, Calcium, Aluminium, Iron, Arsenic, Antimony, Copper, Lead, Mercury.
 - Sulphate, Sulphite, Sulphide, Phosphate, Carbonate, Nitrate, Chloride, Acetate, Oxalate, Tartrate, Citrate.
 - Sugars, Starches, Fats, Proteids.
 - Chemical, Physical, and Microscopic Tests for Adulteration in Manures, Feeding Stuffs, and Dairy Produce.
 - Methods of determining amounts of Clay, Sand, Carbonates, Humus, and Moisture in Soils.
 - Phosphoric Acid, Potash, Nitrogen, Lime, Magnesia, Insoluble Matter and Moisture in Soils and Manures.
 - Albumen, Amides, Fat, Carbohydrates, Woody Fibre, and Ash in Fodders.

3. GEOLOGY.

- (1) *Dynamical Geology*.—Nature and operation of Geological agents:—The Atmosphere, Rain, Terrestrial Waters, Ice, the Sea, Plants and Animals, Volcanoes, Movement of the Earth's Crust.
- (2) *Mineralogy*.—Physical and Chemical Characters of the more important and typical species in the various mineral groups—more especially the Rock-forming Minerals and Ores.
- (3) *Petrography*.—Megascopic and Microscopic Characters, Composition, Origin and Distribution of Rocks.
- (4) *Structural Geology*.—Structure of Rock-masses, Bedding, Joints, Cleavage, Foliation, Metamorphism, Faults, Unconformity.
- (5) *Physiographical Geology*.—Origin of the present outlines of the Earth's Surface.
- (6) *Agricultural Geology*.—Nature and Origin of Soils and Subsoils; Draining in connection with Geological Structure; Mineral substances used as Manures.

4. VETERINARY HYGIENE.

1. The Comparative Osteology (rudimentary) of the Horse, Ox, and Sheep.
2. The Physiology of Dentition in Horse, Ox, Sheep, and Pig, more especially as indicative of the Age of the Animal.
3. The Physiology of Gestation; the Diseases incidental to the pregnant state, and also those consequent to the act of parturition.
4. Description of the Digestive Organs of the Horse, Ox, and Sheep (separately), also their Physiology, and most ordinary Diseases.
5. Contagious and other Diseases of Farm Stock. Prevention and Treatment of Diseases.

5. AGRICULTURAL ENTOMOLOGY.

Insect pests of cultivated plants and of farm live stock. Methods of prevention of, and of remedy for, their attacks. Classification of insects, and details of their structure and life history, in so far as of economic importance.

6. ECONOMIC SCIENCE.

See Syllabus in Arts. First Half of Course.

7. (a) FORESTRY.

1. *Sylviculture*.—Atmosphere, Climate, and Soil, as affecting Forest Vegetation; shape and development of forest trees; pure and mixed woods; the sylvicultural systems; formation and tending of woods.
2. *Injuries to Standing Woods and their Protection*.—Winds and storms, fires, animals, fungi, weeds, frost, snow, drought, &c.
3. *Utilisation of Produce*.
4. *Structure, Classification, and Technical Properties of Timber*.
5. *Forest Organisation*.—The principles on which working plans are based.

7. (b) EXPERIMENTAL PHYSICS.

The Measurement of Physical Constants, such as—Gravitation, Specific Gravity, Specific Heat, Conductivity, Dilatation, Refractive Index, Magnetic and Electric Quantities, &c.

7. (c) ENGINEERING.

1. *Mechanics*.—(a) Principles of Statics; couples; moments of forces; parallel and inclined forces; centre of gravity; moments of inertia; friction, (b) Principles of Kinematics and Kinetics; Newton's laws of motion; Conservation and transformation of energy.

2. *Strength and Properties of Structural Materials*, including their fitness and adaptability, together with some knowledge of their cost.

3. *Strength and Stability of Structures*.—General knowledge of the design, construction, and maintenance of Roads, Roofs, Bridges, Embankments, Retaining Walls, Aqueducts, and General Buildings.

4. *Hydraulics*.—The laws governing the flow of water in open and closed channels, and its discharge through orifices; Systems of Drainage and Irrigation; Pumps, &c.

5. *Mechanism and Machinery*.—General Principles and means of transmission, conversion, and modification of motion; general millwright work with special reference to the machines ordinarily employed for agricultural purposes.

6. *Prime Movers*.—A knowledge of the sources and modes of estimating power; The Steam Engine; Pneumatic Machines; Hydraulic Motors, Water-wheels, Turbines, &c.

8. ENGINEERING FIELD WORK.

Surveying, with special reference to Estate and Parish Surveying, Levelling, Gauging of Streams and Rivers, Plotting of Surveys and Sections, Setting out of Work, and Calculation of Quantities.

FEEES FOR EXAMINATIONS FOR DEGREES.

I. PRELIMINARY EXAMINATION.

The Fee is 10s. 6d. for each appearance.

2. FEES FOR EXAMINATIONS OR FOR REGISTERING EQUIVALENTS.

(1) *Pure Science and Engineering*—

First B.Sc. Examination,	£3 3 0
(or for each subject, £1, 1s.)	
Second B.Sc. Examination,	3 3 0
Doctor of Science,	10 10 0
	<hr/>
	£16 16 0

(2) *Public Health*—

First B.Sc. Examination,	£3 3 0
Second B.Sc. Examination,	3 3 0
For the Degree of Doctor,	10 10 0
	<hr/>
	£16 16 0

(3) *Agriculture*—

First B.Sc. Examination,	£3 3 0
(or for each subject, £1, 1s.)	
Second B.Sc. Examination,	3 3 0
	<hr/>
	£6 6 0

Candidates for the Degree of B.Sc. who fail to pass pay a fee of 10s. 6d. for re-examination in each subject, and Candidates for D.Sc. pay a fee of £5, 5s. for each re-examination.

Every Candidate for Graduation must pay the Fee of £1 for Registration as a Member of the General Council of the University, at least one clear day before the date of Graduation.

All communications relating to the Curriculum and Examinations for Degrees, Fellowships, Scholarships, &c., in Science should be addressed to *The Dean of the Faculty of Science*, University, Edinburgh.

All Examination, Matriculation, and Registration Fees are payable at the *Matriculation Office*, University. Candidates may pay the Fees personally, or transmit them to T. GILBERT, by *Post Office*, or *Postal Orders*, or by *Bank Drafts*, crossed "Union Bank of Scotland (Hunter Square Branch), Edinburgh," but not by cheques on private accounts.

TIME-TABLE OF EXAMINATIONS AND DATES FOR PRESENTING CERTIFICATES AND PAYMENT OF FEES.¹

Candidates are required to enter for each periodical examination at which they desire to appear, and to state the subject or subjects in which they desire to be examined.

The dates of the Examinations for 1903-1904 have been fixed as follows:—

PRELIMINARY EXAMINATION.¹

1903.		
Sept. 18.	Fri.	Names to be given in, and Fees paid, <i>on or before</i> this date.
„ 25.	Fri.	English, 1st paper, 9-11; Higher Latin, 1st paper, 12-2; Lower Latin, 3-6.
„ 26.	Sat.	English, 2nd paper, 9-11; Intermediate and Higher Mathematics, 1st paper, 12-2; Lower Greek, 3-6.
„ 28.	Mon.	Higher Latin, 2nd paper, 9-11; Intermediate and Higher Mathematics, 12-2.

¹ When names are not entered, nor fees paid, on or before the stated dates, or a Pass obtained where the fee has been previously paid, a late-entry fee of ten shillings must be paid before the Candidate can be admitted to examination. This fee will not be received after Twelve o'clock of the last day but one preceding the Examination for which the Candidate desires to appear, without the express permission of the Dean of his Faculty and the subsequent sanction of the Senatus. A Candidate must enter his name and pay the fee, or, when the fee has been previously paid, obtain a Pass, for each periodical Examination at which he desires to appear. A Candidate is not held to be entered until his Schedule is lodged, the Fee paid, and a Pass to the Examination obtained.

DOCTOR OF SCIENCE.¹

D.Sc. Candidates are required to lodge their Theses and proof of their eligibility with the *Dean of the Faculty of Science* at the Matriculation Office, and to pay the Fees on or before 1st December.

Candidates for D.Sc. in Public Health are required to intimate the subjects in which they desire to be examined to the Dean before 20th January. The examination will take place about the end of March.

Degrees in Science.

DOCTORS OF SCIENCE.

The names of the Doctors of Science previously to 1889, will be found in the Historical Appendix to List of Graduates published in 1889, pp. 132-134. The following are the names of the Doctors from 1889 to 1903, both years included:—

Degrees Conferred in 1902-1903.

THE DEGREE OF DOCTOR OF SCIENCE.

26th July 1902.

Alexander Dingwall White, B.Sc. *Thesis*—"The Action of Solutions of Bleaching Powder and of Hypochlorous Acid on Metals."

9th April 1903.

James Peter Hill, B.Sc. *Thesis*—"Contributions to the Embryology of the Marsupialia, together with Observations on the Urogenital System, and the Process of Parturition."

Sutherland Simpson, B.Sc., M.D. *Thesis*—"Some observations on the Temperature of the Monkey in Normal Conditions and under the Influence of Narcotics."

Robert Greig Smith, B.Sc. *Thesis*—"On Certain Fermentations of Saccharose."

IN THE DEPARTMENT OF PUBLIC HEALTH.

9th April 1903.

Alfred Charles Coles, M.D., C.M., B.Sc. *Thesis*—"The Acid-fast Bacteria: their Resemblance to and Differentiation from the Tubercle Bacillus."

THE DEGREE OF BACHELOR OF SCIENCE.

Fellowships, Scholarships, Bursaries, Prizes, &c., in Science.

I.—FELLOWSHIPS.

See note under Scholarships, page 194.

I.—THE FALCONER MEMORIAL FELLOWSHIP.

This Fellowship was founded in 1869 by the Subscribers to the Fund for a Memorial to Hugh Falconer, M.D. (for many years Superintendent of the H. E. I. Company's Botanic Gardens at Suharunpoor and Calcutta), and the Association for the better Endowment of the University, for the encouragement of the Study of Palæontology and Geology. It is of the annual value of £116, 17s. 6d., and is tenable for two years, but if the Senatus see fit, it may be held for three years, and with consent of the University Court, for four years. It is awarded after competitive examination in Natural History as applied to Palæontology and Geology, and is open to Graduates in Science or Medicine of this University of not more than three years' standing at the time of the competition. It cannot be held along with any other Fellowship, Scholarship, or Bursary in any Scottish University. The Deed of Foundation will be found at p. 270 of the CALENDAR for 1870-71. The next appointment may be made in July 1904.

1902. *John Downie Falconer, M.A., B.Sc.*

II.—GEORGE HERIOT'S RESEARCH FELLOWSHIPS.

For particulars apply to DAVID LEWIS, Treasurer, George Heriot's Trust, 20 York Place, Edinburgh; and see under Faculty of Arts.

1902. *E. H. Fraser, M.D.; Alan W. C. Menzies, B.Sc.*

II.—SCHOLARSHIPS.

I.—BAXTER PHYSICAL SCIENCE SCHOLARSHIP.

This Scholarship was founded by Sir David Baxter, Bart., of Kilmaron, in 1865, and is of the annual value of £76, 6s. 4d., tenable for two years. It is awarded, on the result of the Final Examination for the Degree of Bachelor of Science, to the student who is most distinguished in two or more of the Physical Science subjects—viz., Mathematics, Natural Philosophy, Astronomy, Chemistry, either in the year preceding a vacancy, or in the year in which a vacancy occurs. The holder is required to satisfy the Senatus Academicus that he has been pursuing his studies in Science during the first year of his tenure in such a manner as the Senatus may fix. It cannot be held with any other Scholarship, Fellowship, or Bursary, or with any situation yielding an annual income of £100. Next vacancy in 1904.

1902. *Roderick M'Leod Shearer, B.Sc.*

II.—BAXTER NATURAL SCIENCE SCHOLARSHIP.

This Scholarship was founded by Sir David Baxter, Bart., of Kilmaron, in 1865, and is of the annual value of £76, 6s. 4d., tenable for two years. It is awarded, on the result of the Final Examination for the Degree of Bachelor of Science, to the Student who is most distinguished in two or more of the Natural Science subjects—viz., Human Anatomy, including Anthropology; Physiology, including Histology; Geology, including Mineralogy; Zoology, including Comparative Anatomy; Botany, including Vegetable Histology, either in the year preceding a vacancy, or in the year in which a vacancy occurs. The holder is required to satisfy the Senatus Academicus that he has been pursuing his studies in Science during the first year of his tenure in such manner as the Senatus may fix. It cannot be held with any other Scholarship, Fellowship, or Bursary, or with any situation yielding an annual income of £100. Next vacancy in 1904.

1902. *James Lochhead, M.A., B.Sc., and John Tait, B.Sc.*

III.-VIII.—VANS DUNLOP SCHOLARSHIPS.

These Scholarships are each of the annual value of £100, and are tenable for three years. The following are the General Regulations:—

Competitors must have regularly attended at least one full Course or two Half-Courses in the University of Edinburgh during each Academic year in which they claim to have been Matriculated Students, and no Candidate is eligible who has discontinued attendance at the University of Edinburgh for more than one year. The years of Academic study count from the first year in which a Candidate has attended one of the classes qualifying for the degree of B.Sc.

Each Scholarship is tenable for three years, on condition that the scholar submits annually to the University evidence that he is prosecuting his studies or his professional work in a manner satisfactory to the Senatus. The evidence may consist of—(1) A certificate of attendance on lectures or laboratories approved by the Senatus; or (2) a certificate of having acted as an assistant to a Professor in this or some other University; or (3) a written report of his work done during the year, together with a Thesis composed by himself in connection with some part of that work.

Not more than one of these Scholarships can be held by the same person. Scholars cannot hold, along with their Scholarships, any other Fellowship, Scholarship, or Bursary in the University of Edinburgh.

Candidates must, on entering for the Examinations, produce evidence that they have fulfilled the conditions of eligibility.

Candidates, if not already matriculated, are required to pay the Matriculation Fee for the year in which the competition takes place.

The names of Candidates highly distinguished in the examinations may be published.

III.—MATHEMATICS.¹

The next Competition will take place in April 1904.

IV.—NATURAL PHILOSOPHY.¹

The next Competition will take place in April 1904.

V.—AGRICULTURE AND RURAL ECONOMY.

This Scholarship is open to all Matriculated Students who have regularly attended classes in this University for not less than two and not more than six years, and who have attended the Class of Agriculture and Rural Economy within one year of the date of Competition. The subjects of Examination are Agriculture, Chemistry, Botany, and Veterinary Science. The next Competition will take place in March 1904.

The Examiners are the Professor of Agriculture and an Examiner nominated by the Senatus.

1901. *William Bruce, B.Sc.*

VI.—CHEMISTRY.

(1.) The subjects of Examination are:—(a) Inorganic and Organic Chemistry, and the connection between the Chemical and Physical character of Substances. (b) Qualitative and Simple Quantitative Analysis of Inorganic Substances, and the Preparation of Pure Chemical Substances. (2) The Examination in subjects (a) is similar, and will be held at the same time as the Second B.Sc. Examination. The Examination in subjects (b) is conducted practically in the Laboratory. (3) The Competition is open to all Students of the University, from the second to the sixth year (inclusive) of their attendance, and will take place in July 1906.

1903.

VII.—NATURAL HISTORY, INCLUDING GEOLOGY AND BOTANY.

(1.) The subjects Natural History, Geology, and Botany are coequal in the Examination, and the Examination in each of the three subjects is similar to that for the Second B.Sc. in Pure Science, and consists of two parts—a Written Examination extending over not less than three hours, and a Practical Examination with specimens.

(2.) The next Examination will be held in April 1904, at the same time as the Second B.Sc. Examination.

(3.) The Competition is open to all Students of the University, from the second to the sixth year (inclusive) of their attendance.

1902. *Robert B. Young, M.A.*, lapsed Scholarship, for one year.

¹ For particulars, see "Scholarships" in Faculty of Arts.

VIII.—ENGINEERING AND MECHANICAL AND USEFUL ARTS.

The Examination is similar to that for the Second B.Sc. in Engineering, with the addition of questions on prescribed books treating of Engineering and Mechanical and useful Arts.

The Competition is open to all Matriculated Students who have been in regular attendance on the Class of Engineering for at least two Winter Sessions, and who have not been Students of the University for more than four years. The next Competition will take place in April 1903.

The Examiners are the Professors of Engineering and Natural Philosophy.

1903. Not awarded.

IX.—STEVEN SCHOLARSHIP IN AGRICULTURE.

This Scholarship was founded in 1882 by the Misses Steven of Bellahouston in memory of their brother Moses Steven, Esq. It is of the value of £70, and is awarded annually, in connection with the Class of Agriculture, the subjects of examination being Agriculture and General and Agricultural Chemistry.

The Scholar is required to visit the annual exhibitions of the four leading agricultural societies, or such as the Professor of Agriculture shall appoint, and to report on his visit or visits to the satisfaction of the Professor of Agriculture. The Exhibitions which the Scholar is required to visit are:—

The Royal Agricultural Society of England.

The Bath and West of England Agricultural Society.

The Highland and Agricultural Society of Scotland.

Royal Agricultural Society of Ireland.

See Deed of Foundation at p. 397 of CALENDAR for 1882-83.

1903. *Cuthbert Carter.*

X., XI.—HOPE PRIZE SCHOLARSHIPS.

Two Hope Prize Scholarships have been instituted (with funds formerly of the Hope Chemistry Prize founded by the late Professor Thomas C. Hope) in connection with the Chemical Laboratory of the University, each of the value of about £30 per annum, tenable for one year, and awarded annually at the end of the Winter Session. Each Scholarship is awarded to the student whom the Professor of Chemistry thinks most deserving of those who have worked during that Winter Session in the Chemical Laboratory of the University. The scholars must work during the Summer and Winter Sessions succeeding their appointment in the Chemical Laboratory of the University, and must assist the Professor of Chemistry in such manner as he thinks fit in each case, and the scholars are not required to pay fees for the Laboratory. In case of resignation of a scholar, or of a scholar failing to fulfil the conditions, the Professor of Chemistry may, if he thinks proper,

recommend a student working in the Chemical Laboratory for the remainder of the Scholarship so become vacant, the new scholar so appointed to perform the duties and receive the payments during the remainder of the time for which his predecessor was appointed. Scholars may, in case of great distinction, be appointed for a second year.

1903. *William M' Rae, Donald Robertson.*

XII.—NEIL ARNOTT SCHOLARSHIP IN EXPERIMENTAL PHYSICS.¹

Is awarded annually in April.

XIII., XIV.—THE MACKAY SMITH SCHOLARSHIPS.

These Scholarships, one in Natural Philosophy and one in Chemistry, each of the annual value of £25, tenable for two years, and to be held under such regulations and conditions as the Senatus may from time to time direct. The Scholarship in Natural Philosophy is open for competition to Students who have attended the Class of Natural Philosophy, and the Scholarship in Chemistry to Students who have attended the Class of Chemistry, both in this University. The successful Candidate for the Scholarship in Natural Philosophy is bound to attend the Class of Natural Philosophy, or to prosecute the study thereof, in the University during at least one year of his tenure of the Scholarship, in such way as the Senatus may direct or approve; and the Scholarship in Chemistry is held under similar conditions as regards attendance on the Class of Chemistry, and the prosecution of the study thereof. The next Competition—Natural Philosophy—will take place at the end of Winter Session 1904, and in Chemistry in July 1904.

1902. *William Alexander Kynoch Christie and* } (Chem.).
Clerk Ranken, B.Sc.
Thomas Oliver, B.Sc. (Nat. Phil.)

XV.—ROYAL COMMISSION FOR EXHIBITION OF 1851 PHYSICAL SCIENCE SCHOLARSHIP.

The Commissioners for the Exhibition of 1851 give this University the power of nominating a Student to a Scholarship of £150 a-year, tenable for two years, and which may be extended to three years under the following conditions, viz. (a) That he is a British subject; (b) That he has been a *bona fide* student of Science in this University for three years; (c) That he has been for a full year previous to his appointment, and at the date of his appointment is, a student of the University, or has been a student of the University for a full year ending within twelve months prior to the date of his appointment, and since ceasing to be such student has been engaged solely in scientific study. The Scholar-

ship is limited to those branches of Science (such as Physics, Mechanics, and Chemistry) the extension of which is specially important for the national industries, and may be tenable in any University or other Institution to be approved by the Commissioners. Applications must be made annually not later than the 1st of March. See Regulations, p. 544 of CALENDAR for 1891-92.

1902. *J. K. H. Inglis, M.A., B.Sc.*

XVI., XVII.—THE ARTHUR TREVELYAN SCHOLARSHIPS IN ENGINEERING.

Two Arthur Trevelyan Scholarships in Engineering, of about £17, 10s. per annum, for proficiency in Engineering and the Mechanical and useful Arts, tenable in this University for two years. Candidates must not be more than nineteen years of age, must have passed the preliminary examination or its equivalent, and must not have attended more than one Winter and one Summer Course in Engineering and field work respectively, either in this University or elsewhere. The subjects of examination are (a) Mathematics, as far as the subjects required for the first B.Sc. examination in Engineering; (b) Physics to the same extent; (c) Engineering (the subjects of the previous Winter Session and field work); (d) geometrical drawing and elementary graphics. See Excerpt from Deed, page 538 of CALENDAR for 1892-93. One Scholarship is awarded annually in March.

1902. *Thomas Grieve.*

1903. Not awarded.

XVIII., XIX.—MISSES BAXTER OF BALGAVIES SCHOLARSHIPS AND BURSARIES.

Under this Endowment there are two Scholarships, of the annual value of £40, and two Bursaries, of the annual value of £30. They are in the gift of the Directors of the High School of Dundee, and are open for competition to all pupils of that school who shall have finished their course at the time, or within one year previously. The examination is held in Dundee by examiners appointed by the Directors, and the subjects are Geometry, Algebra, Trigonometry, and Mechanical Drawing. The Scholarships are tenable for one year certain, and for a second if a favourable certificate is sent to the Directors by the Senatus Academicus, and the Bursaries for two years. The patrons may extend the tenure of these Scholarships for a further period of one year, provided the holder shall have previously passed the First Examination for the Degree of Bachelor of Science in the Department of Engineering in this University. The Classes to be attended during the first two years are Mathematics, Natural Philosophy (two courses), Engineering (two courses), and Chemistry, and may (by resolution of the Senatus) be attended in any order most convenient to the scholar, provided he intimate his intentions to the Dean of the Faculty of

Science beforehand. In the event of a third year's tenure, the Scholar may attend any two classes selected by himself and approved by the Senatus.

These Scholarships are not to be held with any other Scholarship, Fellowship, or appointment yielding £50 per annum. See Deeds of Foundation, at page 255 of the CALENDAR for 1869-70, at p. 372 of CALENDAR for 1878-79, and at p. 377 of the CALENDAR for 1881-1882.

XX.—GRAY SCHOLARSHIP FOR RESEARCH.¹

III.—ENDOWMENTS FOR RESEARCH AND GRANTS IN AID.

I.—THE WILLIAM DICKSON TRAVELLING FUND.¹

II.—EARL OF MORAY ENDOWMENT FOR THE PROMOTION OF ORIGINAL RESEARCH.¹

III.—CARNEGIE POST GRADUATE SCHOLARSHIPS (£100), FELLOWSHIPS (£150), AND GRANTS IN AID FOR RESEARCH.

Graduates in this University are entitled to become Candidates. Application Forms may be had from the Secretary to the Carnegie Trust, The Merchants' Hall, 14 Hanover Street, Edinburgh, to whom all communications on the subject must be addressed. Nominations for Scholarships, and applications for Fellowships and Grants in Aid, must be lodged with the Secretary not later than 1st May annually.

IV.—THE SWINEY LECTURESHIP ON GEOLOGY.

This Lectureship is in the patronage of the Trustees of the British Museum, and is of the annual value of £144. The Trustees may appoint any Graduate in any Faculty of the University who has obtained his degree after examination. The office is tenable for five years, at the expiration of which period the Lecturer is ineligible for the next election. The number of lectures is not to be less than twelve in each year, nor more than three in the same week. The course is required to be annually delivered between the first of November and the end of July following, at such public places in the United Kingdom as the Trustees shall approve. The public are admitted without fee. The Lecturer is required at the termination of each course to deposit a copy, or full extract of such course of lectures, with the Principal Librarian of the British Museum, to whom application may be made for further particulars.

¹ For particulars, see under Faculty of Arts.

Of the foregoing Fellowships, Scholarships, Bursaries, and Prizes, the following are open during 1903-1904.¹

FELLOWSHIPS.¹

1. *George Heriot Fellowships for Research*—Copies for the Regulations may be had from the Governors of George Heriot's Trust, at the office of the Treasurer, 20 York Place, Edinburgh, with whom applications for Fellowships or for renewal of Fellowships should be made annually not later than 1st June.

The attention of all Bursars in the Faculty of Science is particularly called to the following regulation:—

Bursars, &c., in the Faculty of Science (to whose Bursaries special conditions are not attached) must annually attend at least two of the Classes necessary for the Degree of Bachelor of Science, and must present themselves at the Examinations necessary for that Degree.

Each Fellow, Scholar, Bursar, or Prizeman, when he applies to the Factor for a payment, must produce a Certificate, signed by the Dean, or the Professor to whose department the Foundation is attached, attesting his regular attendance on the proper Classes, &c., or otherwise that he has fulfilled the conditions attached to the Foundation.

Certificates, in terms of this regulation, will be given to Bursars, by the *Dean of the Faculty of Science*, on 14th November; and at the end of the Session. In applying to the Dean for the Certificate in November, Bursars must present their Class Cards for the Session; and at the end of the Session they must present Certificates from the Professors that they have attended with regularity and made progress in their studies. Payments are made by the University Factor, Mr Henry Cook, W.S., 61 North Castle Street, Edinburgh, on and after 14th November for the Martinmas payments, and on and after 19th May for the Whitsunday payments,—between 10 and 3 o'clock.

N.B.—*Bursars, Scholars, and Fellows who desire to resign should at once announce this to the Factor. They must apply to the Factor for the instalments due to them within three months after they have become payable, otherwise they will be regarded as having resigned.*

CURRICULUM FOR THE MINISTRY IN THE CHURCH OF SCOTLAND.

The Laws of the Church of Scotland require that every Theological Student, who desires to qualify himself for the Ministry, should attend the Class of *Divinity*, either during *three full and regular Sessions*, or during *two regular and three partial Sessions*;—and also that he should regularly attend during two Sessions each of the Classes of *Hebrew*, *Ecclesiastical History*, and *Biblical Criticism*.

Entrance Examinations.

(1) Students, before enrolment *for the first year* of their curriculum with a view to the Ministry in the Church of Scotland, must produce to the Professor of Divinity Certificates of their having satisfactorily undergone an Examination in the subjects embraced in the *Curriculum of Arts*, and also in the Elements of Hebrew Grammar. By Act IX. of General Assembly 1872, it is ordained that this Examination shall be conducted at each of the four Scottish Universities, shortly before the commencement of every Session, by four Examining Committees, consisting of members elected by the adjoining Synods, with Conveners nominated by the General Assembly. *The Convener of the Committee for the University of Edinburgh is the Rev. David Paul, LL.D., Minister of Grange, Edinburgh.* The time of the Committee's meeting and the prescribed subjects of Examination may be ascertained by applying to the Convener.

(2) Students, before enrolment at the beginning of *every Session after the first* of their Course in Divinity, must produce certificates of their having satisfactorily undergone the Examinations prescribed by their respective Presbyteries. For subjects of Examination prescribed by the *Presbytery of Edinburgh*, see *Appendix to Calendar*.

Discourses.

Every Student of Divinity is required during his curriculum to deliver with approbation *six* discourses upon subjects prescribed by the Professor of Divinity, viz., a Homily, an English Essay on some subject in Biblical Theology, a Lecture,

a popular Sermon, a Hebrew Exercise on a passage of the Old Testament, and an Exercise with additions on a passage of the Greek New Testament.

The following Regulations have been made by the Faculty of Theology in regard to the delivery of these Discourses. (1) Students of the *first* year shall give in their *Homily* to the Professor of Divinity not later than 1st February; (2) Students of the *second* year shall give in their *English Essay* not later than the 16th December, and shall be prepared to deliver their *Lecture* not later than the 10th January; (3) Students of the *third* year shall give in their *Hebrew Exercise* and their *Greek Exercise* with additions, not later than the 16th December, and shall be prepared to deliver their *Popular Sermon* not later than the 2nd of February.

Attendance at Foreign Universities.

The General Assembly of 1868, with the consent of a majority of Presbyteries, enacted and ordained:—(1) That all Candidates for the ministry shall attend during at least *two sessions* the Theological Classes at one or more of the Universities of Scotland, and shall deliver, with approbation, the Six Trial Discourses required by the Acts of the General Assembly; and (2) That any Student who wishes to prosecute the remainder of his Theological Curriculum at any Protestant University or Universities not within the bounds of this Church, shall, before repairing thither, undergo satisfactory examination by the Presbytery with which he is connected, and shall, moreover, satisfy the same Presbytery in regard both to the Classes which he proposes to attend, and to the proficiency he has acquired in the language used in the Foreign University in which he intends to study.

Courses in the Faculty of Divinity.

I. DIVINITY.

PROFESSOR

The course of study in this class extends over three Sessions. The Subjects of the Lectures during 1903-1904 will be:—1. A General Survey of Biblical Theology. 2. Doctrine of the

Person and Work of Christ. 3. Soteriology. 4. On Revelation and Inspiration.

Lectures will be delivered on Mondays, Tuesdays, Wednesdays, and Thursdays at 12 o'clock. Fridays will be devoted partly to the hearing of Discourses and Exercises, and partly to Lectures.

The work of the class includes two written examinations and an essay.

II. HEBREW AND SEMITIC LANGUAGES.

PROFESSOR KENNEDY.

A.—HEBREW.

Junior Class—1 to 2.

For the first few weeks of the Session this class is conducted in two divisions, an upper and a lower. The latter is intended for students having no previous acquaintance with Hebrew, the former for those who have advanced as far as § 30 of the text-book (Davidson's *Introductory Hebrew Grammar*). The work of the class consists mainly in the study of the Grammar, with home exercises, varied by the reading of easy prose passages from the Old Testament (Genesis and Ruth).

The students' progress is regularly tested by oral and written examinations throughout the Session.

For Preparatory Class of Elementary Hebrew (see page 318).

, Senior Class—2 to 3.

A Course of Lectures, extending over two Sessions, on Old Testament Introduction (including History of the Canon, Text and Versions).

Oral and Written Examinations.

The Senior Hebrew Class will be the Graduating Class in Hebrew for the Ordinary Degree of Master of Arts; and any

student who desires to attend this Class with a view to Graduation in Arts must previously pass an examination, in accordance with Sect. IV. sub-sect. 3 of the Regulations.

The examination will include plain passages for translation from and into Hebrew, and grammatical questions.

Those who propose, in a subsequent Session, to take up Hebrew as one of their Graduation Subjects, will have an opportunity of attending the Junior Class in that language during the Session 1903-1904.

B.—ARABIC—3 to 4.

The course of instruction in Arabic extends over one Summer and two Winter Sessions.

(1) A Preparatory Class for elementary Arabic is conducted during the Summer Session by the Class-Assistant, under the superintendence of the Professor. *Intending students of Arabic are strongly advised to take this Class.* Text-books: Socin's *Arabic Grammar* (New Edition, 1895) and Jacob's *Bible Chrestomathy*. The fee is £2, 2s.

(2) A Junior Class in continuation of the above, meeting three days a week in *alternate* sessions (next in 1904-1905). Text-books: Socin's *Grammar* and Bruennow's *Chrestomathy of Arabic Prose Pieces* (1895). Elementary Arabic Composition. The fee is £3, 3s.

(3) A Senior Class, meeting ordinarily three days a week in *alternate* sessions (next in 1903-1904), for more advanced reading in prose and poetry, and for the study of Arabic syntax and composition. Text-books (besides those already mentioned): The Koran (Fluegel's edition), Kalilah wa-Dimnah (Beirut edition), Noeldeke and Mueller's *Delectus Veterum Carminum Arabicorum* (1890), Wright's *Arabic Grammar* (3rd edit., 1896). The fee is £3, 3s.

This course has been sanctioned by the University Court as a half-course qualifying for graduation in Arts, and the class will be held in two successive sessions, if required, to meet the needs of intending graduates. For text-books see under *Graduation in Arts*.

C.—SYRIAC—3 to 4.

The course of instruction in Syriac extends over two Winter Sessions.

(1) A Junior Class, meeting on two days a week in *alternate* sessions (next in 1903-1904), for the study of the grammar and the reading of portions of the Syriac gospels. Text-books: Nestle's *Syriac Grammar* (1889), Syriac New Testament.

(2) A Senior Class, meeting on two days a week in *alternate* sessions (next in 1904-1905), for the study of syntax and composition and for more advanced reading in prose and poetry, such as the extracts from Bar-Hebræus and Ephrem Syrus in Roediger's *Chrestomathy* (3rd edit.) and the *Vitæ Prophetarum* in Nestle's *Grammar*.

The above order may be modified to suit intending students.

The fee for each of these classes is £2, 2s.

III. ECCLESIASTICAL HISTORY.

PROFESSOR TAYLOR.

1. *Lectures*—Mondays and Tuesdays.—On The Rise and Diffusion of Protestantism.

2. *Lectures*—Wednesdays and Thursdays.—History of the Reformation in Scotland.

3. *Text-book*—Fridays.—Kurtz's "History of the Christian Church." First Division ; Second Section.

The work of the class includes three written examinations.

IV. BIBLICAL CRITICISM AND BIBLICAL ANTIQUITIES.

PROFESSOR PATRICK.

The course of study next Session will include (1) Introduction to the Catholic Epistles and the Gospels. (2) Reading of the Greek New Testament with Exegesis. (3) The History of New Testament Times.

There will be written and oral examinations, in which all regular students are required to take part ; and subjects of occasional voluntary essays may be suggested.

LECTURESHIPS.

I.—GIFFORD LECTURES ON NATURAL THEOLOGY.

Lecturer—Rev. HENRY MELVILL GWATKIN, D.D.

These Lectures were endowed by the late Adam Gifford, Senator of the College of Justice, “for promoting, advancing, teaching, and diffusing the study of Natural Theology in the widest sense of that term.”

According to the Trust Deed, “the lecturers appointed shall be subjected to no test of any kind, and shall not be required to take any oath, or to emit or subscribe any declaration of belief, or to make any promise of any kind; they may be of any denomination whatever, or of no denomination at all; they may be of any religion or way of thinking, or, as is sometimes said, they may be of no religion; or they may be so-called sceptics or agnostics or free-thinkers;—provided only that the ‘patrons’ will use diligence to secure that they be able reverent men, true thinkers, sincere lovers of and earnest inquirers after truth. I wish the lecturers to treat their subjects as a strictly natural science, the greatest of all possible sciences, indeed, in one sense, the only science,—that of Infinite Being, without reference to or reliance upon any supposed special exceptional or so-called miraculous revelation. The lecturers shall be under no restraint whatever in their treatment of their theme. The lectures shall be public and popular, that is, open not only to students of the Universities, but to the whole community, without matriculation.”

II.—THE GUNNING VICTORIA JUBILEE
LECTURESHIP.*Lecturer*—

With a view to promote the study of Natural Science among candidates for the ministry, and to bring out among ministers the fruits of study in Science, Philosophy, Language, Antiquity, and Sociology, Dr R. H. Gunning, of Edinburgh and Rio de Janeiro, has founded a Lectureship in the Faculty of Divinity

of the University of Edinburgh, to be known as 'The Gunning Victoria Jubilee Lectureship.'

The Gunning Lectureship is a triennial appointment of the value of £100, and the appointment shall be made by the Faculty of Divinity. The lecturer may be any Scottish Presbyterian clergyman at home, or in the Mission field, eminent in Science, Philosophy, Language, Antiquity, or Sociology, and the lectures may be delivered in the University of Edinburgh, or such other place as the Faculty may appoint.

See Revised Scheme, p. 519 of CALENDAR 1889-90.

Graduation in Divinity.

REGULATIONS FOR GRADUATION IN DIVINITY.

(Candidates who began the study of Divinity with a view to Graduation before 1st October 1896 are referred to the CALENDAR for 1896-97 and to previous CALENDARS.)

I. No one is admitted to examination as a Candidate for the Degree of Bachelor of Divinity (B.D.) unless he be (1) a Graduate in Arts of the University, and have taken a complete Theological Course in a Scottish University or Universities, or in an institution or institutions specially recognised for the purpose by the University Court, or partly in a Scottish University or Universities and partly in such institution or institutions; or (2) a Graduate in Arts of any Scottish University or other University specially recognised as aforesaid, and has completed his Theological Course, of which not less than two years' attendance has been given in this University.

II. The Examiners are the Professors of the subjects included in the examinations, and two additional Examiners appointed by the University Court. The mode of conducting the examination is fixed from time to time by the Senatus Academicus.

By a Supplementary Ordinance it is provided that, notwithstanding the provisions of Section I. hereof, the Senatus Academicus may, under this Section, admit candidates to examination in not more than three of the subjects, after the completion of the second session of attendance on their Theological Course.

III. The subjects of examination are arranged in two departments:—The First Department embracing—(1) Hebrew, and (2) Apologetic Theology, or the Evidences of Natural and Revealed Religion; and the Second Department embracing—(1) Ecclesiastical History, (2) Systematic Theology, and (3) Biblical Criticism and Biblical Antiquities.

IV. Every Student who at the time when these Regulations came into operation had completed a part of his Theological Course with a view to Graduation as B.D., under Regulations hitherto in force, and shall thereafter complete his course of study in conformity with such Regulations, may become a Candidate for the Degree of B.D. without complying with the provisions of these Regulations.

V. The Degree of B.D. is in no case conferred on persons who have not complied with the conditions hereinbefore set forth, and is not conferred *honoris causâ tantum*.

Candidates are required to communicate their names, together with evidence of their being qualified in terms of the above Regulations, to the Dean of the Faculty of Divinity, at least one week before the first day of the Examination.

I. The Buchanan Bursary is open for competition to all Masters of Arts of any of the Universities of Scotland, or to Students who have passed the necessary Examinations for the Degree of M.A., but have deferred their Graduation with a view to honours, and who are entering on their first or second Session in the Faculty of Divinity in the University of Edinburgh. No person is admissible to competition

¹ The values of these Bursaries are subject to deduction of the fees paid to the Examiners.

who has for more than one Session been a Student in the Faculty of Divinity in any of the Scottish Universities. The Bursar holds the Bursary for three years, subject to this condition, that he shall, during that period, give regular attendance, as a Student of Theology, in the University. If it appears to the *Senatus Academicus* desirable, for the purpose of distributing the benefits of competitive Bursaries in Theology among Students of different years, it is lawful, for that purpose only, to appoint a Student for a shorter period. No person can hold the Bursary along with any other Bursary, Fellowship, or Scholarship in any Scottish University. *Bursar—1900, J. A. Fleming, M.A.*

II. The Struthers and Leighton Bursary is open by competition to all Students who are Masters of Arts, or who have passed all the examinations necessary for admitting them to the degree of Master of Arts, and who are entering on their first session of attendance in the Faculty of Divinity in the said University. *Bursar—1901, W. P. Gillieson, M.A.*

III. By Ordinance, No. 81, of the Univ. Com., and subsequent Order in Council the regulations for this Bursary are the same as those for the Buchanan Bursary. *Bursar—1902, John A. Alexander, M.A.*

IV. By Ordinance, No. 76, of the Universities' Commissioners, and subsequent Order in Council, each King William Bursary is open to competition to all Masters of Arts of any of the Universities of Scotland, or Students who have passed the necessary examinations for the Degree of M.A., and who have attended for one Session, and no more, in the Faculty of Divinity in the University of Edinburgh: Provided that no person shall be a competitor who has attended for one or more Sessions in the Faculty of Divinity in any other of the Scottish Universities. The examinations in the competition shall be conducted by the Professors in the Faculty of Divinity in the University. Each Bursar shall hold his Bursary for two years, subject to the condition that he shall, during that period, give regular attendance as a Student of Theology in the University. No person shall hold either of the Bursaries along with any other Bursary, Fellowship, or Scholarship of any Scottish University. When the two Bursaries fall vacant at one time, one Bursar shall be appointed for two years, and the other for one year. *Bursar—1902, C. S. W. Taylor, M.A.*

V. Founded in memory of her brother, J. Ettles, Esq., of Havannah. Open to those who have passed all the examinations for M.A., and are in the first year of their theological course. Cannot be held with any other Bursaries or Scholarships. *See Deed of Foundation in CALENDAR for 1867-68. Bursars—1900, Adam Mackay, M.A.; M. F. Simpson, M.A.; 1902, W. C. Robertson, M.A.*

VI. As in the case of the Faculty of Arts (see No. XLVII.), a student from the parishes of Crawford or Leadhills, is, if found duly qualified in respect of attainments, appointed to a Bursary in his first year, and holds it (unless he has failed to show himself a diligent student) to the end of his Theological curriculum. Failing any student from those favoured parishes, the Bursary or Bursaries will be thrown open to competition, but the winner only holds his Bursary for one year in each case. In the second and third years a student from Crawford or Leadhills has again a preference, but holds the Bursary for one year only. Preferential candidates to lodge their applications with the *Clerk of Senatus* on or before 1st

November. See p. 372 of CALENDAR, 1877-78. *Bursar*—1902, First Year, *J. Maclagan*; Second Year, *A. Robertson, M.A.*

VII. Founded by Mrs Isabella Webster, 38 Heriot Row, Edinburgh, in memory of her husband, George Webster, Esq. There are three Bursaries,—two of about £47 each, and one of £31, 10s., open to Students of Divinity in connection with the Church of Scotland in their first year, who have successfully passed all their Examinations for the degree of M.A. in any Scottish University, whether they have actually graduated or not. Each is tenable for three years. See Deed of Foundation in CALENDAR for 1878-79, p. 377. *Bursars*—1900, *G. V. Dunnelt, M.A.*; 1901, *H. D. F. Dunnelt, M.A.*; 1902, *J. M. B. Duncan, M.A.*

VIII. Students of the name of Thomson or Traquair, or who are natives of the town or county of Dumfries, or of the city of Edinburgh have a preference. If no Candidate with a preferential claim appear, or if none such attain to the required standard in the Examination, the Bursary will be awarded to the best non-preferential Candidate attaining such standard. The Candidates must be matriculated Students (not necessarily Graduates) entering on their *first* Session in Divinity, and are required to intimate their intention to compete to the Agents for the Trustees, Messrs Traquair, Dickson & Maclaren, W.S., 11 Hill Street, Edinburgh, three weeks before the date of Examination. The subjects of Examination are Latin, Mathematics, Moral Philosophy, Elementary Hebrew, Apologetics and Greek Testament. See p. 374 of CALENDAR for 1880-81. *Bursar*—1903,

IX. *Mylne Bursary*.—Founded by Mrs Barbara Macaulay or Mylne, in memory of her husband, the Rev. Andrew Mylne, minister of the parish of Dollar. The Bursary (being the free proceeds of £750) which is for behoof of Students for the ministry of the Church of Scotland, of Scottish birth, tenable during the curriculum in Divinity, is awarded at the end of the session, after examination (of first year's students) on the subjects taught in the Theological Classes during the session. No one may become a Candidate who has not given his whole time to study during the session preceding the date of Examination, nor may the holder engage in paid work during any session in which he holds the Bursary. It cannot be held along with any other Bursary, Scholarship, or Endowment. See Deed of Foundation at page 377 of CALENDAR for 1880-81. *Bursar*—1902, *W. P. Gillieson, M.A.*

X., XI., and XII. The sums attached to these Bursaries are payable to Divinity Students of the Church of Scotland of the first or second year towards the expense of their education at the University of Edinburgh. Each is tenable for three years. For one bursary Gaelic-speaking students have a preference. For particulars, apply to Rev. G. T. Jamieson, Clerk to Presbytery of Edinburgh, The Manse, Fortobello, before 1st October.

XIII. Founded by the late William Renton, of 20 Royal Terrace, Edinburgh. The Faculty of Theology are the Patrons and Trustees. The Bursary may be held for three years, if the Bursar continues so long to prosecute his studies in Theology at the University of Edinburgh, with a view to the ministry in the Church of Scotland, and if not, then for the whole period he continues at the same. The student presented must have attained the age of sixteen, and not exceed the age of twenty-one years, and must be appointed after an examination in the month of

November on such subjects as the Professors of the Faculty of Theology consider proper. *Bursar*—

XIV. Founded by the late Robert Hunter, Dalhousie, Chesters; the Principal and Professors being Patrons. These Bursaries are for the benefit of Students of the Church of Scotland, and are awarded at close of first Session in Divinity, and are tenable for two years. Bursars must attend two Sessions in Chemistry and Geology, taking at least one of these Classes each Session. Students of the name of Hunter and Hamilton from the parishes of Temple or Cockpen have a preference, but preferential Candidates must attain to a fixed percentage. Bursars must produce certificates of diligence in the Classes of Chemistry and Geology. See excerpt from Deed of Foundation, page 437 of CALENDAR for 1885-86.

XV. These Bursaries are open to Students who are entering on their first Session in Divinity, and are tenable for three years. For further details and subjects of examination (which differ somewhat from the University Examination for first year's Bursaries), apply to the Rev. G. T. I.—BARTY MEMORIAL PRIZE.

The Barty Memorial Prize of £20 for scholarship in Hebrew and Hellenistic Greek is open to entrants to the Divinity Halls of the four Scottish Universities. For further information apply to J. W. Barty, Solicitor, Dunblane.

II.—HEPBURN PRIZE.

The Hepburn Prize of £25 (which may be divided), open to all Students in actual attendance at the Divinity Hall, may be awarded annually for an essay on a prescribed subject.

III.—XII. THE GUNNING VICTORIA JUBILEE PRIZES.

With a view to promote the study of Natural Science among candidates for the ministry, and to bring out among ministers the fruits of study in Science, Philosophy, Language, Antiquity, and Sociology, Dr R. H. Gunning, of Edinburgh and Rio de Janeiro, has founded ten prizes in the Faculty of Divinity of the University of Edinburgh, to be known as "The Gunning Victoria Jubilee Prizes."

These prizes are ten in number, and comprise a series of five prizes of £50, £40, £30, £20, and £10, for excellence in Theological subjects, and a series of five prizes of similar values for excellence in Natural Science subjects. In their order the prizes in each series correspond

in value. A minimum standard of proficiency will be required in each series. The successful competitors may each take both the prize in the Theological, and the prize in the Natural Science series to which their marks may respectively entitle them.

The prizes are competed for triennially at the close of the Divinity Session, and are open to all Students of the Church of Scotland, or other Scottish Churches holding the Confession of Faith, who are graduates of this University, or have attended two classes in the Faculty of Divinity in this University, and who have completed their Theological curriculum within two years of the close of the session when the competition takes place.

The examination in the Natural Science series will be on Natural History, Botany, and Geology, and of the same standard as the First B.Sc. Examination in Pure Science. The examination in the Theological series will be in Theology proper, the Language and Literature of the Old Testament, Ecclesiastical History, and Biblical Criticism.

The Examiners are the Professors of the subjects of examination in the University of Edinburgh; with the addition of a member of the Senatus of the New College, to be appointed by the Faculty of Divinity. See Revised Scheme, p. 519 of CALENDAR 1889-90.

The next examination under this scheme will be held at the close of Session 1905-1906.

This Scholarship was instituted in 1862 by the Pitt Club, is of the

¹ It has been agreed by the Senatus and the Faculty of Divinity, in regard to the Fellowships and Scholarships of the funds of which they are severally the administrators, that

1. The *Pitt Theological Scholarship* shall be competed for when it falls vacant.
2. The *Aitken Theological Scholarship* shall be reserved from competition when it falls vacant in the same year with the Pitt.
3. The *Glover Divinity Scholarship* shall (according to its conditions) not be open to competition when the Pitt or Maxton may be open, and shall be similarly reserved when the Aitken is open.
4. That meanwhile the *Maxton* be competed for when it is vacant.

annual value of £108, 5s. 10d. (under deduction of Examiners' fees), and tenable for three years. By Ordinance No. 77, of the Universities' Commissioners, this Scholarship is open to competition to all Masters of Arts of any of the Universities of Scotland who have given regular attendance in the Faculty of Divinity in the University of Edinburgh for three complete Sessions, and who are in the course of studying, with the view of becoming Clergymen of the Church of Scotland. No person is admissible who has been entered as a Student of Divinity more than six years prior to the time of the competition.

Candidates are examined on (1) The Evidences of Revealed Religion; (2) Systematic Theology; (3) Hebrew; (4) Church History; (5) Biblical Criticism. It cannot be held with any other Scholarship, Fellowship, or Bursary of any Scottish University, or along with any parochial or pastoral charge, whether as minister or assistant.

1901. *William A. Curtis, B.D.*

II.—MAXTON DIVINITY SCHOLARSHIP.

This Scholarship was founded by the Trustees of the late John Maxton, Esq., in 1867, is of the annual value of £42, 8s. (under deduction of Examiners' fees), and is tenable for three years. It is open only to Students who are members of the Established Church of Scotland, and who have completed the course of study in the Faculty of Divinity in the University of Edinburgh. See Deed of Foundation, at p. 234 of CALENDAR for 1867-68.

1902. *W. A. Mowat, B.D.*

III.—THE GLOVER DIVINITY SCHOLARSHIP.

This Scholarship was founded in 1875 by Subscribers to a Fund for commemorating the memory of the Rev. W. Glover, D.D., and by the University Endowment Association. It is of the annual value of about £40 (under deduction of Examiners' fees), tenable for three years, and open to all Masters of Arts of any of the Universities of Scotland who have finished their study of Theology, before entering the Church of Scotland, within six years, and who have attended the last Session of their course at least in the University of Edinburgh. It cannot be held with any other Divinity Scholarship or Bursary in any Scottish University, and it is not offered for competition in any year where there is a vacancy in the Pitt Divinity Scholarship or the Maxton Divinity Scholarship. See Deed of Foundation, at p. 343 of CALENDAR for 1875-76.

1903. *Adam Mackay, M.A.*

IV.—THE AITKEN THEOLOGICAL SCHOLARSHIP.

This Scholarship, founded in 1875 by bequest of the Rev. David Aitken, D.D., formerly minister of Minto, is of the annual value of £118, 5s. (under deduction of Examiners' fees). Its purpose is to make provision for the study of Church History and Biblical Criticism

at one or more University Seats in Germany, or elsewhere on the Continent of Europe, in the case of meritorious students at Edinburgh University. It is to be awarded, after competitive examination (on due proficiency being shewn), to a Student in Divinity of the University of Edinburgh, who is a Graduate in Arts of that University of not more than four years' standing. It is tenable for two years; but the Senatus may extend the term for another year if it appear to them desirable. The time of the competition to be fixed and publicly intimated by the Senatus at least three months before; and the Senatus are also at liberty to prescribe whether one Semester or two Semesters in the foreign University shall be attended in each year. It is not offered for competition in the same year as the Pitt Divinity Scholarship or the Glover Divinity Scholarship. See Deed of Foundation at p. 344 of CALENDAR for 1876-77.

1902. *O. B. Milligan, B.D.*

V.—THE DAVID KIDD DIVINITY SCHOLARSHIP.

This Scholarship, which is of the annual value of £36 (under deduction of Examiners' fees), is tenable for three years, and is awarded, after competitive examination in Theology (same as for B.D.), to students of any of the Universities of Scotland who are natives of Scotland, and who have finished their course of study with the view of becoming Ministers of the Church of Scotland. See Deed of Foundation in CALENDAR for 1879-80, p. 354.

VIII.—BRUCE OF GRANGEHILL AND FALKLAND SCHOLARSHIPS.

These Scholarships were founded in 1865 by Mrs Tyndall Bruce of Falkland, and are of the annual value of £100. They come into

operation only when a vacancy occurs in any one of the three Scholarships of this name in the Faculty of Arts, by the death, resignation, or dismissal, of a Scholar during the period of his tenure of the Scholarship; and are tenable in this Faculty during the remainder of that period. They cannot be held with any other Scholarship or Fellowship of a Scottish University, or with any situation yielding an income of £100 a year. The subjects of Examination are prescribed from time to time by the Faculty.

IX. and X.—THE JEFFREY SCHOLARSHIPS.

These Scholarships, two in number, were founded in 1887 by Miss Jane Jeffrey of Victoria Terrace, Portobello. They are each of the annual value of about £74, 15s. (under deduction of Examiners' fees), and are tenable for one year. They are awarded annually for special proficiency in the subjects embraced in each of the four departments of Divinity, Hebrew and Semitic Languages, Ecclesiastical History, and Biblical Criticism; and are open to Students of Divinity in connection with the Church of Scotland who shall have given regular attendance for at least one Session on the Divinity Classes in this University, including the class with which the Scholarship competed for is specially connected. They are competed for in the following order:—first year, Divinity, and Hebrew and Oriental Languages; second year, Ecclesiastical History and Biblical Criticism; and so on from year to year. At the close of Session 1903-1904 the Scholarships in Ecclesiastical History and Biblical Criticism are open. See Deed at page 497 of CALENDAR for 1888-89.

VIII. INTERNATIONAL PRIVATE LAW.

Lecturer—J. H. MILLAR, B.A. LL.B.

A Course of Forty Lectures on this subject will be given during the Summer Session on Tuesday, Wednesday, Thursday, and Friday in each week, at 5 P.M. Under Ordinances 39 and 40 attendance on these Lectures qualifies as a half-course for Graduation in Law. The subject is also included among those

in which Intrants to the Faculty of Advocates may be examined, and the Lectures are therefore adapted for students qualifying for the Scottish Bar.

The Lectures will deal with (a) The nature and scope of International Private Law ; (b) Its History and Literature ; (c) Its general principles and their application in regard to—
i. *Forum*, or Competency, including Jurisdiction, the Recognition of Foreign Judgments, and Procedure generally ; and
ii. *Lex*, or Choice of Law, in questions of (1) the Personal Law, including *status*, and the family relations ; (2) the Law of Property, moveable and immoveable ; (3) the Law of Obligations, including contract and delict ; (4) Succession ; and (5) Bankruptcy.

Examinations will be held on the subjects of the Lectures.

Students are recommended to attend the Class of Scots Law before attending this Course.

Books of Reference.—Gillespie's Bar ; Guthrie's Savigny ; Foote on Private International Jurisprudence ; Dicey's Digest of the Law of England with reference to the Conflict of Laws ; and Rattigan's Private International Law.

PROCEDURE AND EVIDENCE.

Lecturer—W. M. GLOAG, B.A.

This Course of Forty Lectures will describe the various Courts of Scotland, with the nature of their jurisdiction, the actions competent in each, and the details of the procedure followed in them. It will also include the principles of the Law of Evidence. The Lectures are delivered on Tuesday, Wednesday and Thursday during the Winter Session.

Text-Books.—Mackay's "Manual" ; Coldstream's "Procedure in the Court of Session" ; Balfour's "Handbook of Procedure" ; Dove Wilson's "Sheriff-Court Practice in Civil Causes" ; Dickson on "Evidence" ; Kirkpatrick on "Evidence."

Candidates for Graduation who pass in Procedure and Evidence as an extra subject may have this fact recorded on their Diplomas.

Regulations for Graduation in Law.

LL.B. AND B.L.

For Regulations for those who began the Study of Law, with a view to Graduation, before 1st October 1895, see CALENDAR for 1896-97 or previous CALENDARS.

Two Degrees in Law are conferred on Examination, viz., Bachelor of Law (B.L.) and Bachelor of Laws (LL.B.). Either Degree admits to the profession of Law Agent, provided the Candidate has included Scots Law and Conveyancing among his Graduation subjects, and has passed an Examination in the Practice of the Courts under the Law Agents Act.

The Degree of LL.B. (if the Candidate has been examined in Civil Law, Philosophy of Law, International Law (Public or Private), Constitutional Law and History, Medical Jurisprudence, Scots Law (Civil and Criminal Law, including Procedure), and Conveyancing, admits to the profession of Advocate.

Two Law Graduation Examinations are held annually, the first beginning on the last Monday in October, and the second on the third Monday in March.

I. BACHELOR OF LAWS (LL.B.).

I. No one is admitted to examination as a Candidate for the Degree of Bachelor of Laws (LL.B.) unless he be a Graduate in Arts of one of the Universities of the United Kingdom; or of any Foreign or Colonial University specially recognised for the purpose by the University Court.¹

II. The course of study in Law for the Degree of Bachelor of Laws includes the following subjects:—²

- (1) Jurisprudence, General or Comparative, during a course of not less than forty lectures.
- (2) The Law of Nations, or Public International Law, during a course of not less than forty lectures.
- (3) Civil Law, during a course of not less than eighty lectures.
- (4) Law of Scotland, or Law of England, during a course of not less than eighty lectures.
- (5) Constitutional Law and History, during a course of not less than eighty lectures.

¹ The following Degrees have been recognised in terms of this Section: B.A. of New Zealand University; B.A. of Cape of Good Hope University; B.A. of Dalhousie University, Halifax, Nova Scotia; Queen's College, Kingston, Canada; B.A. of the Universities of Calcutta, Madras, Harvard, and Michigan; M'Gill University, Montreal.

² For names of authorised extra-academical lecturers, see under Faculty of Medicine.

- (6) Conveyancing, during a course of not less than eighty lectures ; or Political Economy, or Mercantile Law, during a course of not less than eighty lectures.
- (7) Any two of the following subjects, namely :—International Private Law, Political Economy, Administrative Law, and Forensic Medicine ; in each case during a course of not less than forty lectures.

III. (1) The course of study necessary for the Degree of Bachelor of Laws extends over three academical years, one of which at least must be spent in the University in which the Candidate intends to graduate, the other two may be spent in any other University or School of Law, specially recognised by the University Court.¹

(2) No Candidate for a Degree is deemed to have attended a class as part of the course of study necessary for that degree who does not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

IV. Candidates must undergo examination in the subjects prescribed in Section II. hereof ; and they must pass at one examination in at least two of these subjects. Before presenting themselves in any subject the Candidates must have attended the requisite course of instruction in such subject. Candidates who have passed an examination for another degree in any of the said prescribed subjects in the same University may be exempted from examination in such subject or subjects, provided that the examiners are satisfied that the previous examination in such subject or subjects has been passed on a sufficiently high standard.

V. Every Candidate for the Degree of Bachelor of Laws is examined both orally and in writing on each of the subjects in the course of study above prescribed, in which he presents himself for examination.

VI. (1) Distinction may be awarded to Candidates who have displayed exceptional merit in their examinations.

(2) For the Degree of Bachelor of Laws a diploma is given, setting forth the subjects in which the Candidate has passed, and the distinction (if any) he has attained.

Candidates for Examination or Graduation must matriculate for the year,

II. BACHELOR OF LAW (B.L.).

I. No one is admitted to examination as a Candidate for the Degree of Bachelor of Law (B.L.) unless he be a Graduate in Arts of one of the Universities of the United Kingdom, or of any Foreign or Colonial University specially recognised for the purpose by the University Court :²

¹ Recognised in terms of this section : the Universities of Oxford, Cambridge, and Dublin ; the Inner and Middle Temples ; Lincoln's Inn ; and Gray's Inn ; the Madras Law School ; College of Law, University, Minnesota ; M'Gill University, Montreal.

² See footnote 1, page 343.

or until he has passed—*A.* The Preliminary Examination in the Faculty of Arts, or its equivalent, and *B.* An examination in one of the Scottish Universities, to be conducted by the Examiners in Arts, in the following subjects, on the Standard of Examination for the Ordinary Degree of Master of Arts:—

(1) Logic and Psychology; or, in the option of the Candidate, Moral Philosophy. (2) Latin. (3) One additional Arts subject, not being one of those which belong also to the Faculty of Law.

And he must have studied at least one of these subjects in a full course in a Scottish University, or an equivalent course in another University approved by the University Court.

II. The course of study in Law necessary for the Degree of Bachelor of Law must include the following subjects:—

(1) Civil Law, during a course of not less than eighty lectures; or a half-course in Civil Law where in any University a full course is not available; provided that in the latter case, Candidates who are not already graduates in Arts are required to take in addition a course in such subject in Arts as may be sanctioned by the *Senatus Academicus*, or a half-course in one or other of the following branches of Law:—(a) Jurisprudence, General or Comparative. (b) The Law of Nations, or Public International Law. (c) Constitutional Law and History. (d) International Private Law. (e) Mercantile Law. (f) Administrative Law.

(2) Law of Scotland, during a course of not less than eighty lectures.

(3) Conveyancing, during a course of not less than eighty lectures.

(4) Forensic Medicine, during a course of not less than forty meetings of the class; or, in the option of the Candidate, a half-course in one of the branches of Law specified in sub-section 1 of this section, if not already taken.

III. (1) The course of study in Law necessary for the Degree of Bachelor of Law extends over two Academical years.

(2) No Candidate for a Degree is deemed to have attended a class as part of the course of study necessary for that degree who does not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

(3) The Candidate may prosecute his studies during the prescribed two years in one Scottish University, or in different Scottish Universities, or in a Scottish University and a University or School of Law specially recognised by the University Court; but one at least of these years must be spent, and all the examinations in the subjects mentioned in the preceding section must be passed, at the University in which he intends to graduate.

IV. The Candidate for the Degree of Bachelor of Law must undergo examination and pass in the four or more subjects selected by him; but he may present himself for examination in one subject or group of subjects at a time, provided that he has completed the course of study for

such subject or group of subjects, and provided also that in that case a higher standard of proficiency shall be exacted.

V. Every Candidate for the Degree of Bachelor of Law is examined, both orally and in writing, on each of the subjects in the course of study above prescribed, in which he presents himself for examination.

VI. (1) Distinction may be awarded to Candidates who have displayed exceptional merit in their examinations.

(2) For the Degree of Bachelor of Law a diploma is given, setting forth the subjects in which the Candidate has passed, and the distinction (if any) he has attained.

Candidates for Examination or Graduation must matriculate for the year.

III.	1878	Dr Andrew Thomson.	100 0 0	4	4	25 0 0	Trus. of Dr Thomson.

I. There are three Grierson Bursaries, each of the value of £26, 13s. 4d. annually. Deserving students from the parishes of Crawford or Leadhills, applying to the Clerk of Senatus on or before the 1st day of September, are entitled to preference, if they satisfy certain conditions;¹ and if the applicant is commencing his first Winter Session of the Law Curriculum he will be entitled to hold the Bursary for three years, provided "he prosecutes his studies with proper diligence."¹ The subjects of examination are Elementary Latin, English, and Arithmetic. See Outline of Subjects, pages 117 and 118, and Time-Table of Examinations, page 135.

Failing preferential candidates, the Bursaries will be tenable for one year only, and will be awarded to candidates who have attended one year in the Faculty of Arts in some University. 1. In the case of those commencing their first Winter Session in Law, the award will be to the candidate who has passed highest in Latin and Moral Philosophy at the Arts Graduation examination in October. 2. In the case of candidates commencing their second Winter Session—to the most distinguished law-student of that standing, who, if not a Graduate in Arts, has passed satisfactorily in Latin and Moral Philosophy at the Arts Examination, either in October or earlier. 3. In the case of candidates commencing the third Winter Session of the Law Curriculum—to the most distinguished law-student of that standing who has passed satisfactorily in Latin, Moral Philosophy, and Logic at the Arts Examination in October or earlier. See Regulations, CALENDAR 1877-78, p. 370. *Bursars* 1901—First year, *J. Taylor*. Second year, *W. Dunbar*. Third year, *A. M. Laing*.

II.—SCHOLARSHIPS.

Where the competition is open to Graduates, their standing will be computed from the date of the Graduation Ceremonial immediately following the completion of their Law Examinations.

Four Vans Dunlop Scholarships, each of about £100 per annum, tenable for three years, are connected with the Faculty of Law:—

Candidates are required to matriculate for the year in which the competition takes place, and must produce evidence that they are eligible.

I. *Vans Dunlop Scholarship in Commercial and Political Economy and Mercantile Law*, for which both Law and Arts Students are eligible. For Regulations, see under Scholarships in Faculty of Arts.

Next vacancy in October 1904.

II. *Vans Dunlop Scholarship in the Law of Nature and Nations, Civil Law, and Constitutional Law and History.* The Regulations for competition are as follows:—

(a) The Competition is open to all Candidates who, within the three years immediately preceding the date of competition, shall have graduated in Law in this University, or shall have passed the Graduation Examination in the three subjects of examination for the Scholarship: provided they have written papers of the LL.B. standard at the Graduation Examination, and have obtained an average of not less than 75 per cent. of marks in these subjects.

(b) The Competition is by written Essays on branches of law to be announced at least one year before the date of competition. The precise subject of each of the essays will be set on the conclusion of the Graduation Examination in October.

(c) The Examiners are the Professors of the prescribed subjects, assisted by the additional Law Examiners.

Next vacancy in October 1904.

Each holder of the Scholarship will be required to deliver, to the satisfaction of the Faculty of Law, two courses of three lectures each on one of the subjects of examination for the Scholarship, viz., one course in the second, and the other in the third year of his tenure.

1901. *A. M. Mackay, M.A.*

Hon. Men., *J. B. F. Watson.*

III. *Vans Dunlop Scholarship in Scots Law and Conveyancing.*

(a) The Competition is open to all Candidates who, within the three years immediately preceding the date of competition, have graduated in Law in this University, or have passed the Graduation Examination in Scots Law, Conveyancing, and Forensic Medicine, provided they have obtained at the Graduation Examination an average of not less than 75 per cent. of marks in these three subjects.

(b) The Competition is by written Essays on (1) The Civil Law of Scotland, (2) the Criminal Law of Scotland, and (3) Conveyancing, the particular branches of which will be announced at least one year before the competition. The precise subject of each essay will be set on the conclusion of the Graduation Examination in October.

(c) The Examiners are the Professors of the prescribed subjects, assisted by the additional Law Examiners.

Next vacancy in October 1905.

Each holder of the Scholarship will be required to deliver, to the satisfaction of the Faculty of Law, two courses of three lectures each on one of the subjects of examination for the Scholarship, viz., one course in the second, and the other in the third year of his tenure.

1902. *Alexander Stuart.*

IV. *Vans Dunlop Scholarship in History.* For Regulations, see under Scholarships in Faculty of Arts. Next vacancy in October 1904.

V. *The Lorimer Travelling Scholarship.*¹

The Lorimer Travelling Scholarship, of the annual value of about £44, tenable for two years, for the encouragement of the study of the "Law of Nature and Nations" in foreign Law Schools by Students and Graduates in the Faculty of Law, was founded by the Lorimer Memorial Committee and the Association for the better Endowment of the University. The Scholarship is open to Candidates who, during the two years immediately preceding that in which a scholar falls to be appointed, have completed the examinations for a Degree in Law in the University in the following subjects, namely—(1) The "Law of Nature and Nations" (including therein the Philosophy of Law); (2) The Civil Law; and (3) Either (a) Constitutional Law and History, or (b) Political Economy. The foreign Law School or Schools which the Scholar proposes to attend must be previously approved by the Faculty of Law. The Candidate who, in the opinion of the Faculty of Law, passes with most distinction in the examinations for Graduation in Law, in the subjects above set forth, during the two years immediately preceding the election, and who is willing to fulfil the conditions imposed by the Deed of Foundation, will be eligible, consideration being always given to his proficiency in the first of the above-named subjects, and to his knowledge of the modern language or languages spoken in the Law School or Schools where he proposes to study. For Deed of Foundation, see CALENDAR for 1892-93, p. 538. Next Vacancy in July 1904.

1902. *W. A. Fleming, M.A., LL.B.*

VI. *Gray Scholarship for Research.*—See under Faculty of Arts.
1901. *J. C. Fenton, M.A.*

VII. *Thow Scholarships.*

These Scholarships, three in number, of the annual value of about £25 each, were founded by the Trustees of the late Miss Christiana Thow of Craigmore, West Ferry, near Dundee, according to the desire of Miss Christiana Thow and her Sister, Miss Margaret Thow, and out of respect to the memory of their Brothers.

The following are the Rules and Regulations applicable to the said Scholarships:—(1) The Scholarships shall be distributed annually, one to the most distinguished student for the Winter Session in the Class of Scots Law at the University of Edinburgh; another to the most distinguished for the Winter Session in the Class of Conveyancing at the said University; and the third to the most distinguished student for the Winter Session in any two of the following Classes at the said

¹ These Regulations may be altered before the date of next competition.

University, viz.:—Public Law, Civil Law, and Constitutional Law and History. (2) Each of the Scholarships shall be tenable only for one year by the student in the subject for which it has been bestowed upon him, but the same student may competently obtain one of the Scholarships set apart for the other subjects in a succeeding session, provided he has the necessary qualification. (3) No Student can hold two of these Scholarships for the same year, although he may have satisfied the conditions in other respects. In the event of any Student being first as regards two of the Scholarships, the Faculty of Law shall determine which Scholarship shall be awarded to him, and which shall be taken by the next most distinguished student. (4) There shall be no restriction as to holding one of these Scholarships along with another Scholarship or Bursary from another source.

IV.—PRIZES.

I. The *Forensic Prize*, of the value of £10, founded in 1858 by the Forensic Society with the view of encouraging the study of Roman Law, is awarded annually either in July or in October, for the best Essay upon a subject prescribed by the Professor of Civil Law, or, as the result of a Special Examination, as may be found convenient. The subject of the Essay, or the date of the Examination, as the case may be, is announced by the Professor early in the session. It can be competed for only by Students of the Civil Law Class during the preceding year.

1902. *W Dunbar, B.A.*

II. The *Muirhead Prize*, of about £16, 5s. annually is awarded to the Student who gains the first place in the Class of Civil Law, as determined by the results of the periodical examinations during both the Winter and Summer Sessions.

The attention of all Bursars in the Faculty of Law is particularly called to the following Regulation:—

Bursars connected with the Faculty of Law must annually attend and perform the work of at least one Class in the Faculty.

Each Scholar, Bursar, or Prizeman, when he applies to the Factor for a payment, must produce a Certificate, signed by the Dean or the Professor to whose department the Foundation is attached, attesting his regular attendance on the proper Classes, or otherwise that he has fulfilled the conditions attached to the Foundation.

Certificates, in terms of this regulation, will be given to Bursars by the *Dean of the Faculty of Law* after the 14th November; also at the end of the Session in March. In applying to the Dean for the Certificate in November, Bursars must present to him their Class Cards for the Session, as evidence that they have enrolled in their classes; and at the end of the Session they must present to him certificates from the Professors to the effect that they have attended with regularity and have performed the work of the Classes. Payments are made by the Factor for the University, Mr Henry Cook, W.S., 61 North Castle Street, Edinburgh, on and after 14th November for the Martinmas payments, and on and after 19th May for the Whitsunday payments,—between 10 and 3 o'clock.

N.B.—*Bursars and Scholars who desire to resign should at once announce this to the Factor. They must apply to the Factor for the instalments due to them within three months after they have become payable, otherwise they will be regarded as having resigned.*

L. J. GRANT, BART., B.A.,
Dean of the Faculty of Law.

Faculty of Medicine.

Dean—PROFESSOR A. R. SIMPSON, M.D., D.Sc.

Students who do not intend to graduate in Medicine in this University may attend any of the Classes in the Faculty on payment of the Matriculation and Class Fees. Those who intend to graduate must pass the Preliminary Examination before attendance on any Class will qualify for Graduation. Women are now admitted to Graduation.

The Classes in the Faculty will be opened on Tuesday, 13th October, and will meet daily (Saturdays excepted), unless otherwise stated.

The Class Fees are collected by the Factor. For the purpose of receiving Fees he will attend at the University for a short period at the beginning of the Winter and Summer Sessions, and Fees not then paid will be taken at his office, 61 Castle Street. All communications regarding Class Fees should be addressed to, and all cheques for same drawn in favour of the Collector of Class Fees, Edinburgh University.

For payment of Class Fees by the Carnegie Trust, see page 164.

OPPORTUNITIES FOR HOSPITAL PRACTICE.

Royal Infirmary, Edinburgh.—At 11 o'clock daily. 780 beds. Perpetual Ticket, in one payment, £12; Annual Ticket, £6, 6s.; Six Months, £4, 4s.; Three Months, £2, 2s. Separate payments, amounting to £12, 12s., entitle to a Perpetual Ticket.

Royal Edinburgh Hospital for Sick Children.—120 beds, of which 41 are reserved for Surgical Cases. Hospital Ticket for one year, £1, 1s., entitling Student to attend the General Practice of the Hospital, including the Out-Patient Department.

Edinburgh Royal Maternity and Simpson Memorial Hospital.—40 beds available for Clinical Instruction. The fees charged are:—For each Six External Cases, £1, 1s.; for three months' course of Internal Clinical Instruction, £1, 1s.

City Hospital, Edinburgh.—For Fevers and Infectious Diseases. Total number of beds, 400. There is at present no fee charged.

Royal Edinburgh Asylum for the Insane.—500 beds, available for Clinical Instruction to members of the Class of Mental Diseases. The fee for the course is £2, 2s.

Number of beds available for the Clinical Instruction of Students of the University, 1840.

MATRICULATION, &c., pages 29-31.

CLASS SESSIONS.

There are Two Sessions in each year, viz. :—

I. The Winter Session which opens on Tuesday, 13th October 1903, and closes on Friday, 18th March 1904. Practical Anatomy begins on Thursday, 1st October 1903, and continues till the end of March.

The Classes will meet for the last time before the Christmas Vacation on Friday, 18th December 1903, and will reassemble on Tuesday, 5th January 1904.

II. The Summer Session, which opens on Monday, 2nd May, and closes on Wednesday, 13th July 1904. Operative Surgery begins Tuesday, 12th April. The Practical Anatomy Rooms remain open till the end of July.

LABORATORIES, MUSEUMS, &c.

The University contains the following Laboratories and Museums, several of the latter belonging in part to the Professors of the respective subjects :—

I. LABORATORIES.

THE PHYSICAL LABORATORY, established with the view of affording Students a practical knowledge of the construction and use of physical apparatus, and the mode of conducting experimental inquiries, is open daily from 10 to 3, under the superintendence of the Professor.¹

THE ROYAL BOTANIC GARDEN LABORATORY, open daily for the practical study of plants and for research, under the superintendence of the Professor, assisted by A. W. Borthwick, B.Sc., and Wm. Smith, M.A.

PHYSIOLOGICAL LABORATORY, for the prosecution of Physiological Research, and for the study of Practical Physiology, open daily, under the superintendence of the Professor, assisted by P. T. Herring, M.D.; John Malcolm, M.D.; Sutherland Simpson, M.D., D.Sc.; and Andrew Hunter, M.A., B.Sc., M.B., Ch.B.

PRACTICE OF PHYSIC LABORATORY, for the study of Medicine, and for research in connection with the Practice of Physic, open daily, under the superintendence of the Professor, assisted by James G. Cattnach, M.B., C.M.

DISSECTING ROOMS, open daily under the superintendence of Professor Cunningham, assisted by David Hepburn, M.D.; David Waterston, M.D., C.M.; E. B. Jamieson, M.B., Ch.B.; R. M. Rowe, M.B., Ch.B.; and other assistants. Open 1st October 1903, and 2nd May 1904; and continue open till the end of March and of July for the Winter and Summer Sessions respectively.

THE CHEMICAL LABORATORIES² (distinct from the Practical Chemistry Class Room), have accommodation for forty Students. They contain the necessary equipment for a complete course of instruction in the various branches of chemical work and for research. The instruc-

² Fees.—*Whole day*—Winter Session, £10, 10s.; or Oct.-Dec., or Jan.-March, or Summer Session, £5, 5s. *Half day*—Winter Session, £6, 6s.; Oct.-Dec., or Jan.-March, or Summer Session, £3, 3s. Preference will be given to Students in the above order. Students who are not Matriculated may attend the Chemical Laboratory on payment of the Entrance Fee of 5s., in addition to the Laboratory Fee. *Payment of the Entrance Fee does not entitle the student to a certificate of attendance, nor confer any other University privilege.*

tion given includes complex qualitative analysis, quantitative, inorganic and organic analysis (with special courses in gas analysis, assaying, &c.), and chemical preparations. The training is suited not only for students studying for Science and Arts Degrees or for the Examinations of the Institute of Chemistry, but also for persons desiring to qualify themselves as analysts, technical chemists, &c. The Chemistry Department will be closed on 18th March and 13th July for the Winter and Summer Sessions respectively.

The Laboratories are open from 9.30 to 4.30 daily during the Winter and Summer Sessions, and are under the charge of Professor Crum Brown, assisted by Leonard Dobbin, Ph.D.; Hugh Marshall, D.Sc.; W. W. Taylor, M.A., D.Sc.; Charles E. Fawsitt, B.Sc., Ph.D., and Clerk Ranken, B.Sc.

OBSTETRICAL AND GYNECOLOGICAL LABORATORY, for research and study of practical work, under the superintendence of the Professor, assisted by G. F. Barbour Simpson, M.B., Ch.B., M.R.C.P.E.

TUTORIAL CLASS OF CLINICAL MEDICINE, in the Wards of the Royal Infirmary, by J. G. Cattanach, M.B., C.M.; Edwin Matthew, M.B., Ch.B.; and George Lyon, M.B., Ch.B.; with G. F. Barbour Simpson, M.B., Ch.B., M.R.C.P.E., for Diseases of Women: under the superintendence of the Clinical Professors.

NATURAL HISTORY LABORATORIES, for study of the structure and development of Invertebrate and Vertebrate forms, open daily, under the superintendence of the Professor, assisted by J. Beard, D.Sc., Ph.D., and J. H. Ashworth, D.Sc.¹

MATERIA MEDICA LABORATORIES, for the study of Practical Materia Medica and Practical Pharmacy, and for Pharmacological and Pharmaceutical research, open daily, under the superintendence of the Professor, assisted by William C. Sillar, M.B., C.M., B.Sc., and George S. Carmichael, M.B., Ch.B.

TUTORIAL CLASSES OF CLINICAL SURGERY AND SURGICAL PATHOLOGY, in the Royal Infirmary, by R. Black Purves, M.B., C.M., F.R.C.S.E., and the Resident Surgeons, under the superintendence of the Clinical Professor, and instruction in anæsthetics by Thomas D. Luke, M.B., F.R.C.S.E.

TUTORIAL CLASS IN MIDWIFERY, by G. F. Barbour Simpson, M.B., Ch.B., M.R.C.P.E., under the superintendence of the Professor.

FORENSIC MEDICINE LABORATORY under the superintendence of the Professor, assisted by T. W. Drinkwater, Ph.D.

THE JOHN USHER INSTITUTE OF PUBLIC HEALTH.—The Students' Laboratories are open daily from 9.30 to 4.30 during the Winter and Summer Sessions under the direction of Professor Hunter Stewart assisted by J. Buchanan Young, M.B., D.Sc. (P.H.). The Laboratories are fully equipped for a complete course of instruction in bacteriological, chemical and meteorological work in relation to the

¹ Fees—Winter Session, £10, 10s.; Summer Session, £6, 6s.

prevention of disease. The training is suited not only for students preparing for the degree of B.Sc. in Public Health, but also for those preparing for Diplomas in Public Health granted by the different licensing boards.¹

There are also several research rooms, for research in bacteriology and bacteriological chemistry under the direction of the Professor and his Assistants. The Laboratories open 13th October 1903 and 2nd May 1904.

SURGICAL LABORATORY, divided into two parts—(a) General Surgical Pathology, (b) Bacteriology,—is utilised for teaching Systematic Surgery, and every facility is afforded for investigation, under the superintendence of the Professor, assisted by George L. Chiene, M.B., C.M., F.R.C.S.E., and Wm. J. Stuart, M.A., M.B., Ch.B.

PATHOLOGICAL LABORATORY, for the study of Pathological Anatomy and for Pathological Research, including Histological and Bacteriological Departments, under the superintendence of the Professor, assisted by James Martin Beattie, M.D., and George Lyon, M.B., Ch.B.

THE ROYAL EDINBURGH ASYLUM is open to members of the Class of Mental Diseases for Practical Instruction, under the superintendence of the Physician-Superintendent.

PRACTICAL INSTRUCTION in the use of the Ophthalmoscope and in the detection of errors of refraction is given to members of the Class of Diseases of the Eye at the Eye Wards of the Royal Infirmary, under the Superintendence of the Lecturer.

DISEASES OF THE LARYNX, EAR AND NOSE.—In connection with this subject Tutorial Instruction in the Practical Methods of examining patients and in the use of instruments and appliances is given at suitable hours.

DISEASES OF THE SKIN.—Tutorial Instruction in the Practical Methods of examining patients, of using the microscope in the diagnosis of cutaneous affections, in the employment of instruments and the application of remedies, is given at suitable hours, by Dr Norman Walker.

DISEASES OF CHILDREN.—Clinical Instruction in the wards, out-patient department, and *post-mortem* room at the Royal Hospital for Sick Children.

II. MUSEUMS. See pages 59-62.

¹ Fees.—*Whole-day.*—Winter Session, £10, 10s. ; or Oct.-Dec. , or Jan.-March, or Summer Session, £5, 5s. *Half-day*—Winter Session, £6, 6s. ; Oct.-Dec., or Jan.-March, or Summer Session, £3, 3s. Preference will be given to Students in the above order. Students who are not Matriculated may attend the Public Health Laboratory on payment of the entrance fee of 5s. in addition to the Laboratory fees. *Payment of the Entrance Fee does not entitle the student to a certificate of attendance, nor confer any other University privilege.*

Courses of Lectures, &c.

1903-1904.

I. BOTANY.

PROFESSOR BALFOUR.

Summer Session, 1904.

1. LECTURES.—The Course is a general one—Organographical, Physiological, and Taxonomic. Lectures are given every Monday, Tuesday, Wednesday, Thursday, and Friday.

2. PRACTICAL CLASS.—In this class opportunity is given for the examination of microscopic structure of plants, and for the study of life-histories of plants illustrating the lectures. It is conducted by the Professor and Assistants.

3. EXCURSIONS. — Excursions are made on Saturdays for the practical study of plants in the fields.

The Royal Botanic Garden, with the Botanical Museum and Herbarium, are open daily for the examination of living as well as preserved specimens of plants.

II. NATURAL HISTORY.

PROFESSOR EWART.

1. LECTURES ON ZOOLOGY.—*Winter Session.*—The first part of the course will treat of the Principles of Biology as illustrated by the Life-History, Morphology, and Physiology of one of the Vertebrata. The Distinctive Characters of the Chordata and the structure, habits, &c., of a series of vertebrate types will next be considered. The rest of the course will be chiefly devoted to : (1) Leading types of Invertebrates ; (2) Structure and life-history of the more important animal parasites ; and (3) Elements of Embryology, Classification, and Geographical Distribution of Animals.

Summer Session.—An Elementary Course, qualifying for the First Professional and the First B.Sc. Examinations, and *pro tanto* for graduation in Arts, will be given by the Professor, during the Summer Session 1904.

2. ELEMENTARY PRACTICAL ZOOLOGY.—*Winter and Summer Sessions.*—In these Classes Students have the opportunity of studying practically the more important types described in the Lectures, amongst others :—Amœba, Paramœcium, Hydra, Hirudo, Arenicola, Helix, Astacus, Raia, Rana, Columba, and Lepus.

3. ADVANCED COURSES.—These Courses are intended to assist students preparing for the Degree of B.Sc. in Zoology.

(1) The Intermediate Course will be given during the Summer Session by Dr J. H. Ashworth, University Lecturer in Invertebrate Zoology, and will be devoted to the Zoology of some portion of the Invertebrata. This class is prescribed for the Second B.Sc. Examination in Zoology and Comparative Anatomy.

(2) During the Winter Session an Advanced Course of Lectures and Laboratory work will be given by Dr Beard, University Lecturer on Vertebrate Zoology, on the Comparative Morphology of the Vertebrata. (See Faculty of Science.)

The Laboratory work will extend over the second half of the Winter Session and the Summer Session.

RESEARCH WORK.—The Laboratories are also available during both Sessions for research. For Regulations, see page 399.

COMPARATIVE EMBRYOLOGY.

VERTEBRATE MORPHOLOGY.

J. BEARD, D.Sc.

For Synopses, see under Faculty of Science.

III. CHEMISTRY.

PROFESSOR CRUM BROWN, WITH DR DOBBIN, DR MARSHALL,
AND DR TAYLOR, *Lecturers.*

1. LECTURES—In the Lectures the general laws of chemical action are explained and illustrated.

The chief non-metallic elements and their more important compounds are discussed in detail. The metals and the different

series of metallic salts are considered more generally, details being given in the case of the more important substances.

The principles upon which the classification of organic substances is based are explained, and the properties of the chief groups illustrated by means of examples.

Tutorial Classes, once a week, are conducted by Dr Dobbin.

For synopsis of other classes in Chemistry, and for Chemical Laboratory, see under Faculty of Science.

2. PRACTICAL CLASSES.—The work of these classes consists in the study of the preparation and reactions of the commoner Salts.

Class-Book.—Salts and their Reaction (Thin).

Students who have worked at least three months in the Laboratory need not attend the class of Practical Chemistry before appearing for the First Professional Examination in Medicine, for the First B.Sc. Examination, or for Examination in Chemistry for M.A.

3. SUMMER TUTORIAL CLASS.—This class is intended for Students who have already attended a course of lectures on Chemistry and propose to appear for examination in Chemistry for Medicine, Arts, or Science (First) at the end of the Summer Session.

IV. PHYSICS.

PROFESSOR MACGREGOR (*Summer*).

CARGILL G. KNOTT, D.Sc. (*Winter*), *Lecturer*.

The subjects embraced in the Course of Physics are :—

1. Properties of Matter—including Statics and Kinetics of Solid, Liquid, and Gaseous Bodies, Inertia, Gravitation, Molecular Forces, &c.

2. Sound, and Wave-propagation in general, Intensity, Pitch, and Quality of Musical Sounds, Harmonics, Concords, &c.

3. Heat, its Nature, Effects, Measurement, Transference, and Transformations—Measurement of Temperature and of Absolute Temperature ; Efficiency.

4. Light (1) Geometrical Optics, Speed of Light, Laws of Reflection and Refraction ; Construction and Effects of Mirrors,

Prisms, Lenses, and Microscopes; Images, Conditions of Distinct Vision; (2) Physical Optics, Interference, Dispersion, Diffraction, Double Refraction, Polarization, Spectrum Analysis.

5. Electricity, including Frictional and Voltaic Electricity, Thermo- and Magneto- Electricity, Electro-Dynamics, and Magnetism, with their practical applications. Measurements of Potential, Electromotive Force, Current, &c., Batteries, Dynamos, Electrometers, Galvanometers, Voltameters, &c.

Books of reference: Knott's *Physics*; Daniell's *Physics for Medical Students*; Watson's *Physics*.

V. ANATOMY.

PROFESSOR CUNNINGHAM.

Winter Courses.

I. LECTURES ON ANATOMY, at 1 P.M.—It is intended in this Course to bring before the Student, in a systematic manner, the structure of the Human Body. The different systems and organs will be described, and their development and growth explained. The Course includes, therefore, both General Anatomy and Descriptive Anatomy. The Lectures are illustrated by recent dissections, by wet and dry preparations, by a large collection of Osteological specimens, and by drawings and diagrams. Structures too minute to be recognised by the naked eye are demonstrated under the Microscope.

To assist the Junior Members of the Lecture Class to acquire a knowledge of Osteology, &c., Tutorial Demonstrations on the Bones and Muscles will be given during the earlier months of the Session without additional fee. All the members of this class have access to a systematically arranged series of osteological specimens and of models. Written Examinations for both Junior and Senior Students are held periodically during the Session.

Text-Books.—"Text-Book of Anatomy," ed. by Cunningham; Gray's "Anatomy"; or Cleland and Mackay's "Anatomy"; Quain's "Elements of Anatomy"; Holden's "Osteology."

2. PRACTICAL ANATOMY, under the superintendence of the Professor, aided by the Demonstrators, David Hepburn, M.D., C.M.; David Waterston, M.A., M.D., C.M.; E. B. Jamieson, M.B., Ch.B.; R. M. Rowe, M.B., Ch.B., and by several other assistants. Examinations of both Junior and Senior Students on dissected parts are conducted by the Demonstrators and the Professor. Special tutorial Demonstrations will be given to Senior Students on the joints, brain, organs of special sense, and other viscera.

This Course will commence on 1st October. The Dissecting-rooms are open from 9 A.M. to 5 P.M., and on Saturdays from 9 A.M. to noon. The Mackenzie Bursaries are awarded to members of this Class for proficiency in dissection.

Text-Books.—"Demonstrations of Anatomy," by Ellis, or Heath's "Practical Anatomy," or Holden's "Manual of the Dissection of the Human Body," or Cunningham's "Manual of Practical Anatomy."

REGIONAL ANATOMY (ANATOMICAL DEMONSTRATIONS).

DAVID HEPBURN, M.D., *Lecturer.*

In this Course, which is conducted in the Theatre, the structure of the human body is displayed and demonstrated topographically, from the surface inwards.

This Class meets about ninety times, and non-competitive Written Examinations are held monthly during the Session.

Summer Courses.

PRACTICAL ANATOMY.

PROFESSOR CUNNINGHAM.

This Course, beginning on 1st May, is the same as in Winter. The Rooms are open from 9 A.M. to 5 P.M.; on Saturdays from 9 A.M. to noon. Examinations are conducted on dissected parts by the Professor and by the Demonstrators, David Hepburn, M.D., C.M.; D. Waterston, M.A., M.D., C.M.; E. B. Jamieson, M.B., Ch.B.; and R. M. Rowe, M.B., Ch.B., and other assistants, and the joints, brain, and organs of sense will be specially demonstrated.

REGIONAL ANATOMY (ANATOMICAL DEMONSTRATIONS).

DAVID HEPBURN, M.D., *Lecturer*.

This Course, open without additional Fee to those engaged in Practical Anatomy in the Summer, will consist of demonstrations on some special departments of Anatomy.

VI. PHYSIOLOGY.

PROFESSOR SCHÄFER, WITH DRS HERRING, MALCOLM,
AND SUTHERLAND SIMPSON, *Lecturers*,
AND DR A. HUNTER, *Assistant*.

SYSTEMATIC LECTURES.

Course of about 100 Lectures and Demonstrations, held in Winter :—

The Courses in Physiology and Practical Physiology embrace the study of the minute Structure, Composition, and Functions of the Tissues and Organs of the Body.

Text-Books.—Elementary.—Starling's "Elements of Physiology" or "Halliburton's Physiology," Schäfer's "Essentials of Histology." *More advanced.*—Waller's "Physiology," Stewart's "Physiology," Foster's "Physiology," Howell's "Text-Book of Physiology," Schäfer's "Advanced Text-Book of Physiology," Parts of "Quain's Anatomy."

PRACTICAL PHYSIOLOGY.

This Course is divided into three sections—

1. *Experimental Physiology*, in which every student performs the chief experiments illustrating the functions of muscle, nerve the heart, &c., and records the results by graphic methods.

This Class is held in the Winter Session.

Text-Book.—Schäfer's "Practical Physiology."

2. *Practical Chemical Physiology*, in which every student performs the qualitative and quantitative analysis of the Urine in its normal and abnormal conditions, with special reference to clinical work, and such practical work relating to the Chemistry of Proteids and Carbohydrates, Blood, Milk, Bile, and Digestion, as is possible in a class.

This Class is held in the Winter Session.

Text-Books.—Halliburton's "Essentials of Chemical Physiology," Milroy's "Notes."

3. *Practical Histology*, in which every Student prepares, examines, and preserves for himself most of the tissues and organs of the body. Each student is provided with a microscope, and all reagents, but it is an advantage for a student to bring his own microscope, provided it is a sufficiently good one. The Professor or Assistants should be consulted as to the best kind of microscope to be obtained.

Text-Books.—Schäfer's "Course of Practical Histology," and the "Essentials of Histology."

This Class is held in Summer.

ADVANCED PRACTICAL PHYSIOLOGY.

PROFESSOR SCHÄFER, WITH DRS HERRING, MALCOLM,
SUTHERLAND SIMPSON, AND HUNTER.

See Synopsis under Faculty of Science.

PHYSIOLOGICAL RESEARCH.

The Physiological Laboratory is open daily for the prosecution of Research. Application must be made to the Professor.

VII. MATERIA MEDICA.

PROFESSOR SIR THOMAS R. FRASER.

Materia Medica comprises the subjects of pharmacognosy, pharmacy, pharmacology, and therapeutics, diet, remedial uses of electricity and galvanism, heat and cold, climate, &c. Instruction in Materia Medica is given in (A) a course of 100 Lectures during the Winter Session, and in (B) Practical Classes during the Summer Session, and of equivalent duration during the Winter Session.

A.—LECTURES ON MATERIA MEDICA—This course includes the natural history, sensible and chemical properties, physiological action (or pharmacology), therapeutical uses, and modes of administering remedies, ordinarily so called. Such remedies

consist of (a) inorganic substances ; (b) chemical products ; (c) vegetable substances ; (d) animal substances. Although formerly comprised in the course of instruction in *Materia Medica*, the remedial uses of Diet, Electricity, Climate, &c., cannot now be taught with any advantage in this course, as, under the New Medical Ordinances, the study of *Materia Medica* is required to be completed before the student has entered upon the study of the diseases to which the above are applicable.

B.—PRACTICAL CLASSES.—*Practical* instruction is given in the following subjects, which cannot satisfactorily be taught in lectures :—1. Pharmacy, or the processes for obtaining the pharmaceutical preparations of drugs. 2. Prescription-writing. 3. Dispensing, or the making up of medicines in forms suitable for administration in disease. 4. Incompatibility.

It is recommended that the Practical Class be attended before the lectures on *Materia Medica*. Practical classes are taught in the Summer Session daily, at such hours as are found most convenient. A winter class will also be formed in October.

RESEARCH LABORATORIES.

The above laboratories will be open daily for research on the pharmacological action and chemical composition of medicinal substances, under the superintendence of the Professor and his assistants. Application to be made to the Professor.

EXPERIMENTAL PHARMACOLOGY.

W. C. SILLAR, M.B., C.M., B.Sc., *Lecturer.*

This course consists of (1) practical instruction in the methods employed in pharmacological research and (2) the experimental study of the pharmacological action of a number of typical medicinal substances.

The Course is adapted for students who desire a practical knowledge of pharmacology, and who have attended the Class of *Materia Medica*.

Previous attendance at the Class of Advanced Practical Physiology is strongly recommended.

The Course will commence in May.

VIII. PATHOLOGY AND MORBID ANATOMY.

PROFESSOR GREENFIELD.

This Course includes General Pathology, General Pathological Anatomy and Histology, and Systematic Morbid Anatomy :—

The first half of the Course is chiefly occupied with General Pathology and General Pathological Anatomy. Under this are included the Derangements of Nutrition, Degenerative Processes, Inflammation, Repair Morbid Growths, &c.

The causes of disease, and their mode of action, with special reference to Parasitic and Infective Diseases. This includes (a) The Bacteriology and Morbid Anatomy of the more important Infective Diseases and the subject of Immunity ; (b) The Life History, Characters, &c. of the Principal Animal Parasites and their action in producing disease.

In the second half of the course the Morbid Anatomy and the Histology of the various systems and organs of the body are systematically studied and the relations of the changes observed to the diseases in which they occur.

There are frequent naked eye, microscopic, and lantern demonstrations in illustration of the lectures.

Text - Books. — Hektoen and Riesman, "Text - Book of Pathology" ; Muir and Ritchie, "Pathological Bacteriology" ; Manson, "Tropical Diseases."

PRACTICAL PATHOLOGY.

Classes for Practical Instruction in MORBID ANATOMY and PATHOLOGICAL HISTOLOGY are conducted in the Pathological Laboratory—microscopes and other necessary apparatus being supplied. The Course consists of—1st. Naked Eye Demonstrations ; 2nd. Histological investigation and preparation of Morbid Structures and Organs ; 3rd. Elementary Bacteriology.

In Winter the class meets five times a week, from the beginning of the Session till the end of January ; in Summer,

five times a week, from the beginning of May till the end of the Session.

The Laboratory is also open daily from 10 A.M. till 4 P.M. for Pathological Research, under the Professor and his Assistants.

IX. PRACTICE OF MEDICINE.

PROFESSOR WYLLIE.

The Course of Instruction comprises Lectures on the ætiology, morbid anatomy, clinical history, diagnosis, prognosis, and treatment of—

I. General diseases.

II. The diseases of the different systems and organs of the body.

It is intended that each Course shall be, as far as possible, a complete review of the present aspects of the Principles and Practice of Medicine.

The Course is illustrated by specimens of morbid anatomy and by numerous drawings, diagrams, and charts from the Anatomical Museum, and from the Professor's private collection.

TUTORIAL CLASS.

Practical instruction in connection with the Course is given to the members of the Class by the Assistant.

Text-Books. — Fagge's, Roberts's, Bristowe's, Osler's, or Frederick Taylor's "Practice of Medicine."

MENTAL DISEASES.

THOMAS S. CLOUSTON, M.D., L.R.C.P.E., *Lecturer.*

This Course consists of—

1. Systematic Lectures in the University during the Summer Session on the Classification, Symptoms, Causes, and Treatment of Mental Diseases.

2. Pathological demonstrations, naked eye, lantern, and microscopic, in the University and at the Royal Asylum, Morningside, of the Morbid Anatomy of Insanity. Students will have an opportunity of original investigation in the Pathological Museum of the Asylum.

3. Clinical instruction at the Royal Asylum, Morningside (West House), in all the forms of Mental Disease. Students have the opportunity of personally coming in contact with and examining the cases, so as to learn the modes of managing and dealing with patients labouring under Mental Disease, and they are exercised in the diagnosis of Insanity and the drawing up of certificates; the aim being to enable them to recognise its early stages, to distinguish its varieties, to adopt suitable treatment, and to advise the relatives as to sending the patient to an asylum. There is a clinical field of 500 beds, comprising all the wards except those for private patients. This part of the course extends through the Summer and the last month of the Winter Session.

4. Instruction in regard to the medico-legal, hereditary, educational, and social relations of Mental Disease, and on its bearings and significance in ordinary medical practice.

There are Free Clinical Clerkships, tenable for three months, in the Royal Edinburgh Asylum, and in several other Asylums, in connection with the class.

Text-Books.—Dr Clouston's "Clinical Lectures on Mental Diseases," Macpherson's "Mental Afflictions." Ford Robertson's "Text Book of Pathology, in relation to Mental Diseases," Maudsley's "Pathology of the Mind," Bevan Lewis' "Text-Book of Mental Diseases."

X. SURGERY.

PROFESSOR CHIENE, C. B.

Winter Session.

1. *Lectures.* This Course is devoted to a systematic consideration of the Principles and Practice of Surgery. Each

course is intended to embrace, as far as possible, a complete view of the present aspects of the Science and Practice of Surgery.

Written examinations are held at stated periods, and at the end of the Session a practical examination is held on the work of the Tutorial Classes.

2. *Tutorial Instruction*, at hours most convenient for the students, includes—

(a) *Practical Instruction in Bandaging and the Treatment of Fractures and Dislocations* on the living subject. This class is divided into sections for Senior and Junior Students.

(b) *Special Demonstrations to Senior Students on*

(1) *Surgical Anatomy.*

(2) *Surgical Pathology.*

These Demonstrations are illustrated by museum specimens and lantern slides.

Summer Session.

The Summer Session is devoted to the Practical Aspects of Surgery. Special attention is given to Surgical Anatomy and Operative Surgery. The class meets in April, May, and June. Oral examinations and tutorial instruction in the Treatment of Fractures and Dislocations, and in the uses of Surgical Instruments, form a special part of the course. Special demonstrations are given on Surgical Pathology.

The Surgical Laboratory for (1) Surgical Pathology; and (2) Bacteriology, is open daily for original work during the Winter and Summer Sessions, under superintendence of the Professor, assisted by George L. Chiene, M.B., C.M., F.R.C.S.E., and Wm. J. Stuart, M.A., M.B., Ch.B. Applications to be made to the Professor.

Text-Books—Winter Session.—The Professor's "Lectures on the First Principles of Surgery"; Keen and White's *Text-Book of Surgery*; Da Costa's "Manual of Modern Surgery." *Summer Session.*—The Professor's "Lectures on Surgical Anatomy," and Joseph Bell's "Manual of Surgical Operations," 1892; Kocher's *Operative Surgery* (translated by H. J. Stiles).

DISEASES OF THE EYE.

GEORGE ANDREAS BERRY, M.B., C.M., *Lecturer.*

The Course will consist of at least twelve systematic lectures in the University, and of twelve or more clinical lectures at the Royal Infirmary.

In addition there will be meetings for individual clinical instruction, including Refraction and Ophthalmoscopy.

Text-Books.—Berry's "Diseases of the Eye," Swanzy's "Handbook on Diseases of the Eye," Nettleship on "Diseases of the Eye," Fuchs' "Text-Book of Ophthalmology."

DISEASES OF THE LARYNX, EAR, AND NOSE.

R. M'KENZIE JOHNSTON, M.D., C.M., *Lecturer.*

A Summer Course of Instruction given in the Royal Infirmary consists of not less than eighteen lectures, partly systematic and partly clinical. These are delivered on Mondays and Thursdays, at 11 o'clock A.M.

A concise account of the more common diseases of the Ear, Nose, and Throat, and their treatment, is given in the systematic lectures.

In the clinical lectures, patients are brought before the class and their condition is examined into and discussed, and, where possible, operative treatment is carried out. Methods of examination, instruments and appliances used in diagnosis and treatment are demonstrated.

Members of the class may attend the out-patient clinics of the Department on Tuesdays and Fridays at eleven o'clock, and operations in the Wards.

Tutorial instruction in the practical methods of examining patients, and in the use of instruments and appliances, is given by Dr Logan Turner, at suitable hours in connection with the lectures.

XI. MIDWIFERY AND THE DISEASES OF WOMEN AND CHILDREN.

PROFESSOR SIMPSON.

The Course of Instruction comprises Lectures on—

I. Anatomy and Physiology of the Female Organs of Reproduction.

II. Physiology, Pathology, and Therapeutics of Pregnancy.

III. Parturition—Natural (Eutocia), and Morbid (Dystocia).

IV. Hygiene, Pathology, and Therapeutics of the Puerperal State.

V. Hygiene, Pathology, and Therapeutics of Infancy.

VI. Special Pathology and Therapeutics of the Female Organs of Reproduction.

One day weekly is devoted to the Gynecological Section of the Course; and the Diseases of Women may be studied clinically in the Royal Infirmary, in the Buchanan Ward (No. 35), in connection with the class of Clinical Medicine.

After the Class-roll is made up, Tutorial classes are formed for Practical Instruction in the use of Obstetric and Gynecological Instruments and Appliances.

Midwifery may be studied clinically in the Royal Maternity, of which the Professor is, *ex officio*, one of the Medical Officers, and where he attends during the first three months of the Winter Session. The Professor makes a special Clinical visit with the Students who have taken the Maternity Ticket, on Saturdays, at 10 A.M.; and he or one of the Assistant Physicians gives Clinical Instruction on Tuesday afternoons at 4 P.M.

Summer Session.

A Course of Instruction in Obstetrical and Gynecological Operations, with Demonstrations of the use of Instruments and Appliances, is conducted in the Summer Session, at 10 A.M.

On Tuesdays and Fridays the Professor gives Lectures and Demonstrations. On the other days the sections of the class

are trained in the investigation and treatment of Female Diseases, and the members of the class have an opportunity of practising operations on lay figures.

Text-Books.—Playfair's "Midwifery." The Professor's "Contributions to Obstetrics and Gynecology." Hart and Barbour's "Manual of Gynecology," Ballantyne's "Diseases of Infancy."

XII. FORENSIC MEDICINE.

PROFESSOR SIR HENRY DUNCAN LITTLEJOHN.

MEDICAL EVIDENCE GENERALLY.

(1) Documentary—(2) Oral—(3) Experimental — Examination of the living; identity; examination of the dead; identity; cause of death; exhumations, autopsies.

MEDICAL EVIDENCE SPECIALLY.

Questions affecting Health or Life.—(1) Assaults and Homicide—Wounds and other external injuries; asphyxia. Starvation. Heat and cold. Poisons—(2) Suicide—(3) Offences against Chastity—Rape, &c.; concealment of pregnancy; criminal abortion; infanticide—(4) Malpraxis and Neglect of Duty.

Questions affecting Civil Rights or Social States.—Marriage and Divorce. Impotence and sterility. Live birth. Survivorship. Insanity. Feigned diseases.

Text-Books. — Taylor's "Medical Jurisprudence," Guy's "Principles of Forensic Medicine."

XIII. PUBLIC HEALTH.

PROFESSOR HUNTER STEWART.

The Course consists of Thirty Lectures and Demonstrations, and embraces the following:—

1. General consideration of pathogenic and non-pathogenic micro-organisms—Their nutrition—The effects of heat, light, and chemical substances—Toxins and anti-toxins—Immunity.

2. *Air, Climate and Soil.*—Variations in the chemical and

bacteriological constituents and meteorological condition of the atmosphere as caused by seasonal and local conditions—Climate as determined by winds, temperature, moisture and altitude—Healthy and unhealthy climates—Sanatoria—Soil as affecting health.

3. *Water Supply.*—Sources—Filtration—Storage—Causes of contamination.

4. *Habitation as affecting Health.*—Site and exposure—The dwelling—Air-space—Ventilation—Sewage and refuse removal and disposal—Sanitary fittings.

5. *Foods.*—Milk—Animal foods—Cereal foods—Adulteration—Preserved foods—Food-poisoning.

6. Vital statistics, and notification of infectious diseases.

7. Causes of the occurrence and spread of the more commonly met with infective diseases—Means of prevention—Isolation hospitals—Disinfection of clothing, of rooms, and of emanation from the sick.

8. School hygiene.

9. Disposal of the dead.

Research Laboratories in the John Usher Institute of Public Health.—Several research rooms have been fitted up in the Institute for research in Bacteriology and Bacteriological Chemistry under the direction of the Professor, assisted by J. Buchanan Young, M.B., D.Sc. (Public Health). Application to be made to the Professor.

XIV. CLINICAL SURGERY.

PROFESSOR ANNANDALE.

The subjects of this Course are the symptoms, diagnosis, pathology, and treatment of Surgical diseases and injuries as met with in the living body, and the modifications and complications which occur in connection with them. Patients are brought before the class in the University-Clinical Surgical Theatre of the Infirmary, and their condition is carefully examined and discussed, due regard being taken to avoid

injuring their feelings or aggravating their disease. The history and probable nature of the case having been stated, the proper treatment is suggested and described, and any required operations or other treatments are carried out at once, or at the first convenient opportunity. Ward Cliniques are given at least two days in the week by the Professor, and on other two days in the week the cases of patients in the wards or those attending the out-patient department are specially demonstrated by the Assistant Surgeon, Mr Hodsdon, so as to instruct the students in the common and minor surgical affections. Practical instruction as to the examination of patients, the observation of symptoms, the treatment of surgical emergencies, the use of instruments, the application of dressings, and other surgical details is given by the Clinical Tutor (R. Purves, M.B., F.R.C.S.E.) attached to the Chair. Special instruction in the administration of Anesthetics is also given by Thomas D. Luke, F.R.C.S.E. The two latter instructions are *free* to all Students attending the Course.

Text-Books.—Any of the recent standard works on Surgery. Students are also advised to study the best works (old and new) on the special subjects of Practical Surgery.

In connection with this class it is to be noted that under the New Regulations—(1) Nine months' attendance on Lectures is required, and it is advised that at least six months of this be continuous. (2) That attendance at the *Ward* Cliniques is compulsory and forms part of the Course. (3) Students must also produce a certificate that they have acted as Dresser or Clerk in Surgical Wards for six months.¹

XV. CLINICAL MEDICINE.

PROFESSORS THOMAS R. FRASER, GREENFIELD, AND WYLLIE,
AND (FOR DISEASES OF WOMEN), SIMPSON.

This Course, consisting of Clinical Lectures and Instruction in the University wards of the Royal Infirmary, is conducted

¹ Students attached to Professor Chiene's wards as clerks or dressers can attend the Clinical Lectures upon Mondays and Thursdays only, and receive a qualifying certificate by arrangement.

conjointly by the Clinical Professors—all being on duty both in the Winter and Summer Sessions, the Professor of Midwifery giving lectures and demonstrations on Gynecology on certain days.

The Course consists of:—1. Practical Instruction on three days a week at the bedside. 2. Critical Expositions and Discussions of cases in the lecture-room on two days a week.

Every facility is afforded to students to act as Clinical Clerks, and those are preferred who have had a course of tutorial instruction. At the close of each Summer Session, eight gentlemen, who have been members of the Class, are appointed Resident Physicians in the Clinical Wards for the following Winter and Summer Sessions.

CLINICAL TUTORIAL CLASS.

Practical instruction in the Methods of Physical Examination is given to the Class by the University Clinical Tutors.

Junior Students are strongly advised to take this course of instruction along with their first course of Clinical Medicine.

DISEASES OF THE SKIN.

WILLIAM ALLAN JAMIESON, M.D., C.M., *Lecturer.*

The Course of Instruction, which is given in the Royal Infirmary, consists of not less than twenty Clinical Lectures, delivered in the Medical Theatre on Wednesdays and Fridays at 11 o'clock a.m. In these, patients are brought before the class and their condition is examined into and demonstrated, and the appropriate treatment prescribed and illustrated.

The Ordinary Out-patient Cliniques of the Department are held on Wednesdays and Saturdays, and operations are performed in the Wards on Tuesdays. These are open to all Students holding an Infirmary Ticket, and also to Members of the class.

Tutorial Instruction in the practical methods of examining patients, of using the microscope in the diagnosis of cutaneous affections, in the employment of instruments and the application

of remedies, is given by Dr Norman Walker, at suitable hours in connection with the Lectures.

Text-Books.—Dr Jamieson's "Diseases of the Skin," Dr Norman Walker's "Introduction to Dermatology."

CLINICAL INSTRUCTION ON DISEASE IN CHILDREN

(at the Royal Hospital for Sick Children).

THOMAS MONCK BURN MURDOCH, M.B., *Lecturer*, and the Staff of the Royal Hospital for Sick Children.

The Courses consist of one Clinical Lecture and two Ward Cliniques weekly, demonstrations in the post-mortem room, and attendance at the out-patient department, also at operations on fixed days. In the surgical out-patient department a large number of minor surgical operations are performed daily.

The Courses are made as practical as possible, and students have full opportunities given for studying cases clinically and for becoming acquainted with the methods of examining children, and the diseases more peculiar to them.

At least two Courses will be conducted annually, one in the Winter before Christmas, and one in the Summer Session. A second Winter Course after Christmas will also be given if sufficient students come forward.

COURSE OF INSTRUCTION IN TROPICAL DISEASES SPECIALLY QUALIFYING FOR MEDICAL APPOINTMENTS IN THE CROWN COLONIES AND PROTECTORATES.

I. PATHOLOGICAL BACTERIOLOGY.

JAMES MARTIN BEATTIE, M.A., M.D., *Lecturer*.

The Course is a practical one, consisting of Laboratory Instruction, Demonstrations, and Lectures :—

(a) *General.*—Morphology and Life History of Micro-organisms ; Preparation of Culture Media ; Methods of Isolation and Cultivation, including Anaerobic Cultures ; Methods of Staining ; Separation of Bacterial Products ; Inoculation, &c.

(b) *Special*.—A Systematic Study of Organisms Pathogenic to the Human Subject—their characters, their modes of producing disease, &c. A number of the more important non-pathogenic organisms are also studied.

The Course is given in Winter, and in Summer.

Text-Book.—"Manual of Bacteriology," by Muir and Ritchie.

II. DISEASES OF TROPICAL CLIMATES.

ANDREW DAVIDSON, M.D., *Lecturer*.

The Course will consist of twenty-five Lectures, and of demonstrations of the Micro-organisms of tropical diseases.

The Lectures will comprise an account of—1. The chief endemic maladies—Malaria, Dysentery, Liver Abscess, Beriberi, Yaws, Leprosy, &c., and of Sunstroke, and Climatic Fevers.

2. The three great tropical pestilences, Cholera, Plague, and Yellow Fever, along with the principles of Epidemiology.

3. The less known fevers of tropical and subtropical regions.

4. The more important parasitic maladies—Filariasis, Ankylostomiasis, Bilharzia disease, &c.

5. Climatology and Tropical Hygiene.

Text-Book.—Davidson's "Hygiene and Diseases of Warm Climates."

Separate classes will be arranged for women.

The dates of commencement and hours of the Lectures for the Winter and Summer Sessions will be announced later.

Graduation in Medicine and Surgery

A.—REGULATIONS APPLICABLE TO ALL WHO BEGIN MEDICAL STUDIES AFTER 1ST OCTOBER 1892.

*For those who began Medical Studies before 1st October 1892, see
Abridged Regulations B, page 430.*

I. Four Degrees in Medicine and Surgery are conferred by the University of Edinburgh, viz., Bachelor of Medicine (M.B.), Bachelor of Surgery (Ch.B.), Doctor of Medicine (M.D.), and Master of Surgery (Ch.M.). The Degree of Ch.B. is not conferred on any person who does not at the same time obtain the Degree of M.B., and the Degree of M.B. is not conferred on any person who does not at the same time obtain the Degree of Ch.B.

[These Degrees admit to the Medical Register. They qualify for Practice throughout His Majesty's dominions, and for admission to the Naval, Military, and other Public Medical Services in the United Kingdom.]

II. Subject to Regulations to be made from time to time by the University Court, the University may also confer Diplomas in Special Branches of Medical and Surgical Practice on Graduates of the University in Medicine and Surgery.

[A University certificate is granted in Diseases of Tropical Climates. See page 434.]

PRELIMINARY EXAMINATION.¹

III. Before commencing medical studies, each student must pass a Preliminary Examination in (1) English, (2) Latin, (3) Elementary Mathematics, and (4) Greek or French or German: Provided always that, in the case of a candidate whose native language is not English, an examination in the native language of the candidate² may be substituted for one in either French or German, and an examination in any other classical language² for one in Latin or Greek.

IV. The extent and standard of the Preliminary Examination is

¹ See also pages 477-486, and Regulations for Registration of Medical Students, page 416.

² Candidates who propose to be examined in a language other than those above-named are required to give intimation thereof before 1st February or 1st July for the Examinations in spring and autumn respectively.

determined by the Joint Board of Examiners constituted under Ordinance, No. 13 [General, No. 8 Regulations as to Examinations], in accordance with the terms of that Ordinance.

V. The Preliminary Examination is conducted in accordance with the provisions of Ordinance No. 13 [General, No. 8 Regulations as to Examinations];—and, subject to the provisions of the immediately succeeding section hereof, a Candidate shall be obliged to pass in all the required subjects at one or not more than two Examinations; provided that he may offer himself for re-examination as often as may be necessary to satisfy this condition.

VI. A Degree in Arts, or in Science (not being a Degree *honoris causa tantum*), in any of the Universities of the United Kingdom, or in any Colonial¹ or Foreign University specially recognised for the purpose by the University Court, exempts from the Preliminary Examination; and the Joint Board of Examiners appointed under the provisions of Ordinance, General, No. 8 [Regulations as to Examinations], has power to determine what examinations, other than those for the degrees hereinbefore mentioned, shall be accepted either in whole or in part in place of the Preliminary Examination.²

PROFESSIONAL EDUCATION.³

VII. Candidates are admitted to the Degrees of M.B. and Ch.B. only after they have fulfilled the following conditions:—

1. The Candidate must have been engaged in Medical study for at least five years.
2. In each of the first four years the Candidate must have attended at least two courses of instruction, in one or more of the subjects of study specified in sub-section 4 hereof—each Course extending over a session of not less than five months, either continuous or divided into two terms; or, alternatively, one such Course, along with two Courses, each extending over a session of not less than two and a half months.
3. During the fifth or final year the Candidate must be engaged in Clinical study for at least nine months at the Royal Infirmary, Edinburgh, or at one or more of such Public Hospitals or Dispensaries, British or Foreign, as may be recognised for the purpose by the University Court.

¹ University recognised in terms of this section: Princeton, New Jersey, U.S.A.

² See page 483.

³ No Course of Lectures will be allowed to qualify unless the Lecturer certifies that it has embraced at least 100 Lectures, or 50 Lectures, in conformity with the requirements of this section. Three Months' Courses on *Materia Medica*, Pathology and Midwifery do not qualify, unless in the case of Midwifery they conform to the Regulation on p. 20. Apprenticeship, Dispensary or Hospital Practice, Practical Midwifery, and Vaccination, &c., are not reckoned as *Classes* in making up an *Annus Medicus*.

4. The Candidate must, during his Curriculum, have attended a Course or Courses of instruction in each of the following subjects of study, including such Examinations as may be prescribed in the various Classes, viz. :—

- | | | |
|--|---|--|
| (1.) ANATOMY, | } | During a Course of not less than Five Months. |
| (2.) PRACTICAL ANATOMY, | | During two Courses of not less than Five Months each. ¹ |

Provided always in so far as regards the University of Edinburgh that—

(a) It is the duty of the Senatus to determine from time to time the number of meetings of which such Courses

¹ Certificates of attendance on Practical Anatomy must express not only the number of months engaged in dissection, but the names of the parts dissected, and the degree of care with which the dissections have been made. Students are recommended not to appear for Examination in Anatomy, with a view to a Degree, until they have dissected the human body at least once.

² For students commencing medical study after September 1899 certificates of attendance on Practical Physiology must bear that the course of instruction included (a) Practical Experimental Physiology, (b) Practical Chemical Physiology, and (c) Practical Histology, or separate certificates must be presented, covering each of these parts of the course.

shall consist, and in what cases two half Courses shall be deemed equivalent to a full Course; and to report the determination to the University Court for its approval.

(b) It is the duty of the Professors and Lecturers to submit to the Senatus annually at the end of the Winter Session a scheme specifying what proportion of the Courses shall be devoted to Lectures, Practical Demonstrations, Examinations, and Tutorial Work respectively. The Senatus must transmit such scheme, with such observations as it may think fit to make thereon, to the University Court for its approval.

(c) The University Court will not grant or continue recognition to any institutions or teachers unless it is satisfied that their Courses of Instruction are equivalent to the Courses sanctioned in the Universities of Scotland.

5. The Candidate must have attended for at least three years the Medical and Surgical Practice either of the Royal Infirmary, Edinburgh, or of a General Hospital elsewhere, which accommodates not fewer than eighty patients, and possesses a distinct staff of Physicians and Surgeons, and is recognised for the purpose by the University Court.
6. The Candidate must have attended Clinical Surgery¹ during a Course or Courses extending over not less than nine months. These Courses may be conducted by the Professor of Clinical Surgery, or by Professors or Lecturers appointed for the purpose by the University Court, or by the Ordinary Surgeons of the Royal Infirmary, Edinburgh, or of a General Hospital defined and recognised as hereinbefore provided, and must consist of regular instruction at the bedside, along with Clinical Lectures.
7. The Candidate must have attended Clinical Medicine¹ during a Course or Courses extending over not less than nine months. These Courses may be conducted by Professors of the University, or by Lecturers appointed for the purpose by the University Court, or by the Ordinary Physicians of the Royal Infirmary, Edinburgh, or of a General Hospital defined and recognised as hereinbefore provided, and must consist of regular instruction at the bedside, along with Clinical Lectures.
8. The Candidate must have attended a course of instruction in Mental Diseases, of such duration, and so apportioned between lectures, demonstrations, and clinical instruction, as the Senatus, with the approval of the University Court, may from time to

time determine. [The course of instruction in Mental Diseases must have been given by the University Lecturer, or by a recognised Teacher, and must consist of not less than six Class-room meetings for lectures and demonstrations and ten meetings in the Wards of a recognised Asylum for the Insane.¹]

9. The Candidate must have attended a Course of twenty-five meetings on Practical Pharmacy in a University or recognised School of Medicine, or have dispensed drugs for a period of three months in an Hospital or Dispensary, or the establishment of any chemist and druggist or pharmaceutical chemist of Great Britain or any pharmaceutical chemist of Ireland, who is registered in the Books of the Pharmaceutical Society of Great Britain or of the Pharmaceutical Society of Ireland respectively.
10. The Candidate must have attended, for at least six months, by apprenticeship or otherwise, the out-practice of an Hospital, or the practice of a Dispensary, or of a Physician or Surgeon, or of a Member of the London or Dublin Society of Apothecaries. He must have acted as Clerk² in the Medical and Dresser² in the Surgical Wards of a Public Hospital; and must also have availed himself, to such an extent as may be required by the Senatus, with the approval of the University Court, of opportunities of studying, at an Hospital or Dispensary, *post-mortem* Examinations, Fevers, Diseases of Children, Ophthalmology, or such other special departments as may from time to time be determined. [The approved courses are :—
A. (1) Post-Mortem Examinations³ in a recognised Hospital for a period of at least three months, during which practical instruction is given in the methods of making Post-Mortem Examinations, and in framing Reports.¹ (2) A course of Clinical instruction in infective Fevers, given at not less than twelve meetings in the Wards of a recognised Hospital where Clinical instruction is given on cases of Infectious Diseases.¹ (3) A three months' course of instruction in Diseases of the Eye, given by the University Lecturer, or by a recognised Teacher, of not less than twelve Class-room meetings and twelve meetings for Clinical instruction in the Wards of a recognised Hospital, or in the Wards of a Hospital, and in a Dispensary, both recognised for the purpose. The Course to include efficient practical instruction in Ophthalmoscopy, and in the detection of errors in refraction.¹ (4) A Course of Operative Surgery, conducted by the Professor of Surgery

¹ Must be attended before the Candidate enters for the Final Examination.

² For six months. Must be members of the Class of Clinical Surgery, or of Clinical Medicine as the case may be. See also footnote, p. 402.

³ See footnote, page 402.

in the University, or by a recognised Teacher. *B.* Every Candidate shall also be required to attend any one of the three following courses:—(1) A course of Clinical instruction in the Diseases of Children, given by the University Lecturers, and by recognised Teachers in the Edinburgh Royal Hospital for Sick Children, or by a recognised Teacher or Teachers in a Hospital recognised for the purpose, which shall extend over a period of at least six weeks, and in addition to the opportunities for Surgical and for other Medical instruction afforded by the Hospital, shall include Clinical instruction in the Medical diseases of children, consisting of not less than four Class-room lectures, ten meetings for Clinical instruction in the Medical Wards, and four meetings in the Out-patient Department of the Hospital,^{1,2} together with attendance at Post-Mortem Examinations.^{1,2} (2) A course of instruction in diseases of the Larynx, Ear, and Nose, given by a University Lecturer,^{1,2} or by a recognised Teacher, at not less than six Class-room meetings, and twelve meetings for Clinical instruction in the Wards of a recognised Hospital, or in the Wards of a Hospital and in a Dispensary, both recognised for the purpose.^{1,2} (3) A course of clinical instruction in diseases of the Skin, given by a University Lecturer, or by a recognised teacher, at not less than Twenty meetings in the wards of a recognised Hospital, or in the wards of a Hospital and in a Dispensary both recognised for the purpose.^{1,2}

11. The Candidate must have attended, under the superintendence of a registered Medical Practitioner, twelve cases of labour, or such additional number as the Senatus, with the sanction of the University Court, may from time to time determine; or have attended for three months the practice of a Lying-in Hospital, or of the Maternity Department of a General Hospital or other Public Charitable Institution, and have conducted personally six, or such an additional number of cases of labour as the Senatus, with the approval of the University Court, may from time to time determine.
12. The Candidate must have been properly instructed in Vaccination at a Public Vaccination Station, by a Public Vaccinator, authorised by the proper Government Authority to grant Certificates of Proficiency in Vaccination.³

¹ See footnote, page 402.

² See footnote 1, page 403.

³ The Candidate must, when he enters for the Final Examination, produce a certificate of instruction and examination in vaccination of the standard required by the Local Government Board from a Vaccine Department in an Hospital, Dispensary, or other public Institution recognised for the purpose by the Local Government Board. The recognised Vaccine Departments in Edinburgh are the Western Dispensary, 90 Fountainbridge—*Vaccinator*, Dr J. B. Buist; and the Edinburgh Provident Dispensary, Marshall Street—*Vaccinator*, Dr Cadell.

13. No Candidate for a degree will be deemed to have attended a class as part of the Curriculum necessary for that degree who does not present a certificate bearing not only that he has given regular attendance, but also that he has duly performed the work of the class.

VIII. With respect to the Places and Institutions at which the studies of the Candidate may be prosecuted, the following Regulations have effect :—

1. Two of the five years of medical study must be spent in the University of Edinburgh, each year of study including always the attendances specified in section VII., sub-section 2.
2. The remaining three years may be spent in any University of the United Kingdom, or in any Indian, Colonial, or Foreign University recognised for the purpose by the University Court, or in such Medical Schools or under such Teachers as may be recognised for the purpose by the University Court, each year of study during the first four years including always the attendances specified in section VII., sub-section 2.
3. Of the subjects of study specified in section VII., sub-section 4, not less than eight must be taken in the University of Edinburgh, or (subject always to the provisions as to attendance contained in the immediately preceding sub-sections) in some other University of the United Kingdom, or in some Foreign or Colonial University entitled to confer the Degree of Doctor of Medicine, recognised for the purpose by the University Court, or in a College incorporated with, or affiliated to a University, entitled to confer the Degree of Doctor of Medicine, recognised for the purpose by the University Court : Provided always that where in any of said subjects of study two or more Courses are required, the taking of one of those Courses will constitute a taking of the subject for the purpose of this sub-section.
4. The remainder of such subjects of study may (subject always as aforesaid) be taken in such Medical Schools or under such Teachers as may be recognised for the purpose by the University Court.
5. All Candidates, not Matriculated Students of the University, availing themselves of the permission to attend the Lectures of Extra-Academical Teachers in Edinburgh, must, at the commencement of each year of such attendance, enrol their names in a book to be kept in the University for that purpose, paying a

Fee of the same amount as the Matriculation Fee paid by Students of the University, and having, in respect of such payment, a right to the use of the Library of the University.

6. The Fee for attendance, for purposes of graduation, on the Courses of instruction of recognised Extra-Academical Teachers in Edinburgh, must be not less than the amount exigible for the corresponding Courses in the University.

[The fee must be paid at the commencement of the Course, and the Certificate must state the amount of the fee paid.]

7. The University Court will not recognise as qualifying for examination in any of the subjects specified in section VII., sub-section 4, the class of any teacher who is at the time a teacher of more than one of the said subjects, except in those cases where Professors in the University are at liberty to teach the two subjects: Provided always that a Professor or other Teacher in any endowed public College or Institution, who, by the terms of his appointment, is required to teach more than one subject of Medical Study therein, may be recognised under sub-section 2 of this section as a Teacher of any one of the subjects which he teaches.
8. A Teacher, attendance on whose course of instruction, before the date of the approval of these Regulations by Her Majesty in Council, had been recognised for the purposes of graduation in the University, is not required to obtain a new recognition from the University Court; and attendance on the course of instruction of every such Teacher may continue to be recognised as heretofore.
9. It is in the power of the University Court, if it sees cause, at any time to withdraw or suspend any recognition which it may have granted.

IX. In the University of Edinburgh it is the duty of the Professors of the subjects specified in section VII., sub-section 4 hereof (except Practical Anatomy and such other subjects as the Senatus, with the approval of the University Court, may from time to time determine), so to conduct the Courses that Students may receive instruction sufficient for graduation in any one of the said subjects by attendance on one Course of five or six months, or of two and a half or three months as the case may be.¹

¹ A question having been raised as to the construction of section IX, the following interpretation was officially issued by the University Commissioners:—

"It is not intended to require of the Professor a complete course of instruction by

X. If any Candidate, before presenting himself for his Preliminary Examination, has attended in any University of the United Kingdom, or in any University or Institution specially approved, or under any Teacher specially recognised for the purpose by the University Court, a Course or Courses of instruction in Physics, Chemistry, Botany, or Zoology, equivalent in the judgment of the Senatus to the qualifying Course in the same subject in the University of Edinburgh, such attendance will (notwithstanding anything hereinbefore stipulated) be held as entitling him to be examined in these subjects; and if the Candidate has attended such Course or Courses in each of the said subjects, he will be held to have completed his first year of Medical Study: Provided always that the evidence of such attendance at such equivalent Course or Courses must be presented to the Senatus at the time when the Candidate presents himself for his Preliminary Examination; and the Senatus will, if satisfied, grant a certificate to that effect.

By a Supplementary Ordinance of the Commissioners, the provisions of this section shall not have effect except where the University Court shall allow the application after a report by the Senatus, setting forth special grounds therefor.

PROFESSIONAL EXAMINATION FOR M.B. AND Ch.B.

XI. Each Candidate is examined, both in writing and orally, and also clinically where the nature of the subject admits, in the following divisions, viz. :—*First*, in Botany, Zoology, Physics, and Chemistry; *Second*, in Anatomy, Physiology, and Materia Medica and Therapeutics; *Third*, in Pathology; *Fourth*, in Surgery and Clinical Surgery, Practice of Medicine and Clinical Medicine, Midwifery, Forensic Medicine, and Public Health.

In subjects which admit of practical instruction, the examination will be such as to test the practical acquirements of the Candidate.

If a Candidate for the Degrees of M.B. and Ch.B. have completed, in a University of the United Kingdom, a course of study and passed an examination in Botany, Zoology, Physics, or Chemistry qualifying for a Degree in Science or in Arts, he shall be held to have passed the examinations in such subject or subjects.

If a Candidate have obtained a Degree in Science or in Arts in any

lectures during each session, or to limit the Examinations for Degrees to subjects which shall be discussed in the lectures of the Professor at the time that the Student attended the Course. The word 'instruction,' as used in this section, is to be held to include lectures upon such parts of the subject as the Professor may be able to overtake, supplemented by directions as to the use of text-books or other sources of information for the remainder of the subject; and it is also intended that the Examination may be taken over the whole field, even when the Professor has not been able to include it all in his course of lectures.'

University other than a University of the United Kingdom, granted in either case after a course of study and an examination in Botany, Zoology, Physics, or Chemistry, it shall be in the power of the University Court to exempt such Candidate from the examinations in such subject or subjects; provided that the course of study and the standard of examination in each case are satisfactory in the judgment of the *Senatus Academicus*.¹

XII. Candidates who profess themselves ready to submit to an examination in the subjects comprised in the first division, viz., Botany, Zoology, Physics, and Chemistry, may be admitted to examination in all or any two of these subjects at any examination held after they have attended a full Course in each of the subjects professed.

XIII. Candidates who have passed their examinations in the subjects comprised in the first division may be admitted to examination in the second division at the end of the third winter session.

Provided that Candidates who so desire may postpone their examination in *Materia Medica* and *Therapeutics* until the close of the summer session following.

XIV. Candidates who have passed their examinations in the subjects comprised in the first and second divisions may be admitted to examination in the third division at the end of the fourth winter session.

XV. Candidates who have passed their examinations in the subjects comprised in the first, second, and third divisions may be admitted to examination in the fourth or final division, when they have completed the fifth year of study.

XVI. If any Candidate at these examinations be found unqualified in one or more subjects, he will not again be admitted to examination unless he has pursued his medical studies for such time, and subject to such conditions, as the Faculty of Medicine may prescribe.²

XVII. If any Candidate at these examinations be found to have passed in one or more subjects with sufficient merit, he will not be liable to re-examination in such subject or subjects, although he may

² Satisfactory Certificates must be produced when Candidates re-enter for Examination. The fees paid to Extra-Academical teachers in Edinburgh for re-attendances must be of the same amount as those payable for the corresponding classes in the University, and the Certificates of attendance must show the amounts of the fees paid.

have been found unqualified in a subject or subjects comprised in the same division as hereinbefore specified.

XVIII. Every Candidate must deliver,¹ on or before such day as the Senatus may from time to time determine, to the Dean of the Faculty of Medicine, a declaration, in his own handwriting, that he has completed his twenty-first year, or that he will have completed it on or before the day of graduation, and that he will not be, on the day of graduation, under articles of apprenticeship to any surgeon or other master.

XIX. After the Candidate has satisfied the Examiners, the Dean of the Faculty of Medicine lays the proceedings before the Senatus, by whose authority the Candidate will be admitted, on such day as the Senatus may from time to time appoint, to the Degrees of M.B. and Ch.B., on payment of the required fees.

XX. Candidates for graduation must produce evidence of their having conformed to the Regulations which were in force at the time they commenced their Medical Studies.

PROFESSIONAL EXAMINATION FOR M.D.²

- XXI. 1. Subject to the conditions hereinafter specified, the Degree of M.D. is conferred on any Candidate who has obtained the Degrees of M.B. and Ch.B., and is of the age of twenty-four years or upwards, and has produced a certificate of having been engaged, subsequently to having received the Degrees of M.B. and Ch.B., for at least one year in attendance in the Medical Wards of an Hospital, or in scientific work bearing directly on his profession, such as is conducted in the Research Laboratories of the University, or in the Military or Naval Medical Services, or for at least two years in Practice other than Practice restricted to Surgery.
2. Each Candidate for the Degree of M.D. is required to pass an examination in Clinical Medicine and in such of its special departments as may from time to time be determined; and he may present himself for examination in Clinical Medicine at any period of examination subsequent to one year after he has received the Degrees of Bachelor of Medicine and Bachelor of Surgery.

¹ On or before the date for lodging Certificates, &c., for the fourth division of the Examinations. See page 425. This declaration is appended to the Schedule for the Final Examination, and must be attested and signed before the Schedule is lodged.

² Candidates, settled for a period of years in foreign parts, who have complied with all the regulations for the Degree of M.D. or for the Degree of Ch.M., but who cannot appear personally to receive the Degree, may, on satisfying the Senatus to that effect, by production of sufficient official testimonials, have the Degree conferred on them in absence.

This Examination in Clinical Medicine for each Candidate consists of a written Report and Commentary, with any oral questions that may be considered desirable, upon at least three Medical cases. In the selection of the cases, special regard should be given to the opportunities they afford for testing the Candidate, not only in the ordinary methods of clinical investigation, but also in the more advanced methods requiring practical knowledge in the applications of the ophthalmoscope and laryngoscope, in the chemical and microscopical examination of excreta, the quantitative determination and microscopic characters of the chief constituents of blood possessing clinical importance, the recording by instruments of the condition of the circulation, the applications of electricity, &c. : Provided always that one of the three cases on which a Candidate shall be examined may be the case of a patient suffering from a Gynecological or Mental Disease, or Disease of Childhood, if the Candidate on entering his name for the Examination declare a wish to this effect. So far as possible, the Examination in these Departments will be on a standard equal to that of the Examination on the Medical cases.

3. Each Candidate for the Degree of M.D. must submit for the approval of the Faculty of Medicine a Thesis,¹ on any branch of knowledge comprised in the second, third, or fourth examinations for the Degrees of M.B. and Ch.B., which he may have made a subject of study after having received those Degrees, excepting subjects which are exclusively Surgical ; and the Thesis, accompanied by a declaration signed by the Candidate, that the work has been done and the Thesis composed by himself, must be lodged with the Dean of the Faculty of Medicine on or before a date to be fixed by the Senatus.²
4. A Bachelor of Medicine and Bachelor of Surgery, who produces to the Senatus satisfactory evidence of his intention of entering within twelve months after obtaining such degrees on the practice of his profession in a British Possession or Colony, or in a foreign Country, may, under Regulations to be framed by the Senatus, be admitted to the examination in Clinical Medicine at any period of examination after he has received such Degrees ;

¹ Any Candidate may obtain permission from the Dean to borrow his Thesis on depositing £1.

² Candidates are required to write their Theses on faint lined paper, 11 in. by 8½ in. with margins 1½ in. at each side. The Thesis is to be written on one side of each leaf only, and it must be lodged on or before 30th April of the year in which the Candidate proposes to graduate. There is no regulation as to length of Thesis. See also footnote 2, page 425. For standard of Thesis see page 432, sentence beginning : "No Thesis will be approved," &c.

but the Degree of M.D. will not be conferred on him unless he produces a certificate that, subsequently to having received the Degrees of M.B. and Ch.B., he has been engaged for at least one year in attendance in the Medical Wards of an Hospital, or in scientific work bearing directly on his profession, such as is conducted in the Research Laboratories of the University, or in the Naval or Military Medical Services, or for at least two years in Practice which has not been exclusively surgical, and unless his Thesis, in the judgment of the Faculty of Medicine, is of exceptional merit.

Bachelors of Medicine and Masters of Surgery of the University of Edinburgh, who have graduated under the regulations in force before 5th August 1892, may proceed to the Degree of Doctor of Medicine under the provisions of this section in the same manner as if they had graduated under the new Regulations.

PROFESSIONAL EXAMINATION FOR CH.M.¹

- XXII. 1. Subject to the conditions hereinafter specified the Degree of Ch.M. will be conferred on any Candidate who has obtained the Degrees of M.B. and Ch.B. of the University, and is of the age of twenty-four years or upwards, and has produced a certificate of having been engaged, subsequently to his having received the Degrees of M.B. and Ch.B., for at least one year in attendance in the Surgical Wards of an Hospital, or in scientific work bearing directly on his profession, such as is conducted in the Research Laboratories of the University, or in the Military or Naval Medical Services, or for at least two years in practice other than practice restricted to Medicine.
2. Each Candidate for the Degree of Ch.M. is required to pass an examination in the following subjects:—Surgical Anatomy, Operations upon the dead body, and Clinical Surgery, and in such of the special departments of Clinical Surgery as may from time to time be determined; and he may present himself for examination in these subjects at any period of examination subsequent to one year after he has received the Degrees of M.B. and Ch.B.

The Examination in Clinical Surgery for the Degree of Master of Surgery should for each Candidate consist of a written Report and Commentary, with any oral questions that may be considered desirable, on at least three Surgical cases: Provided that one of the three Surgical cases on which a Candidate shall be examined may be the case of a patient suffering from an Eye,

¹ See footnote 2, page 409.

Throat, Ear, or Gynecological Disease, if the Candidate on entering his name for the Examination declare a wish to this effect. So far as possible, the Examination in these Departments shall be on a standard equal to that of the Examination on the Surgical cases. The Candidates shall also be examined in Surgical Anatomy and Operations upon the dead body.

3. Each Candidate for the Degree of Ch.M. must submit, for the approval of the Faculty of Medicine, a Thesis on any branch of knowledge comprised in the second, third, or fourth Examinations for the Degrees of M.B. and Ch.B., which he may have made a subject of study after having received those Degrees, excepting subjects that are exclusively medical; and the Thesis, accompanied by a declaration signed by the Candidate that the work has been done and the Thesis composed by himself, must be lodged with the Dean of the Faculty of Medicine on or before a date to be fixed by the Senatus.¹
4. A Bachelor of Medicine and Bachelor of Surgery who produces to the Senatus satisfactory evidence of his intention of entering within twelve months after obtaining such Degrees on the practice of his profession in a British Possession or Colony, or in a foreign Country, may, under Regulations to be framed by the Senatus, be admitted to examination in the subjects specified in sub-section 2 of this section at any period of examination after he has received such Degrees; but the Degree of Ch.M. shall not be conferred on him unless he produces a certificate that, subsequently to having received the Degrees of M.B. and Ch.B., he has been engaged for at least one year in attendance in the Surgical Wards of an Hospital, or in scientific work bearing directly on his profession, such as is conducted in the Research Laboratories of the University, or in the Naval or Military Medical Services, or for at least two years in Practice which has not been exclusively medical, and unless his Thesis in the judgment of the Faculty of Medicine is of exceptional merit.

REGULATIONS FOR GRADUATION OF WOMEN.

1. It shall be in the power of the University Court to admit Women to graduation.

2. The conditions for graduation shall be the same for women as for men, subject to the following modifications, which shall have effect until provision is made for the instruction of women in all the subjects qualifying for graduation, in which provision is made for the instruction of men.

¹ See footnote 2, page 409, and footnote 2, page 410.

3. Section VIII. of Regulations for Degrees in Medicine shall not be applicable to the graduation of women in Medicine.

So long as within the Faculty provision is not made for the instruction of women in any subject qualifying for graduation in which provision is made for the instruction of men, it shall be in the power of the University Court to admit to graduation women who have received the requisite instruction in that subject in any University of the United Kingdom, or in any Indian, Colonial, or Foreign University recognised for the purpose by the University Court, or in such Medical Schools or under such teachers as may be recognised for the purpose by the University Court : Provided always that every Candidate for graduation shall produce evidence of having satisfied the conditions laid down in the Regulations for Degrees in Medicine with respect to the Preliminary Examination, and shall be examined in all the subjects necessary for graduation by the Examiners of the University.

4. So soon as within the University provision is made for the instruction of women in all subjects qualifying for graduation in which provision is made for the instruction of men, the conditions for the graduation of women shall be the same as the conditions for the graduation of men.

5. In the case of women who began their studies before these Regulations came into operation, it shall be competent to the University Court to admit to graduation in Medicine women who may complete their medical studies in accordance either with the Regulations for graduation hitherto in force, or with the present Regulations ; declaring that as regards their studies prior to the date at which these Regulations came into operation (1st October 1892), such women may have obtained their instruction in any classes which the University Court may accept for the purpose, and providing that before beginning their medical studies they shall have passed a Preliminary Examination which the University Court shall consider to have been adequate.

6. Women who attend classes in the University must matriculate, paying a fee of the same amount as that exigible for other students. Women, who are Candidates for graduation but not matriculated students, and who may attend classes in Edinburgh under the provisions above set forth, must, at the commencement of each year of such attendance, enrol their names in a book to be kept in the University for that purpose, paying a Fee of the same amount as the Matriculation Fee paid by students of the University [and having, in respect of such payment, a right to the use of the Library of the University].

ADDITIONAL REGULATIONS OF THE UNIVERSITY COURT.

When granting recognition to Medical Schools or Teachers for the medical instruction of women, the University Court requires that the classes shall not be mixed classes, except on special cause shown.

The University Court have recognised the Medical College for

Women, 30 Chambers Street, Edinburgh, as a Medical School whose courses of instruction qualify for graduation in Medicine, subject to the following conditions:—Provided 1. That every Candidate for graduation shall produce evidence of having satisfied the conditions with respect to the Preliminary Examination and Registration as Medical Students, and shall be examined in all the subjects necessary for graduation by the Examiners of the University in which she takes her degree. 2. . . . 3. . . . 4. . . . 5. That the aforesaid School make application annually to the University Court for a continuation of the recognition thus granted, and at the same time report to the Court on the administrative arrangements and discipline of the School. 6. That schedules of Class Returns, to be furnished by the Court, and giving the designation of the class or course, number of students, number of meetings, &c., be filled up by each of the teachers of the qualifying classes or courses of instruction in the aforesaid Schools, as in the case of the recognised Lecturers on Medicine, and forwarded to the Secretary of the Court not later than 1st July in each year. 7. That all advertisements referring to the recognition of the aforesaid School, or to the qualifying classes or courses of instruction to be given at any time in connection with this School, shall, before publication, be submitted to the Secretary of Senatus of the University, and receive his approval.

DATES OF ENTERING FOR PRELIMINARY EXAMINATION AND FOR PAYMENT OF FEES.

Each Candidate is required to pay a fee of 10s. 6d. for each appearance at the Preliminary Examination.

Candidates for Examination may obtain Schedules at the Matriculation Office, University (Old) Buildings, on and after 8th September 1903, and on and after 15th February 1904. The Schedules must be completed and returned along with the fees not later than 18th September 1903 and 1st March 1904, for the autumn and spring Examinations respectively.

The Examinations are held in the Examination Hall, University (Old) Buildings, South Bridge, Edinburgh.

Candidates may pay the fees personally or transmit them to T. Gilbert, University, Edinburgh, by *Post Office* or *Postal Orders*, or by *Bank Drafts* crossed Union Bank of Scotland (Hunter Square Branch), Edinburgh, but not by cheques on private accounts. When names are not entered and Fees paid on or before the stated dates, an additional or late entry fee of 10s. must be paid before the Candidate can be admitted to Examination. A Candidate is not held to have entered until his Schedule is lodged, the Fee paid, and a Pass to the Examination obtained.

EXAMINATION.

Before beginning Medical Study, students must pass the Preliminary Examination in General Education, either at the University, or elsewhere, according to the requirements of the University. Immediately after entering on Medical Study, students must register in the books of one or other of the Registrars of the General Medical Council. The Registrar for Scotland is Mr James Robertson, 54 George Square, Edinburgh, from whom forms of Registration and all information on the subject may be obtained. *Candidates for Registration must produce evidence that they have attained 16 years of age.*

Medical Study may be begun either in October (Winter Session) or May (Summer Session), and must be engaged in for at least five years.

REGULATIONS AS TO CLASS EXAMINATIONS.

With a view to promote the Educational interests of the students during the time they are occupied with the respective subjects in the Classes, the Senatus recommend :—

1. That there should be at least two Special Class-Examinations in the Classes in the Faculty of Medicine during each Session, conducted by means of questions and written answers, without aid from books or notes.
2. That in the event of a student gaining 75 per cent. or more of the available marks in any department, he shall obtain a Certificate in the First Class of Honours.
3. That in the event of a student gaining 50 per cent. or more, but less than 75 per cent., of the available marks in any department, he shall receive a Certificate in the Second Class of Honours.

University Bronze Medals are also given for Competitive Class Examinations.

CERTIFICATES OF ATTENDANCE ON CLASSES
IN THE FACULTY OF MEDICINE.

The Senatus Academicus have resolved that the Certificates of Attendance to be granted to students in the Faculty of Medicine shall be regulated in the following manner :—

Each Professor shall ascertain the presence of his pupils at least twenty-six times in a Course of six months' duration, and thirteen times in a Course of three months' duration.

Those who have been absent twelve or more times in a six months' Course, or six or more times in a three months' Course, or have not duly performed the work of the Class, including any Examinations that may be held, shall not be entitled to any Certificate.

The following is the form of Certificate which must be adopted in all cases :—

“I certify that Mr _____ attended my Course of Instruction on _____ during the Session _____; that he was present on _____ of the _____ occasions on which attendance was ascertained; and that he duly performed the work of the class.”

Exceptions will be admitted in the case of those who may be absent from sickness or other unavoidable causes, the particulars of which must be stated to the Professor in writing, accompanied with certificates. All excuses for non-attendance must be given in immediately upon the student returning to his class. If any student shall have been absent for six weeks or upwards in a Course of six months, or for three weeks in a Course of three months (whatever the cause of absence may be), his case must be transmitted to the Dean of the Faculty for the decision of the Faculty.

Whenever the student's cause for absence shall be admitted by the Professor or by the Faculty, the Certificate shall bear that he “attended,” and shall state the amount of the irregularity and the nature of the excuse.

FIRST PROFESSIONAL EXAMINATION.

The Faculty of Medicine have resolved that the written and oral examinations on Chemistry, Elementary Botany, Elementary Zoology, and Physics shall be restricted in the following manner:—

1. *Chemistry*.—Chemical changes as distinguished from physical changes. Elements; compounds; mixtures. Laws of chemical combination by weight and by volume. The atomic theory. Atoms; molecules. Avogadro's Hypothesis. Molecular weights of gaseous and volatile substances. Atomic weights. Law of Dulong and Petit. Chemical Notation—Symbols; formulæ; equations. Simple chemical calculations.

The non-metallic elements and their chief compounds; especially the compounds of oxygen, of hydrogen, and of chlorine with the other non-metals. The more important inorganic acids. The atmosphere. Combustion. Oxidation and reduction.

The following metallic elements and their chief compounds; especially those with oxygen, with chlorine, and with sulphur: Gold, platinum, silver, mercury, lead, antimony, tin, copper, bismuth, zinc, cadmium, iron, aluminium, chromium, manganese, barium, strontium, calcium, magnesium, potassium, sodium.

The following salts: the ammonium salts; the more important sulphates, sulphites, thiosulphates, nitrates, nitrites, carbonates, bromides, iodides, iodates, phosphates, borates, silicates.

The relations of bases, acids, and salts. Electrolysis. Quantivalence. The periodic law.

The metallurgy of silver, mercury, copper, lead, tin, zinc, iron (including cast-iron and steel). Alloys, such as brass, bronze, solder, type-metal. Amalgams.

The manufacture of aluminium, magnesium, potassium, sodium, glass, porcelain, mortar, gunpowder, sulphuric acid, sodium carbonate and bicarbonate, caustic soda, bleaching powder and chlorates, white lead.

Classification of Carbon Compounds. Marsh Gas and its Homologues. Chloroform. Methyl and Ethyl Alcohols and Ethers. Substituted ammonias and ammonium salts. Formic and Acetic Acids, Aldehyde, Acetone, Chloral, Olefiant Gas, Acetylene, Oxalic Acid, Lactic Acid. Tartaric Acid, Citric Acid. Fats and Oils, Saponification, Glycerine. Cellulose, Sugars, Starch. Distillation of Wood and of Coal. Benzene, Benzoic Acid, Phenol, Salicylic Acid, Oil of Bitter Almonds. Hydrocyanic Acid, Cyanides, Cyanates, Thiocyanates, Urea, Uric Acid.

Practical Examination.—(a) Simple inorganic preparations on a small scale, especially such as involve the formation and decomposition of the commoner salts.

(b) The qualitative examination of single substances. The substances given for examination may be:—Salts in solution; solid salts soluble in water; carbonates, sulphides, and oxides, insoluble in water but soluble in acids; metals. The salts given are confined to those derived from the metallic and salt radicals named in the following lists:—

Silver, Mercurous, Mercuric, Cupric, Lead, Stannous, Cadmium, Bismuth, Antimony (*Tartar Emetic* may be given), Arsenious, Zinc, Manganous, Ferrous, Ferric, Chromic, Aluminium, Calcium, Barium, Strontium, Magnesium, Ammonium, Sodium, Potassium.

Carbonate, Sulphite, Thiosulphate, Sulphide, Hypochlorite (Bleaching solution), Nitrite, Chloride, Bromide, Iodide, Cyanide, Sulphate, Chromate, Orthophosphate, Arsenate, Arsenite, Borate, Oxalate, Nitrate, Chlorate, Acetate.

(c) Acidimetry and Alkalimetry.

(For further information see the *Practical Chemistry Class Book* "Salts and their Reactions," published by James Thin.

2. *Elementary Botany.*—The characteristic features of the following groups and classes of the vegetable kingdom:—

Thallophyta [Schizophyta, Algæ, Fungi]; Bryophyta [Hepaticæ, Musci]; Pteridophyta [Filicineæ, Equisetineæ, Lycopodineæ]; Spermatophyta [Gymnospermæ, Angiospermæ (Monocotyledones, Dicotyledones)].

The fundamental facts and principles of Organography and Physiology. The characters of plants belonging to the following natural orders of Phanerogamæ:—Coniferæ, Gramineæ, Orchidæ, Liliacæ, Urticacæ, Labiatæ, Compositæ, Umbelliferæ, Rosacæ, Leguminosæ, Cruciferæ, Ranunculacæ.

3. *Elementary Zoology.*—An elementary knowledge of the Protozoa, Cœlenterata, Echinodermata, Annelida, Arthropoda, and Mollusca. A general knowledge of the structure and habits of the Pisces, Amphibia, Reptilia and Aves, and of the structure, habits, and distribution of the Mammalia. The fundamental facts as to (1) the structure, &c., of the cell, (2) Sexual and Asexual Reproduction, (3) Heredity and Variation, (4) Maturation, Fertilisation, and Segmentation of the Ovum, (5) the Development of a Mammal, and (6) Parasitism and Degeneration.

4. *Physics.*—(a) Properties of Matter—including Inertia, Gravitation, Molecular Forces, &c.

(b) Abstract Dynamics—including Kinematics and Newton's Laws of Motion, with their consequences as regards Statics and Kinetics of Solid, Liquid, and Gaseous Bodies, with the Physical Measurement of Time.

(c) Sound and Wave-propagation in general, Intensity, Pitch and Quality of Musical Sounds, Harmonics, Concords, &c.

(d) Heat, its Nature, Effects, Measurement, Transference and Transformations—Measurement of Temperature and of absolute Temperature, Thermodynamics.

(e) Light (1), Geometrical Optics, Speed of Light, Laws of Reflection and Refraction, Construction and Effects of Mirrors, Prisms, Lenses, and Microscopes, Images, Conditions of Distinct Vision. (2) Physical Optics—Interference, Dispersion, Diffraction, Double Refraction, Polarisation, Spectrum Analysis.

(f) Electricity, including Frictional and Voltaic Electricity, Thermo- and Magneto-Electricity, Electro-Dynamics and Magnetism, with their practical applications. Measurements of Potential, Electromotive Force, Current, &c., Batteries, Dynamos, Electrometers, Galvanometers, Voltmeters, &c.

HONOURS AT PROFESSIONAL EXAMINATIONS.

Candidates who have displayed special merit at any of the Professional Examinations will be announced as having passed that Examination "with distinction."

Candidates who have displayed special merit at each of the Professional Examinations will be announced, at the time of the Graduation, as having obtained FIRST or SECOND CLASS HONOURS, according to the merit that has been displayed.

SPONSIO ACADEMICA FOR GRADUATES IN MEDICINE.

Ego Doctoratus in Arte Medica titulo jam donandus, sancte coram Deo cordium scrutatore, spondeo, me in omni grati animi officio erga Universitatem Academicam Edinburgensem ad extremum vitæ halitum perseveraturum.

Tum porro Artem Medicam caute, caste, probeque exercitaturum, et quoad potero, omnia ad ægrotorum corporum salutem conducentia cum fide procuraturum. Quæ, denique, inter medendum visa vel audita sileri conveniat, non sine gravi causa vulgaturum.

Ita præsens spondenti adsit Numen.

FEES FOR EXAMINATIONS.

FEES FOR M.B. AND CH.B.

Fee for the First Division of the Examination, viz., Botany, Zoology, Physics, and Chemistry . . .	£6 6 0
<i>or</i>	
For any two of the subjects . . .	£3 3 0
For the other two subjects . . .	3 3 0
For the Second Division, viz., Anatomy, Physiology, and Materia Medica and Therapeutics . . .	6 6 0
<i>or</i>	
For Anatomy and Physiology . . .	£4 4 0
For Materia Medica and Therapeutics . . .	2 2 0
For the Third Division, viz., Pathology . . .	4 4 0
For the Final Division, viz., Surgery and Clinical Surgery, Medicine and Clinical Medicine, Mid- wifery, Forensic Medicine, and Public Health . . .	6 6 0
	£23 2 0

Any Candidate who fails to pass in one or more of the subjects, must pay £1, 1s. for re-examination in each subject. (Surgery and Clinical Surgery count as two subjects, and Medicine and Clinical Medicine as two subjects.)

Candidates who, under the proviso in Section XI. of the Regulations, are exempted from the first division of the Examination, are required, after passing the final division of the Examination, to pay a fee of £6, 6s. before they can be admitted to the Degrees of M.B. and Ch.B.

Fee for M.D.	£10 10 0
Fee for Ch.M.	10 10 0

Any Candidate who fails to pass the Examinations for the Degree of M.D. or for the Degree of Ch.M., is required to pay a Fee of £5, 5s. for each re-appearance.

Every Candidate for Examination or Graduation must be a Matriculated Student of the year in which he appears for Examination or Graduation. He is also required before Graduation to pay the fee of £1 for Registration as a Member of the General Council, if not already a Member.

TIME-TABLES OF EXAMINATIONS.

Candidates are required to enter for each periodical Professional Examination at which they desire to appear, and to state the subject or subjects in which they desire to be examined.

The dates of the Examinations for 1903-1904 have been fixed as follows, and Candidates are required to assemble in the Examination Hall at the University a quarter of an hour before the time fixed for examination.

PRELIMINARY EXAMINATION.

See Time-Table and Dates of Entering, &c., pages 414 and 415.

PROFESSIONAL EXAMINATIONS.

Candidates are required to enter their names and to pay the fees for the Examinations at the Matriculation Office, University (Old) Buildings, at the stated periods; and afterwards, at the stated periods, to exhibit their Certificates and Matriculation Cards at that Office. Certificates only will be received as evidence of attendance.

If names are not entered, Fees paid, and Certificates shown, or Theses lodged, on or before the stated dates (or a Pass obtained in the case of the fee having been previously paid), a late-entry fee of ten shillings must be paid before the Candidate can be admitted to any one of the Four Professional Examinations for M.B., or to the Professional Examinations for M.D. or Ch.M. Candidates may enter on payment of this fee till 4 P.M. on the third day previous to the commencement of the respective Examinations. Thereafter a late-entry fee of twenty shillings will be charged till twelve noon of the day preceding the commencement of any one of the Professional Examinations. No later entry will be received.

Theses for the degrees of M.D. and Ch.M. can only be lodged later than the appointed date (30th April) by getting special permission from the Dean to do so, and Theses so lodged are not eligible for competition for medals or other awards.

If, after payment of the fee, a candidate withdraws his name, or fails to present himself at the examination, he will not receive back the fee, but will be allowed to enter on one subsequent occasion for examination in the same subject, without the payment of any additional fee.

FIRST PROFESSIONAL EXAMINATION.

This Examination takes place in March and July. Candidates may be admitted to Examination in all or in any two subjects, after they have attended a full course in each of the subjects professed.

Information relative to Matriculation and the Curriculum of Study, and the Subjects of Examinations for Degrees in Medicine and Surgery, and for Fellowships, Scholarships, Bursaries, Prizes, &c., &c., may be obtained on application to the Dean of the Faculty of Medicine, University New Buildings.

The fees for Matriculation, for Examinations for Degrees, and for Registration as Member of the General Council of the University, are payable at the *Matriculation Office, University (Old) Buildings*. Candidates may pay the fees personally, or transmit them to T. GILBERT, University, Edinburgh, by *Post Office* or *Postal Orders*, or by *Bank Drafts*, crossed "*Union Bank of Scotland (Hunter Square Branch), Edinburgh,*" but not by cheques on private accounts. A Candidate is not held to be entered until his schedule is lodged, the fee paid, and a pass to the Examination obtained.

EXTRA-ACADEMICAL LECTURERS IN MEDICINE WHOSE COURSES OF INSTRUCTION UNDER ORDINANCE No. 16 QUALIFY FOR GRADUATION IN THIS UNIVERSITY.

REGULATIONS OF THE UNIVERSITY COURT RELATIVE TO CERTIFICATES OF ATTENDANCE.

The Certificate of Attendance granted to Students by recognised Extra-Academical Teachers, should, in all cases, state the number of Lectures, or of Meetings for Practical Instruction, in the Course; the number of occasions on which attendance was ascertained; and the number of those occasions on which the Student was present, and in what further respects he duly performed the work of the class. The Certificate should also state the general scope of the Course; and, in particular, in the case of *Chemistry*, that the Course included Organic as well as Inorganic Chemistry; in the case of *Midwifery*, that it included the Diseases of Women and Children; and, in the case of *Practical Materia Medica*, that it included Pharmacognosy, Pharmacy, Dispensing, and the writing of Prescriptions.

**B.—ABRIDGED REGULATIONS FOR GRADUATION
IN MEDICINE AND SURGERY, APPLICABLE
TO ALL WHO COMMENCED THEIR MEDICAL
STUDIES BEFORE 1ST OCTOBER 1892.**

For full Regulations see CALENDAR for 1898-99 or previous CALENDARS.

Three Degrees are conferred—viz., Bachelor of Medicine (M.B.), Master in Surgery (C.M.), and Doctor of Medicine (M.D.).

**DEGREES OF BACHELOR OF MEDICINE AND MASTER IN
SURGERY (M.B., C.M.).**

*Preliminary Examination.*¹—The preliminary subjects of examination are English, Latin, Arithmetic, the Elements of Mathematics, and the Elements of Mechanics; and any two of Greek, French, German, Higher Mathematics, Natural Philosophy, Logic, Moral Philosophy. The examinations in English, Latin, Arithmetic, and Mathematics, are the same as in English, Latin, and Mathematics (which includes Arithmetic) for M.B., Ch.B.; and the examination in Mechanics is the same as that in Dynamics in the Arts and Science Preliminary Examinations.

See Time-Table of Examinations, Dates of Entering and Payment of Fees, &c., pp. 414 and 415.

Professional Education.—The chief differences between the Old and New Regulations are :—Candidates for Graduation under the Old Regulations are not required to attend courses on Physics, Mental Diseases, Diseases of the Eye, Diseases of Children, Diseases of the Larynx, Ear and Nose, Clinical

¹ The Dean of the Faculty will give information regarding examinations which exempt from the Preliminary Examination; and see also CALENDAR for 1892-93, and previous CALENDARS, for examinations which exempt.

Instruction in Fevers, Post-Mortem Examinations, Clerking and Dressing in a Public Hospital, Diseases of the Skin. In Practical Anatomy they are only required to attend a five months' course; in Clinical Medicine and Clinical Surgery one course of five months, or two courses of three months each, and Hospital attendance for twenty-four months.

Professional Examinations.—The only differences are:—Candidates under the Old Regulations are not examined in Physics in the First Professional Examination. The Regulations for entering for the First and Second Professional Examinations, and for payment of Fees are the same as for M.B., Ch.B. The Examinations in Pathology are held at the same time as the Examinations in that subject for M.B., Ch.B.; *but the regulations for entering and payment of Fees are as for the Second Professional Examination.* The examinations in the subjects of the Final Examination take place at the same time as in the corresponding subjects for M.B., Ch.B. Names to be entered and fees paid on or before 15th April. See Time Table of Examinations, pp. 423-425.

Otherwise the Regulations are the same as for M.B., Ch.B.

For further information apply to the Dean of the Faculty.

Optional Preliminary Subjects of Examination under the Old Regulations for Bachelors of Medicine and Masters in Surgery (M.B., C.M.) who intend to proceed to the Degree of Doctor of Medicine, and for those who commenced the Study of Medicine by attendance on Medical Classes before 1st October 1892, for Autumn 1903 and Spring 1904 inclusively.

Each Candidate is required to pay a fee of 10s. 6d. for each appearance at the Preliminary Examination.

1. GREEK.—Xenophon, *Cyropaedia*, Book III. Questions on Elementary Greek Grammar. Some easy sentences of English will be set to be translated into Greek.

2. FRENCH.—Alphonse Daudet's *Le petit Chose, première partie* (Hachette & Co.). Questions on Elementary French. An easy passage in English will be given for translation into French.

3. GERMAN.—Homann, *Deutsche Märchen*, Nos. 8-14. Questions on Elementary German. An easy passage in English will be given for translation into German.

4. HIGHER MATHEMATICS.—Same as Higher Mathematics for the Preliminary Examination for the Degree of M.A.

5. NATURAL PHILOSOPHY.—(1) Properties of matter—Elasticity, Density, Porosity, Capillarity, &c. (2) Elementary phenomena of Sound, Light, Heat, Electricity, and Magnetism. Text-Books recommended—Balfour Stewart's *Elementary Physics*, and Tait's *Properties of Matter*.

6. LOGIC.—The Elements of Deductive and Inductive Logic, as in Jevons's Elementary Lessons.

7. MORAL PHILOSOPHY. — Professor Seth's *Ethical Principles*, Introduction and Part I.

DEGREE OF DOCTOR OF MEDICINE.^{1 2}

For full Regulations see CALENDAR for 1898-99 or previous CALENDARS.

XVII. The Degree of DOCTOR OF MEDICINE may be conferred on any candidate who has obtained the Degrees of Bachelor of Medicine and Master in Surgery, and is of the age of twenty-four years, and produces a certificate of having been engaged subsequently to his having received the Degrees of Bachelor of Medicine and Master in Surgery, for at least two years in attendance on an Hospital, or in the Military or Naval Medical Services, or in Medical and Surgical Practice:

Provided always that the Degree of Doctor of Medicine shall not be conferred on any person, unless he be a Graduate in Arts of one of the Universities of England, Scotland, or Ireland, or of such other Universities as have been specially recognised for that purpose, or unless he shall, before or at the time of his obtaining the Degrees of Bachelor of Medicine and Master in Surgery, or thereafter, have passed a satisfactory examination in Greek, and in either Logic or Moral Philosophy, and in one of the following subjects at the option of the Candidate—namely, French, German, Higher Mathematics, and Natural Philosophy.

And provided also that the candidate for the Degree of Doctor of Medicine shall submit to the Faculty of Medicine a Thesis, certified by him to have been composed by himself, and which shall be approved by the Faculty, on any branch of knowledge comprised in the professional examinations for the Degrees of Bachelor of Medicine and Master in Surgery, which he may have made a subject of study after having received those Degrees. The Candidate must lodge his Thesis with the Dean on or before 30th April of the year in which he proposes to graduate. No

¹ Candidates for M.D. under Old Regulations, who have not passed all the required Preliminary subjects may, if they prefer to do so, go under the new Regulations, and take the examination in Clinical Medicine instead. (See pp. 409-411.)

² Bachelors of Medicine and Masters of Surgery may under the provisions of Section XXI. of the New Regulations proceed to the Degree of Doctor of Medicine in the same manner as if they had graduated as M.B., Ch.B. See page 409.

This thesis will be approved by the Medical Faculty which does not contain either the results of original observations in practical Medicine, Surgery, Midwifery, or in some of the sciences embraced in the curriculum for the Bachelor's and Master's Degrees; or else a full digest and critical exposition of the opinions and researches of others on the subject selected by the Candidate, accompanied by precise references to the publications quoted, so that due verification may be facilitated.¹

Candidates, settled for a period of years in foreign parts, who have complied with all the regulations for the Degree of M.D., but who cannot appear personally to receive the Degree, may, on satisfying the Senatus to that effect, by production of sufficient official testimonials, have the Degree conferred on them in absence.

Fellowships, Scholarships, Bursaries, and Prizes in Medicine.

I.—FELLOWSHIPS.

See note under Scholarships, page 194.

I.—THE SYME SURGICAL FELLOWSHIP.

This Fellowship, of the annual value of about £108, 18s. 6d., and tenable for two years, is open to award to the Bachelor of Medicine and Master in Surgery, or Bachelor of Medicine and Bachelor of Surgery, of not more than three years' standing, who, in the opinion of the Examiners, has passed a creditable examination for these degrees, for the best Thesis on a Surgical subject giving evidence of original research, or practical talent, whether such Thesis be given in for Graduation or otherwise. The next award may be at the Graduation Ceremonial in July 1905. See Deed of Foundation, at p. 310 of CALENDAR for 1872-73. 1903.

II. THE GOODSIR MEMORIAL FELLOWSHIP.

This Fellowship was founded in 1872 by the subscribers to the fund for a memorial of the late Professor John Goodsir for the encouragement of the study of Anatomy and Physiology. It is of the annual value of about £100, tenable for two years, and is open to all Graduates in Medicine of the University of not more than three years' standing at the time of the competition, and to Licentiates of the Colleges of Physicians or Surgeons of Edinburgh of a like standing, who have attended within the University the same number of classes as are required for the Degrees of M.B. and Ch.B. It is awarded for the best Essay or Treatise containing results of original investigations in Anatomy, Human and Comparative, either Normal or Pathological, or in Experimental Physiology; Candidates may be examined *viva voce* or otherwise on the subject of their Essays or Treatises if the Examiners shall deem this desirable.

The next award may be made in July 1905, and competing Dissertations must be lodged with the Professor of Anatomy not later than the 30th April previously. See Deed of Foundation at p. 314 of CALENDAR for 1872-73.

1903.

III.—THE LECKIE-MACTIER FELLOWSHIP.

The Leckie-Mactier Fellowship, of the annual value of £71, 10s., is awarded to Bachelors of Medicine of not more than three years' standing, and is tenable for three years. The examinations comprise

written reports and commentaries on medical, surgical, and gynecological cases in the University Wards in the Royal Infirmary, and written examinations in Midwifery, Medical Jurisprudence, and Public Health; also oral examinations in Medicine, Surgery, Midwifery, Medical Jurisprudence, and Public Health. Every holder of the Fellowship must, before the expiry of his tenure, transmit to, and if required read publicly in presence of the Medical Faculty, a communication embodying the result of original observation or historical research in some department of medicine. Next appointment may be made in November 1904. See Deed of Foundation at p. 365 of CALENDAR for 1880-81.

1901. *W. J. Barclay, M.B., Ch.B.*

IV. FREELAND BARBOUR FELLOWSHIP.

This Fellowship is of the value of £100, and is open to award, in each alternate year, to the Bachelor of Medicine and Bachelor of Surgery who has gained the highest collective marks in Anatomy, Physiology, and Pathology in the Professional Examinations, and who is prepared to devote not less than one year to original research in Midwifery or diseases of women, in any of the Laboratories or Practical Departments of the University of Edinburgh. The next award may be made in July 1904. See Deed of Foundation at page 517 of CALENDAR for 1899-90.

1902. *David Robertson MacGregor, B.Sc., M.B., Ch.B.*

V. ALLAN FELLOWSHIP IN CLINICAL MEDICINE AND CLINICAL SURGERY.

This Fellowship, of about £48, 15s., is awarded annually, after competitive examination of the six candidates for the degrees of M.B., C.M., or M.B., Ch.B., who, after having attended in the University of Edinburgh the necessary qualifying courses in Clinical Medicine and Clinical Surgery, shall obtain the highest percentage of marks in these subjects at the final examination for these degrees. See Deed of Endowment and Regulations, page 833 of CALENDAR for 1899-1900.

1902. *Thomas Henry Osler, M.B., Ch.B.*

II.—FUNDS FOR RESEARCH, &c.

I. THE WILLIAM DICKSON TRAVELLING FUND.

This is a fund for the purpose of assisting Graduates of any Faculty, of not more than three years' standing, to travel for the purpose of study or research. For particulars, see page 208.

II. THE EARL OF MORAY'S BEQUEST FOR THE PROMOTION OF ORIGINAL RESEARCH.

All Graduates and other Members of the University, "or other persons who have given satisfactory proof of General Education and

fitness to engage in some special study or research," may apply for grants from this fund. In so far as the subject of the Research admits, the investigation shall be conducted in the Buildings of the University. For further particulars, see page 209. See Regulations, page 428 of CALENDAR for 1897-98.

III. CARNEGIE POST GRADUATE SCHOLARSHIPS (£100), FELLOWSHIPS (£150), AND GRANTS IN AID FOR RESEARCH.

Graduates of this University are entitled to become Candidates. Application Forms may be had from the Secretary to the Carnegie Trust, The Merchants' Hall, 14 Hanover Street, Edinburgh, to whom all applications on the subject must be addressed. Nominations for Scholarships, and applications for Fellowships and Grants in Aid, must be lodged with the Secretary not later than 1st May annually.

THE SWINEY LECTURESHIP ON GEOLOGY.

This Lectureship is in the patronage of the Trustees of the British Museum, is of the annual value of £144, and is open to Graduates in any of the Faculties of this University who have obtained their Degrees after Examination. For further particulars, see page 314.

III.—SCHOLARSHIPS.

I.—ETTLES SCHOLARSHIP IN MEDICINE.

This Scholarship was founded in 1868 by Miss Mary Ettles of Inverness, and is of the annual value of about £30. It is awarded annually to the Bachelor of Medicine and Master in Surgery of the University of Edinburgh, whom the Faculty of Medicine may consider the most distinguished of that year. See Deed of Foundation, at page 242 of CALENDAR for 1868-69.

1902. *Benjamin Philip Watson, M.B., Ch.B.*

II.—SIBBALD MEDICAL SCHOLARSHIP.

This Scholarship is of the annual value of £40. *First*, The Scholarship is bestowed on, and held by, a Student in the Faculty of Medicine in the University of Edinburgh, *who does not hold any other Scholarship or Bursary*, and is tenable for three years, during each year the Scholar must complete an *Annus Medicus* required from Candidates for the degree of Bachelor of Medicine. *Second*, It is bestowed upon the Student obtaining the highest place by Competitive Examination, and is open to all Candidates who have not previously been Students of Medicine in any other School or University, and who have attended Medical Classes in the University of Edinburgh, for *not less* than one Winter and one Summer Session, and for *not more* than one Winter and two Summer Sessions. The Competitive

Examination is in Chemistry, Botany, Natural History, and Physics, and is conducted in such manner as the Senatus Academicus may, in concurrence with the Trustees, prescribe. The next competition may take place in October 1903. Application to be made to Messrs MACKENZIE, INNES & LOGAN, W.S., 23 Queen Street, Edinburgh.

1903. *Ephraim Henderson, M.A.*

III.—THOMSON SCHOLARSHIP.

The Thomson Scholarship, value £40, tenable for four years, open to matriculated students commencing their first Winter Session in Medicine. The examination is on Botany, Zoology, and Elementary Mechanics. The Scholarship is awarded to the candidate who shall obtain the highest number of marks in the examination. The Trustees, however, reserve power to themselves to withhold the appointment should none of the candidates obtain a sufficiently high percentage of the marks in the examination. Candidates must send in their names to the agents for the Trust before the first day of October in the year in which there is a competition for the Scholarship. Students of the name of Thomson or Traquair, or those who are natives of the town or county of Dumfries, or of the city of Edinburgh, have a preference. The next appointment may be made in October 1906. For further particulars, application to be made to Messrs Traquair, Dickson & Maclaren, W.S., 11 Hill Street, Edinburgh.

1902. *Wm. P. Ferguson.*

IV.—COLDSTREAM MEMORIAL MEDICAL MISSIONARY SCHOLARSHIP.

The Coldstream Memorial Medical Missionary Scholarship, consisting of the annual interest on £400, was founded in memory of the deceased John Coldstream, M.D., F.R.C.P.E. Value about £20, and tenable for five years. The holder must be a first year's Medical Student, who intends to devote himself to the life of a Medical Missionary at home or abroad. He must be approved of by the awarders, and pass the Preliminary Examination before beginning his studies. A preference is given to students connected with the Edinburgh Medical Missionary Society. A full copy of the conditions can be had on applying to John P. Coldstream, W.S., care of Messrs Mill, Bonar & Hunter, W.S., 15 Hill Street, Edinburgh. Next award may be in October 1905. See Conditions in CALENDAR for 1879-80, p. 357.

1900. *Alexander Macrae.*

V.-XI.—VANS DUNLOP SCHOLARSHIPS.

Seven Scholarships, of £100 each, tenable for three years. Not more than one at a time can be held by the same person. The successful candidates for each of these Scholarships will be required to continue

their medical studies in this University during their tenure of their Scholarships, and to graduate as M.B. and Ch.B. See Excerpt from Will of Dr Vans Dunlop, p. 380 of CALENDAR for 1880-81.

V. *One* is awarded to the Candidate who, at either the March or the preceding October Medical Preliminary Examination, has obtained the highest number of marks in the Subjects required to enable him to appear for a Professional Examination, provided (1) that he has not already passed the said Preliminary Examination; and (2) that, in the event of his having passed an equivalent examination and presenting himself for the Medical Preliminary Examination, he shall waive all right to admission to the Faculty of Medicine except through the ordinary Medical Preliminary Examination of this University. The next award will be made in March 1904.

1901. *James Jackson and Thomas B. Johnston*—equal.

VI. *One* is awarded at the end of the First Winter of Medical Study to the Student who, after having attended for the first time within the University a Systematic Course of Lectures on each of the subjects of Chemistry, Anatomy, and Physics, and who has not previously attended any course in Chemistry, or Anatomy, or Physics, which qualifies for Degrees in Medicine, or for a Licence in Medicine or Surgery, shall obtain the highest number of marks in an Examination in these subjects, specially conducted for the purpose. The Subjects of Examination in Anatomy will include the Skeleton; Joints; Muscular System; Heart and Great Vessels; General Arrangement of the Nervous System; Position of the Thoracic and Abdominal Viscera. The next award may be made at the end of March 1905.

1902. *Alexander Murray Drennan.*

VII. *One* is awarded at the end of the first Summer Session of Medical Study to the Student who, after having attended for the first time within this University a Systematic Course of Lectures on each of the subjects of Botany and Zoology, and who has not previously attended any course in Botany or Zoology which qualifies for Degrees in Medicine, or for a Licence in Medicine or Surgery, shall obtain the highest number of marks in an Examination in these subjects specially conducted for the purpose. The next award may be made at the end of July 1905.

1902. *C. A. Thelander.*

VIII. *One* is awarded at the end of the Second Winter of Medical Study to the Student who, after having attended within the University for the first time a Systematic Course in each of the subjects of Physiology and Surgery, and who has not previously attended a Course of Physiology or Surgery which qualifies for Degrees in Medicine, or for

a Licence in Medicine or Surgery, shall obtain the highest number of marks in an Examination in these subjects specially conducted for the purpose. The Subjects of the Examination in Physiology will embrace the Histology and Physiology of the Simple Tissues, and of the Organs concerned in Nutrition. The whole subject of Nutrition will be included, and also Animal Heat. The next award may be made at the end of March 1905.

1902. *Peter M'Ewan, M.A.*

IX. *One* at the beginning of the Fourth Winter Session of Medical Study to the Student who, after having attended within the University the Systematic and Practical Instruction in the subjects of Anatomy and Physiology, and, having passed the Second Professional Examination, shall obtain the highest number of marks in an Examination in these subjects specially conducted for the purpose. The successful Candidate will be required to continue his studies in this University during the first two years of his tenure of the Scholarship, and at the end of the second year to graduate as M.B. and Ch.B. ; and during the remaining year to prosecute original investigation in one or other of the Research Laboratories in the Faculty of Medicine. The next award may be made in October 1905.

1902. *Ephraim Henderson, M.A.*

X. *One* at the beginning of the Fourth Winter Session of Medical Study to the Student who, after having attended within the University a Systematic Course in the Subject of *Materia Medica* (including Pharmacology), and, having passed the Second Professional Examination, shall obtain the highest number of marks in an Examination in that subject specially conducted for the purpose. The successful Candidate will be required to continue his studies in this University during at least two years of his tenure of the Scholarship, and at the end of the second year to graduate as M.B. and Ch.B. ; and during the remainder of his tenure of the Scholarship to devote himself to original investigation in the *Materia Medica* Laboratory in the Faculty of Medicine. The next award may be made in October 1905.

1903. *John P. McGowan, M.A.*

XI. *One* to be awarded at the beginning of the Fifth Winter Session of Medical Study, to the Student who, after having attended within the University, the Systematic and Practical Courses in Pathology and the Systematic Courses in Medical Jurisprudence, and in Public Health, and having passed the Third Professional Examination, shall obtain the highest number of marks in an Examination in these subjects specially conducted for the purpose. The successful Candidate will be required to continue his studies and graduate as M.B. and Ch.B. in this University, during the first year of his tenure of the Scholarship, and to devote

himself during the remainder of his tenure to original investigation in one or other of the Research Laboratories in the Faculty of Medicine. The next award may be made in October 1905.

1902. *A. A. Hall* and *J. M. Kirkness*—equal.

XII.—THE MURCHISON MEMORIAL SCHOLARSHIP.

This Scholarship consists of the annual proceeds of about £1000, awarded in alternate years in London and Edinburgh, for proficiency in Clinical Medicine. Candidates must be registered medical students who have attended for not less than five nor more than seven years at Hospitals and Classes at Edinburgh or London, recognised by the University of Edinburgh or the Royal College of Physicians of London. The competition in 1904 will be held in London.

1902. Not awarded.

XIII.—STARK SCHOLARSHIP IN CLINICAL MEDICINE.

This Scholarship, of £112, less expenses, and tenable for one year, is for the encouragement of the study of Clinical Medicine. It is open to competition among all matriculated students of the University who are or have been in attendance at the University Class of Clinical Medicine, and to Bachelors of Medicine of the University of not more than eighteen months' standing who have attended this class. It is open every second year alternately with the competition in Edinburgh for the Murchison Memorial Scholarship. The Examination, oral and in writing, shall include (a) Examination of Patients; (b) Questions on Therapeutics and Pathology; (c) Examination of Specimens. Each holder of the Scholarship shall be required to devote his time in the wards of the Professors of Clinical Medicine to original investigation or other work directly connected with Clinical Medicine; to report his proceedings every three months to the Professors of Clinical Medicine; and, within a reasonable time after the expiry of his tenure of the Scholarship, to present to the Faculty of Medicine a written statement of the results of his investigations or other work. It cannot be held along with any other Fellowship, Scholarship, or Bursary in a Scottish University. The next Competition will take place in July 1904. See Deed of Foundation at p. 427 of CALENDAR for 1884-85.

1902. *Thomas Bogie Hamilton, M.B., Ch.B.*

XIV.—BUCHANAN SCHOLARSHIP.

This Scholarship, of the value of about £40, founded by Mrs Jane Jack or Buchanan, Moray Place, Edinburgh, is awarded annually to the Graduate in Medicine of the year who has shown the highest proficiency in Midwifery and Gynecology, as evidenced in (I) the Class Examinations of Midwifery and Diseases of Women and

Children ; (2) the Records kept by him of cases treated in the Gynecological Section of the University Class of Clinical Medicine in the Buchanan Ward of the Royal Infirmary, and (3) the Final Examination in Medicine for the Degree of M.B. The Scholar is required to act as non-resident Clinical Clerk in the University Gynecological Ward, and to give assistance in the Examination of Class Exercises. See Deed of Foundation, p. 707 of CALENDAR for 1894-95.

1902. *Benjamin Philip Watson, M.B., Ch.B.*

XV.—THE JAMES SCOTT SCHOLARSHIP.

This Scholarship, founded by Mrs Mary Ann Scott or Thomson of Hawick, of the value of £32, 10s., is awarded annually at the Graduation Ceremonial in Medicine in August for proficiency in Midwifery. The award is based upon the results of the Competitive Examinations in the Class of Midwifery, upon the character of the records of Cases of Midwifery attended by the Candidate at the Royal Maternity and Simpson Memorial Hospital, and upon the position obtained by him at the Final Examination for Degrees in Medicine. The Scholarship is for one year, but may, in special circumstances, be continued for another year. See Deed of Foundation, p. 410 of CALENDAR for 1883-84.

1902. *Robert Cranston Low, M.B., Ch.B.*

XVI., XVII.—HOPE PRIZE SCHOLARSHIPS.

Two Hope Prize Scholarships in Chemistry, each of the annual value of about £30. For particulars, see under Scholarships in Science.

XVIII.—THE MOUAT SCHOLARSHIP IN THE PRACTICE OF PHYSIC.

This Scholarship, of the value of about £58, 9s. (partly in money and partly in the form of a bronze medallion), is awarded annually at the Graduation Ceremonial in Medicine, to the graduate in Medicine who shall have taken the highest place in the competitive Examinations in the Class of Practice of Physic (Medicine) in this University, and in the Oral and Written Examinations in that subject in the Final Examination.

The Scholar shall be bound during his year of tenure to pursue the study of Medicine either as resident in an Infirmary or Hospital, or in the University of Edinburgh, or other University or Medical School at home or abroad, and to present, at the close of such year, to the Professor of Practice of Physic, or to the Senatus Academicus, a Report of the work he has done in such Infirmary, Hospital, University, or Medical School. The money part of the Scholarship will only be

paid on the Senatus receiving a certificate from the Dean of the Faculty that the conditions of the Scholarship have been duly fulfilled.

1902. *Christian Henry Bösenberg, M.B., Ch.B.*

XIX.—MACKAY SMITH SCHOLARSHIP IN CHEMISTRY.

This Scholarship is of the annual value of £25, tenable for two years, and is open for competition to Students who have attended the Class of Chemistry in this University. The successful Candidate is bound to attend the Class of Chemistry, or to prosecute the study of Chemistry in the University during at least one year of his tenure of the Scholarship, in such way as the Senatus Academicus may direct or approve. The next Examination will take place in July 1904.

1902. *William Alexander Kynoch Christie, B.Sc., and Clerk Ranken, B.Sc.*

XX.-XXIII.—CRICHTON SCHOLARSHIPS FOR RESEARCH.

Four Scholarships, each of the value of £100, tenable for one year, with power of re-appointment for a second and for a third year, are open in rotation in the subjects of Anatomy, Physiology, Materia Medica, and Pathology, for the prosecution of Research by Graduates who have been Students of this University for not less than four years. The Scholarships in Anatomy and Physiology will be open in 1903. Candidates are required to submit a sufficient description of the work they propose to undertake to the Dean of the Faculty of Medicine on or before 1st September. The Examination is both written and practical, bearing on Research Work. See Regulations, page 750 of CALENDAR for 1895-96.

1902. *W. E. Carnegie Dickson, M.B., Ch.B. (Pathology).*

XXIV.—HOULDSWORTH SCHOLARSHIP.

This Scholarship, founded by the Houldsworth Trustees for the purpose of promoting Research in Pharmacology in the Department of Materia Medica in the University, is of the annual value of about £46, and tenable for one year, with power to re-elect for a second, or even a third year if good work is being done by the scholar. It is awarded to a Graduate in, or Student of Medicine of the University, after such examination, competitive or otherwise, as may be deemed necessary. The scholar must, during his tenure, produce such evidence of his progress in Pharmacological investigation as may be required by the Professor of Materia Medica. For Deed of Foundation, see page 421 of CALENDAR for 1897-98.

1903. *James B. Lockerbie.*

I. *Abercromby Bursary*—Open by competition, in the event of more than one candidate coming forward, to Students who have been educated in George Heriot's School, and have finished their course as Heriot Bursars, to aid them in further prosecution of their studies for any of the learned professions. Students in the Faculty of Medicine to be always preferred. Candidates are referred to the Treasurer of the Heriot Trust, 20 York Place, Edinburgh, before 15th September.

II. *Sibbald Bursaries*.—These Bursaries, each tenable for three years, are available to Students in the Faculties of Arts, Medicine, Law, or Divinity, entering the University who have not previously attended any University in the United Kingdom or elsewhere, and who do not hold any other Bursary or

Scholarship, but no objection to a Candidate that he has, during the previous Summer Session, attended any of the Classes in the University of Edinburgh required by the Faculties of Medicine or Law. The examination is the same as the Preliminary and Bursary Examination in the Faculty of Arts at the commencement of each Winter Session. Application to be made to Messrs Mackenzie, Innes & Logan, W.S., 23 Queen Street, Edinburgh, before 15th September.

III. *Mackie Bursaries*.—These Bursaries are awarded to Students of Medicine of the University, one of which is open to Students who have completed their first *annus medicus*, and the other to Students who have completed their second *annus medicus*, and who are, in the opinion of the Faculty of Medicine, in such pecuniary circumstances as to require assistance. In the event of no appointment having been made to either Bursary on any occasion when it is vacant, the Senatus may, on the recommendation of the Faculty of Medicine, appoint any Candidate to the vacant Bursary who has completed either his first or his second *annus medicus* and who otherwise satisfies the requirements of tenure. *Bursars*—1902, *first year*, J. S. Edwards; *second year*, H. D. Robb.

IV. *Grierson Bursaries*.—Candidates from the parishes of Crawford or Leadhills, about to commence their Medical Curriculum, who have passed in the University of Edinburgh a satisfactory examination in the preliminary subjects required by the Regulations for Graduation in Medicine, who have been diligent students, and who require pecuniary aid to enable them to pursue their studies, have a preference. In the case of more candidates than one, the Bursary will be awarded to the best qualified, on examination in the subjects above referred to.

Failing the appointment of preferential candidates, the Bursaries will be tenable for periods of one year only, in manner following, viz. :— *One* will be awarded to the student who, not having completed his twenty-first year, shall pass the best examination of the year in the subjects of the preliminary examination, provided (1) that he has not already passed the said preliminary examination; and (2) that, in the event of his having passed an equivalent examination and presenting himself for the Medical Preliminary Examination, he shall waive all right to admission to the Faculty of Medicine except through the ordinary Medical Preliminary Examination of this University. *One* will be awarded by competitive examination to the student beginning the Second Winter Session, who having already passed the Preliminary Examination required for Graduation in Medicine, shall pass the best examination in the subjects of Chemistry, Botany, Natural History, and Physics. *One* will be awarded by competitive examination to the student beginning the Third Winter Session who, having already passed the First Professional Examination, shall pass the best examination in the subjects of Anatomy and Physiology. *One* will be awarded by competitive examination in *Materia Medica* at the beginning of the Fourth Winter Session. *One* will be awarded by competitive examination in Pathology at the beginning of the Fifth Winter Session. *Bursars*—1902, Preliminary Subjects, *Thomas G. Park*; First Professional Subjects, *W. T. A. Jolly*; Anatomy and Physiology, *James Young*; *Materia Medica*, *Philip A. Harry*; Pathology, *Wm. Cuthbert Morton*.

V. *One Thomson Bursary* is awarded at each of the Preliminary Examinations held in Spring and Autumn, to the Candidate who, being about to commence his

Curriculum, takes the highest place in the Medical Preliminary Examination: provided (1) that he has not already passed the said Preliminary Examination; and (2) that, in the event of his having passed an equivalent examination and presenting himself for the Medical Preliminary Examination, he shall waive all right to admission to the Faculty of Medicine except through the ordinary Medical Preliminary Examination of this University. Students of the name of Thomson or Traquair, or those who are natives of the town or county of Dumfries, or of the city of Edinburgh, have a preference. Candidates must enter for the Preliminary Examination in Autumn or Spring, and those claiming a preference must intimate their names to Messrs Traquair, Dickson & Maclaren, W.S., 11 Hill Street, Edinburgh, the agents for the Trust (from whom further particulars may be obtained), at least one clear week before the Examinations. *Bursars*—1900-1901, *David Mathieson*; *J. B. Alexander*. 1901-1902, *William Ashworth*, 1902-1903, *David Thomson*.

VI. *Mackenzie Bursaries*, open to Students of Anatomy Classes, of any year, who shall display the greatest industry and skill in Practical Anatomy during the Winter Session. See CALENDAR for 1879-80, p. 353. *Bursars*—1903, *Richard Davidson* and *A. G. Ledger*—equal; *J. S. Edwards* and *A. E. Turnbull*—equal.

VII. *John Aitken Carlyle Bursaries*, one is awarded at the end of every Winter Session to a first year Student for proficiency shown in the ordinary class examinations in Anatomy and Chemistry, the other to a second year's Student for proficiency shown in the ordinary class examinations in Anatomy and Physiology. See CALENDAR for 1879-80, p. 350. *Bursars*—1903, Senior, *D. Stewart*. Junior, *R. E. M'Laren*; *prox. access.*, *James Wilson*.

VIII. The *Anderson Bursaries* have been founded by Mrs Ronald of Liverpool, and will come into operation on the death of an annuitant. For Deed of Foundation, see CALENDAR 1882-83, p. 396.

IX. The *Heriot Bursaries* are for Students unconnected with the Hospital, entering upon a regular Curriculum with a view to graduation. For remodelled scheme, see CALENDAR, 1887-88, p. 498. For subjects of Examination, &c., see under Bursaries open in Faculty of Arts.

X. *Crichton Bursaries*.—Two of these Bursaries are open annually—one in Autumn and one in Spring—to Students entering the Faculty of Medicine of this University who have been born in Scotland. The subjects of Examination are Latin, Greek, French, German, Mathematics, Logic, and Moral Philosophy. Each Bursary is of the annual value of £50, tenable for four years, provided the Bursars continue Students of the Medical Faculty of this University. See Excerpt from Deed, p. 540 of CALENDAR for 1891-92, and Regulations, p. 749 of CALENDAR for 1895-96. *Bursar*—1899—*Henry Speirs*, *R. Donaldson*, *M.A.* 1900—*John MacNab*, *Thomas Davidson*. 1901—*John R. Davidson*, *James H. Aikman*. 1902—*George M. Mackay*.

XI. The *Grant Mortification* is for Students of the University of Edinburgh, of the name of Grant. The holders may attend the Arts, Medical, Divinity, or Law Classes. Application for information may be made to Messrs Mackenzie, Innes & Logan, W.S., 23 Queen Street, Edinburgh.

XII. The *Jamieson Bursary* is for the benefit of the sons of schoolmasters, farmers, mechanics, and labourers, and other persons born and residing within any one of the following parishes—viz., Crawfordjohn, Crawford, united parishes of Lamington and Wandell, united parishes of Wiston and Robertson, Culter and Biggar. The Bursar may attend Classes in any of the Faculties.

XIII. The *Renton Bursary*, founded by the late William Renton. Candidates must attend one or more of the classes of Natural Philosophy, Mathematics, Chemistry, or Political Economy, and must show that they require pecuniary aid. It cannot be held by any one under the age of sixteen or above twenty-one, or with another Bursary of the value of £30 or upwards. The Examination is in English and Mathematics, as for the First Year Open Bursaries in Arts.

XIV. *Allan Bursaries*.—These Bursaries are available to Students attending classes in any of the Faculties of Arts, Science, Medicine, or Law, in the University of Edinburgh, and are tenable for three years or for such part of that period as the Bursar shall remain a Student at the University. In nominating Candidates for presentation to the Bursaries, care will be given to prefer such as have been born in the parish of Kelso, provided they are qualified by their previous education for entering the University. Apply to P. Stormonth Darling, Esq., writer, Kelso.

XV. *Maclaurin Bursary*. This Bursary, tenable for four years, is by the will of the founder to be called the “Maclaurin Bursary,” and is restricted to Students of the Founder’s name of Maclaurin (or in Gaelic orthography “Maclalhrin”). It may be held in any of the Faculties. See Deed of Foundation, p. 544 of CALENDAR for 1890-91.

XVI., XVII. *The M’Cosh Graduate’s Bursary and M’Cosh Medical Bursary*. Each Bursary is tenable for one year, during which the holder will be required to prosecute Study or Research in a Medical School or Medical Schools of Europe, it being in the discretion of the Faculty of Medicine to award both Bursaries to the same person. Applications for the Bursaries must be made to the Dean of the Faculty of Medicine not later than the end of the third week of July, and must be accompanied with a statement of the name or names of the Medical School or schools intended to be visited, of the time proposed to be spent at each school, and of the nature of the study or special work proposed to be engaged in. Bachelors of Medicine and Bachelors of Surgery are eligible for appointment during one year after receiving these degrees. In considering the claims of candidates, the Faculty of Medicine will take into account not only their professional attainments and ability, but also the knowledge they possess of foreign languages; and it shall be in the option of the Faculty to satisfy themselves with regard to this knowledge by the examination of candidates. Candidates who already hold a Bursary, Scholarship, or Fellowship will not be disqualified except in cases where the Bursary, Scholarship, or Fellowship requires, as a condition of tenure, the prosecution of Original Research, or some other condition which may be interfered with by the holding of a M’Cosh Bursary. Holders of the Bursaries will be required at the end of each three months to transmit to the Dean of the Faculty of Medicine a report of the manner in which they are pursuing their studies, or of the progress being made in any special work in which they are engaged.

1902. *Charles Macfie Campbell, M.A., B.Sc., M.B., Ch.B.*

IV.—PRIZES.

See note under Bursaries, page 177.

I.—NEIL ARNOTT PRIZE FOR EXPERIMENTAL PHYSICS.

This Prize, of the value of about £39, presented to the University by Dr Neil Arnott of London, is awarded annually in October to the Candidate who shall pass with the greatest distinction the Ordinary Examination in Natural Philosophy for the Degree of M.A., with such additional Examination in Experimental Physics as the Examiners may require. Candidates must have been Students of Medicine of this University during either a summer or a winter session; and the successful candidate must continue a Student of Medicine at this University during the next Winter Session, failing which, the prize will be forfeited and assigned to the competitor next in merit. No student can appear for examination after the completion of his third *annus medicus*; and no candidate shall be allowed to offer himself more than once.

In the event of a competitor, qualified as above, not coming forward, the prize will be awarded to a Candidate for a Degree in Arts who shall pass with most distinction the ordinary examination in Natural Philosophy. *See Deed of Foundation at p. 274 of CALENDAR for 1870-71.*

1902. *J. R. Davidson.*

II.—THE ROBERT WILSON MEMORIAL PRIZE.

This Prize was founded by John Wilson of South Bantaskine, in memory of his son, Robert Wilson, and is of the value of £8, 6s. in money and a bronze medal. It is annually awarded at the close of the Winter Session to the student in the senior Chemistry Class who takes the highest honours. *See Deed of Foundation at p. 351 of CALENDAR for 1876-77.*

1903. *Rory E. M'Laren.*

III.—THE ELLIS PRIZE FOR PHYSIOLOGY.

This Prize consists of the proceeds of a sum of £500 bequeathed by the late Daniel Ellis, Esq., to the Principal and Faculty of Medicine of the University of Edinburgh, accumulated for three or five years. It is awarded for the best Essay or Treatise on some subject of Animal or Vegetable Physiology proposed by the Faculty for competition to Students or Graduates of not more than five years' standing.

1901. *Sutherland Simpson, M.B., Ch.B.*

IV.—PRIZES FOR THESES.

Gold Medals, each of the value of £10, are awarded annually on the day of graduation to Doctors of Medicine whose Theses are deemed worthy of that honour.

V.—THE WIGHTMAN PRIZE IN CLINICAL MEDICINE.

This Prize of £15, 5s. was founded by Mrs E. Wightman, in memory of her son, J. T. Wightman, M.B., C.M., and is annually awarded at the close of the Summer Session to the student attending the Class of Clinical Medicine for the best Dissertation on any subject presented by the Faculty of Medicine, or for the best Report and Commentary on cases which have during the previous Winter and Summer Sessions been treated in the University Clinical Wards in the Royal Infirmary. Three months' notice of subject is given by the Faculty of Medicine. *See* Deed of Foundation at p. 348 of CALENDAR for 1876-77.

The Prize, which is open to members of the Clinical Class of either Winter 1903-1904 or Summer 1904, will be awarded for the best report and commentary on cases. The Essays to be given in on or before the second Monday in July.

1901. No award.

VI.—THE BEANEY PRIZE.

This Prize of £32, 10s., was founded in 1878 by James George Beane, Esq. of Melbourne. It is awarded at the Graduation Ceremonial in Medicine to the Graduate in Medicine and Surgery of the year who, having attended within the University courses on Anatomy, Surgery, and Clinical Surgery qualifying for Graduation, obtains the highest number of marks during his examinations in these subjects for the Degrees of Bachelor of Medicine and Master in Surgery. The Senatus has the power of withholding the Prize in the event of no Student passing the above examinations with sufficient merit. *See* Deed of Foundation at p. 371 of CALENDAR for 1878-9.

1902. *Sidney Gilford, M.B., Ch.B.*

VII.—THE CAMERON PRIZE.

This Prize was founded in 1878 by the late Dr Andrew Robertson Cameron, of Richmond, New South Wales, with a sum of £2000. The regulations were remodelled by the Educational Endowments (Scotland) Commission, and the annual proceeds, which, after defraying the necessary expenses, amount to about £80, may be awarded annually to a person who in the course of the five years immediately preceding has made any highly important and valuable addition to Practical Therapeutics. The Prize-man is required to deliver a lecture or course of lectures on the addition to Practical Therapeutics so made by him, or to publish an account of such addition in such manner as the Senatus may prescribe. The prize

will not be awarded if, in the opinion of the Senatus, no addition to Practical Therapeutics has been made within the said period of five years of sufficient importance and value to justify the awarding of the prize. The prize is awarded annually at the Graduation Ceremonial in August. See Remodelled Regulations, p. 497 of CALENDAR for 1888-89.

1902. *Major Ronald Ross, C.B., I.M.S., F.R.S., for his researches on the transmission of Malaria by Mosquitos, etc.*

VIII.—THE DOBBIE SMITH PRIZE IN BOTANY.

This prize, which consists of a Gold Medal, is open to competition each alternate year to all Matriculated Students of the year of the award, for an Essay on a Botanical subject. The subject of the next competition is an original investigation "On the Structure, Development, and Life History of any British Flowering Plant"; and the memoir is to be accompanied with a series of illustrative specimens. Competing Essays to be sent to the Dean of the Faculty of Medicine on or before the 1st July 1905. The prize will be awarded to the successful competitor at the Graduation Ceremonial in July 1905.

1901. No award.

LECTURESHIP.

The Swiney Lectureship on Geology, value £144 per annum, tenable for five years, is open to Graduates of the University of Edinburgh. It is in the patronage of the Trustees of the British Museum.

All holders of Fellowships, Scholarships, and Bursaries in the Faculty of Medicine must annually attend at least two of the Classes necessary for the Degrees of M.B. and Ch.B., and must present themselves for the several Examinations necessary for these Degrees at the proper periods in the Curriculum.

Holders of Fellowships, Scholarships, or other pecuniary awards implying original Research on the part of the holder, are not allowed to assume any other office, but must devote their whole time to the Research authorised by the Senatus.

¹ See footnote, page 466.

Each Fellow, Scholar, Bursar, or Prizeman, when he applies to the Factor for payment, must produce a Certificate signed by the Dean, attesting his regular attendance on the proper Classes, &c., or otherwise that he has fulfilled the conditions attached to the Foundation.

Certificates, in terms of this regulation, will be given to Bursars, by the *Dean of the Faculty of Medicine*, after 14th November; also at the end of the Session. In applying to the Dean for the Certificate, Bursars must present their Class Cards for the Session, and also all Class Certificates and Honours Certificates obtained since the last payment. Payments are made by the University Factor, Mr Henry Cook, W.S., 61 North Castle Street, Edinburgh, on and after 14th November for the Martinmas payments, and on and after 19th May for the Whitsunday payments,—between 10 and 3 o'clock.

N.B.—Bursars, Scholars, and Fellows who desire to resign should at once announce this to the Dean and to the Factor. They must apply to the Factor for the instalments due to them within three months after they have become payable, otherwise they will be regarded as having resigned.

A. R. SIMPSON, M.D., D.Sc.,
*Dean of the Faculty of Medicine and Professor
of Midwifery.*

Faculty of Music.

Dean—Professor NIECKS, Mus. D.

2. The extent and standard of the preliminary examination is determined by the Senatus.

3. A degree in Arts not being a degree *honoris causâ tantum*, in any University of the United Kingdom, or in any Colonial or Foreign University, specially recognised for the purpose by the University Court, after consultation with the Senatus, exempts from the preliminary examination; and the Senatus has power to determine what examinations, other than those for the degree mentioned, will be accepted in whole or in part in place of the preliminary examination.

II. BACHELOR OF MUSIC.

University Attendance.

III. Candidates for the degree of Mus. B. must attend, in the University of Edinburgh, during a whole Winter Session, a course or courses of instruction extending in all to not less than eighty Lectures, and including a course on the History of Music.

III. FIRST PROFESSIONAL EXAMINATION.

IV. There is a First Professional Examination in Music in the following subjects:—

- (1) Singing or performing upon some Musieal Instrument.
- (2) Reading at Sight.
- (3) Elements of Music, including Musical Modes and Scales, Notation, Measure and *Tempo*.
- (4) Harmony in not more than four parts.
- (5) Elementary Counterpoint.
- (6) Form: Sonata, Rondo, Fugue, and Minor Structures.
- (7) Outlines of the History of Music.

The Ear Test will be applied to every Candidate.

IV. SECOND PROFESSIONAL EXAMINATION.

V. There shall be, at least one year after the candidate has passed the First Professional Examination, a second Professional Examination in Music and in Literature in the following subjects:—

(1) One of the following languages not already taken in the preliminary examination—French, German, Italian.

- (2) Rhetoric and English Literature (including Prose Composition and a knowledge of Metrical Rules).
- (3) Harmony in not more than five parts.
- (4) Advanced Counterpoint.
- (5) Canon in two parts, and Imitation and Fugue in not more than four parts.
- (6) Form (Description of Structure and Character of Musical Forms, and Analysis of Musical Works).
- (7) Elements of Instrumentation (Compass, &c., of the Orchestral Instruments, and of the Organ and Pianoforte).
- (8) Critical Knowledge of certain prescribed Scores.
- (9) Playing at Sight from easy Vocal and Instrumental Scores, and from Figured Bass.
- (10) The History of Music.
- (11) Acoustics in so far as connected with the Theory of Music, and Physiology of the Vocal Organs.

Each Candidate will also be required to submit the following exercises composed by himself :—

- (a) A Solo Song with Pianoforte Accompaniment.
- (b) A Four-part Vocal Composition.
- (c) An Instrumental Composition (other than a Dance) for the Pianoforte or Organ, or for any Stringed or Wind Instrument with Pianoforte or Organ Accompaniment.

The extent and standard of examination is fixed by the Senatus. The examination is partly written and partly oral and practical.

V. DOCTOR OF MUSIC.

V. Bachelors of Music of this University, of not less than three years' standing, and not less than twenty-five years of age, may offer themselves for the degree of Mus. D. under the following regulations :—The degree is given in three Departments, those of (1) Composers ; (2) Executants ; (3) Theorists or Historians ; and Candidates may present themselves in one or more Departments.

VI. (1) Candidates for the degree of Mus. D. as Composers must submit a prescribed number of Vocal and Instrumental Compositions in the larger forms (such as Oratorio, Opera, Cantata, Symphony, Sonata, Overture). Each work must be the original and unaided composition of the Candidate, and must be accompanied by a declaration to that effect signed by the Candidate.

(2) Candidates will be examined in the following subjects :—

- (a) The more recondite Contrapuntal Forms—Fugal Writing in more than four parts, &c.
- (b) Instrumentation, including prescribed books on the subject.
- (c) The works of the great Composers from Palestrina onwards.

VII. (1) Candidates for the degree of Mus. D. as Executants will be required to show their special skill in the execution of Solo and

ensemble works in different styles. The works will be selected partly by the Candidates and partly by the examiners.

(2) The Candidates will be examined in sight-reading, and must give evidence of their power of playing Orchestral Scores, and will be required to invent Transitions and to modulate from one Key and Piece to another. They will further be required to pass an examination on the History and Literature of their special instrument, and on the method of teaching that instrument.

VIII. (1) Candidates for the degree of Mus. D. as Theorists or Historians must present one or more treatises on Theoretical or Historical subjects, which must be the result of research and original thought, not mere abstracts or compilations of existing works. They must be accompanied by a declaration signed by the Candidate that they are his own unaided work.

(2) Candidates will also be required to pass an examination (*a*) in the Theory and (*b*) in the History of Music.

The examination will be on a higher standard in the subject which the Candidate selects as his speciality.

IX. The examiners for the degree of Mus. D. are the same as for the degree of Mus. B.

It is competent to the University Court of the University of Edinburgh, after consultation with the Senatus, to modify from time to time the provisions as to curriculum hereinbefore contained, in case such modification shall be rendered desirable.

X. (1) The degree of Mus. D. may be conferred *honoris causâ tantum*.

(2) The honorary degree of Mus. D. will not be conferred by the Senatus on any person unless recommended by the Faculty of Music in a reasoned representation, submitted in writing to the Senatus, and considered and approved by the Senatus at a special meeting at which not less than two-thirds of the members were present.

PRELIMINARY EXAMINATION.

The Examination in English, Latin, Greek, Mathematics, French, German, and Italian, or such other language as the Senatus may approve, is the same as the Preliminary Examination in English, Lower Latin, Lower Greek, Lower Mathematics, French, German, and Italian, or other language approved by the Senatus, for the Degree in Arts; and the Examination in Logic and Elementary Physics is of the same standard as the Preliminary Examination in these subjects for Degrees in Medicine, under the Old Regulations. The subjects are denoted in the Time-Table of the Preliminary Examinations for the Degree in Arts by the figure 4.

Candidates for Examination must apply at the Matriculation Office, University (Old) Buildings, for schedules, which must be completed and returned along with the fees, not later than

18th September 1903 and 1st March 1904 for the autumn and spring Examinations respectively.¹

Candidates applying for information regarding the Preliminary Examination will be supplied with copies of the Regulations for the Preliminary Examinations for Degrees in Arts and in Medicine, which give the outlines and dates, &c., for the Preliminary Examination for Degrees in Music.

FEES.¹

Preliminary Examination for each appearance, 10s. 6d.

Degree of Mus. B. is £10, 10s., divided as follows:—

First Professional Examination	£3	3	0
Second Professional Examination—Literary part	1	1	0
Do. Do. —Musical part	3	3	0
For the Diploma (<i>payable at least two days before Graduation</i>)	3	3	0

Candidates who fail in any subject pay a fee of 10s. 6d. for each subject in which they are admitted to re-examination.

Candidates may pay the fees personally, or transmit them to T. GILBERT, University, Edinburgh, by *Post Office* or *Postal Orders*, or by *Bank Drafts*, crossed Union Bank of Scotland (Hunter Square Branch), Edinburgh, but not by cheques on private accounts.

BUCHER SCHOLARSHIP.

By the will of Signor Theophile Bucher, his trustees were enjoined to pay over the residue of his estate, amounting to about £4000, to the University, for the purpose of founding one or more Scholarships in Music to be held by any young men born in Scotland, who may shew a natural talent for music and wish to make it their profession, for the purpose of improving their education, and enabling them to prosecute the study of the science and art of Music in Italy, Germany, and France.

The Subjects of Examination for the Scholarship include Harmony, Rhythm, and Counterpoint, and the competition is open to young men between the ages of sixteen and twenty-five inclusively, who have been born in Scotland, and who either are, or have been, enrolled as students in the Faculty of Music in this University. The value shall not, after deducting the expenses of management and of examination, exceed £120 in any one year, the interest in excess of that sum to be added to the capital to form a second Scholarship. It is tenable for three years, and may be extended to a period not exceeding two years, during which time the scholars must prosecute the study of the science and art of Music in Italy, Germany, and France, as the Senatus, on the recommendation of the Faculty of Music, may determine. The Scholarship may be open in 1905. See Scheme of Administration, page 709 of CALENDAR for 1894-95.

JOINT BOARD OF EXAMINERS OF THE
SCOTTISH UNIVERSITIES.

A Joint Board of Examiners, which controls and supervises the Preliminary Examinations, is appointed annually by the University Courts of the four Scottish Universities, and holds office from 1st February to 31st January in the succeeding year. The Board sits for a year at each University in rotation, viz. :—Edinburgh, Glasgow, Aberdeen, St Andrews. The Principal of the University at which the Board sits is Chairman for the time, and the Secretary of the University Court is Convener.

Members of the Board, which meets at Aberdeen for the current year (1st February 1903 to 31st January 1904) :—

Chairman—Principal The Very Rev. John Marshall Lang, D.D., University, Aberdeen.

Convener—Robert Walker, M.A., University, Aberdeen.

Appointed by Edinburgh University—Frederick S. Boas, M.A. (English); A. Douglas Thomson, M.A., D.Litt. (Classics); Professor Chrystal, M.A., LL.D. (Mathematics and Dynamics); Charles Sarolea, K.O.L., Ph.D., D.Litt. (Modern Languages).

Appointed by Glasgow University—Professor W. A. Raleigh, M.A. (English); Professor G. G. Ramsay, LL.D. (Classics); Mr A. Veitch Lothian (Mathematics and Dynamics); Alex. Cran, M.A. (Modern Languages).

Appointed by Aberdeen University—Professor Grierson, M.A. (English); Professor J. Wight Duff, M.A. (Classics); Andrew Munro, M.A. (Mathematics and Dynamics); William Scholle, Ph.D. (Modern Languages).

Appointed by St Andrews University—John H. Lobban, M.A. (English); R. K. Hannay, M.A. (Classics); Professor J. E. Steggall, M.A. (Mathematics and Dynamics); Stewart F. Butchart, M.A. (Modern Languages).

The Joint Board from time to time issues Supplementary regulations for the Preliminary Examination, and sets the papers which are common to all the Scottish Universities. It also gives instructions to the Examiners with a view to secure adequate and uniform examination.

PRELIMINARY EXAMINATION IN ARTS AND SCIENCE.

In addition to the Regulations, Section III. to V. inclusively, pages 117-120, the Joint Board have made the following Supplementary Regulations:—

1. ENGLISH will include Grammar, Composition, Literature, History, and Geography.

(a) *Grammar* will include Analysis, Parsing, Derivation, and Correction of Sentences.

(b) *Composition* will include an Essay and Paraphrasing.

(c) *Literature* will comprise a knowledge of certain prescribed books of two or three writers. Questions requiring a general knowledge of the life and works of the greater writers will not be set; but one or two questions may be set, giving an opportunity to candidates who have read widely in English Literature to show their knowledge.

The Books prescribed are:—For October 1903—1. Shakespeare, *Coriolanus*. 2. Scott, *Fortunes of Nigel*. 3. Carlyle, *Essay on Burns*. For 1904—1. Shakespeare, *1st Henry IV*. 2. Scott, *Rob Roy*. 3. Macaulay, *Essays on Milton*.

(d) *History* will include a knowledge of one of the three following periods, questions in each of which will be set in each examination, namely:—The Outlines of the History of both England and Scotland; (a) from the Roman occupation to 1603; (b) from 1603 to the Union of the Parliaments in 1707; (c) from the Union of the Parliaments to the Reform Bill of 1832.

(e) *Geography* will include a general knowledge of the Geography of the World, and a special knowledge of the Geography of the British Empire.

2. The LATIN Examination on the Higher Standard will include—Translation, Prose Composition, Grammar, and Sentences.

3. The GREEK Examination on the Higher Standard will include—Translation and Sentences (or an easy passage of continuous English prose set either as an alternative or as a substitute), and Grammar.

The passages for Translation both from Greek and Latin will include Prose and Verse.

4. The LATIN Examination on the Lower Standard will include—Translation and Parsing, Prose Composition, Grammar, and Sentences.

5. The GREEK Examination on the Lower Standard will include—Translation, Sentences, and Grammar.

In the Latin and the Greek papers, both on the Higher and Lower Standards, Candidates are required to satisfy the Examiners both in composition and in translation.

Candidates who, having taken in *Latin* or *Greek* the Examination on the Higher Standard have failed to pass on that Standard, but have obtained a percentage of marks equivalent to a pass on the

Lower Standard, may be held by the Board to have passed the Examination on the Lower Standard.

6. In the Examination in MATHEMATICS on the Higher and Intermediate, and on the Lower Standards, each question in Geometry will consist of two parts, of which one will be an easy deduction or illustrative exercise on the proposition set as book work.

The papers in Mathematics on the Higher Standard and on the Intermediate Standard will be devoted to the various subjects comprised in them as nearly as possible in the following proportions:—Two-fifths to *Geometry*, two-fifths to *Algebra* (including *Arithmetic*, if thought desirable), and one-fifth to *Trigonometry*.

Candidates for the Higher Standard may obtain full marks by doing correctly about two-thirds of the questions set in each subject; but the Examiners will be entitled to reject a Candidate who makes in any subject less than a certain minimum of the marks allotted to that subject.

The pass mark for Candidates on the Intermediate Standard is fixed with reference to the total number of marks assigned to questions which fall under the syllabus of the Intermediate Standard; but such Candidates will receive credit for any question they may answer.

The paper in MATHEMATICS on the Lower Standard will be devoted to the various subjects comprised, in as nearly as possible the following proportions:—Four-ninths to *Geometry*, three-ninths to *Algebra*, and two-ninths to *Arithmetic*.

Candidates may obtain full marks by doing correctly about two-thirds of the questions set in each subject; but the Examiners will be entitled to reject a Candidate who makes in any subject less than a certain minimum of the marks allotted to that subject.

7. The paper on DYNAMICS will be directed to test the Candidate's knowledge of the fundamental principles of the subjects included in it. As far as possible each question will consist of two parts, one of which will be a numerical or other simple illustrative example of the principle with which the other part of the question deals.

About one-seventh of the paper will be devoted to *Kinematics*, and the remainder of the paper will be assigned to *Kinetics*, *Statics*, and *Hydrostatics*, in as nearly as possible equal proportions.

Candidates may obtain full marks by doing correctly about two-thirds of the questions set in each section of the paper.

Dynamics shall include the following:—

(1) KINEMATICS.—Displacements, velocities, and accelerations of a moving point, with their compositions and resolutions. Translations of a rigid body. Relative velocity of two moving points.

(2) KINETICS.—The laws of motion, momentum, force, energy, work,—their measures in the British and C.G.S. systems of units. Change of units. Rectilinear motion of a particle under the action of constant

forces. Free motion of a body under gravity, including projectiles. Atwood's machine. Impulsive forces. Direct impact of smooth spheres.

(3) STATICS.—Composition and resolution of co-planar forces. Theory of co-planar couples. Conditions of equilibrium of forces in one plane. Centre of mass. Friction. Machines. Application of the principle of work to machines.

(4) HYDROSTATICS.—Definitions of *solid, fluid, liquid, gas*. Viscosity. Measure of the pressure at a point of fluid. Law of equable transmission of pressure. Laws of variation of pressure in heavy liquids. Resultant pressure of a heavy liquid on a plane surface, including the centre of pressure of a plane surface. Principle of Archimedes. Experimental determination of the densities of solids, liquids, and gases. Atmospheric pressure. The barometer. Boyle's law. The siphon, pumps for liquids, air pumps, and the diving-bell.

Questions may be set which involve the Trigonometry of right-angled triangles.

8. For the Examination in FRENCH and GERMAN—

Two papers will be set, both in French and German; an hour and a half being allowed for the first paper, and two hours for the second; the first paper will contain a passage for translation from English into French or German, with some short sentences of an idiomatic character; the second paper will contain a set of grammatical questions, two passages for translation into English (one in Verse, one in Prose), and a selection of Literary or Philological questions, from which the Candidate will be allowed to choose *one only*. A higher value is attached to the first paper in both French and German.

The questions on Literature will be confined year by year to certain groups of authors, as in the following scheme:—

French.—In October 1903 (*XIXth Century*)—Chateaubriand, Mme. de Staël, Lamartine, Victor Hugo, Alfred de Musset, Alexandre Dumas, George Sand, Balzac, Prosper Mérimée, Guizot, Thiers, Mignet, Michelet. In 1904 (*XVIIIth Century*)—Pascal, Descartes, Corneille, Racine, Molière, Boileau, La Fontaine, Mme. de Sévigné, Bossuet, Fénelon, La Rochefoucauld, La Bruyère.

German—In October 1903—Jean Paul, the Schlegels, Novalis, Tieck, Arnim, Brentano, Grillparzer, Heine, Uhland. In 1904.—Klopstock, Wieland, Lessing, Herder, Bürger, Voss, Friedrich Leopold Stolberg, Höpfl, Leisewitz.

EXAMINATIONS EXEMPTING FROM THE PRELIMINARY EXAMINATION IN ARTS AND SCIENCE.

The Joint Board accept the following Examinations as exempting from the Preliminary Examination in Arts and Science, either *wholly* or *in part*:—

1. A Degree in Arts or in Science, not being an Honorary Degree,

in any of the Universities of the United Kingdom, shall exempt from the Preliminary Examination in Arts or in Science, as the case may be.

2. For the Preliminary Examination in Arts and Science Passes in the Higher and Honours Grade of the Leaving Certificate Examinations of the Scotch Education Department in Latin, Greek, and Mathematics, will be accepted as equivalent to the Higher Standard in each of these subjects, as prescribed by the Arts Regulations, and Passes in the Lower Grade Certificate Examinations to the Lower Standard; Passes in the Higher and Honours Grade, Examinations in English, in Modern Languages, and in Dynamics will be accepted as equivalent to the standard prescribed for each of these subjects by the Arts Regulations.

3. A Certificate of having passed in the Honours or First Division in English in the London University Matriculation Examination will be accepted as equivalent to English in the Arts and Science Preliminary Examination; and the Joint Board also accepts for the Preliminary Arts and Science Examination (1) London University Matriculation Mathematics as equivalent to Lower Mathematics; (2) London University Matriculation Mechanics as equivalent to Dynamics; and (3) London University Intermediate Mathematics as equivalent to Intermediate and Higher Mathematics.

4. *Oxford University Senior Local Examinations*, if passed in a Class of Honours, will be accepted as exempting *pro tanto* in Higher Latin, Higher Greek, French, German, and Intermediate Mathematics; also in English, provided that in English the Candidate has passed in a Class of Honours in divisions (a), (b), and (c) of the subject; a pass without distinction, will be accepted *pro tanto* for Lower Latin and Lower Greek, and Lower Mathematics.

5. *Oxford University Higher Examination for Women* will be accepted as exempting *pro tanto* for the Arts and Science Preliminary in the case of Higher Latin, Higher Greek, English, and Lower Mathematics; and if in a class of Honours for French and German and Higher Mathematics.

6. *Cambridge University Local Examinations* :—

(a) *Junior Locals*. The pass if in a class of Honours will be accepted for Lower Mathematics, provided the Candidate has passed in Books I., II., and III. of Euclid, and in Quadratic Equations.

(b) *Senior Locals*. The pass will be accepted as exempting *pro tanto* for Lower Latin, and Lower Greek, and for Higher Mathematics; and if in a class of Honours, for English, Higher Latin, Higher Greek, and Modern Languages.

7. *Cambridge University Higher Local Examinations* will be accepted *pro tanto*.

8. *Oxford and Cambridge Schools Examination Board.*

The *Lower Certificate* will be accepted for Lower Mathematics, provided the candidate has passed in three books of Euclid, and as far as Quadratic Equations in Algebra.

Higher Certificate. The pass will be accepted for Lower Latin, Lower Greek, and Lower Mathematics, provided the latter includes Elementary and additional Mathematics; if in a class of Honours will be accepted for Higher Latin, Higher Greek, French, German, and Higher Mathematics.

9. *Victoria University.* The Preliminary Examination will be held as exempting from the Preliminary proper, but not from the Examination required for admission to a graduating class in any language. (See Section iv., Sub-sections (2) (3) of Regulations, page 119.)

PRELIMINARY EXAMINATION FOR DEGREES
IN MEDICINE.¹

REGULATIONS FOR THE PRELIMINARY EXAMINATION FOR DEGREES
IN MEDICINE AND SURGERY, SUPPLEMENTARY TO SECTIONS
III.-VI. INCLUSIVELY, PAGES 399 AND 400 HEREOF, ABRIDGED
FROM THE REGULATIONS OF THE JOINT BOARD.

The papers set in Latin, Greek, and Mathematics are the same as those set on the Lower Standard in these subjects in the Arts and Science Preliminary Examination.

These are defined in the Regulations relating to the Arts and Science Preliminary, as follows:—

The *Latin*² Examination on the Lower Standard will be—Translation and Parsing, Prose Composition, Grammar, and Sentences.

The *Greek*² Examination on the Lower Standard will be—Translation, Sentences, and Grammar.

In the Latin and Greek papers, candidates are required to satisfy the Examiners both in composition and in translation.

Mathematics on the Lower Standard will comprise:—

- (1) Arithmetic, including Vulgar and Decimal Fractions, Proportion, Percentage, Square Root, Simple Interest.
- (2) Algebra, including Fractions, Factors, Square Root, Equations of the First Degree, Simultaneous Equations of the First Degree, Easy Quadratic Equations, Problems leading to the above Equations.
- (3) Geometry—Euclid, Books I., II., and III. (or their equivalents), with Easy Deductions. Demonstrations other than Euclid's will be accepted if they assume no propositions which in Euclid's order are subsequent to the proposition under consideration.

¹ See Examinations accepted as exempting, page 483.

² No Books prescribed.

The paper in Mathematics will be devoted to the various subjects comprised in as nearly as possible the following proportions: four-ninths to *Geometry*, three-ninths to Algebra, and two-ninths to Arithmetic.

Candidates may obtain full marks by doing correctly about two-thirds of the questions set in each subject; but the Examiners will be entitled to reject a Candidate who makes in any subject less than a certain minimum of the marks allotted to that subject.

In *English* no set books are prescribed, nor is a general knowledge of the life and works of the greater authors expected of Candidates, but one or two questions may be set, giving an opportunity to Candidates to show a knowledge of famous literary works. The historical questions will not be confined to any one period, but will cover the whole of British History, and will be set in such a way as to give an opportunity to Candidates who have confined their studies to a single period to show their knowledge. A single three hours' paper will be set, containing an Essay, a Paraphrase, two questions on History, two on Geography, four on Grammar (including Correction of Sentences, Parsing, Analysis of Sentences, and Derivations), two of a literary and general kind. Eight answers will be required. The Essay, the Paraphrase, one answer on History, and one on Geography will be compulsory.

*French and German.*¹—One paper will be set in French and one in German. The papers will be of a Lower Standard than those set in these subjects in the Arts and Science Preliminary. The time allowed for each of these papers will be three hours. The paper in each subject will comprise questions in Grammar, translation into English, a piece of English, and some short sentences in English of an idiomatic character for translation.

It shall be in the option of any Candidate for the Medical Preliminary to take the papers set on the Higher Standard for the Arts Preliminary in any of the subjects. (See Arts Regulations.)

Candidates who, having taken *English, Latin, Greek, Mathematics*, or a *Modern Language*, on the Higher Standard, as prescribed by the Regulations for the Arts and Science Preliminary, have obtained a satisfactory percentage of marks, will be held to have passed the Medical Preliminary in these subjects, provided that all the required subjects are passed at not more than two Examinations.

EXAMINATIONS ACCEPTED AS EXEMPTING FROM THE PRELIMINARY EXAMINATION IN MEDICINE.

Provided always that the Regulations of the General Medical Council regarding the Registration of Students of Medicine be complied with.

1. In terms of the Regulations for Degrees in Medicine and Surgery,

¹ No Books prescribed.

“a Degree in Arts or in Science (not being a Degree *honoris causa tantum*) in any of the Universities of the United Kingdom, or in any Colonial or Foreign University, specially recognised for the purpose by the University Court, will exempt from the Preliminary Examination.”

In virtue of the powers conferred on them by the Medical Regulations, Section VI., page 400, the Joint-Board have resolved as follows :—

2. Any Candidate who holds a Certificate of having passed the Preliminary Examination in Arts or Science in any Scottish University, either at the University Examination or through the Leaving Certificates of the Scotch Education Department, or partly at the University Examination, and partly through the Leaving Certificates, will be held to have passed the Preliminary Examination for Medicine, provided that the Examination has included the specified subjects of General Education as required under the Regulations of the General Medical Council, and by the Regulations for Graduation in Medicine and Surgery (Sections III.-VI. inclusive).

3. A Candidate who has passed the Arts and Science Preliminary Examination of the Joint Board in any subject (Higher Grade where there is more than one) recognised for the Medical Preliminary Examination, shall be exempted from further examination in that subject in the aforesaid Preliminary Examination.

4. A Candidate who has obtained the Leaving Certificate (Honours or Higher Grade) of the Scotch Education Department in any subject recognised for the Medical Preliminary Examination, shall be exempted from further examination in that subject in the aforesaid Preliminary Examination.

The Regulation that all the subjects of the Examination shall be passed at one or not more than two Examinations shall not be held to apply to the above cases, 2, 3, and 4. But Candidates complying with these Rules (2, 3, and 4) must obtain a University Certificate specifying the Examinations passed by them which have been accepted as equivalents to the Preliminary, and must present said Certificate to the Medical Registrar in order to registration.

Further, each such Candidate when applying for said Certificate must, if he has not entered for any part of the Preliminary, produce a Matriculation Card from some one of the Scottish Universities.

5. Lower Grade Leaving Certificates of the Scotch Education Department will only be accepted as exempting from the Medical Preliminary Examination, provided the examinations in all the requisite subjects have been passed at one or not more than two Examinations.

6. The following English and Irish University Examinations will be accepted (provided they include all the subjects required under the Regulations for Graduation in Medicine and Surgery, and the Regula-

tions of the General Medical Council. See Sections III.-VI. inclusively, pages 399 and 400, viz. :—

Oxford. Responsions, or Moderations—Provided the Candidate pass the Examination of the Joint Board in English.

Senior Local Examinations will be accepted *pro tanto*, provided that, as regards English, the Certificates shall bear that the Candidate has passed in Divisions (a), (b), and (c) of the subject.

Higher Examination for Women will be accepted *pro tanto*.

Cambridge. Previous Examination—Provided that Candidates who have passed it prior to Michaelmas 1896 shall pass the Examination of the Joint Board in English. If passed after Michaelmas 1896, the Previous Examination will be accepted as exempting *in toto*.

Senior Local Examinations will be accepted *pro tanto*.

Higher Local Examinations will be accepted *pro tanto*.

Oxford and Cambridge Schools Examination. Higher Certificate will be accepted *pro tanto*, provided that, as regards Mathematics, the Certificate shall bear that the Candidate has passed in both Elementary and Additional Mathematics.

London University. Matriculation Examination.

Dublin, Trinity College. Public Entrance Examination.

Royal University of Ireland. Matriculation Examination.

Victoria University. Preliminary Examination ; Entrance Examination in Arts.

By *pro tanto* is here meant that a certificate of having passed in the Examination referred to, in any subject required for the Medical Preliminary Examination, shall, as regards that subject, exempt from further Examination in the said Preliminary Examination, provided that all the required subjects shall be passed at one or not more than two Examinations.

7. The Examinations of the following Indian, Colonial, and Foreign Universities and Colleges, will be accepted¹ (provided the Examinations include all the subjects required by the General Medical Council, and prescribed by the Regulations for Graduation in Medicine and Surgery). See Sections III.-VI. inclusively, pages 18 and 19, viz. :—

Universities of (1) Calcutta, (2) Madras, (3) Bombay, (4) Allahabad, and (5) Panjab.—Entrance Examination.²

¹ Regulation V., page 400, will be held to apply to the acceptance of these examinations.

² For purposes of Registration the General Medical Council require, in the case of Calcutta and Madras, the "First Examination in Arts"; in the case of Bombay, the "Matriculation Examination"; and in the case of Allahabad and Panjab, the "Intermediate Examination in Arts."

Universities of (1) *Cape of Good Hope*.—Matriculation Examination ; (2) *Tasmania*—Matriculation Examination ; (3) *New Zealand*—Matriculation¹ and Medical Preliminary Examinations ; (4) *Melbourne*—Matriculation Examination ; (5) *Sydney*—Matriculation Examination ; (6) *Adelaide*—Matriculation Examination, or its substitute, the Senior or Junior Public Examination.²

Benefactors of the University.

THE Revenues of the University were formerly scanty and very inadequate for the encouragement of the higher education and learning in the Scottish metropolis. Scholarships and Fellowships were unknown prior to those recently instituted, and the emoluments of several of the Chairs are still greatly inferior to those in many other Universities.

During the early period of its history, the University received a considerable number of small donations and bequests, chiefly for Bursaries. Notices of these will be found in the preceding pages, in the Histories of the University by Bower, Dalzel, and Grant, and in the Report of the Universities' Commissioners in 1830. A list of early Benefactors to the Library is given at p. 44.

By Act 1 & 2 Vict., cap. 55, the various sums of money mortgaged in the hands of the Town Council for the support of the University, amounting to £13,119, were discharged, and an annual payment of £2500 (since reduced to £2170), secured in terms of "The Edinburgh Corporation Stock Act, 1894," over the Common Good of the City, &c.

During last century, but especially since 1860, many donations and bequests have been made by Benefactors of the University for the foundation of Fellowships, Scholarships, Bursaries, and Prizes, for the endowment of Chairs, and for the erection of the New Buildings, including the "M'Ewan Hall," and the "Sir John Usher Institute of Public Health." As the University is still very inadequately endowed, much requires to be done that it may not fall behind the requirements of the age. Intending Benefactors are respectfully reminded that additional CHAIRS, LECTURESHIPS, LABORATORY EQUIPMENTS, LIBRARY ENDOWMENTS, SCHOLARSHIPS, BURSARIES, and FUNDS for RESEARCH, for GENERAL MAINTENANCE, and for BUILDING, are urgently required.

1. As regards the Library (which now contains about 200,000 printed volumes, and about 7500 MSS., many of which are of great value) the most pressing wants are :—(a) A fire-proof room in which to store the rare and valuable books of the fifteenth and sixteenth centuries, and the MSS. which are often consulted by scholars and authors from all parts. (b) A fund for the purchase of scientific and literary journals and of larger works of reference. These at present absorb 47 per cent. of the total sum available for all purchases for the Library, so that only about £670 is left for the purchase of new books. Under this head £25,000 at least are required. (c) Extensive structural alterations and new book-cases, which will cost at least £5000. The congestion which has arisen from the want of sufficient and safe accommodation for the Books and MSS. occasions much labour and inconvenience, and if the necessary improvements are not very soon accomplished, will make the efficient working of the Library a matter of serious difficulty. The only alternative, and far more desirable plan, would be the erection of a new suitable building for the Library by the gift of some benefactor.

2. The establishment of the Physical Laboratory, again, cannot any longer be delayed. Its construction and equipment will be a large undertaking, but the task must at once be faced if the scientific reputation of the University is to be maintained.

The names of Benefactors, if so desired, may be connected with the Benefactions they bestow. Such Benefactions may simply be conveyed to the "University of Edinburgh." All necessary information will be gladly afforded by the Secretary of the University Court, the Secretary of Senatus, the Deans of the Faculties, or the University Librarian.

The following list includes the chief Benefactors of the two last and present centuries, together with the purposes of their benefactions¹ :—

¹ An Association exists for the purpose of keeping the Public informed regarding the existing insufficiency of the Endowments of the University of Edinburgh, collecting funds, and appropriating them to the further extension and better endowment of the University, and to other purposes tending to promote the efficiency of the University as a seat of learning.

The Chancellor of the University is President of this Association; the Hon. Secretary is Sir Alexander Christison, Bart.; and the Secretary is Robert G. Scott, Esq., W.S., 6 Hill Street, Edinburgh.

The University Court.

ABSTRACT OF THE PROCEEDINGS OF THE UNIVERSITY COURT, FROM 1ST MAY 1902 to 1ST MAY 1903.

MONDAY, 12th May 1902.—The Minutes of last Meeting were submitted and approved. Reports by the Senatus under Ordinance 11, XIII. (1) and XXII. were submitted. It was agreed, after consultation with the Senatus, that Saturday, 1st November 1902, should be fixed as the date of next Rectorial Election. On the recommendation of the Senatus the Court agreed to the institution of a summer class in Engineering Drawing at a fee of £2, 2s. The half-yearly Report on the work of cataloguing the Library was submitted.

Dr Gregg Wilson was recognised as an extra academical teacher in Edinburgh, whose courses of instruction in Zoology shall qualify for the first B.Sc. Examination.

It was reported that the electing body of the Steven Lectureship had reappointed Dr William Fream, Lecturer on Agricultural Entomology for three years from 29th November next, the date at which his present term of office expires.

A letter of 10th inst. from the Town-Clerk was read, communicating the following resolution, which had been passed by the Magistrates and Town Council on 11th March last, and confirmed by them in accordance with their practice at subsequent meetings:—"That the Town Council thank Sir John Usher and the University Authorities for their offer to place the benefits of the Usher Institute at the disposal of the Corporation; agree to the terms stated by their Committee, viz.:—That the Town Council pay the sum of £300 per annum for the investigation and reports upon one thousand specimens, and that it be remitted back to the Public Health Committee to complete negotiations and details, and submit the same for approval to the Town Council." The Court desired to express their satisfaction with the resolution at which the Magistrates and Council had arrived, and remitted to the Committee of the John Usher Institute to continue the negotiations with the Public Health Committee of the Town Council. The Works Committee submitted their Report on the expenditure on general repairs and jobbing work for the past half-year. The gift by Madame Tiele of a portrait of her late husband, Professor C. P. Tiele, Leyden, Gifford Lecturer in the University, 1896-7 to 1898-9, was accepted with thanks to the donor. The gift of a number of foreign books to the library by Lady Milbank,

Barnard Castle, and of a collection of MSS. on medical subjects by Mrs Hodgson, 39 Drumsheugh Gardens, was also accepted with thanks to the donors.

It was reported that copies of Reports by Committees of the General Council of the University had been received and distributed among the Members of the Court. A representation by the General Council that the regulations for the B. L. Degree should be altered on the lines of their Report on the subject was referred to the Senatus for their consideration and opinion. Various Reports by the Finance Committee were submitted and approved.

MONDAY, 16th June 1902.—The Minutes of last Meeting were submitted and approved.

There was laid before the Court a Deed by Sir John Usher of Norton and Wells, Bart., making a free gift to and in favour of the University Court of the University of Edinburgh of the building called "The John Usher Institute of Public Health," erected and equipped by him in Warrender Park Road, upon a site belonging to the University Court, said building to be used exclusively for the teaching of Public Health in connection with the Chair of Public Health in the University, subject to such arrangements as may be necessary for carrying out his wish regarding the building being available for the Public Health Administration of the City of Edinburgh.

A statement of the fees payable to Examiners in connection with the Preliminary M.A., and other Examinations of March-April last was submitted by the Finance Committee and approved.

Reports by the Senatus under Ordinances II, xiii. (1) and 12, x., were submitted.

On the recommendation of the Senatus, the Court approved of a separate course of lectures on Tropical Diseases being given to women students by the University Lecturer on the subject, Dr Andrew Davidson, and of the Special University Certificate in Tropical Diseases being granted to women who have attended this separate course, and have otherwise complied with the conditions under which the certificate is conferred.

The Court approved of a recommendation of the Senatus that the winter course in Astronomy should consist of sixty lectures of one hour each, and twenty meetings for practical work of two hours each, on the understanding that the eighty class meetings will be held on eighty separate days.

Grants recommended by the Senatus from the Earl of Moray Endowment for purposes of Original Research were approved.

It was intimated that a representation on behalf of the University had been made to the Departmental Committee appointed by the Board of Agriculture to inquire and report as to the present position and future prospects of Forestry, and that a reply had been received to the effect that the representation would be laid before the Committee.

Receipt was intimated of a grant of £50 by the Highland and Agricultural Society towards the Forestry Lectureship for the current year.

Various Reports by the Finance and Works Committees were submitted and approved.

MONDAY, 14th July 1902.—The Minutes of last Meeting were submitted and approved.

On the recommendation of the Works Committee, the Court approved of architectural plans submitted by Dr R. Rowand Anderson and of an abstract of the estimated cost in order to provide additional accommodation for the Pathology Department. Various other recommendations by the same Committee, having for their object increased accommodation, installation of electric light, repairs, cleaning and painting, were approved.

The Court approved of the following recommendations of the Senatus:—(1) That for the summer course of Organic Chemistry there be substituted a composite course of Advanced Inorganic Chemistry and of Organic Chemistry, suitable for students taking Chemistry on the intermediate standard at the final science examination; (2) that short courses on selected subjects in Organic Chemistry be given for students taking Chemistry on the higher standard; (3) that the winter course of twenty-five lectures for advanced students should be made almost exclusively a course of Physical Chemistry, the subject being varied from year to year.

Grants from the Earl of Moray Endowment for purposes of original research, recommended by the Senatus, were approved.

Dr C. J. Lewis was recognised as an extra-academical teacher in Edinburgh, whose course of instruction in Public Health shall qualify for graduation in Medicine.

Alterations on the Laws of the Students' Representative Council, proposed by the Council, were approved.

A report by the Committee on the Medical Education of Women was submitted and approved; and an application by the Scottish Association for the Medical Education of Women for continuance of recognition for next academical year of the Edinburgh Medical College for Women, Minto House, was granted.

The recommendations of the respective Professors as to the appointment of University Assistants for next academical year, which had been received up to the date of meeting, were approved, and such of them as are University Lecturers were continued in their Office as Lecturers for the same period. Dr A. P. Aitken was reappointed University Lecturer on Agricultural Chemistry for the same period.

The sanction of the Court was given to the nomination by the University Field Committee of Mr H. M. D. Watson, C.A., as Treasurer of the Athletic Club, on the resignation of Mr C. E. W. Macpherson, C.A., who had held the office for fourteen years, and to whose

duties as Secretary of the Committee and Treasurer of the Club Mr Watson succeeds.

The gift by the Royal Meteorological Society, London, of a set of six diagrams of "insects injurious to farm crops," prepared by the late Miss E. A. Ormerod, LL.D., was accepted with thanks to the donors.

Various Reports by the Finance and other Committees were considered and approved.

MONDAY, 20th October 1902.—The Minutes of last Meeting were submitted and approved.

The circumstances were explained under which the meeting, in accordance with the Standing Orders, had been postponed from the 13th to the 20th instant. The Finance Committee submitted their Report on Lectureships, Assistants and Class Expenses for 1902-03. The Report was approved.

On the recommendation of the same Committee a grant was agreed to providing for the equipment of the new laboratories for Pathological Bacteriology.

Reports by the Senatus under Ordinance No. 11, XIII. (1) and XXII., were submitted. Grants recommended by the Senatus from the Earl of Moray Endowment for Purposes of Original Research were approved. It was agreed to recognise Dr J. J. Sudborough, University College, Aberystwyth, as an extra-academical teacher whose courses of instruction in Chemistry shall qualify for graduation in Science and in Medicine; and Mr James Kerr, B.Sc., Edinburgh, as an extra-academical teacher whose courses of instruction in Chemistry shall qualify for graduation in Science (1st B.Sc.) and in Medicine. The Court, after consultation with the Senatus, appointed Dr Percy T. Herring University Lecturer on Histology, Dr John Malcolm University Lecturer on Physiological Chemistry, and Dr Sutherland Simpson University Lecturer on Experimental Physiology. They also resolved, after consultation with the Senatus, that a University Assistant should be appointed in connection with the Chair of Music. On the recommendation of Professor Niecks, Mr Matthew Shirlaw, Mus.B., was appointed University Assistant in Music for the current academical year. The members of the Court's Standing Committees and the Court's quota of members on the Library and Museum Committees were reappointed for the current academical year. It was agreed to advertise the Additional Examinerships about to become vacant in English and Classics. Copies of Ordinance of the University Court of the University of Glasgow, No. 2 (Regulations for Degrees in Science in Public Health), were submitted.

It was reported that Mr John Shaw M'Laren, M.B., had intimated his resignation of the office of Additional Examiner in Surgery, on his appointment as a medical missionary in India.

The Court gratefully accepted the gift by Mrs Tait to the Natural Philosophy Laboratory of a number of volumes of mathematical and

physical works, and a large collection of scientific papers from the library of her late husband (Professor Tait), and also a collection of scientific instruments which belonged to him. Various reports by the Finance and Works Committees were submitted and approved.

MONDAY, 17th November 1902.—The Minutes of last Meeting were submitted and approved.

Sir William Muir made the following statement :—“Before entering on the business of the day, may I be allowed to say that I find the time has now come when, after my late illness, I feel myself unequal for the duties which, as Principal, I have had the privilege and honour of so long discharging, not only with pleasure and profit to myself, but also in the enjoyment of kindly fellowship with all the Professors and friends of the Court and the Senatus. With these it has been my thankful privilege to have been for long associated, a privilege which has commanded the love and affection of my heart for all around me here ; and, might I add, above all for the dear old University itself, with which, including a season also of student life, it has been my happy lot to have been now for near a score of years in close association, and with which I cannot now part without sincere sorrow and affectionate regret. And so now I retire from office here, as soon as the Court can arrange for a successor.”

The Court accepted the resignation to take effect as from the date of appointment of a successor, instructed the Secretary to communicate with the Curators of Patronage, and remitted to a committee to frame a minute expressing their sense of Sir William Muir's signal services to the University, and their regret at parting with him as a colleague.

Various Reports submitted by the Finance Committee and by the Business and Law Committee, were approved.

The Works Committee submitted their annual Report on the work done and the expenditure incurred on the buildings during the past financial year, together with an estimate of the probable sum to be expended on the buildings during the current year. They also submitted their Report on the expenditure on general repairs and jobbing work for the past half-year. The same Committee submitted various other Reports which were approved.

Reports of the Senatus under Ordinance No. 11, XIII. (1) and XXII. and Ordinance No. 12, X., were submitted.

On the recommendation of the Senatus, the Court approved of a Summer Course in Chemistry being instituted for the benefit of students who may desire to revise their knowledge of the subject, the Class to meet four times a week, or on such days as the Faculty of Medicine may decide. The fee was fixed at £2, 2s.

A grant recommended by the Senatus from the Earl of Moray Endowment for purposes of Original Research was approved.

The Inter-University Challenge Trophy is shot for annually by the four Scottish Universities in rotation, at Edinburgh, Glasgow, Montrose, and Aberdeen. Each University sends a team of ten men, of whom at least five must be matriculated students at the date of the match, and the remainder must have attended a class in the University for at least one Session. Students willing to shoot are requested to communicate with the Secretary.

xxiv.—EDINBURGH UNIVERSITY CHRISTIAN UNION.—The object of the Union is to form a bond of union between students whose principles and aims in life are Christian, and to promote the spread of Christ's Kingdom in the University.

It welcomes as members all students at the University or School of Medicine who acknowledge Jesus Christ as God the Son, and only Saviour of the world.

Although the E.U.C.U. seeks to deepen and render more visible the power and love of Christ in its members, by such means as short Daily Prayer Meetings and Bible Circles (groups of men meeting together week by week for the practical study of God's word); and to promote Christian effort by its members, by providing such spheres of activity as services in the Wards of the Infirmary and Sick Children's Hospital, in the Poorhouse and in Lodging-Houses, yet taking part in such work is not a condition of membership.

The Union is affiliated to the British College Christian Union (comprising Christian Unions in 116 different student centres in Great Britain and Ireland), and, through it, forms part of the World's Student Christian Federation, which links together the student movements of South Africa, Australasia, India and Ceylon, China, Japan, Germany, France (with the Netherlands and Switzerland), the Intercollegiate movement of the United States, and other National and International Student Christian movements.

The Union comprises three sections (for Arts, for Theological, and for Medical Students), the work of each being controlled by a Sectional Committee with Convener, Secretary, and other office-bearers.

During the winter 1903-1904 services addressed by well-known speakers from different parts of the country will be held in a hall near the University.

The office-bearers are as follows:—*Honorary President*—Emeritus Principal Sir William Muir. *President*—James Craw. *Vice-President and Treasurer*—Charles Robertson, M.A. *Secretary*—John Kirk. *Assistant Secretaries*—*Arts*: J. F. Alexander; *Medical*: George Hadden. Offices of the Union, 19 Marshall Street.

The Society meets every Wednesday evening during the Summer Session, at 8 o'clock, in the Associated Societies' Hall, for the purpose of holding debates. The membership is open to all who have matriculated at Edinburgh University.

xxvi.—THEOLOGICAL SOCIETY. INSTITUTED 1776. *Honorary Presidents*—Rev. Emeritus Professor Flint, J.L.D., D.D.; Rev. Professor Taylor, D.D.; Rev. Professor Kennedy, D.D.; Rev. Professor Patrick, D.D. *Senior President*—Charles Robertson, M.A. *Presidents*—H. D. F. Dunnett, M.A.; A. Robertson, M.A.; C. W. G. Taylor, M.A. *Secretary*—Charles Goodall, M.A. *Treasurer*—Charles Hunter, M.A.

Membership is open to present and to past male Students of Theology at this University. The Society meets in the Theological Library on Friday evenings during the Winter Session, at 8 P.M., for essays, debates, and discussions on subjects of Theological and Ecclesiastical interest.

xxvii.—TOTAL ABSTINENCE SOCIETY. INSTITUTED 1853. *Hon. President*—Sheriff Guthrie, K.C. *Hon. Vice-Presidents*—Rev. Prof. Kennedy; Emeritus - Prof. Charteris; Prof. A. R. Simpson; R. L. Orr; Dr J. O. Affleck; Dr T. Brown Darling; Dr Sargood Fry; Dr A. G. Miller; Dr P. A. Young. *President*—D. M. Barcroft. *Vice-President*—Miss I. B. Cunningham. *Secretary*—Miss E. B. Saunders, Muir Hall, 12 George Square.

Membership implies total abstinence from alcohol as a beverage, for one academic year. Annual subscription, 1s.

xxviii.—UNITED FREE CHURCH STUDENTS' SOCIETY. FORMED 1900. *Hon. President*—Professor MacEwen, D.D. *Senior President*—John Douglas. *Junior President*—Douglas M. Joss. *Secretary*—Alex. Robertson, 25 Mansionhouse Road. *Assistant-Secretary*—James C. Stewart. *Treasurer*—Miss A. S. Brims.

The Society is open to all past and present United Free Church Students of the University of Edinburgh, and meets in the Hebrew Class-Room, New College, Mound, every Saturday evening during the Winter Session, at 7 o'clock.

xxix.—WOMEN'S CHRISTIAN UNION. Office, 2 North Block, Waverley Buildings. *Honorary President*—Miss Louisa Stevenson. *Hon. Vice-Presidents*—Mrs Baldwin Brown, Mrs Calderwood, Mrs Charteris, Mrs John Kelman, Mrs Kennedy, Miss Lorimer, Miss

Nairn, M.A., Mrs Sandeman, Miss F. Simpson, M.A., Mrs Whyte, Mrs Hardie, Miss Fleming. *President*—Miss Strathairn. *Vice-Presidents*—Miss Maclean, Miss Crow. *Secretary*—Miss A. Cameron, 5 Rillbank Terrace.

The aim of this Union is to unite women students in Christian work and fellowship. Meetings are held for Bible and Missionary study; Mission work is engaged in, and assistance given in Ward services. Membership is open to all matriculated women students of Edinburgh University, past and present, who desire to promote these aims.

xxx.—WOMEN'S DEBATING SOCIETY. INSTITUTED 1893. *President*—Grace M. Pears. *Vice-Presidents*—Beatrice M'Murtrie and Jeanie Lowson. *Secretary*—Maybel Ireland, 54 Mayfield Road. *Treasurer*—Margaret Maybin.

The Society meets every alternate Friday during the Winter Session, at 5 P.M., within the University, for Debate and Literary Criticism.

RESIDENCES AND BOARD FOR STUDENTS.

(Not under the control of the University Authorities.)

I. FOR MEN STUDENTS.

(1.)—UNIVERSITY HALL, ST GILES' HOUSE (22 St Giles' Street); RAMSAY LODGE (Ramsay Garden); and BLACKIE HOUSE (8 North Bank Street): LISTER HOUSE (2 Mound Place). University Hall is designed as a social residence for Students, Graduates, and others connected with the University. The above houses are all within five minutes' walk of the University; they include common rooms, private studies, and bedrooms. The rents range from 8s. to 18s. per week, payable by term or monthly in advance, and the board averages about 13s. per week, payable at the end of each fortnight.

The external affairs of the Hall are in the hands of The Town and Gown Association, Limited.

The internal arrangements of each house are managed by a committee of the residents elected monthly. When desired, young Students can be placed under the care of one of the resident tutors, the Rev. H. H. Flower, Pittodrie House, Ramsay Garden, and others. In some of the chambers and larger houses occupied by teachers, graduates, &c., Students can be received as pupils and boarders.

Application for rooms should be made at the different houses. Application for information with regard to general questions on University Hall should be made to Messrs Whitson & Methuen, C.A., 21 Rutland Street, Edinburgh.

(2.)—RAMSAY GARDEN. This house is conducted as a Hostel for Students, &c., the number at present being limited to six. Special supervision can be given and tuition arranged for, if desired. Application for particulars, terms, references, &c., to be made to the House Tutor, the Rev. A. T. Bell.

II. FOR WOMEN STUDENTS.

Mutual Assurance.

Moderate Premiums.

THE PREMIUMS are so moderate that, at usual ages for Assurance, **£1200** or thereby may be secured from the first for the same yearly payment which would generally elsewhere assure (with profits) **£1000** only—the difference being equivalent to an immediate Bonus of **20** per cent.

THE WHOLE SURPLUS goes to the Policyholders, on a system at once safe and equitable,—no share being given to those by whose early death there is a *loss* to the common Fund.

Examples of Premiums for £100 at Death (with Profits).

Age.	25	30*	35	40	45	50	55
During life	£1 17 5	£2 2 4	£2 8 6	£2 16 6	£3 8 2	£4 3 2	£5 2 3
25 payments	£2 9 8	£2 13 11	£2 19 3	£3 5 11	£3 15 11	£4 8 8	£5 5 8
15 payments	£3 7 5	£3 13 2	£3 19 11	£4 7 11	£4 18 6	£5 11 2	£6 6 7

* At age 30, **£1000** at death may be secured by a yearly payment, *during life*, of **£21, 3s. 4d.**, which would generally elsewhere secure (with profits) less than **£900**. Or **£1000** may be secured at death by **25** annual payments of **£26, 19s. 2d.**—premiums thus ceasing before age 55.

THE SURPLUS at the 1901 Investigation amounted to **£1,580,000**.

Over **Sixty per cent.** of the Policies which became claims by death during the Septennium were entitled to **Bonuses** which, **notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices**, were on the average equal to an **Addition of considerably over 50 per cent.** to the Original Assurances.

THE ACCUMULATED FUNDS exceed **£12,500,000**.
